

BUSINESS BROCHURE

Learning Reimagined | Technology Reinvented | Intelligence at Work |
Innovation at Sea | Safer, Smarter Maritime Operations

About us

eDOT Solutions, founded in 2004 and led by a Master Mariner, combines maritime expertise with cutting-edge technology to deliver smarter, safer, and more efficient solutions. From training and cybersecurity to AI-powered automation, software development, and shipboard IT management, we transform ideas into impactful realities-helping organizations navigate today's challenges and prepare for the future.

Our Services

eVa SMARTeYe

Onboard AI system for proactive CCTV monitoring

eVa COLREGS

Dynamic training engine for mastering COLREGS rules

Training & LMS

Customizable LMS delivering engaging, expert-led training

SailorSkill

Smart evaluation system for fleetwide competence tracking

Cybersecurity & IT

Organic compliance with IMO Res. 428(98) for AI-controlled

Software Solutions

Custom built, scalable software and mobile apps

Cloud & IT

AWS and Azure cloud architecture and support

AI Automation

AI automation optimizing workflows and training efficiency

Training & Competence Solutions

Training & LMS: Combines real incident reconstructions with interactive learning to track engagement and competence across fleets.

eVa COLREGS: Adaptive AI simulator that analyzes decisions, adjusts complexity, and delivers instant performance feedback.

SailorSkills: Smart assessment platform for rank-based testing, analytics, and automated certification management.

AI & Digital Innovations

eVa Smarteye: Fleetwide dashboards transform real-time data into actionable safety insights, helping operators predict and prevent risks before they occur.

Intelligent Automation: Agentic AI that learns from operational patterns to optimize workflows, cut manual effort, and enable smarter, scalable decision-making.

IT & Technology Solutions

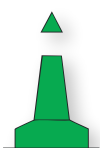

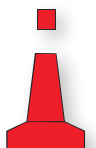

Cybersecurity & IT: ISO 27001-led experts delivering onboard risk assessments, secure networks, and IMO cyber compliance.

Software Solutions: Integrated, scalable systems connecting operations from maintenance to crew management.

Cloud & IT Solutions: Centralized IT support with AWS and Azure engineering and architecture for reliable, scalable operations.

Competent, Experienced & Certified by leading class societies,
Our solutions meet global standards
