## SILVER & SAGANO SERIES

SPECIAL ORDER - 2 WEEK DELIVERY\*

### SILVER SERIES (OFFSET HANDLE MODELS ONLY)

The extremely attractive and sleek lined Silver series has a very offset design for optimum ergonomics. This is a scissor for those who want their creativity to flow. The fully hollow, convex mirror, polished blades are forged for ATS314 carbon steel, making them extra hard wearing due to the added cobalt and the matrix structure of the steel. The flat center screw system comes with an adjustable key for optimum tension control.

### SAGANO SERIES

Our Sagano series has been designed to incorporate the best of all series. The hollow ground mirror-polished fully convex blades are forged from ATS314 carbon steel. The Samurai Sword blade design is taken from the Millennium series, the sophisticated ball bearing patterned disc operating system from the Damascus series, the optimum ergonomics of the Silver series and the blade properties of the Green series. Offered for the first time with a traditionally forged finger notch.
