

# Business Plan

2026

Coquitlam's Business Plan is the City's yearly action plan. It outlines initiatives to achieve Council's nine strategic priorities and vision of a community where people choose to live, learn, work, and play. The Business Plan focuses the City's resources on what matters most each year, particularly items with high budget impact, strong Council or community interest, external dependencies or mandated requirements.

Council sets priorities in the Business Plan based on strategic priorities, public feedback, the Community Satisfaction Survey, ongoing initiatives, and required actions. The Business Plan also includes critical programs and foundational work items, which go beyond the City's day-to-day business, require significant resources, and are essential for ensuring operational success.

# 2026 Business Plan

## 2024–2027 Council's Strategic Priorities:

Community  
Safety

- Internal Financial Controls Review Program
- Technology Infrastructure Upgrades

# Integrated Planning Process

The Business Plan is part of Coquitlam's integrated planning framework, which ensures that taxpayer dollars are spent wisely, in a forward-looking, coordinated and thoughtful manner. The framework comprises separate but complementary planning processes that support the City's overall vision and mission, and enables the City to align its activities and resources to achieve the strategic priorities and annual business plan actions set by Council.

The Strategic Plan, supported by the Business Plan, is the cornerstone of the City's integrated planning framework. It outlines the City's values and strategic priorities.
