Why Doctor Naef Chose Sheroski?

“Imagine having tools that give you complete control and confidence in every treatment. That’s the vision behind my collaboration with Sheroski. Over the past year, we’ve worked hard, using Sheroski’s focus on quality and precision, to create custom-designed solutions that didn’t exist before. These instruments, made to fit the exact needs of dentists, offer a level of quality and durability that was never possible before. Whether you’re doing aesthetic treatments, extractions, or surgeries, these tools give you the confidence and precision to deliver excellent results. Together with Sheroski, we haven’t just created tools – we’ve made something unique that raises the standard of dental care and improves your daily work in the clinic.”

– Doctor Naef

Doctor Naef's Vision for the Ultimate Dental Kit:

As a dentist, I understand the challenges we face daily in delivering top-notch care while ensuring patient comfort and satisfaction. My goal in creating this Ultimate Dental Kit was to provide fellow dentists with the best tools to reach their true potential and elevate their practice.

This kit isn't just a set of tools; it's a means to empower dentists to deliver exceptional results, improve their workflow, and ultimately enhance the patient experience. By investing in high-quality, durable, and ergonomically designed instruments, I believe every dentist can achieve their best work, day in and day out. Let's push the boundaries of what's possible in dental care, together.

I meticulously selected each tool in this kit to address specific needs in modern dental procedures.

What's in the Kit?

- Cheek Retractor: Offers unmatched visibility and comfort, making every procedure smoother and more efficient.
- Suture Holder: Designed for precision and ease of use, even for left-handed professionals, reducing hand strain and enhancing your working environment.
- Dental Crown Remover: Ensures quick and safe removal of crowns, saving valuable chair time and ensuring patient safety.
- Iris Scissors TC Angled: Precision-engineered for exceptional performance in delicate surgical procedures with Improved access and visibility.
- Expros 23/CP12: A versatile diagnostic tool combining a periodontal probe and explorer, ensuring accurate measurements and effective detection of caries and calculus.
- Aesthetic Carving Knife 21: Ideal for removing cement from veneers, providing better control and efficient than a traditional scalpel.
- Lucas 85: Designed for efficient tissue and debris removal from extraction sites with a precision tip for targeted debridement.
- P24G Periosteal Elevator: A versatile tool for precise soft tissue elevation and retraction, perfect for minor and major dental surgeries.
- Flexible Plugger: Combines strength with flexibility, ensuring effective pressure application without damaging the tooth, making it ideal for deep root canals and precise composite restorations.
- Suture Removal Scissor: A premium tool for precision cutting, featuring an ergonomic handle and ultra-sharp blades.
- Pincette: This tool is for grasping, holding, or manipulating small objects, particularly in delicate precision tasks.

Tissue Punch kit

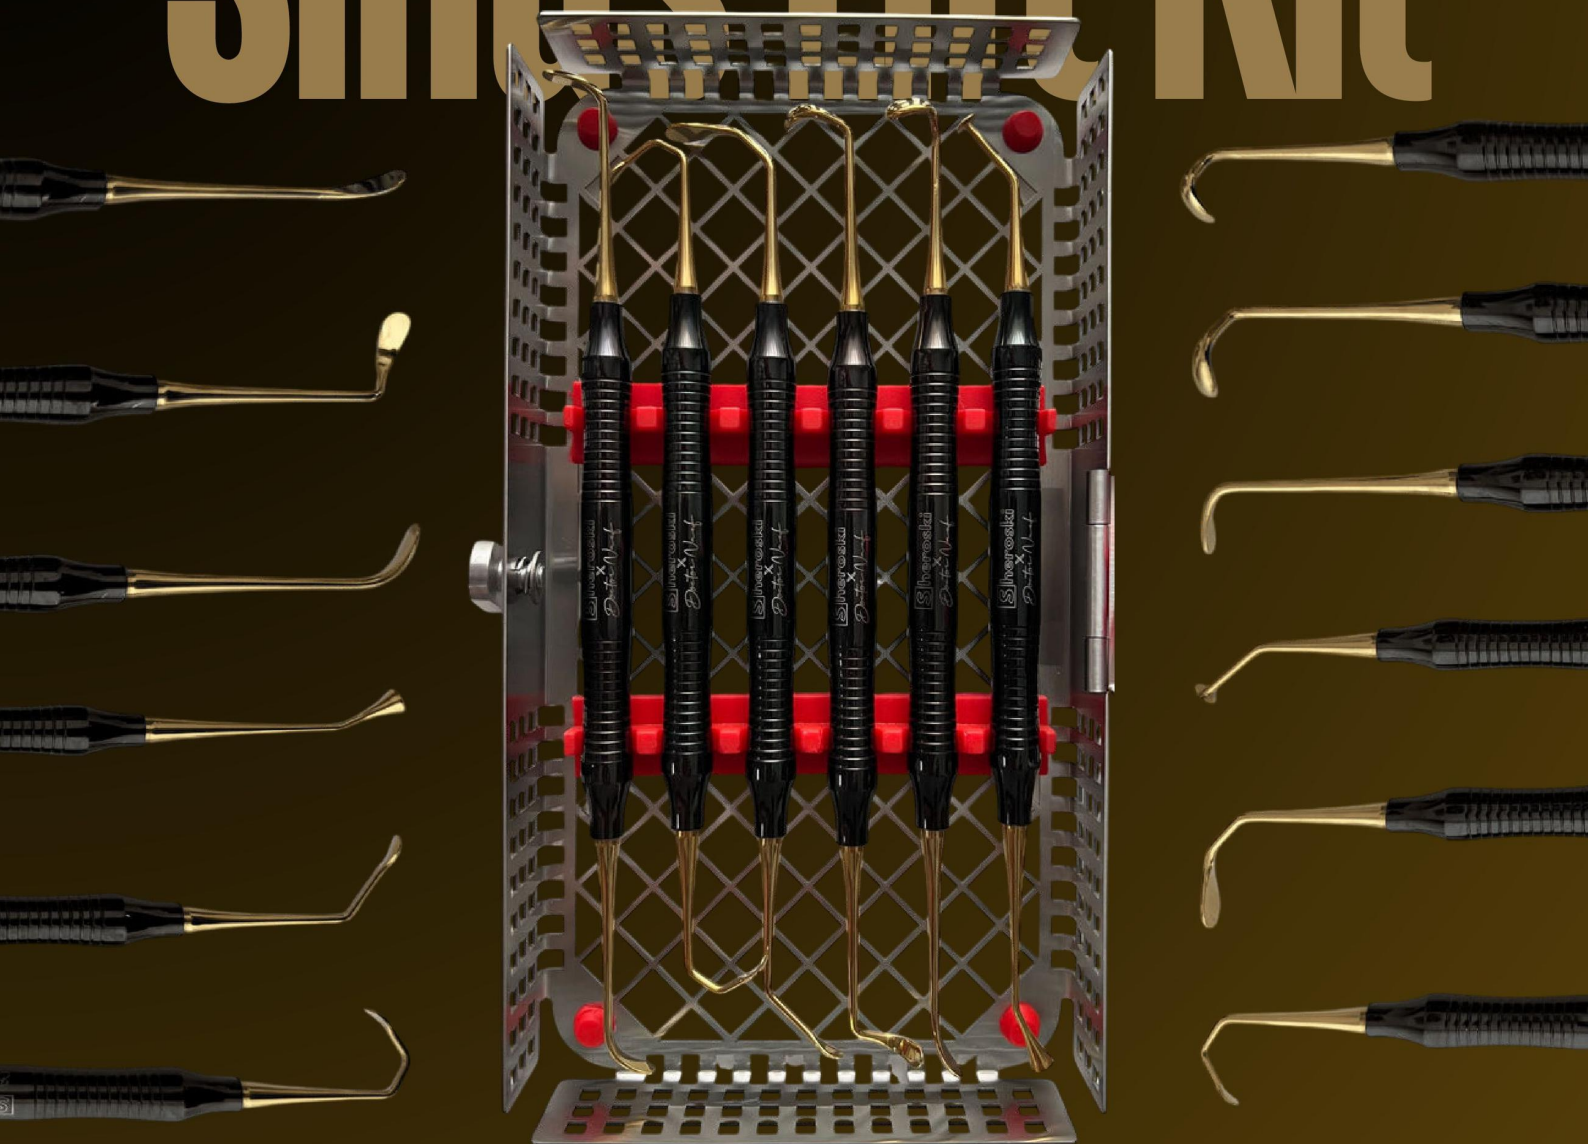

Doctor Naef's Tissue Punch Kit

Dental Implant Tissue Punch Kit is a comprehensive set of surgical tools designed for precise and efficient soft tissue removal during implant surgery. This kit includes a variety of tissue punches in different sizes, allowing dental professionals to create accurate openings in the gum tissue for implant placement. The tools are made from high-quality materials for durability and reliable performance. Ideal for dental professionals, this kit streamlines surgical procedures and ensures smooth and controlled tissue management for successful implant outcomes.

Tissue Punch Kit		
Product	Type	Ø (mm)
	Tissue punch	3.0
	Tissue punch	3.5
	Tissue punch	4.0
	Tissue punch	4.5
	Tissue punch	5.0
	Guide punch	4.0
	Guide punch	5.0
Product	Ø (mm)	
Saw Disk 	10.0	

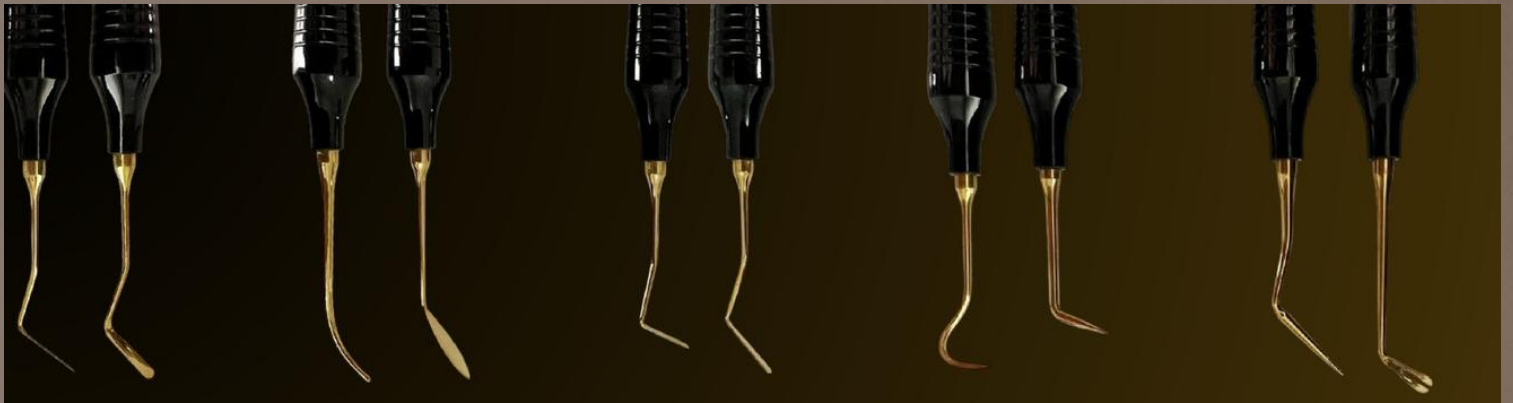

Sinus Lift Kit

Sheroski X *Doctor Naef*

Doctor Naef's Sinus Lift Kit

Dr. Naef's Sinus Lift Kit is used during a sinus lift implantology procedure to separate/reflect the Schneiderian membrane from the maxillary bone and to elevate the membrane. These sinus lift elevators are used for safely lifting the membrane while performing any sinus augmentation surgery or maxillary sinus surgery. Elevators feature a more rounded, smooth tip for lifting the sinus with minimal puncture risk.

AESTHETIC RESTORATION KIT

Doctor Naef's Aesthetic Restoration Kit

Doctor Naef's Aesthetic Restoration Kit offers a comprehensive collection of innovative instruments tailored specifically for esthetic restorations, with a focus on composite layering techniques. This meticulously curated Kit provides practitioners with a full range of tools necessary for achieving optimal aesthetic outcomes in dental procedures.

What's in the Kit?

**Solo Anterior / Twist Applicator / Modeler /
Condenser / Fissure/ Applicator / Posterior Measurer /
/Remover/ Measurer / Solo Posterior**

Luxating Elevators

Luxating Elevator are Serrated with Titanium coating are precision instruments featuring fine tapering blades. These blades compress the alveolar bone, cut the membrane, and gently ease the tooth from its socket, minimizing tissue damage and reducing trauma for patients

DOCTOR NAEF'S LUXATING ELEVATOR SET

Doctor Naef's Luxating Elevators are designed to make tooth extractions as gentle as possible, with an ergonomic handle crafted for comfort and precise control. The handle's shape and size help reduce the force required, allowing for a more controlled procedure. Featuring fine, tapering blades, these elevators compress the alveolar bone, sever the ligament, and carefully ease the tooth from its socket. This design helps minimize tissue damage, reducing trauma for patients. Dr. Naef's Luxating Elevators are available as a set of 10, offering a comprehensive solution for atraumatic extractions.

What's in the Set?

Double Edge 5mm DE5

Double Edge 3mm DE3

STR 5mm L5S

CVD 5mm L5C

STR 3mm L3S

Inverted Curved 3mm L3IC

Conta Angle 3mm L3CA

CVD 3mm L3C

STR 1mm L1S

STR 2mm L2S

Doctor Naef's Extracting Forceps Set

What forceps are included in the kit?

Upper Centrals & Canines, Upper Premolars, Lower Premolars (either side), Upper Molars (Right), Upper Molars (Left), Lower Molars, Lower Roots, Upper Roots, Upper Third Molars & Upper Wisdom (either side) and Lower Third Molars
