BREAKING THROUGH

THE 24TH
UNIRAZAK
UNIVERSITI TUN ABDUL RAZAK
CONVOCATION

Universiti Tun Abdul Razak (UNIRAZAK) continues to evolve steadily, boldly, and with purpose. From its modest origins, it has grown into a dynamic centre of transformation, resilience, and impact. Today, UNIRAZAK stands at the edge of a defining moment. Our journey, marked by ambition and adaptability, has brought us to a phase of acceleration and breakthrough.

The theme for this year's Convocation, "**Breaking Through**", embodies our collective emergence into new realms of growth and purpose. It signifies not just progress, but triumph over resistance and the bold pursuit of possibility.

UNIRAZAK's convocation themes are intentionally designed as action-oriented milestones. Each one builds on the last, forming a cohesive narrative of our progressive direction as a University. Each encapsulates a chapter in our institutional journey and honours the transformative spirit that drives us forward.

For the first time in our history, more than 10% of our student body hails from beyond Malaysia's borders, a vivid sign that the University's vision now extends confidently into the global sphere. This year, over 100 graduates from China will walk across our convocation stage, bearing not only scrolls

but also the weight of an increasingly intertwined future symbolising the enduring educational bridge between Malaysia and China, a relationship formally rooted in 1974 and flourishing ever since.

Each graduate carries within them a story shaped by effort, sacrifice, and belief. And together, these stories form the living narrative of UNIRAZAK in 2025. Over the past year, UNIRAZAK has found new momentum. We have welcomed more students, introduced innovative academic pathways, and deepened the trust placed in us by the communities we serve. Our international collaborations with partners in China, Pakistan, Indonesia and the Middle East, signal not just expansion, but leadership in shaping the global education discourse.

Our graduates are at the heart of this story. The Class of 2025 reflects the direction we are boldly pursuing. For the first time, we graduate our **single-tier TVET cohort**, a landmark in bridging the long-standing divide between academic knowledge and technical expertise. Through **Akademi TVET UNIRAZAK (ATUR)**, we honour the dignity of skills, of hands that build, and minds that solve. This is a commitment to an education system that serves both people and nation.

The 24th Convocation Ceremony is a celebration of these breakthroughs: the University's momentum as a global institution and the students' triumphs in the face of adversity. It is a reminder that progress is rarely linear but always possible, and often most meaningful when it is fiercely earned

through perseverance. It captures UNIRAZAK's transformation. It celebrates our graduates' growth. And above all, it reaffirms our shared commitment to cultivating ethical, courageous, and resilient leaders of tomorrow.

Welcome to Universiti Tun Abdul Razak's 24th Convocation Ceremony – a tribute to endurance, emergence, and the breakthroughs that shape our future.

“Go confidently in the direction of your dreams.
Live the life you have imagined.”

UNIVERSITY PROFILE

Universiti Tun Abdul Razak (UNIRAZAK), established on 18 December 1997, is one of Malaysia's pioneering private universities. It is wholly owned by Yayasan Pelaburan Bumiputra, which also owns Permodalan Nasional Berhad (PNB). The university operates under the esteemed leadership of its Pro-Chancellor, YBhg. Dato' Mohamed Nizam Abdul Razak. UNIRAZAK is renowned for offering distinguished degrees developed in collaboration with globally recognised professional bodies. This innovative approach enables students to graduate with dual qualifications: a degree and accreditation from professional bodies in fields such as accounting, management, taxation, and Islamic banking and finance.

UNIRAZAK's programme partners include esteemed organisations such as CPA Australia, the Chartered Management Institute of the United Kingdom (CMI), the Malaysian Association of Tax Accountants (MATA), the Chartered Tax Institute of Malaysia (CTIM), the Islamic Banking and Finance Institute Malaysia (IBFIM), the Malaysian Institute of Insurance (MII), and others. With its strong academic foundation and partnerships, UNIRAZAK is firmly established as "Kuala Lumpur's Premier School of Business, Government & Education."

The university upholds the highest standards of tertiary education, earning MSC-status and SIRIM certification ISO 9001:2000. UNIRAZAK's achievements include a 4-star MYRA rating in 2017, the Ministry of Education's Grand Award for "Entrepreneurial Private University of the Year" in 2015, and a 5-star rating in the Emerging University category under SETARA 2018/19 by the Ministry of Higher Education in 2020.

In 2024, UNIRAZAK was further celebrated with the Malaysian Education Excellence Award at the Education and Learning Summit, the Operational Excellence in Business Transformation Award, and the Rising Star University Award. The university also received the BrandLaureate BestBrands Award for Nation's Pride in Tertiary Education and, through its rapidly growing unit, Akademi TVET UNIRAZAK (ATUR), was named "Malaysia's Best Accredited Centre for Administrative Management" at META 2024. These achievements underscore UNIRAZAK's leadership and innovation in Malaysia's global education landscape.

Dear Graduands,

The Class of 2025 has earned every step of this moment. On this proud occasion, take a moment to recognise what you have achieved and what it took to get here. Your journey reflects determination, discipline, and the courage to keep moving forward when the path demanded more of you.

This year's convocation theme, "**Breaking Through**," speaks directly to your journey. Breaking through is not merely reaching a destination. It is overcoming limitations and continuing forward with purpose when the road is demanding. You have proven that success is not simply awarded; it is built through effort, patience, and resilience.

As you step beyond the university, remember this: education is not only a personal triumph, it is a responsibility. Malaysia needs graduates who are prepared to lead with integrity, serve with humility, and contribute with courage. In a world that is changing rapidly and competing fiercely, those who break through will be those who remain grounded in values, clear in purpose, and bold in action.

Today also reflects the care and commitment of the people who have supported your journey from the beginning: our deans, lecturers, faculty and staff, and our valued partners. Behind every graduate is a community that teaches, guides, and believes, and I thank all of you for playing your part in shaping this day.

To the families and friends of our graduates: thank you for your patience, your sacrifices, your encouragement, and your support has been a steady foundation, and we are deeply grateful.

Our theme this year, **“Breaking Through”**, is not defined by the absence of fear, but by the choice to move forward despite it. It reflects the ability to remain grounded when circumstances are uncertain, and to progress even when the way ahead is not immediately visible. Wherever you go next, I hope you bring the same steady spirit that brought you here.

My dear graduands, what you have achieved is evidence of that strength: steady, genuine, and quietly resilient. They are reminders of how far you have come and how far you can continue to go.

Congratulations! May you step into what's next with confidence, humility, and a heart that stays open to learning.

THE UNIVERSITY MACE

Historically, the mace is a symbol of authority dating from medieval times when knights carried them during processions with their kings. As the tradition grew, the mace became a ceremonial symbol of peaceful leadership, and maces were embellished with jewels and metals. Today, a university's mace is carried before the president or chancellor and platform-party dignitaries during commencements, inaugurals and other academic ceremonial processions.

THE TORCH

The torch engraved on the top end of the mace, adapted from the logo of UNIRAZAK, symbolises the ultimate role of the University as a beacon of light that spreads knowledge throughout the national, regional and global communities. The five facets of the mace symbolise the five pillars of the 'Rukun Negara' or National Commandments which are constantly upheld under any circumstances.

The name of the University is engraved around the base of the torch in Roman script, signifying the unity of the whole university community.

THE CHALICE

The chalice portrays the main function of the university in pursuing knowledge. The name of the university engraved in Jawi script represents determination and faith which are the basic and fundamental thrusts of university education.

The motifs of gold thread 'songket' at the lower part of the chalice express the university's aspiration to continue its knowledge dissemination while upholding Malaysian traditional values.

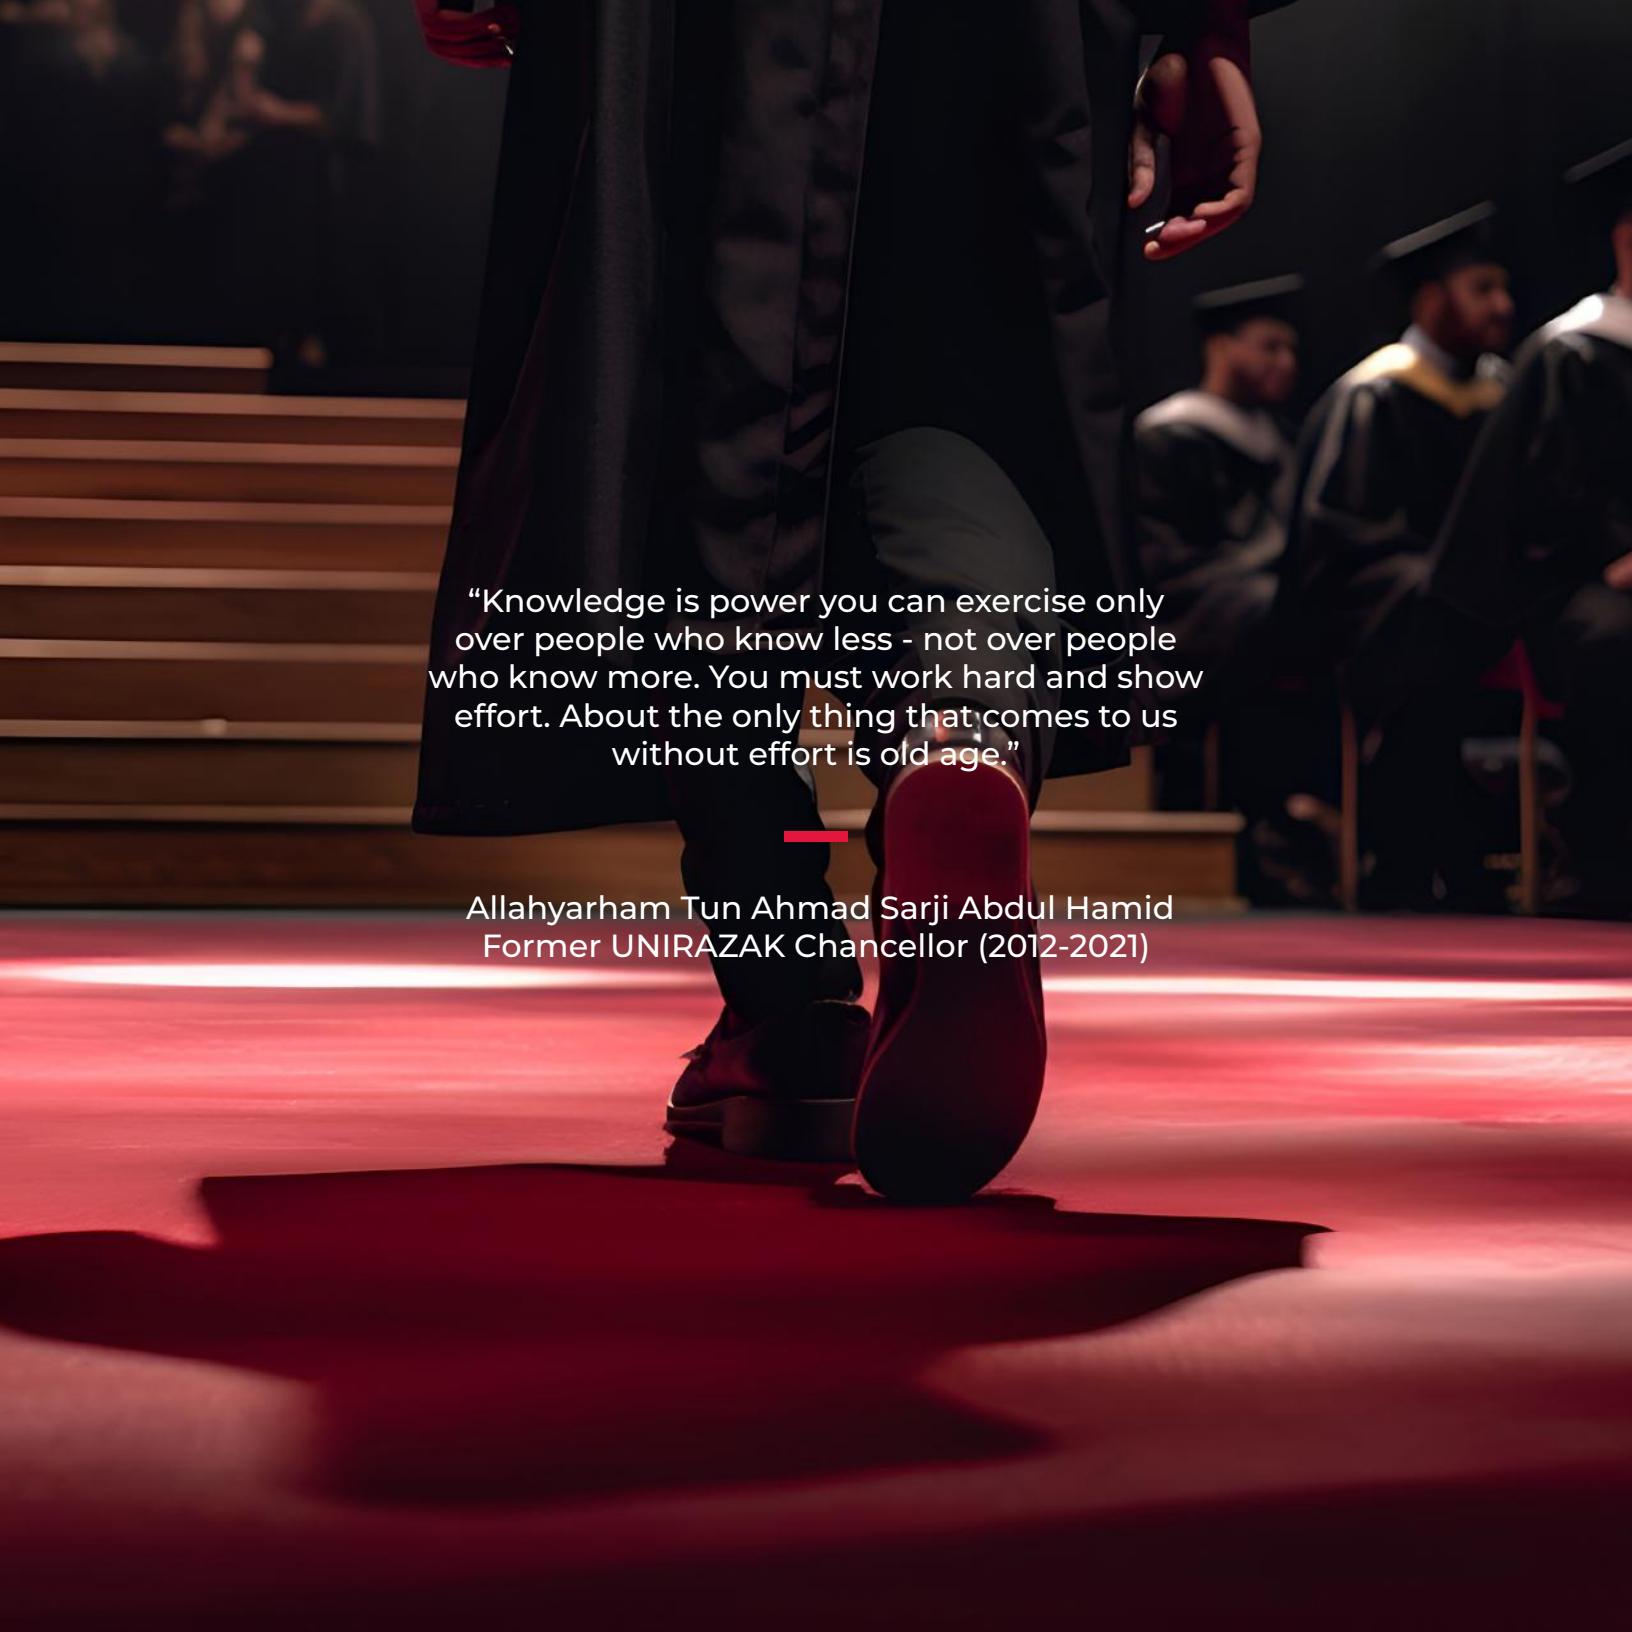

The logo of the university which is surrounded by carvings of Malaysia's official national flower, the Hibiscus, signifies the philosophy of the University and the dynamism of the various academic programmes offered.

THE SHAFT

The shaft symbolizes the readiness to contribute knowledge and expertise for the advancement and development of the people and the nation.

The Qur'anic verses from the Surah Al-Mujadalah (58:11) and Az-Zumar (39:9) contain the call for courage in seeking knowledge and upholding the truth, which reminds us of our unending responsibility to nurture, protect and celebrate academic achievement among students, faculty and staff. The 'Pending' or Malay belt buckle depicts energy, power and ability in producing dynamic scholars who are pragmatic, creative and innovative to contribute towards the advancement of Malaysian society and the country.

“Knowledge is power you can exercise only over people who know less - not over people who know more. You must work hard and show effort. About the only thing that comes to us without effort is old age.”

Allahyarham Tun Ahmad Sarji Abdul Hamid
Former UNIRAZAK Chancellor (2012-2021)

Bachelor of Business Administration (Honours)

Bank Rakyat School of Business, Innovation, Technology and Entrepreneurship (BRSBITE)

Ahmad Zulhilmie is a proud graduate of UNIRAZAK's Bachelor of Business Administration (Financial Technology) programme — a journey that shaped his character, confidence, and leadership. He now serves as a Senior Executive in Culture & Engagement at Payments Network Malaysia (PayNet), the organisation behind Malaysia's digital payment ecosystem. In this role, Zulhilmie leads meaningful employee experience initiatives, from onboarding programmes to culture-building efforts such as Project OPTIMIS and the People Pulse platform. His work reflects the values he carried as a Razakian — empathy, resilience, and a genuine passion for helping people grow.

How did you feel upon being selected for the Chancellor Award, and what does this recognition mean to you?

Honestly, it felt surreal — almost unbelievable. I was proud, grateful, and humbled all at once because this award represents more than just my own effort, but everything that my parents, lecturers, mentors, and friends poured into me. When my parents said, "Tahniah, Imi," it meant more than any trophy and reminded me of why I kept pushing forward. They've always been my biggest motivation — their steady support and belief in me became my strength on the hardest days. As the oldest son, I've always felt the responsibility to set a good example, not through perfection but through sincerity and persistence. Knowing they were always behind me kept me focused, grounded, and determined to keep going.

What were the biggest challenges you faced during your journey at UNIRAZAK, and how did you stay focused and break through them?

Switching from engineering to a business programme was one of my biggest challenges — everything felt new, especially subjects like accounting. I pushed through by asking questions, seeking guidance from my lecturers, and putting in the extra effort until things finally made sense. Stepping into leadership brought its own lessons as I learned to navigate different personalities with patience and calmness, supported by my lecturers, mentors, and the university counsellor. Staying focused came from discipline and knowing my priorities — if I didn't understand something, I asked, even if I was the only one raising my hand. Helping my friends study kept me motivated because teaching made learning more meaningful. These simple habits — asking, learning, helping, and refocusing — kept me consistent and helped me break through every challenge along the way.

“

Breaking through isn't about being perfect — it's about refusing to stop moving.

”

What are you most grateful for at UNIRAZAK, and who made the greatest impact on your journey?

UNIRAZAK was where my leadership and confidence truly began. I'm grateful for the Razakian Buddies club, which taught me to lead with empathy and clarity, and for lecturers who believed in me, guided me, and pushed me to grow. The Student Experience Department (SXD) also shaped my soft skills from the ground up, trusting me with responsibilities I never imagined carrying and giving me the space to try, fail, and rise again. I am sincerely grateful to Madam Farah, Madam Latifah, and Madam Khalidah, whose unwavering support has been a true pillar of strength throughout my journey. I am equally thankful to the SXD team — Sir Safwan, Ms Nadia, Ms Sabiha, Sir Syafiq, Sir Mukmin, and Sir Aiman — for challenging me, supporting me, and trusting me to lead. Their guidance and belief have played a significant role in shaping who I am today.

What are your future plans, and how will this achievement guide your next chapter?

My long-term goal is to become a Chief Human Resources Officer (CHRO). This award is more than just recognition — it's a reminder that I'm moving in the right direction. It motivates me to keep learning, keep helping others, and keep building environments where people feel valued, respected, and empowered.

This year's theme is "Breaking Through." What does this mean to you, and how does it reflect your journey as a Razakian?

To me, Breaking Through means choosing to move forward, even when the path feels uncertain. It is about gently pushing past fear, doubt, and that small voice that questions your worth. My journey at UNIRAZAK was not the fastest nor the easiest, but I kept going — one step at a time. I continued learning, helping others, and showing up, even on the difficult days. Breaking Through isn't about perfection; it is about resilience, sincerity, and the courage to rise again. It is believed that every challenge is meant to guide and shape us, not hold us back. And today, I stand here simply because I chose to keep moving forward.

Finally, what message would you like to share with current UNIRAZAK students as they pursue their own breakthrough moments?

Be kind, and be helpful. Share what you know — knowledge only grows when you give it away. Don't compare your journey with anyone else's; move at your own pace and trust your process. Respect everyone you meet, stay humble, and stay curious. And most importantly, don't give up on yourself. Your breakthrough will come, as long as you keep moving forward.

VICE-CHANCELLOR AWARD

Mohd Ammar Akmal Bin Mohd Mazri

Bachelor of Management (Honours)

Bank Rakyat School of Business, Innovation, Technology and Entrepreneurship (BRSBITE)

UNIRAZAK proudly celebrates Mohd Ammar Akmal Bin Mohd Mazri, a standout Razakian whose journey reflects exceptional dedication, professionalism, and leadership. A graduate of the Bachelor of Management (Honours) programme, Ammar now serves at the Malaysian Society for Quality in Health (MSQH) as a Training & Marketing Assistant, where he plays a pivotal role in national healthcare excellence. From overseeing end-to-end training operations to engaging healthcare professionals across the country — and even contributing to the development of MSQH's latest accreditation standards — Ammar's work demonstrates a deep commitment to strengthening patient safety and elevating the quality of care in Malaysia. A true embodiment of the values we uphold.

How did you feel upon being selected for the Vice Chancellor Award, and what does this recognition mean to you?

I'm truly honoured and grateful to receive the Vice-Chancellor Award. To be honest, I never aimed for awards during my studies — my priority was always to learn, understand, and build knowledge I could carry into the future. I've always believed that exam results are temporary, but real understanding lasts much longer and becomes the foundation for our careers.

So, this recognition means a lot to me. It feels like a meaningful milestone in my academic journey, but also a reminder that the real work begins now — applying what I've learned and contributing sincerely to the organisation I serve.

What were the biggest challenges you faced during your journey at UNIRAZAK, and how did you stay focused and break through them?

My biggest challenge at UNIRAZAK was adapting to subjects I had no background in. Coming from a science stream, economics was new but enjoyable, but accounting was definitely tougher. The unfamiliar terms and structured formats pushed me to work harder, ask questions, seek help from friends, and practice consistently. Alhamdulillah, that effort paid off, and I managed to ace Principles of Accounting.

Staying focused came down to managing my time well. I prioritised tasks by urgency and difficulty, and reminded myself that being active means sacrificing some leisure time — never the time set aside for studying. That simple mindset kept me steady and helped me break through every challenge.

What are you most grateful for at UNIRAZAK, and who made the greatest impact on your journey?

I'm most grateful for the people I met at UNIRAZAK — my friends and lecturers who have supported me throughout my journey. Their guidance, perspectives, and advice continue to help me grow, especially as I step into my career. I'm also deeply thankful for the knowledge and

“

I learned that real success isn't just about grades — it's about the knowledge you keep, the character you build, and the trust you place in Allah.

”

experiences I've gained. Coming from a science stream into the world of economics was a big shift, but it broadened my way of thinking and taught me to appreciate both analytical and theoretical approaches.

I don't credit just one person, because everyone played a role in shaping my journey. Each lecturer contributed in their own way — some sparked my interest in new concepts, while others shared real industry insights that prepared me for the workplace. My friends, especially my teammates, also made a huge impact. Strong teamwork carried me through countless group assignments, and I truly believe their support is one of the reasons I'm able to receive this award today.

What are your future plans, and how will this achievement guide your next chapter?

I'm passionate about building my career in the healthcare sector, particularly on the management and corporate side. Over the next few years, my goal is to gain broad exposure across different departments so I can understand the industry from multiple angles and make better, more holistic decisions when I eventually step into a management role. I hope this achievement will open doors to new opportunities and give future employers confidence in my commitment, work ethic, and dedication to delivering meaningful results.

This year's theme is "Breaking Through." What does this mean to you, and how does it reflect your journey as a Razakian?

To me, Breaking Through is about proving to myself that I can grow past the limits I once thought I had. University was the stage where everything shifted — suddenly, no one was telling me what to do, and every choice came from me. That freedom was exciting, but it also made me realise that the biggest challenge wasn't the subjects or the deadlines... it was managing myself. I had to decide the kind of student I wanted to be, stay disciplined, and take responsibility for every step I made. So breaking through, for me, is about learning to trust myself, pushing through discomfort, and becoming a better version of who I was when I first walked into UNIRAZAK.

Finally, what message would you like to share with current UNIRAZAK students as they pursue their own breakthrough moments?

My advice is to start with a clear vision — know what you're working toward, and let that guide your motivation. But remember tawakkal: we give our best, and Allah decides the outcome. Sometimes what we want isn't what's truly good for us, so keep working hard, keep making doa, and trust the process.

Also, know yourself. Find the study methods that work for you, be proactive, and don't be afraid to ask questions. Listening gives you input, but practising and explaining things to others is what helps the knowledge stay.

And finally, don't focus on academics alone. Your attitude, soft skills, and character will matter just as much in the working world. Stay grounded, stay humble, and keep strengthening your spirituality — because real success comes from being strong in knowledge, character, and faith.
