

MAILBOXES FOR MULTIPLE DWELLINGS

COMMERCIAL + DOMESTIC

Mailmaster has solidified its place as one of the top-tier commercial letterbox suppliers in Australia, supplying both large and small Stratas, Apartments and Commercial applications.

Celebrating over 30 years of experience in design and manufacture, Mailmaster are the industry professionals that you can rely on.

THINK
OUTSIDE

THE BOX

Preferred Industry Supplier

Mailmaster prides itself on delivering quality products and services without compromise. Mailboxes carrying our brand name set the standard for all kinds of applications from large multi-residential complexes to private homes, office buildings and more.

Working closely with architects, developers, builders and project managers, we dovetail our services to suit our clients requirements. You can rely on Mailmaster to provide intelligent solutions, addressing designs and planning needs with precision and flair.

UNDERSTAND THE DIFFERENCE

PREMIUM

Based on using our Mailmaster Standard extrusion to form the main box body however with a 2 mm thick 316 Stainless Steel Face plate. These can be supplied in both a Front or Rear Mail Retrieval configuration.

DELUXE

Based on our standard extrusion and with the options as described in our Premium Series however with a 2.5 mm Thick Aluminium Face Plate. Modern appearance with indelible Laser cut numbers. Heavy duty performance.

SUPERIOR

Based on our Deluxe series however with our Flat Panel Door Extrusion. This gets away from the standard extrusion which has the recess for the engraved numbering strip and offers an aesthetic flat and clean line feel to the product. This allows for creative expression with numbering, text and artistic detail to the front panel.

STANDARD

Our Mailmaster Standard Mailbox model is not so standard. This product is based on our own unique extrusion suite which has done away with the curved Weather Lip and the roll which leads into the Mail Slot.

ECONOMY

Targeting the 2-3 story "walk ups" and the budget conscious market Mailmaster has developed the Economy Series. Made from Colourbond and from some of the exotic pre painted sheets available, these mailboxes still provide an architectural and aesthetically pleasing mailbox,

BESPOKE MANUFACTURE

We have the solutions. Working closely with architects, developers, builders and project managers in developing their mailbox system, we dovetail our services to suit our clients requirements. Offering diversity, you can rely on Mailmaster Letterboxes to provide intelligent solutions, addressing design and planning needs with precision and flair.

Our Models

QUALITY WITHOUT COMPROMISE

We use a superior austenitic grade of stainless steel (316) rather than the cheaper ferritic types often found elsewhere.

Mailmaster is completely conversant with the preference of Australia Post and the Australian Standard (AS NZS 4253-1994). Our standard mailboxes comply with specifications, ensuring that A4 size mail in either landscape or portrait size can be delivered successfully.

Domestic Mailboxes

There is nothing like a Mailmaster mailbox to enhance and individualise your property. It's the **PERFECT OPENING STATEMENT**.

We are proud to be behind many of today's most popular domestic mailbox designs.

Mailmaster first began making mailboxes in early 1986, going on to produce more than 50,000 Small Milkcan Letterboxes.

AS SEEN IN

ONE-STOP-SHOP

We can supply accompanying signage incorporated in the mailbox assembly, mounted against a wall and even backlit.

For special projects requiring a unique statement, Mailmaster is delighted to produce signature mailboxes to suit your vision and budget.
