Who is Together for Humanity?

Together For Humanity is a not-for-profit educational organisation working with schools to eliminate prejudice so all young people feel they belong.

We offer a range of student programs, teacher professional learning and online learning for students and teachers. All our programs are subsidised, curriculum-linked and support student wellbeing.

Our impact

Our programs have been shown to help students, teachers and school communities*:

- Challenge stereotypes
- Reduce fears of cultural difference
- Deal with prejudice and discrimination
- Develop empathy, mutual acceptance and belonging
