Dream big, we can do the rest.

Remodeling your RV can feel like a big decision, but Marathon is here to help make the process simple and exciting. Our expert team is just as passionate about remodels as they are about custom builds. Whether you've recently bought a pre-owned coach or have cherished your Marathon for decades, we'll bring your vision to life with creativity, quality materials, and expert craftsmanship — no matter your style.

Before

After

Paint

Marathon's expert team handles everything from touch-ups and repairs to full-body repaints. With advanced paint booths, precision color-matching, and premium coatings, we ensure a flawless, long-lasting finish. Our skilled artisans specialize in multi-stage painting, custom graphics, and protective clear coats for enhanced durability and style.

We also provide expert refinishing for trailers, tow vehicles, and golf carts, ensuring seamless color coordination. Whether you need a

matching accent trailer or a custom design, our meticulous craftsmanship delivers exceptional quality and finish.

Flooring

Marathon offers premium flooring options: Porcelain Tile, Strand Bamboo, Hardwood, Luxury Vinyl Tile or Natural Stone Tile. Each is selected for its durability, style, and ability to enhance the unique character of your coach.

Porcelain Tile is available in countless colors, textures, and finishes, including wood and stone looks. It has superior water resistance and is low maintenance—perfect for life on the road.

Strand Bamboo is a customer favorite, valued for its clean, modern look and impressive strength.

Bamboo has high durability and is extremely resistant to scratches, dents, and everyday wear.

Hardwood flooring brings a high-end look to any interior. With a range of rich tones and natural textures, hardwood adds warmth, depth, and elegance that never goes out of style.

For a touch of timeless luxury, we offer Natural Stone Tile, like marble, which is durable, moisture-resistant, and a perfect fit for bathrooms or galley spaces.

Reupholstery

Fabrics and leathers are more than just coverings — they're expressions of style and personality. Just as a tailored suit does more than simply clothe the body, upholstery brings character and comfort to a space.

If it's time to refresh your coach's interior, our Marathon Coach Service team is here to help. The same expert designers

behind our new coach interiors are available to guide you in selecting the perfect fabrics and leathers for your update. From sofas, recliners and pilot

chairs, to valances, stiles, and even ceilings — whether you're making a small change or transforming your entire coach, the possibilities are endless.

Accessories

Accessory pieces can add to a coach without a long-term commitment. Try adding an ottoman upholstered to match your coaches interior. We can create new reverse shams, bedding and pillows. Changing rugs and other details is a great way to soften, liven up or completely change the overall look.

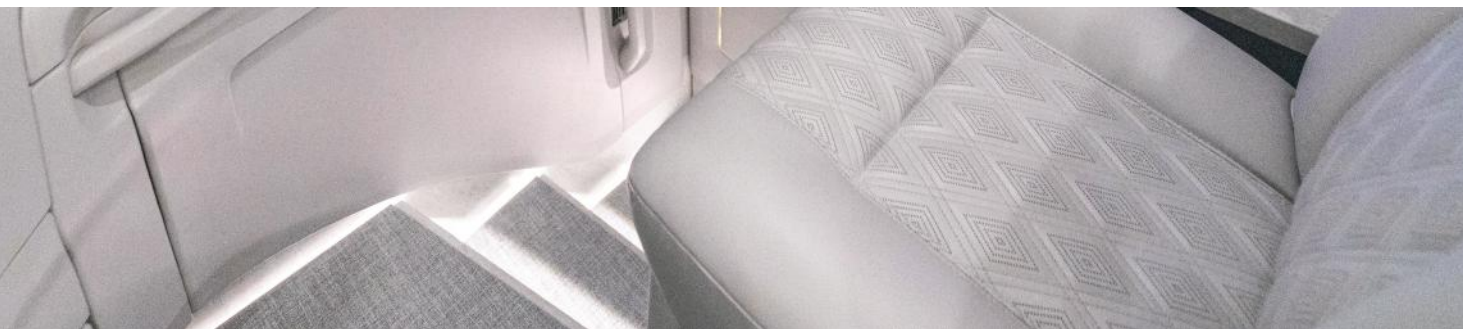

Pilot & Co-Pilot Seating

Upgrade the look and safety of your coach with the 3-Point Harness. The new harness provides more effective upper-body protection and force distribution in the event of a collision.

When upgrading, we swap out the Pilot & Co-Pilot chair for a completely new one, tailored to match the style of your coach. These new seats come with custom options, such as Ventilated Seating (heated & cooled) and the Marathon emblem embroidered into the headrest.

Tile & Hardware

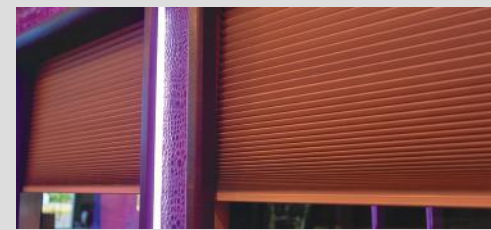

Update backsplashes and shower tile with a mix of stone, glass, ceramic, and metal to add texture, color, and visual interest. These materials can be arranged in creative patterns or mosaics to make a bold statement or complement a more subtle design palette. High-end fixtures such as modern handles, sleek showerheads, and stylish faucets not only enhance functionality but also

introduce a sense of luxury and refinement. When thoughtfully selected, these elements work together to create a polished, cohesive look that elevates your entire space.

Technology

No matter the generation of your motorcoach, Marathon's Service Department has the tech to elevate your journey. Upgrade your entertainment with state-of-the-art TVs and immersive sound systems. Enhance safety and peace of mind with a front-wheel monitoring camera. Stay connected with Starlink high-speed internet. Turn your smart device into a powerful touchscreen remote, and hit the road with confidence thanks to a modern GPS system.

Storage Bays

The space underneath can be customized for wine coolers, freezers, storage cabinets, kitchens, or entertainment centers—designed to fit your lifestyle and needs perfectly.

Popular options include air-operated slides for easy access and unique setups such as tool cabinets or spacious compartments for bikes and golf carts. With smart design, we can maximize every inch of usable space without compromising style or functionality. If you can imagine it, we can create it—tailored to match your vision and built to impress.

Lighting

Light fixtures play a key role in elevating the overall look and feel of your coach. Swapping out outdated lighting for modern options can instantly refresh the space and enhance both style and function.

Consider changing up your sconce lighting to create a warm, ambient glow or to highlight specific areas. We can also update your existing ceiling spotlights—replacing older halogen bulbs with energy-

efficient LED fixtures that offer improved brightness and a longer lifespan. These simple upgrades make a big impact and help create a more inviting, personalized atmosphere inside your coach.

Art Walls & Photo Recesses

Changing up the art in your coach is a fun and simple way to make a bold impact. Backlit art walls can be swapped out for new textures and imagery. Refresh the pictures in your photo recesses with new family photos or let us help find the perfect artwork to fit your coaches interior.

Let us bring your remodel vision to life!
