1860

CHRISTIAN RUEFLI-FLURY

In 1860, Christian Ruefli-Flury was born in Courrendlin (Switzerland). In 1870, he commenced his horology apprenticeship with Urs Schild before joining the Eterna watch company. In 1883, he married Pauline Flury and worked for Jean Aegler. He then made several contributions to the city of Biel.

1884

A TRUE LOVE STORY

Christian Ruefli-Flury, produced a pocket watch for the 25th birthday of his beloved wife Pauline. Impressed by this exquisite gift, she convinced her husband to set up his own watch making company in Biel, a city famous for its well-educated watch engineers. Christian Ruefli-Flury called his company "Edox" which means "measuring of time" in ancient Greek.

1900

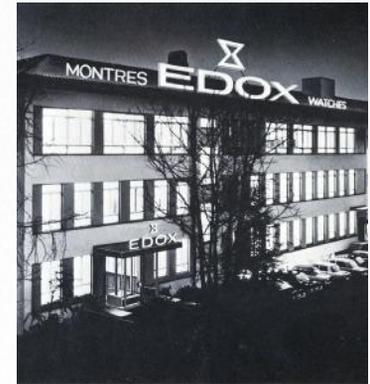

THE BIRTH OF A LOGO

The hourglass was officially used as a timeless symbol of Edox and since then, it has been a proud part of the official Edox company logo.

1955

A GROWING COMPANY

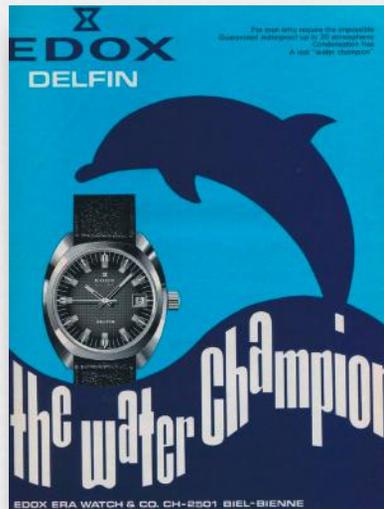

At that time, Edox employed up to 500 watchmakers and the company moved into new, modern and larger production facilities. Edox was amongst Switzerland's leading watch companies

1961

THE WATER CHAMPION

Original Edox Delfin 1961

Original Edox Delfin advertising in the early 1960s.

Delfin re-edition - 65th Anniversary Limited Edition

DELFIN THE ORIGINAL

Launched in 1961, the iconic “Delfin” timepiece marked a major breakthrough in water-resistant watchmaking. Featuring a double caseback, special protective gaskets and a specially invented double O-ring system, it set new standards in shock protection and water resistance.

Sixty-five years later, the Delfin remains a defining milestone in Edox history – a watch that laid the foundations of the brand’s long-standing expertise in extreme conditions. It was with the Delfin that Edox earned its reputation as “The Water Champion” of Swiss watchmaking.

1965

HYDRO-SUB

The revolutionary Hydro-Sub collection was launched, featuring the famous double O'crown patented Edox gasket for increased water resistance.

1970

FIRST GENUINE WORLD TIMER

This year saw the introduction of the world's first truly global timepiece, the "Geoscope" watch. Covering all time zones, the watch provided timekeeping for almost 50 different cities around the world, as well as local time.

2010-2026

THE TIMEKEEPER

After being associated with prestigious racing competitions such as the World Rally Championship, the Rally Dakar, and the Sauber F1 Team, Edox further strengthens its motorsport legacy as the Official Timing Partner of BMW Motorrad Motorsport, in collaboration with the ROKiT BMW Motorrad WorldSBK Team.

This partnership stands as a strong testimony to Edox's presence among the most renowned and active Swiss watch brands, deeply connected to the world of high-performance motorsport.

2025

TRIBUTE TO A LEGEND: FANGIO

In 2025, Edox paid tribute to one of motorsport's greatest legends with the Sportsman Fangio.

Developed in collaboration with the Fangio Museum, this chronograph revisits the historic Sportsman collection while celebrating the legacy and precision of Juan Manuel Fangio.

A tribute where Swiss watchmaking heritage meets racing history.

1973

THE WATER CHAMPION

Original Edox Delfin 1973

Original Edox Delfin advertising, early 1970s.

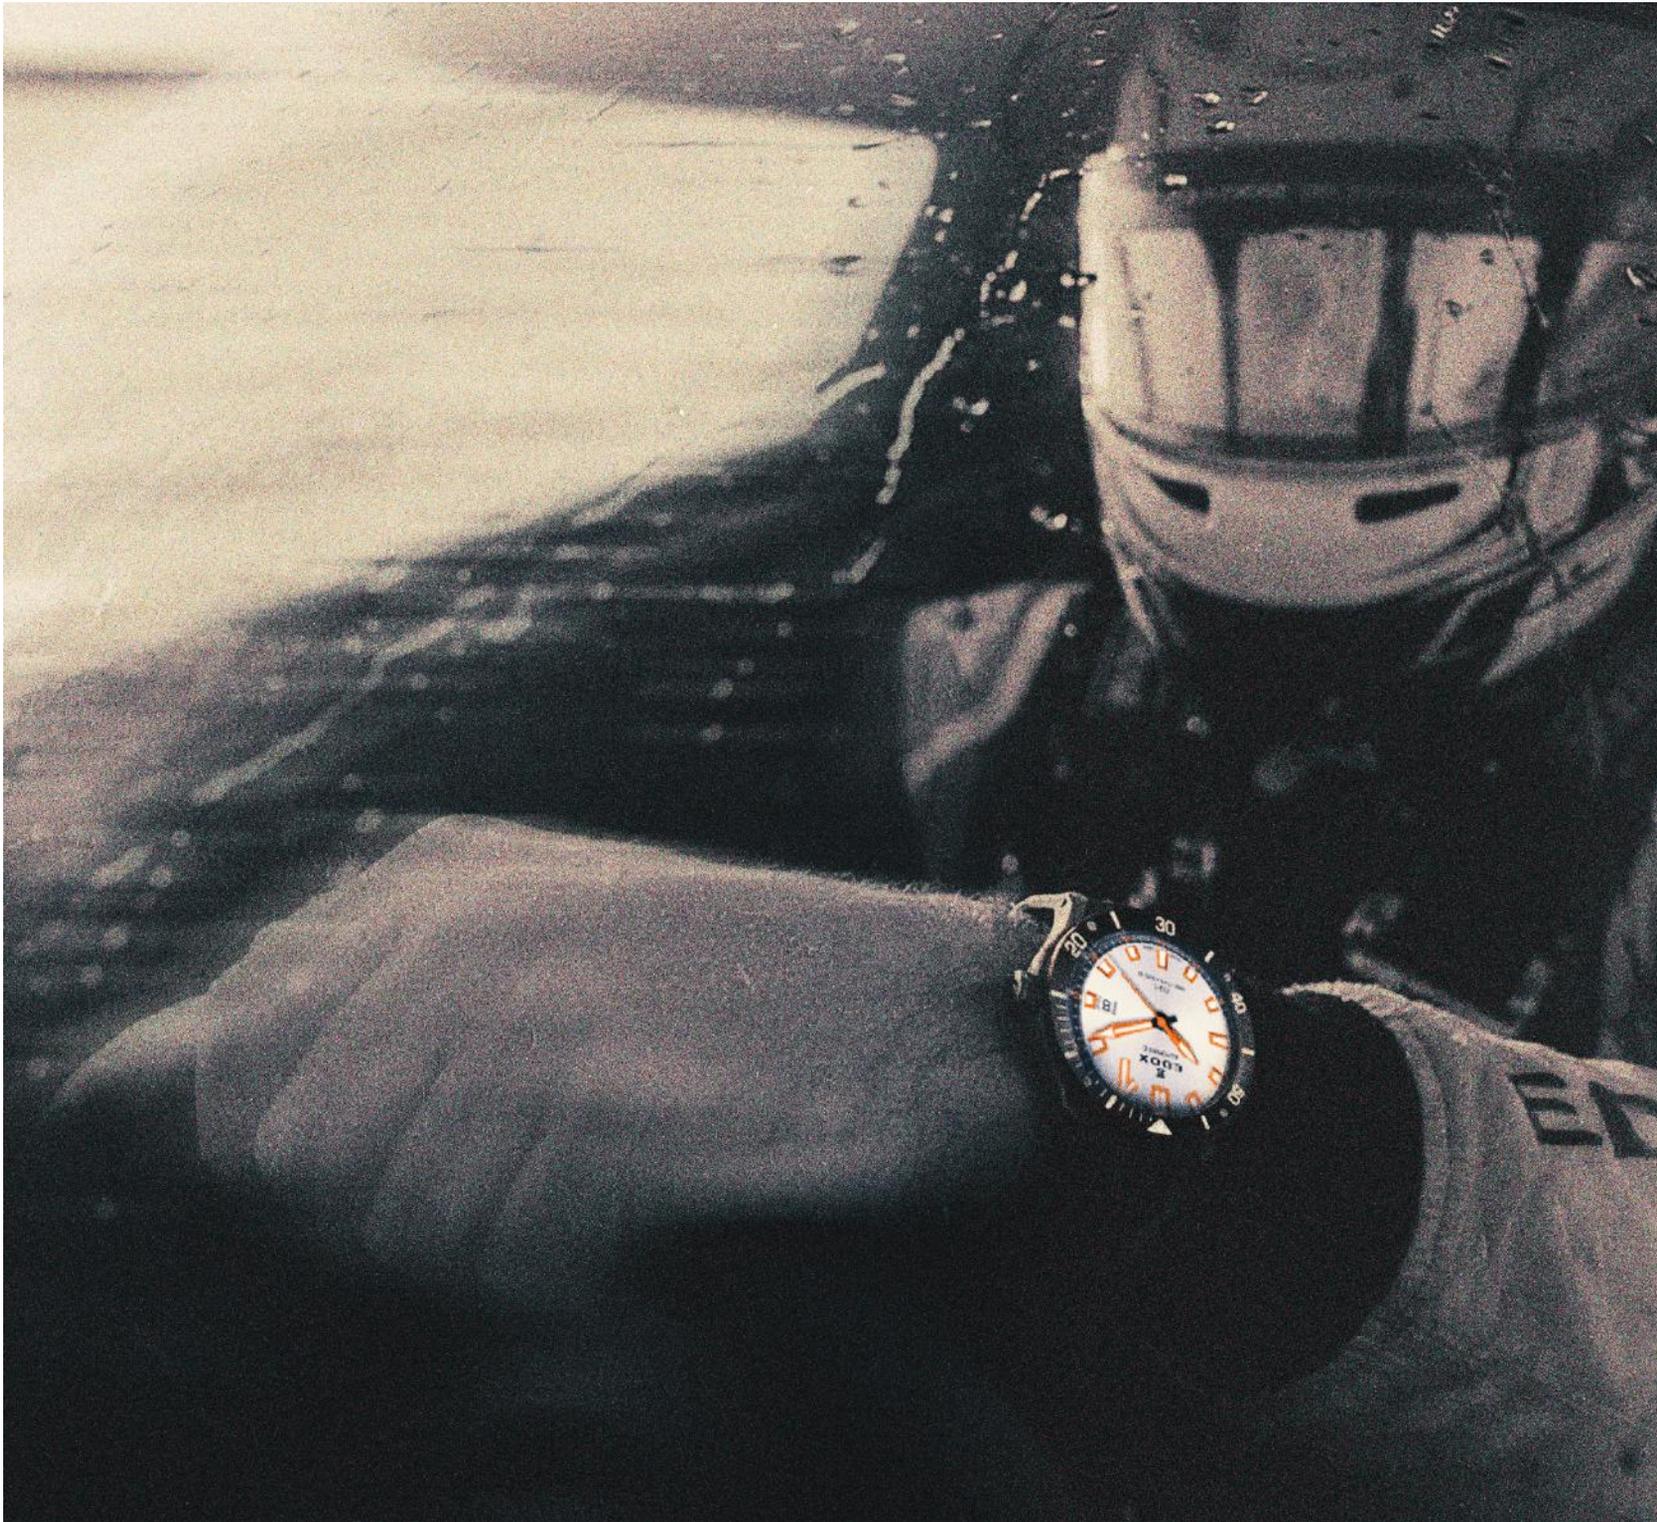

Delfin re-interpretation, 2026
A modern evolution of the 1973 Delfin

BORN IN 1973 – MADE FOR URBAN DIVERS

In 1973, Edox further evolved the Delfin, refining its robust construction to meet the demands of a new generation of professional dive watches.

Building on its patented sealing system and reinforced case architecture, the Delfin confirmed Edox's expertise in water-resistant watchmaking and strengthened its reputation as "The Water Champion" of Swiss watchmaking. With its bold dodecagonal bezel and sharper lines, the Delfin marked a decisive step toward a more modern dive watch aesthetic, redefining the identity of the collection.

CO-1

DIVE

OFFSHORE INSTRUMENTS

By becoming the Official Timekeeper of the Class-1 World Powerboat Championship in 2007 and creating the CO-1 collection, Edox raised the resistance to water and shocks of its watches to an even higher level.

NEPTUNIAN

DIVE

DIVING INSTRUMENTS

Water-resistant to an incredible 1'000m, the Edox Neptunian is built ultra-tough to handle not only the pressures of the deep but, thanks to its strong and durable stainless-steel case, anything on the surface as well. A 3mm-thick sapphire crystal protects the classic, clean dial encircled by a ceramic bezel. The case back features a striking engraving of Neptune, the Roman God of the Sea.

DELFIN

DIVE

THE WATER CHAMPION WATCH

The Delfin collection was first launched in 1961 and used revolutionary watch parts such as double O-ring gaskets for crowns and pushers and a special shock absorbing caseback in order to withstand an impressive water resistance of 200 meters. Nowadays, this special equipment is still featured in Edox Delfin timepieces.

THE BIRTH OF A WATER CHAMPION

Introduced in the early 1960s, the Delfin marked a key milestone in Edox's water-resistant watchmaking. Designed for demanding conditions, it embodied the brand's pursuit of reliability and performance.

As illustrated in the original advertising below, it was presented as a professional diver's watch of its time.

This Acapulco diver wears an EDOX watch!

The extraordinary EDOX-Acapulco withstood, with no damage whatsoever, the 120 feet dives off the "La Quebrada" cliff. It runs today with the same precision and regularity as the day it left the factory. The really resistant sportsman's watch. EDOX-Acapulco, an automatic calendar watch, waterproof tested to a depth of 660 feet.

GRAND OCEAN

DIVE

SPIRIT OF THE OCEAN

Edox has always had a special bonding with the sailing world. In 2008, Edox made his first step into world class sailing with a major timekeeping project for international regattas. The Grand Ocean collection crowns this statement by proposing since many years timepieces that feature an unforgettable look and great ingenuity.

HYDRO-SUB

DIVE

THE SUBMARINE WATCH

The Hydro-Sub Special Edition combines modern refinements with the timeless DNA of the original 1960s Hydro-Sub. Faithful to its utilitarian roots, it reflects the model that helped establish Edox as “The Water Champion” of Swiss watchmaking.

HYDRO-SUB

SPONSORING

OFFICIAL TIMING PARTNER OF
ROKIT BMW MOTORRAD MOTORSPORT

Edox is the exclusive “Official Timing Partner” of the ROKIT BMW Motorrad Motorsport Team.

This partnership places the brand at the heart of the FIM Superbike World Championship (WorldSBK), one of the most prestigious platforms in two-wheel racing.

Through this collaboration, Edox confirms its commitment to precision timing and strengthens its visibility among the most dynamic and competitive teams in the world of motorsport.

MARIANNA GILLESPIE
WATER CHAMPION AMBASSADOR

The Russian-born Frenchwoman, is the current French national and world record holder in multiple disciplines. Marianna has been world champion Seven times, ranked No. 1 in the world multiple times and she is also the youngest winner of the prestigious Vertical Blue competition.

She is an ambassador for the iconic Edox Delfin diver’s watch collection and offered product-specific guidance to further refine the new Delfin lady collection.

EDOX QUALITY

Batteries

In compliance with global regulations and standards, Edox equips its quartz timepieces with mercury-free batteries. This is a positive step towards environmental sustainability with no effect on the watch precision and efficiency.

Edox double O'ring Crown or Pusher

Since the 70's, Edox has set specific quality and technical standards for ensuring the water resistance of diving timepieces. The double O'ring crown or pusher has been engineered by Edox to allow to increase the resistance to water pressure. Timepieces equipped with crowns or pushers featuring a double O'ring are featuring the special pictogram for easy understanding.

Helium Escape Valve

Some of our CO-1 and Neptunian timepieces are equipped with a decompression system which allows helium to escape from inside the watch when worn for professional use in pressure chambers (long-term underwater work, crude oil exploration, etc).

The Edox helium valve opens and closes automatically. It is imperative that the models equipped with a non-automatic helium escape valve (such as older Edox timepieces) have the helium valve screwed back in order to guarantee their water resistance.

Ceramic

Up to four times harder than stainless steel, ceramic is scratch-resistant and thus extremely durable. Mainly used to build the bezels of Edox watches, this material will also prevent the colours from fading.

Carbon

Carbon first became widespread in industries like aerospace and Formula 1. Exceptionally strong yet surprisingly light, Edox uses this material to build solid case constructions while giving them a very unique and distinctive look.

Chronometer

When Edox creates a chronometer watch, it means that the movement hosted has successfully undergone the precision test of the Official Swiss Chronometer Testing Institute (COSC), based in Switzerland.

These movements have a certified precision of $-4/+6$ seconds per day, about three times better than a standard Swiss mechanical movement.

Bronze

Bronze has natural properties that set it apart from other materials. Bronze does not rust and is therefore widely used in nautical applications and for some Edox diving watch cases, bronze will react with other elements producing a layer of oxidization on its surface. This patina then acts as a protective coating and makes every Edox bronze watch unique.

DLC

Diamond-Like Carbon (DLC) is a coating in a layer of extremely durable and scratch-resistant carbon particles. It possesses the most desirable physical characteristics of diamond – hardness and durability – and with a sleek beauty. This treatment will improve the durability and the aesthetics of the Edox watch cases.

Hand-assembled

Every single Edox watch is carefully hand-assembled by qualified Swiss watchmakers in our ateliers in Les Genevez. Each one of them is checked and controlled over a long period of time – by both human beings as well as special equipment to ensure optimal quality.

Leather

All Edox leather straps are specially cut, stitched and padded by expert craftspeople. Various ways of tanning provide different touch and feel for the straps made of cow or calf leather. It is always important to remember that colors and suppleness of leather are subject to change with time and exposure to external factors. Daily showers or swims are not recommended. If your consumers live a very active lifestyle, especially one involving frequent exposure to salt water and heavy perspiration, we recommend a steel bracelet or rubber strap.

Luminescence

This technology, branded under the name Super-Luminova, offers brightness in low-light conditions, thanks to a non-radioactive and non-toxic material like the tritium previously employed in the industry. Edox uses Super-Luminova X1 for its highly functional attributes. It is applied on watch parts such as hands, numerals, bezel indices, etc.

Mother-of-pearl

Resilient, and iridescent, mother-of-pearl is integrated in many Edox dial designs. It is produced inside the shells of certain mollusk shells. This is why each dial made of mother-of-pearl is unique.

Movements

Mechanical movement:

A mechanical movement undergoes several stresses in its life. To ensure it will remain functional and precise as long as possible, Edox simulates watch wearing in its own quality office for every single manual and self-winding mechanism.

PVD

Edox uses PVD coatings which is a high-performance pollution-free and non-allergenic technology also used in the aeronautic industry, is widely used in watchmaking. The process involves putting a fine titanium coating on stainless steel by condensing a metal vapor in a partial vacuum.

Rubber

Edox uses genuine high-grade rubber for its straps (a natural material and extremely comfortable). The rubber is silky finished and easy to maintain with the proper cleaning.

Sapphire crystals

100% of Edox timepieces are fitted with a scratch-resistant crystal that has been cut from a polished slice of solid sapphire. Each has a triple-coated anti-reflective treatment on the internal side for better legibility.

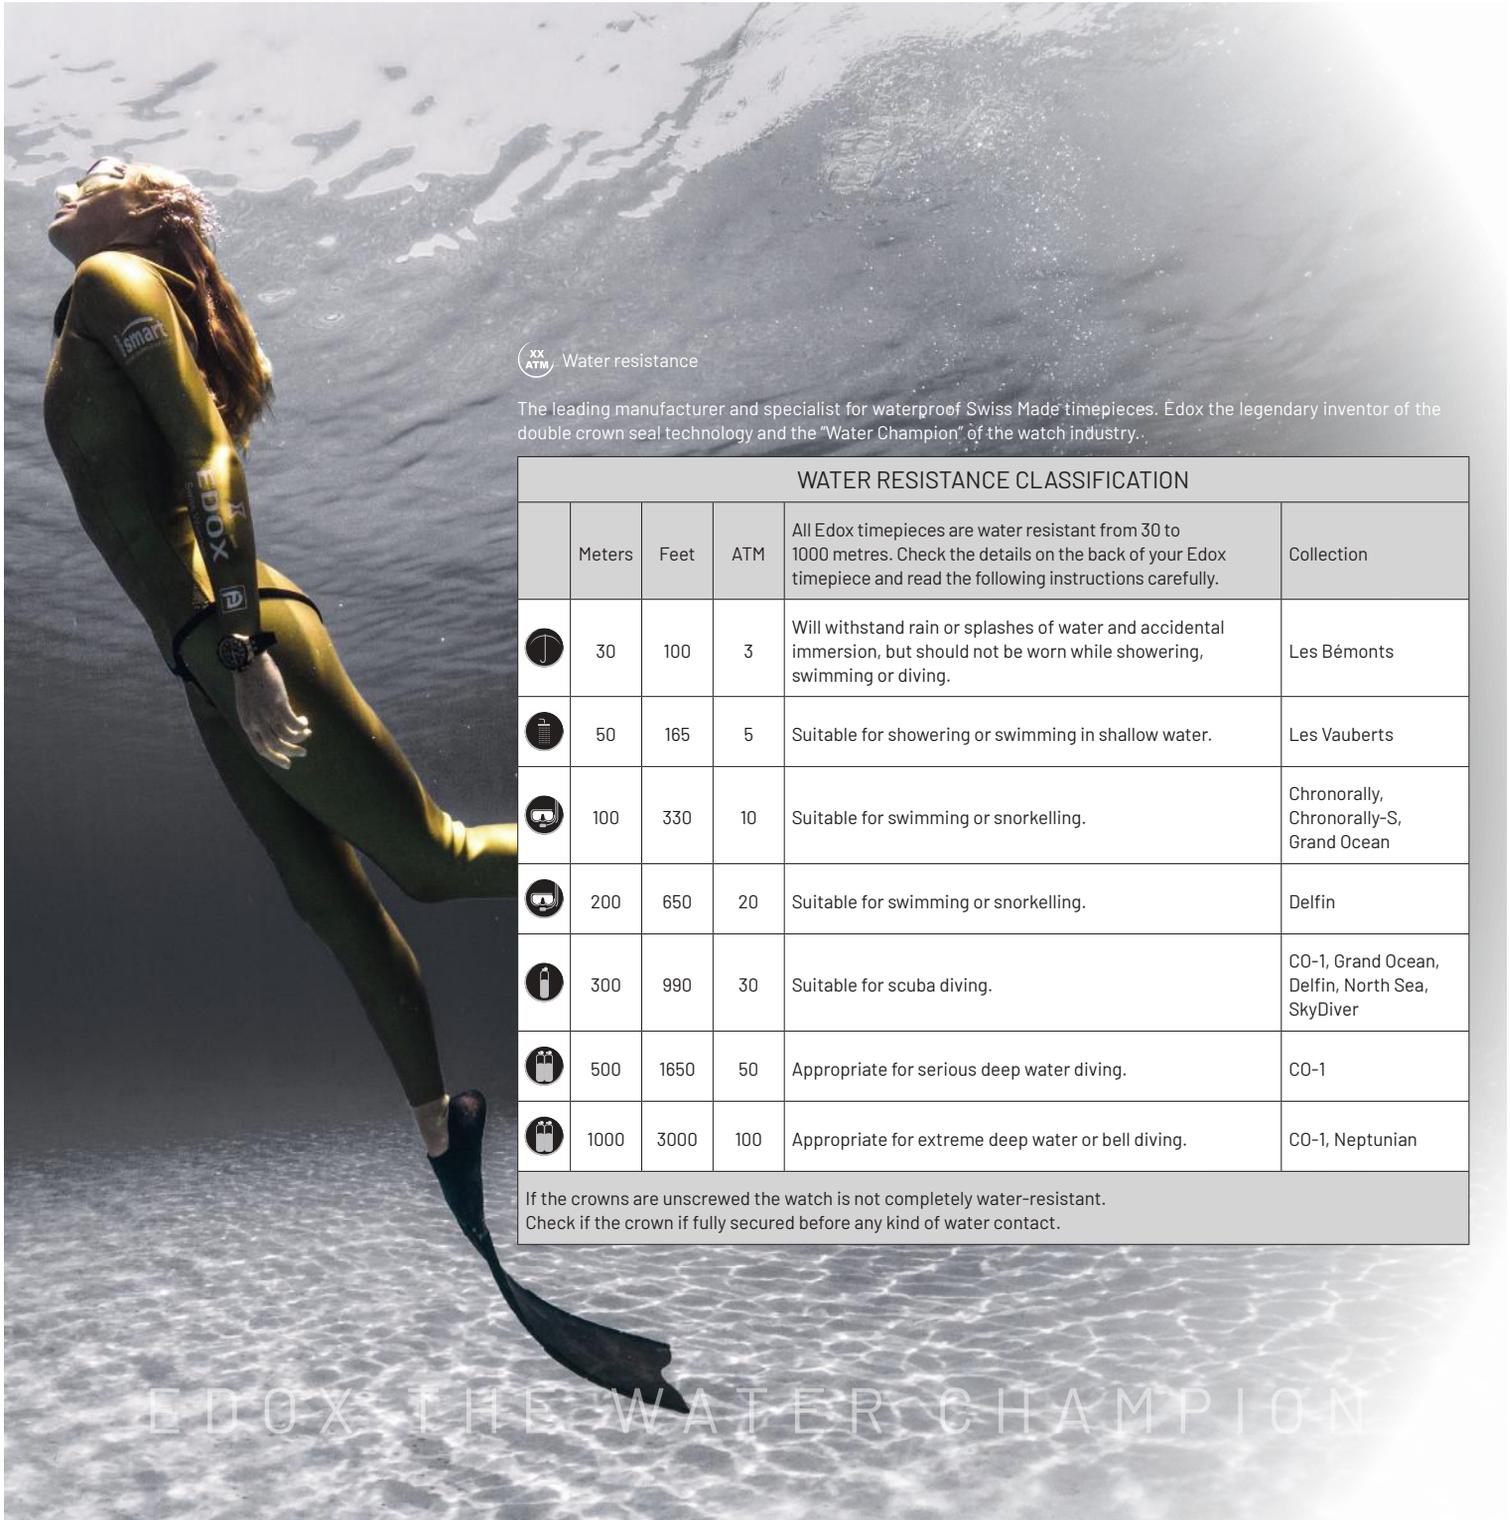

Stainless Steel

The 316L stainless steel alloy used in Edox cases and bracelets has strong anti-magnetic properties and is optimized for toughness and corrosion resistance. It is also a good choice for consumers allergic to nickels.

Titanium

Edox integrates this metal to some of its sports timepieces, as it is as strong as steel but 45% lighter and highly resistant to corrosion. The high tensile strength to density ratio makes it the ideal material for active lifestyles.

xx ATM Water resistance

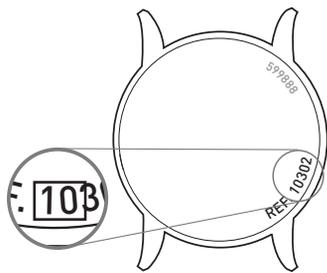

The leading manufacturer and specialist for waterproof Swiss Made timepieces. Edox the legendary inventor of the double crown seal technology and the "Water Champion" of the watch industry.

WATER RESISTANCE CLASSIFICATION					
	Meters	Feet	ATM	All Edox timepieces are water resistant from 30 to 1000 metres. Check the details on the back of your Edox timepiece and read the following instructions carefully.	Collection
	30	100	3	Will withstand rain or splashes of water and accidental immersion, but should not be worn while showering, swimming or diving.	Les Bémonts
	50	165	5	Suitable for showering or swimming in shallow water.	Les Vauberts
	100	330	10	Suitable for swimming or snorkelling.	Chronorally, Chronorally-S, Grand Ocean
	200	650	20	Suitable for swimming or snorkelling.	Delfin
	300	990	30	Suitable for scuba diving.	CO-1, Grand Ocean, Delfin, North Sea, SkyDiver
	500	1650	50	Appropriate for serious deep water diving.	CO-1
	1000	3000	100	Appropriate for extreme deep water or bell diving.	CO-1, Neptunian
If the crowns are unscrewed the watch is not completely water-resistant. Check if the crown is fully secured before any kind of water contact.					

EDOX THE WATER CHAMPION

REFERENCE NUMBER SYSTEM

The following information will help you on how to handle the Edox reference number, which will give you helpful product information regarding movements, dials and cases.

CO-1
01125 | CLNGN | BUNN | Ø 45 MM

01125 CLNGN BUNN

MOVEMENT

The first 2 or 3 digits of these five figures represent the Edox movement code. Please refer to the page 112-116 of this catalogue.

01125 CLNGN BUNN

CASE MATERIAL

The digits and/or letters represent the material and surface treatment (colour) of the case. (See the table)

01125 CLNGN BUNN

DIAL VARIATIONS

The digits and letters represent the colour and design of the dial.
