EDITOR'S NOTE

Hi Avocadians

We've got an action packed edition this month. With the beginning of summer comes the beginning of all things new, this month we'd like to introduce Avocadude, a new addition to our family.

At the beginning of the June, we released new staking options which we'll talk about more further on.

We are delighted to see that our community is as active as ever. Some

great game nights have been had with lots of fun, prizes won, and lots of our scholars taking leadership and contributing roles in the Avocadian Aces and our dedicated AvoArmy!

Enjoy this edition and have a go at this month's puzzles :)

Happy reading.

- AG.Melzzie
Editor

ON THE COVER

We explore our Avocadian Aces in our two-page spread, these are our full-time leaders who work for Avocado, and the AvoArmy, our core contributors and most active members of the community. You will also meet our new Avocado mascot and read the latest crypto updates.

JUNE IS PRIDE MONTH

At Avocado, our community is like a large family where everyone can feel connected through the power of gaming, crossing all boundaries. We wish everyone a month of acceptance, joy, and pride in who you are.

*"We should indeed keep calm in the face of difference, and live our lives in a state of inclusion and wonder at the diversity of humanity."
- George Takei - Famous actor, author, and activist*

AVOCADIAN SCOOP

by: AG.Melzzie

Avocado DAO releases new staking pools!

Our first liquidity pool filled within a short space of time. As previously promised, we have released new pools so that more members of the community can take advantage of the staking program. Avocado has opened three new staking pools, two single-sided staking options and one liquidity pool. This enables token holders to add to the liquidity pool on PancakeSwap and, in return, receive LP tokens on which you can earn extra interest.

We've shared a number of guides to walk you through the process of staking your AVG to gain crypto rewards. With step-by-step instructions on how to stake and add liquidity, you can complete the process with ease. <https://avocadoguild.medium.com>

Our Avocadian Ace and crypto-educator, AG.Natsu will be running a webinar on Saturday the 26th of June at 19.30 PHT for those who want to learn the basics of DeFi and how to use relevant apps and tools.

COMMUNITY PHOTOS

by: AG.Skyy

AG.Chay#8230

Chay, one of Avocado DAO's active scholars, recently bought a laptop using her earnings from her GameFi scholarships. She currently plays Axie, Wasted Lands, Pegaxy and Cyball. According to her, being an Avocado scholar has been very beneficial, she was able to provide for her needs in school and her family. Chay#8230 sees Avocado DAO evolving over the next few years and says that the community will continue to increase. Avocado's intricacy is fascinating, and she is pleased to be a part of this thriving community.

Nuwel99#6963

Nuwel99#6963, a CyBall scholar, joined Avocado DAO in March of this year. As an active scholar, he has become one of the Puzzle Royale testers. Nuwel99#6963 was one of the top players among hundreds of players competing for BUSD prizes, winning a total of \$400 USD. He then used this money to complete his budget for purchasing a laptop that he can use for both gaming and work, as he is also an Avonaut. He currently concentrates on playing CyBall and testing games at Avocado DAO.

STORY OF THE MONTH

By AG.Mxmx

Meet A.G.Jarpix#3802, one of our Avocadians from Indonesia. A.G.Jarpix joined Avocado in July 2021 as an Axie scholar

I am Farrell Ricardo, also known as AG.Jarpix and I'm from Indonesia. I joined Avocado DAO on July the 16th 2021 using an old discord account. I tried filling in the Axie scholarship application form using my old account five times a day and I waited for two months.

One of the guild leaders, AG.Cello who is also from Indonesia, helped me create my new, current discord account and apply again. Thankfully, I got accepted and got my first Axie in September 2021, which is also my birth month. I was really happy and felt like the Axie scholarship was my birthday gift.

I first saw Avocado DAO on Chef Arnold's Twitter. I just graduated from Senior High School and was going to a University but it got postponed because of the pandemic. Because of the stay-at-home situation, I was able to come across Avocado DAO and became a part of this community.

"Another thing that makes me happy is when I can make people around me happy too."

Before I joined Avocado DAO, I was quite a selfish person, then I met many new friends and so many kind people. It made me realize that it's not so bad to be like them and also make new friends. I also started helping other scholars. At first, I was only active on Indonesian channels because I was so shy about my English. Then, I started pushing myself to slowly use English more and now it's so much better. I was able to talk more because AG.Luna was so active and had a positive impact on me. I feel that my speaking has developed because of her too. I was an introvert when I was in Senior High, so I didn't expect to enjoy being friends with new people.

Happiness for me is when my parents are proud of me. Like when they appreciate me when I get rewarded for preparing the best dish in my culinary classes. Another thing that makes me happy is when I can make people around me happy too. I try to keep my surroundings happy because I want to spread positive vibes. Avocado DAO has not only provided me with opportunities to play and learn more about crypto. This community helped me come out of my shell and make new friends which is the best thing anyone could have.

MOD UPDATE

By AG.Demdem

\$AVG & LP STAKING POOLS NOW OPEN

Avocado DAO recently launched its \$AVG staking program which started with great success with the first staking pool full and now closed. As a result of high demand, three additional staking pools have been opened. Each vault has unique attributes and durations, allowing you to choose the most suitable option.

There are two newly added pools for single-sided staking and one all-new pool for staking LP tokens. The new LP token pool recognizes the additional advantage of providing liquidity and as a result, has a greater APR. When you stake LP tokens, both your AVG and LP tokens will be considered for rewards.

In addition, the ability to stake your liquidity provider (LP) tokens has been added, so you may now accrue transaction fees while providing liquidity on PancakeSwap at the same time as receiving staking incentives.

Moreover, Avocado's liquidity pool enables you to contribute liquidity with your AVG tokens. We have put together a blog post to also provide a step-by-step guide on how to LP stake on our Medium blog page: <https://avocadoguild.medium.com/how-to-lp-stake-a-step-by-step-guide-to-staking-your-avg-token-3b1f7e5728bd>

MEET AVOCADO'S NEW MASCOT

Introducing Avocadude!

We're excited to introduce Avocadude, Avocado's new mascot! He has been created to help you on your journey across the Avocadaverse. With regular tips and updates for scholars, you will see more from him soon in our newsletter and other channels.

To get all the latest info from Avocadude as he explores the Avocadian realms, join him on his very own Twitter: <https://twitter.com/AvocadudeAg>

MEET OUR AVOCADIAN ACES

By A.G.Sharon

Avocadian Aces are our distinguished scholars who have been bestowed the opportunity to participate in Avocado DAO's daily operations. They are now hired full-time by the guild as we continue our dedication to empowering our scholars with boundless opportunities in the metaverse. It has been a great privilege to see our leaders blossom as we work together to forge the future leaders of this remarkable Web3 space.

Natsu#3581 (AG. Natsu)

Starting from an Axie scholarship to becoming an Avocadian Ace. Being here was a turning point for me. In terms of finance, skills, abilities, all the way to self-confidence, I can develop all of that here. I have also met a lot of great people in all fields, where I could attain a lot of new knowledge. I feel that being an Avocadian Ace really fits my passion. I will always be grateful to the first person who found me on the lonely high seas and invited me to join, Mr. Brendan Wong.

Skyy#0680 (AG | CM | Skyy)

Since my first day as a scholar, I've spent my time here productively. With each passing hour and day, I feel more integrated into the guild as I become one of the people who work for it. I initially joined the guild to learn Axie and play it. I never expected to be interested in assisting others in joining and understanding GameFi, but I'm glad I did because it's what got me to where I am now. I owe this to you, Avocado Guild.

Mxm#8823 (AG | CM | Maxinnamon)

I have joined Avocado DAO for almost a year and it has been the most life-changing year I have ever experienced. From once a Community Leader, to becoming a Community Manager, and now as a full-time Avocadian Ace, I can definitely say that the guild has helped me grow and believed in my potential. Like a small avocado seed planted in a healthy community surrounded by talented and exceptional people, I was able to grow strong and passionate. Being an AvoAce will be my stepping stone to further introduce Avocado DAO to the world and show how amazing it is to be part of a community that helps one another, provides endless opportunities, and onboards people to the metaverse.

Mins#0342 (AG.Mins)

Avocadian Aces is an exciting opportunity to widen my knowledge and experience by learning more from different professionals in their line of expertise. I may have dealt with criticism from others before but I've learned how to become kinder, wiser, and stand more strongly to what I know and believe. I'm forever thankful for the opportunities and people I've been with here in Avocado Guild. I hope people in this community take the chance to seize the open opportunities that AG has in store for them.

Aikomato#0079 (AG .Aiko)

Avocado was there from the beginning to help me become a better scholar, a better leader and overall a better person and I am eternally grateful for this. Now it's my turn to help and aid not only the guild but my fellow scholars and leaders as well. I want to achieve our goals slowly side by side together, assisting one another all the way.

MEET OUR AVOCADIAN ACES

Mmarifel#7333 (AG.LUNA)

When I became an Avocadian Ace, I learned a lot. I aim to continue learning and contributing to this beautiful family that I have in Avocado DAO, and I hope to become a better version of myself.

Cello.#2098 (AG. Cello)

I always love enjoying my time here helping around the guild or just talking in the booths with my friends that I meet along the way. To me, being able to help as much as I can for the guild is my way of showing appreciation to them for helping a lot of people around the world including me. The guild has changed my life in ways that I could never imagine before, so from the bottom of my heart, I just want to say thank you. ^^

RenRenValdez#5957 (AG.Ren°2x)

From the moment I set foot at Avocado, I knew I wanted to be a part of the guild. Not only as a scholar but as something more. Transitioning from a Community Leader to a Crypto Educator and now an Avocadian Ace, I am humbled by the amazing leadership opportunities that the guild has provided and I can't wait to explore my full potential here in the metaverse.

MieGoreng267(Sophiasta)#4120 (AG.MieGoreng267(Sophiasta))

Avocado was there from the beginning to help me become a better scholar, a better leader, and overall a better person and I am eternally grateful for this. Now it's my turn to help and aid not only the guild but my fellow scholars and leaders as well. I want to achieve our goals slowly side by side together, assisting one another all the way.

Larc#1532 (AG.Larc)

Being an Avocadian Ace is not just about having big responsibilities and being a leader, it is about looking forward to all the new opportunities and memories that we can build inside the community. Within almost a year that I've been here in the guild, I learned a lot about crypto and the Web3 space which was a previously unfamiliar milieu. I started to understand how important the community is and the guild has molded me to become a great person whom others can rely upon.

Avocado introduces the AvoArmy! Our most active and supportive members

For the past months in Avocado DAO, there were a lot of fun activities and exciting events. This has allowed the guild to see the people who have stayed through the ups and downs and continue to show their genuine support.

To show our appreciation, we will be introducing the AvoArmy! Avocadians who have been:

Active in our community (Discord and Telegram)

Have joined our events, webinars, and AMA's

And are consistently supporting our social media platforms (Facebook, Twitter, and Medium)

These scholars will be given the Avocadian Army role and will get a chance to win some prizes. Starting from the 1st day to the last day of each month, the team will be monitoring and assessing scholars who are deserving of the role. New additions will be announced at the start of each month.

This month's AvoArmy

COMMUNITY EVENTS

CONTESTS, TOURNAMENTS & WINNER ANNOUNCEMENTS

by: AG.AtomArc

This month, our community participated in some awesome tournaments. There were lots of opportunities to win prizes with the Blast Royale Tournament, Mobile Legends, and Bomb Party game nights. Everyone had great fun playing and competing. We also had some educational events with the Web3 webinar hosted by Avocado DAO's Crypto Educators and Avonauts.

Avocado x Blast Royale Tournament

Exhilarating. Entertaining. Fun. Avocado DAO and Blast Royale hosted a two-day open tournament to play their game "Blast Royale" on Avocado DAO's server.

Participants from 16 different countries competed for the top spot: Albania, Belarus, Belgium, Bulgaria, Denmark, England UK, Greece, Nigeria, North America, Portugal, South Africa, United Arab Emirates, USA, Vietnam, Philippines, and Indonesia.

The event was a success thanks to our Avonauts and AG.Sharon, who moderated the event, and a special thanks to everyone who participated in the tournament and shared their gaming skills and wit, as well as the bonds they formed with other players.

"T'was a fun and a great experience for me to play the Blast Royale Tournament, connecting with my fellow Avocadians and other players," said AG.Jouzka.

GIVEAWAY TO 5 WINNERS

 discord.gg/avocadoguild

A webinar entitled "The Next Evolution of the World Wide Web: WEB 3.0" took place on May 15th, and was hosted by Avocado DAO's Crypto Educators and Avonauts.

AG. Milvuks, one of our Crypto Educators, talked to everyone about the DAO and WEB 3.0 to educate scholars and non-scholars about cryptocurrency, especially about Avocado DAO.

Aside from that, the hosts shared what they thought about these topics, and at the end of the webinar, there was a Q&A session where the participants could review what had been talked about.

"It's a lot of fun to be a presenter for this webinar. It was my first time presenting in English, and it was an unforgettable experience," said AG.Milvuks.

GAME NIGHT

Bomb Party Game Night

Avocadians had a great time at yet another game night at Avocado DAO, where they played "Bomb Party," a very fun explosive word game hosted by the Avonauts.

"I had a lot of fun playing and the game night was lively as we chatted while throwing words around. I also got to know some of my fellow Avocadians. Overall, it was a night to remember," said AG.Railgun.

WHAT'S NEW IN CRYPTO

AVOCADO DAO UPDATES

by: AG.Natsu & AG.ROLF

Blast Royale: Survive and Win Crypto Rewards

In 2022, more and more non-fungible token (NFT) games are appearing on the Polygon network. One such currently popular game is Blast Royale.

Through this game, players are invited to explore the globe of the metaverse while surviving enemy attacks and gaining the maximum amount of profit possible.

How to play and win rewards in Blast Royale?

To play and farm tokens in Blast Royale is incredibly easy, not much different from other battle royale games such as Thetan Arena. You need to survive enemy attacks while collecting the maximum rewards possible.

In addition, players are given the chance to develop their game skills by completing all daily quests and collecting NFT assets. Players may exchange information about NFT items that are valued for money in real-time.

Profits can also be obtained from trading NFT assets within the marketplace. Interestingly, buyers and sellers are given separate containers within the application to interact with one another and make transactions.

Voxie Tactics: Collect! Battle! Win!

Voxie Tactics is a tactical role-playing game (RPG) built on blockchain technology with opportunities to win rewards, it's also free to play. Players can collect 3D pixel NFTs called Voxies, defeat enemies, collect pets and weapons, and receive cryptocurrency as rewards!

To play Voxie Tactics, you need to have NFTs called Voxies. There are only 10,000 unique Voxies, each with their individual attributes, race, class, and rarity, but you can still play Voxie Tactics with the default characters provided for free.

How does winning crypto rewards work with Voxie Tactics?

The way winning crypto rewards works in Voxie Tactics is not that different from other blockchain games in general. First, by playing and completing a mission, players will gain crypto (\$VOXEL) and NFT as a reward. The second is by trading Voxie Tactics NFT assets on secondary marketplaces, such as OpenSea.

Currently, Voxie Tactics is still in the Beta stage, and can only be played on PC, but over time there will be many interesting and fun features to offer!

TRIVIA - Hot or Cold Wallet?

When money is saved, it's usually stored in a wallet. It's the same in the digital asset world. The wallet itself is divided into two:

1. Hot Wallet

Hot wallets are similar to m-banking accounts which are commonly used daily. Hot wallets are used to make transactions for cryptocurrencies and NFTs. However, since they are online, hot wallets can be at risk of being hacked and there is no guarantee that the provider will be responsible if you lose assets that way. That's why many people transfer their crypto assets to a cold wallet.

2. Cold Wallet

The form of a cold wallet is hardware (Similar to a flash drive). We can use this kind of wallet without the internet (offline) and that's the reason that this type of wallet is claimed to be very safe from hacking. A cold wallet also needs to be purchased separately.

Although cold wallets are the safest alternative at the moment, the downside of cold wallets is that most providers don't provide access to a wide variety of coins, only the larger cryptocurrencies that are widely known – for example, Bitcoin and Ethereum.
