FS Combine

Powered by **clippd**

Full Swing and Clippd have partnered to bring you the ultimate Combine experience! Clippd is an AI golf technology that scores every shot a golfer hits to provide the most in-depth, objective analysis of their game - their strengths, weaknesses and opportunities to improve. FS Combine is powered by Clippd and their proprietary Shot Quality metric to take your practice to a new level.

A full-page photograph of Tiger Woods in the middle of a golf swing. He is wearing a blue and white striped polo shirt, blue cargo shorts, a white belt, a white cap, and white sneakers. He is holding a golf club. In the foreground, on the grass, is a black launch monitor displaying data: 165, 83.1, 16.1, 12.8, and the brand name FULL SWING. Next to the monitor is a row of five white golf balls. The background is a dense line of green trees and foliage under bright sunlight.

"I asked Full Swing to make a launch monitor that I could trust every shot and they delivered more than I ever could have expected."
