And if you like us, please leave a review!

steps to sleep

Unpack

Place this box in the room where you sleep.
Take the compressed mattress out of the box.

Unroll

Remove your mattress from the outer plastic layer and place it onto your bed foundation.

Unwind

Carefully cut and remove the inner plastic sleeve.
Be extra careful not to cut the cover.
Your mattress will immediately start to expand.
Your mattress may take up to 48 hours to reach its full potential, but you can sleep on it whenever you want.

frequently asked questions

Where does Sleep Innovations make its mattresses?

We design and finish our products in the USA and Mexico. Our foam is made by us in our factories, for quality you can trust. It is CertiPUR-US® certified for durability so you can rely on high-quality sleep.

How do I clean my mattress?

You can spot clean your mattress with a damp cloth and mild, clear soap.

Please let it air dry completely before covering with fresh sheets.

We have also included product specific care instructions on the sewn-in tag.

Do not remove the cover as it provides flammability protection.

My mattress doesn't feel how I thought it would. What should I do?

Foam distributes weight evenly across the body, which relieves pressure points.

Sometimes it take a few nights to get used to this new feeling.

Give this mattress a little time and you'll be experiencing the deep, undisturbed sleep that you deserve!

now enjoy your best rest.

That's all there is to it. Seriously,
this isn't rocket science.
