## SUMMARY

### Architect

Architect with a Bachelor's degree, distinguished by the ability to translate creative visions into executable spatial solutions by integrating artistry, technical precision, and innovative methodologies.

I seek to play a pivotal role in architectural projects aimed at elevating aesthetic and functional standards.

### Product Designer

As a Product Designer, I possess a broad passion for fine details and a focus on culture and heritage-based design to deliver functional solutions. I look forward to leveraging my skills in facilitating individual lives through innovative products, and building a prestigious and impactful professional career.
