Located in the rolling hills of Norton County, Kansas. Travel approximately 2 miles south of Densmore, Kansas on County Road E8. The property will be located on the west side of the road. Signs will be posted.

The Campbell Spring Ranch encompasses 514.20 +/- all contiguous acres overlooking the Solomon River Valley. These large native grasslands offer a mixture of cool and warm season grasses throughout the ranch with scattered cedars and brush blanketing the hillsides. The deep draws running through the property are filled with mature cottonwood, elm, cedar, and a variety of brush, providing optimal wildlife habitat for the whitetail, mule deer, and several upland game species found on the ranch.

Whether you are stocking cattle or building a wildlife sanctuary, water is a key feature in this region. This ranch boasts a submersible well and a number of ponds spread across the ranch for great access to water. In the center of the ranch you will find a well-built corral and loadout chute, set up for easy transport of livestock to and from the property. This ranch has easy access to Highway 9 from a well-maintained gravel road, with quick access to electricity.
