Asalaamu Alaikum

On 11 May , FIANZ organised a hui in Wellington for Muslim youth from around the country . These youth leaders had workshop sessions addressing a number of areas including national security and the current situation in Gaza. Subsequently the youth leaders from the various campuses organised a coordinated nationwide awareness programme and protest at each of the campus last Thursday . The programme was in association with students from various ethnic (Māori , Pasifika, Pakeha, Palestinian, Asian and others) and faith ( Jews, Christians, Muslims and others) backgrounds.

Alhamdolillah, this event was a tremendous success based on the numbers attending , the feedback and the media coverage locally and overseas. Al Jazeera also showed the protests in both their Arabic and English news. What was most heartening was that the youth later received messages from Gaza thanking them for their effort.

Attached are the clips from Al Jazeera .
