Foreword

Music creates connection.

ClassicKlang Vision designs musical experiences that enable clarity, atmosphere, and genuine encounters.

As an agency for music, artists, and events, we develop musical concepts tailored to each occasion, moderate with warmth and presence, and create formats that connect and move people.

In private settings, in companies, and in public spaces — across classical, semi-classical, and classical/pop music.

Our Approach

Music creates encounter. Planning creates clarity.

ClassicKlang Vision brings both together: artistic quality and professional structure.

We design musical experiences that connect people, transform spaces, and are carried out with reliability.

Music arises in togetherness – and stays alive in memory.

The Three Pillars of ClassicKlang Vision

■ Music Planning

- Dramaturgical concept
- Artist selection & coordination
- Scheduling and spatial planning

■ Music Moderation

- Introductions & moderation
- Dramaturgical guidance
- Connecting music and audience

■ Music Event Production

- Organization & moderation
- Technical and spatial coordination
- On-site support

Planning Music

Musical experiences begin with a clear idea.

We develop dramaturgical concepts, select suitable artists, and design processes that provide orientation and make meaningful use of spaces. This creates planning that unites artistic quality with professional structure.

Make yourself comfortable – we're already planning ahead.

All in blue.

Moderating Music

Moderation creates connection.

We guide audiences through programs, open pathways into the music, and shape transitions that bring audiences and artists into relationship.

Our moderations are clear, warm, and dramaturgically guided.

Please take a seat – moderation works best when seated. All in green.

Producing Music Events

A successful event requires structure, calm, and reliable processes.

We coordinate technology, space, and artists, provide on-site support, and ensure that every detail is right.

This creates a musical experience that is professionally executed and atmospherically supported.

Have a seat – we're just checking the tech. As red as it gets.

For our clients

We create moments that stay.

Because music is at its strongest when it makes people happy.

Music connects — and we look forward to the moment when an idea becomes a shared experience.

For inquiries, programs, projects, or an initial conversation: ClassicKlang Vision is open to you — personal, professional, connecting.
