

NANOChanneling Facial

Gillian's

This is a no -invasive facial treatment very different to micro-needling as it does not draw blood or pierce the skin. This facial treatment can effectively treat skin conditions such as fine lines, wrinkles, scarring and pigmentation.

NANOChanneling Facial

This treatment creates nano channels in the skin allowing for 100% more absorption of skin products. It is non-invasive and painless and allows for active ingredients to penetrate the skin. It does this while stimulating collagen and elastin to repair damage from sun, dehydration as well as hyper-pigmentation, poor skin texture and uneven skin tone, wrinkles scarring and acne conditions. This is truly a revolutionary treatment. Based on your skin's needs a blend of serums will be added for the most powerful results.

What To Expect: The day after the skin will feel slightly sun or wind burned and there may be some light pink lines that typically fade within 24 hrs and may easily be covered with tinted sunscreen .

MICRONEEDLING FACIAL

added depth

The needles create tiny micro-cavities in the skin's surface. This stimulates the regenerative processes that naturally take place in the skin everyday. Stimulating an increased production of collagen and elastin causing the skin to become firmer, for scars to gradually reduce and for wrinkles to smooth out.

MICRONEEDLING FACIAL

Micro-needling is a process called collagen induction therapy (CIT). CIT is the skin's own ability to repair itself. Treating yourself to CIT and creating controlled induction of the skin's self-repair process by making deliberate micro injuries to the skin. This then creates and triggers the release of growth factors for the production of new collagen and elastin, which what we lose as we age.

Microneedle is a non-invasive treatment which gives your skin that glow you're looking for. Micro-needling targets fine lines, wrinkles, texture, loss of tone and elasticity, enlarged pores, acne scarring and pigmentation.

AFTER-CARE

The day after treatment, wash your face with a gentle cleanser and apply a nourishing moisturiser. Avoid products containing fragrances or active ingredients (vitamin C, A/Retinols), acids (lactic acid, AHA, BHA), scrubs or toners which may cause irritation.

Avoid exercising, sweating excessively, swimming or applying makeup for 24 hours. You must apply a high protection sunscreen when going outdoors, and avoid prolonged sun exposure.
