Turning everyday routines into experiences

Behind every product is a story and that story starts with you. Home is an expression of who you are and how you enjoy life with others. We are here to dress your home to stand out through the sophisticated details and ambitious design. Our passion is creating better experiences that turn a routine into a ritual, a meal into a creation, a chore into a pleasure.

Ada kisah dibalik setiap produk dan kisah itu dimulai dari Anda. Rumah adalah sebuah ekspresi Anda dan bagaimana Anda menikmati hidup dengan orang lain. Kami siap untuk mendandani rumah Anda agar menarik melalui detail yang cerdas dan rancangan yang ambisius. Kami ingin menciptakan pengalaman yang lebih baik yang mengubah rutinitas menjadi ritual, makanan menjadi ciptaan, tugas menjadi kesenangan.

Maintenance Guide

Solid Surface Products

Rinse

A regular rinse with household detergent or dish soap (ex. Rinso, Mama Lemon) to keep the basin clean. You can also brush it with tooth brush or similar soft brush.

Bilas secara teratur dengan deterjen rumah tangga atau sabun cuci piring (mis. Rinso, Mama Lemon) untuk menjaga wastafel tetap bersih. Anda juga bisa menyikatnya dengan sikat gigi atau sikat lembut sejenis.

Dry

Dry using microfiber towel after regular rinse to keep water spot from appearing.

Keringkan menggunakan handuk microfiber setelah dibilas secara teratur agar noda air tidak muncul

Maintenance Guide

Solid Surface Products

Polish

To remove water spots you can polish using magic sponge with warm soapy water. To repair a deep scratch mark you need sandpaper or polishing machine starting from rough to fine sand paper.

Untuk menghilangkan noda air Anda bisa memoles menggunakan spons ajaib dengan air sabun hangat. Untuk memperbaiki goresan yang dalam Anda membutuhkan amplas atau mesin pemoles mulai dari kertas amplas kasar hingga halus.

Before

A regular cleaning and polishing will keep your solid surface product looking great. You may need to clean more often depending on the quality of the water.

After

Pembersihan dan pemolesan secara teratur akan membuat produk solid surface Anda terlihat bersih. Anda mungkin perlu membersihkan lebih sering tergantung pada kualitas airnya.

Floor Drain

Length 1000 mm

The floor drain cover can be flipped and filled with tiles to make it seamless and still make a statement with the coloured border. It also have brass outlet that automatically open when there is water on it. The long shape is suitable for shower to drain water from the floor faster.

Penutup saluran pembuangan lantai dapat dibalik dan diisi dengan ubin untuk membuatnya mulus dan tetap menonjolkan garis tepi berwarna. Ini juga memiliki outlet kuningan yang terbuka secara otomatis ketika ada air di atasnya. Bentuknya yang panjang cocok untuk shower untuk mengalirkan air dari lantai lebih cepat.

Care & Maintenance

We hope that the product installed at your place to retain the beauty for as long as possible and for you to enjoy using it. Please follow the following care and maintenance instruction.

Kami berharap produk yang dipasang di tempat Anda dapat mempertahankan keindahannya selama mungkin dan Anda menikmati menggunakannya. Ikuti petunjuk perawatan dan pemeliharaan berikut.

CLEANING AND MAINTENANCE

- Use natural cleaning products only and no abrasive cleaning cloths.
- Weekly cleaning with warm soapy water and a microfibre cloth is recommended.
- Dry after each use to reduce watermarking and surface rust.
- Use diluted toothpaste and water for hard to reach places and to restore the vitality of the finish.
- When cleaning, wipe in the direction of the brushed grain to maintain the brushed appearance.
- For renovations and new builds, flush pipes before first use.
- To best maintain finish, do not let water pool.

CAUTION

Do not use chemicals or abrasive cleaners. This includes:

- Bleach and bleaching agents
- Ammonium and ammonium agents
- Highly acidic cleaners
- Alcohol and mineral-based solvents
- Limit exposure to high levels of salt.
- If your product comes into contact with any of these chemicals, rinse immediately with warm soapy water.
- Avoid scourers and rough brushes for cleaning.
- Avoid contact with sharp objects which could chip or scratch the surface.
- Do not put heat directly on surface.

You can view our care and maintenance instruction on our website :

<https://atesonhome.com/care-maintenance/>

PEMBERSIHAN DAN PEMELIHARAAN

- Gunakan produk pembersih alami dan jangan menggunakan kain pembersih yang kasar.
- Pembersihan mingguan dengan air sabun hangat dan kain mikrofiber dianjurkan.
- Keringkan setelah digunakan untuk mengurangi tanda air dan karat pada permukaan.
- Gunakan pasta gigi encer dan air untuk tempat yang sulit dijangkau dan untuk mengembalikan vitalitas selesai.
- Saat membersihkan, usap ke arah butiran yang disikat untuk menjaga agar tetap tersikat penampilan.
- Untuk renovasi dan bangunan baru, siram pipa sebelum digunakan pertama kali.
- Untuk mempertahankan hasil akhir yang terbaik, jangan biarkan air menggenang.

PERINGATAN

Jangan gunakan bahan kimia atau pembersih abrasif. Ini termasuk:

- Pemutih dan zat pemutih
- Agen amonium dan amonium
- Pembersih yang sangat asam
- Alkohol dan pelarut berbasis mineral
- Batasi paparan garam tingkat tinggi.
- Jika produk Anda terkena bahan kimia ini, segera bilas dengan air sabun hangat.
- Hindari penggosok dan sikat kasar untuk pembersihan.
- Hindari kontak dengan benda tajam yang dapat merusak atau menggores permukaan.
- Jangan menaruh panas langsung di permukaan.

Anda dapat melihat instruksi perawatan dan pemeliharaan kami di website kami:
