ZENARC

Choose ZENARC for Quality, High Performing Welding Consumables at Affordable Prices.

The Zenarc range consists of Mig and Tig wires, gouging and welding torches and small consumables that are now available in kits. This everyday consumable range is designed for customers who are seeking an efficient, economical option for everyday welding applications.

Aussie Flap Discs

- Proudly made in Australia.
- Zirconia grit for fast grinding.
- No backing pad required.

Xtreme K4000HD Gouging Torch

- Heavy Duty 1000 Amp Gouging torch for use with 5-13mm carbons.
- Comes with 2.1m swivel cable.
- Robust, durable design.

S6 Mild Steel Mig Wire

- High quality copper coated.
- Premium S6 grade, precision layer wound.
- Tried, tested, proven.
- Available from 0.6-1.6mm.

Consumable Kits

- Available to suit many common MIG and TIG torches.
- All your torch consumables in one place.
- Quality replacement parts.
- Easy reordering.

Cutting-Edge Solutions For Welding Demands.

For over four decades, Hyundai Welding has been providing top-notch welding solutions to a variety of industries across the South Korean economy. As a premier welding partner to Hyundai Motors and Kia Motors, the company has helped increase productivity and reduce costs through its cutting-edge technologies.

Hyundai Welding's flux cored wire is widely recognised as some of the best quality in the world. The company works closely with leading shipbuilding and heavy industry companies to develop competitive welding solutions that meet the demands of their customers.

Stainless Steel Electrodes

- Available in 308, 309, 312 and 316 grades.
- Handy 2.5kg plastic pack with screw lid.
- Made in Korea for highest quality.

Gasless Mig Wire E71T-11

- Arguably the best gasless wire in the world.
- All position designed for single & multi-pass.
- Great operator appeal with extremely smooth arc & low spatter levels.

Flux Cored Mig Wires

- High productivity and superb weldability.
- Product range includes 71, 81Ni, 70C-6M Metal Core & Stainless Flux Core.
- Consistent great feedback from welders.

Ball Pac Mig Wire

- Take your welding experience to a higher level.
- Reduce downtime and improve productivity.
- Better feeding with the anti-tangling design.

"ACL have worked with us and been very competitive in their pricing. It's helped us save money without compromising on supply. I go to ACL because they treat me the best, they are very easy to deal with and provide a great service. If I need something, they make it happen."

- Mick Lynch

Tight-Fitting Respiratory Protection.

Elipse masks are the most innovative tight fitting respirators launched into the safety market during the last 20 years. Using patented encapsulated filter technology, GVS Group design and manufacture products that fit you, and that makes your day more comfortable.

Elipse Half Mask Respirator

Elipse Integra Respirator

Elipse Full Face Respirator

Loose-Fitting Positive Pressure Respiratory Protection.

GVS-RPB Respirators are designed for the toughest environments, in collaboration with the most demanding users. Designed in New Zealand and manufactured in the USA, these respirators make no compromise between safety and comfort.

Your Next Shutdown Project Made Easy. Partner with a Supplier that Thrives on your Challenges.

Customise a solution to suit your needs. Choose either supply only of tooling and consumables, or choose the complete package with an onsite store set up that includes all your critical supplies, a 24/7 storeperson and daily reporting.

- Reduced Logistics Costs
- Improved Inventory Management
- Streamlined Procurement Process
- Improved Communication and Coordination
- Reduced Waste
- Increased Productivity

Cubitron™ 3
Performance Abrasives

Produce more. With less.

Breakthroughs in technology that redefine the limits of cut rate and total stock removal, with a focus on prioritising productivity, safety, sustainability, and optimising automation.

Lasts longer

Cuts faster

Cuts cooler

SWISS AIR

Safety doesn't have to mean discomfort.

With the optrel swiss air PAPR, you always have enough fresh air available. The respiratory support technology and the ultra-flat and lightweight rucksack design reduce the fatiguing effect, so you can complete your demanding jobs more easily.

No mask fit test required

X5 FastMig Multi Process Welder

Extraordinary arc welding productivity

- 360-degree modular multi-process welder.
- Setup options for manual, synergic, and pulse welding.
- Wide range of accessories which brings flexibility and efficiency to welding production processes.

Ailclear FUME CONTROL

Welding Fume Extractors

- 7 Year Warranty.
- Cleanable cartridge filter for extended life and significantly lower filter replacement costs.
- Exceptional suction power with max air flow rate of up to 3,500 m³/hr.
- Range of units available with manual and auto cleaning, 1ph or 3ph power, single or twin arms.

tig brush™

Stainless Steel Weld Cleaners

- Clean and passivate welds in seconds.
- The best electrolytic weld cleaner alternative to pickling paste and grinding with abrasives.
- Avoid grinding dust and the dangers of pickling paste.

HYPERTHERM™

A Hypertherm Associates Brand

Powermax SYNC Plasma Cutters

- Single piece cartridge.
- Simplifies system operation.
- Streamlines consumable inventory.
- Lowers operating costs.
- Maximises performance.
