Steroplast's Global Network: Delivery, Export & Distribution

Efficient and secure delivery services

We aim to ensure prompt and secure delivery of your first aid and healthcare supplies through trusted courier services, offering efficient 1-2 working day delivery across UK mainland. Delivery is free of charge on all website orders over £40 (excl. VAT).

For those near South Manchester, a free collection service from our warehouse is offered, with an option for contactless pickup. Please note, shipping to the Channel Islands, Shetland Islands, Hebrides, and other specified regions requires special arrangements due to extra fees and logistical complexities.

For additional services including early morning and Saturday delivery, please contact us directly.

From the UK, to 57 countries worldwide

Understanding the complexities of international regulations is the key to the dependable service customers turn to for peace of mind.

Export to Europe: As our main export region, we're acutely familiar with all key regulations you must meet for healthcare, pharmaceutical, and medical equipment exports to the EU.

Export to the USA: If you're a US distributor interested in getting FDA approval to supply our products in the US, we're ready to work with you.

Export to the rest of the world: Leveraging our 25 years of industry expertise, we collaborate closely with our US customers to ensure adherence to all necessary regulations for seamless, compliant international trade.

25% of our turnover comes from medical equipment exports to **57 countries** worldwide.

We help distributors build credibility at no extra cost

We are one of the leading suppliers for distributors of medical equipment, consumables & disposables. A partnership with Steroplast can help you increase revenue and build your brand into the one your clients go to whenever they need premium medical and emergency supplies.

Premium Steroplast products supplied with your own logo and company branding

Swiftly introduce new, high-quality items to your shelves

All Steroplast products are white-label, meaning they can be re-designed with your branding and sold under your label. We do this internally, so all you need to do is tell us what you want and provide some design assets like your logo.

Items like our British Standard first aid kits can be re-branded with any design on their label. Retailers with limited resources can offer products well above their means for development thanks to our white-label service.

Bespoke B2B Packaging

We can make 100% bespoke packaging for your products, including completely custom all-over design and assembly. Get your stock completely consumer-ready with a professional, large-scale service.

Launch new product lines, expand your range, or break into new markets without facing costly product development, research, testing, and certification. Our own label service is a low-risk opportunity to offer new products and test stock out in your audience, all while building brand recognition as a highly reliable, excellent-quality supplier of healthcare, medical, and pharmaceutical goods.

Sell our premium healthcare products, trusted by UK hospitals, under your brand name and get the business reputation you want.

First Aid Bags & Boxes

We supply own-branded first aid kits for retailers, allowing them to offer customised products featuring their company logo. This helps build brand recognition, creates a professional appearance, and encourages customer loyalty.

Branded first aid kits can also differentiate a retailer's range from competitors, adding perceived value and exclusivity. With options tailored to various industries and consumer needs, these kits ensure compliance while providing retailers with a strong marketing tool that reinforces their identity.

- ✔ High quality graphics to accompany your logo
- ✔ Communicate essential information
- ✔ Professional photography as required
- ✔ Glossy labels and sleeves printed
- ✔ Choose from a variety of formats
- ✔ Low MOQ's for products with custom labels

Pharmaceutical Supplies

Did you know that Steroplast can supply all your pharmaceuticals and medicines?

You can now buy all your pharmaceuticals and medicines from one location, saving you time and money.

Steroplast stocks everything from GLS products to P-Meds and POM supplies.

POM - Prescription Only Medicines

Any medicine classified as a POM is restricted for use under medical supervision on a prescription only.

P lines - Pharmacy medicines

Medicines classified as "P" lines are restricted for use under the supervision of a pharmacist.

GSL - General Sales List products

Available for sale in general retail outlets (restricted by pack size). These items are considered safe for use without medical supervision.

We guarantee quality assurance and security screening

Our high quality and safety standards extend to everyone who has access to our products, and it's paramount that we uphold this responsibility to our clients.

Our quality system is fully compliant with the MHRA

Medicines and Healthcare products Regulatory Agency

Outdoors & Survival

Essentials for outdoor adventures, survival missions, and remote expeditions

Scan the QR code to view these products online.

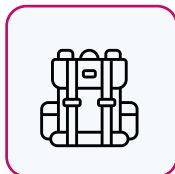

Specialist First Aid Equipment for the Outdoors

Our high-quality products are used by search and rescue professionals, military personnel, and emergency responders, so you know they're the apex of quality for high-pressure situations and endurance missions. Ensure your store meets the needs of outdoor enthusiasts, hikers, and survivalists with confidence.

This is the right place for:

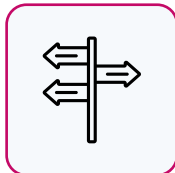

Outdoor retailers and camping shops

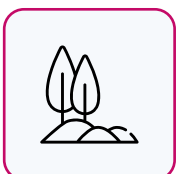

Survival gear stores and prepper supply shops

Sports and adventure equipment shops

Pharmacies and stores near hiking adventure spots

General stores in rural or remote areas

Military surplus shops

How we help you:

- ✓ Find compact, multi-use tools like SAM® Splints and trauma kits designed for survival situations.
- ✓ Lightweight, space-saving designs that easily fit into backpacks—perfect for hikers, climbers, and outdoor enthusiasts tackling remote or unpredictable environments.
- ✓ Find products like haemostatic agents and survival blankets designed to be adaptable to a variety of scenarios, from injury stabilisation to extreme weather survival, meeting the diverse needs of your outdoors-focused customers.
- ✓ Add credibility to your store's offerings with gear used by professionals, including rescue teams, military personnel, and survival experts.
- ✓ Our range is designed for environments prone to extreme weather or remote access, helping customers stay prepared for worst-case scenarios.
- ✓ Appeal to outdoor and survival enthusiasts, from casual hikers to preppers, by offering proven, life-saving tools that are easy to use without training.

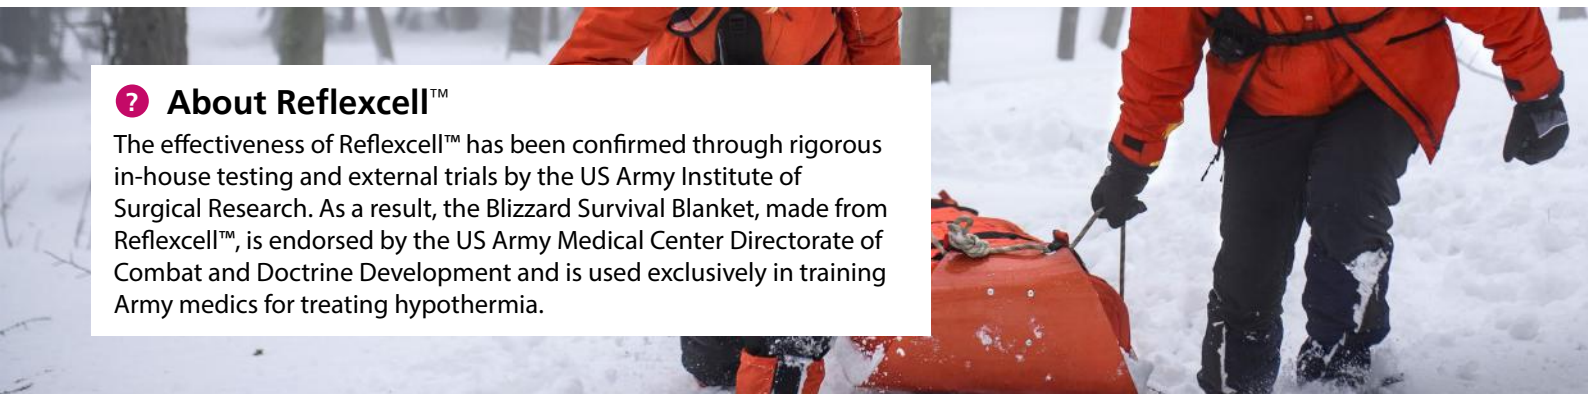

Blizzard Survival

Blizzard survival bags, blankets, and jackets used by mountain rescue teams, made with Reflexcell™ material for unparalleled thermal protection during survival sports and rescue missions. Revolutionary thermal protection for extreme cold conditions designed to save casualties in critical conditions in the cold, and packed in backpacks just in case. Waterproof and windproof high-performance defence against the elements.

? About Reflexcell™

The effectiveness of Reflexcell™ has been confirmed through rigorous in-house testing and external trials by the US Army Institute of Surgical Research. As a result, the Blizzard Survival Blanket, made from Reflexcell™, is endorsed by the US Army Medical Center Directorate of Combat and Doctrine Development and is used exclusively in training Army medics for treating hypothermia.

Emergency Lighting

Keep emergency lighting on hand for situations when visibility is impaired.

Lightsticks are a must-have for adventure backpacks, extreme sports first aid kits, and a vast array of other situations. Add them to the boot of your car, keep them in your tent, or add them to kids' bags on holidays. They don't require a power source to work and provide life-saving light or help to make you more visible in a crisis.

Cyalume® 6" (15cm) Snaplight Lightsticks

- Its design emits light in a 360-degree radius
- Long-lasting, safe illumination for various settings
- No batteries needed, simply activate & use

We also stock pen torches

Ideal for precision lighting and checking pupils of casualties.

See **page 38** for more details.

Bleed Control & Trauma

Make sure customers can pack properly for their adventures.

Clotting haemostatic agents for severe blood loss, specially selected trauma dressings and a range of different tourniquets—all easy to use in a crisis. Bleed control supplies are ideal for those in high-risk situations like extreme sports and survival conditions.

Extreme sports and survivalist missions require a step above the standard first aid kit. We stock professionally assembled critical injury first aid kits designed to help handle more serious injuries out in the wild.

Tourniquets

Designed for rapid application, they feature a range of mechanisms, including windlass systems, stretch-wrap designs, and quick-release buckles, ensuring ease of use even in high-pressure situations.

Emergency Bags

Keep your gear safe for when you need it most.

Bags designed to withstand the harshest weather conditions and be carried through extreme terrains, protecting vital first aid equipment. Our range of reflective water-resistant backpacks and emergency bags is used by not only emergency responders but also survivalists, extreme outdoors adventurers, and medics on wilderness courses or tours.

A leading brand, WaterStop bags are made for medics and military personnel. Their high-spec design appeals to professional and enthusiast survivalists and sports people. They feature a Teflon shield with WaterStop technology to completely repel dirt and liquid, keeping their vivid colours highly visible. We also offer modules to help with better organisation inside, so you don't need to waste any time finding what you need.

WaterStop® Bags

Heavy duty emergency WaterStop® Bags with modular compartments and varying in size and design. Each bag features Teflon shield and WaterStop® technology to repel dirt and liquid.

Pharmacy & First Aid

Premium products packaged and ready for point of sale on the high-street

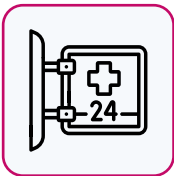

Scan the QR code to view these products online.

Ideal for Pharmacies, Retailers, and Online Stores

Retail shelf-ready products, packaged and labelled to attract and inform your customers. Complete your first aid aisle with the best everyday essentials from award-winning plasters to Pharmacy Medicines.

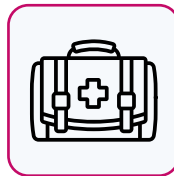

This is the right place for:

Pharmacies catering to general & specialist first aid

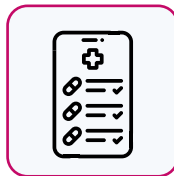

Convenience stores stocking essential health items

Health & wellness retailers focusing on everyday care

Sports shops with injury prevention & treatment sections

Online retailers selling first aid & pharmacy supplies

How we help you:

- ✓ Packaging designed specifically for retail stores, with colourful boxes and bags, cohesive brand design, consumer information, and options for customisation.
- ✓ A comprehensive range of everyday essentials like plasters, dressings, and bandages to establish repeat business.
- ✓ Provide industry-specific products, such as sports taping and catering-first aid kits and items for specialist needs, such as maternity, wound care, and resuscitation.
- ✓ Tailor your range for seasonal peaks to provide items like hot and cold packs and infection-control wipes.
- ✓ Offer trusted brands with regulatory compliance to strengthen store credibility and consumer confidence.

Plasters & Dressing Strips

Developed over 30 years.

We make retail business owners' lives that bit easier with premium plasters packaged and ready for point of sale. Our plasters have been developed over 30 years of market research to bring you the best performance: gentle on skin, complete protection, and superior stick. In fact, our adhesive is so effective we won an award.

All our retail-ready plasters are also available in industrial-sized boxes, too.

Blister Plasters

Blister plasters provide cushioning, protection, and a moist healing environment to reduce discomfort and support recovery. Available in gel, foam, hydrocolloid, and hydrogel options, they help prevent friction and soothe existing blisters.

Tapes & Strappings

Choose from a range of widths, lengths, and colours to supplement your offering.

Browse our wide range of sports and medical tape ideal for first aid shelves and sports sections in your shop. Find tape to fix dressings in place, specialist sports tapes like Kinesiology Tape, and general-purpose first aid favourites like Zinc Oxide Tape.

Medical Tapes

Medical tapes provide secure adhesion for dressings, medical devices, and tubing while catering to different needs, from gentle skin-friendly options to strong, long-lasting support. Many of our options are hypoallergenic and easy to tear by hand. Suitable for at-home care, clinical use, and sports applications, they come in multiple widths and pack sizes to ensure the right fit.

Sports Tapes

Plasters for sensitive skin provide gentle wound protection with hypoallergenic adhesives to minimise irritation. Designed to be breathable, flexible, and suitable for delicate skin, they come in various options, including washproof and transparent styles for discreet coverage. Some versions are water-resistant for protection in wet conditions, while others feature fun designs to make wound care easier for children. Many are latex-free and offer painless removal, ensuring comfort without compromising on protection. **Visit page 28 for all sports retail products.**

Trusted by Gyms, Physios, and Sports Retailers

In this section, you can find specialist sports first aid items, like dedicated sports first aid kits, to personal gym equipment and soothing recovery products. Browse products from our own Steroplast/Sterosport lines, as well as favourites from leading brands.

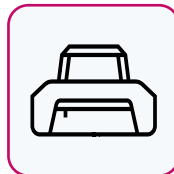

This is the right place for:

Sports retailers and gyms with shops attached

Specialist shops for physios & sports professionals

Sports shops that sell boxing, yoga & pilates gear

Department stores with sports & fitness sections

Shops with aisles for athletes & fitness enthusiasts

How we help you:

- ✓ Tailored products for injury prevention, treatment, and recovery across multiple sports.
- ✓ Attract repeat customers with reliable consumables like sports tape, creams, and recovery gels.
- ✓ Enhance store appeal with niche and specialist products for professional needs like physiotherapy and rehabilitation.
- ✓ Create or offer bundled or custom kits, such as sports-specific first aid.
- ✓ Meet the needs of amateur athletes, professional teams, and active lifestyle consumers with everything in our range.

Support & Rehab Products

Designed for faster recovery and injury prevention.

Whether you're recovering from an injury, managing a chronic condition, or simply looking for extra support during daily activities or sports, our range of support and rehabilitation products is designed to help you stay active and comfortable. From ergonomic joint supports that provide stability and pain relief to protective padding that reduces friction and pressure, these products are essential for injury prevention and recovery.

Massagers

Massage tools are designed to relieve muscle tension, improve circulation, and support recovery. Available in different firmness levels and designs, they are ideal for home use, gym sessions, or on-the-go relief.

First Aid for Business

All businesses and employers must meet certain first aid requirements by law

Scan the QR code to view these products online.

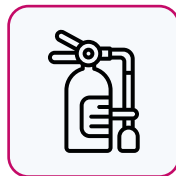

First Aid for Workplace Suppliers, Pharmacies, and Safety Retailers

Some of the most common items needed are workplace first aid kits, signage, burn dressings, absorbent powder, and saline eyewash stations. Expand your range of business workplace supplies by offering not only the items your customers need but also the best ones available on the market.

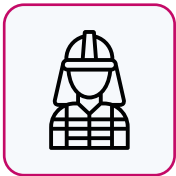

This is the right place for:

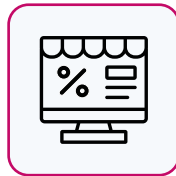

Office supply stores & workplace suppliers

Health & safety wholesalers

Warehouse & industrial supply retailers

Online marketplaces targeting businesses

Pharmacies catering to workplace compliance

How we help you:

- ✓ Businesses must comply with UK health and safety regulations (signage, first aid kits, accident report records, etc.). Be the store they go to for these supplies.
- ✓ Partner with a supplier that offers a wealth of support and resources for workplace first aid. We're a leading supplier of workplace first aid equipment and act as a central point of guidance for businesses across multiple sectors to meet compliance with UK regulations.
- ✓ See a broad range of products on this page and cherry-pick your stock to tailor your range to industry-specific needs based on your customers.
- ✓ Order supplies here to offer high turnover sundries and consumable items like disposable gloves, sharps bins, and plasters.
- ✓ Be the one-stop-shop for businesses that need to meet safety standards by offering premium products, trusted brands, and reliable stock from a premium UK first aid supplier.

First aid kits that stand out from the rest

Our labels now feature high quality photography, glossy finishes and a sharper full colour print

Every business needs a first aid kit, no matter how big, where it operates, or who it employs. Our first aid kits cover a variety of needs, from purpose-made premium kits that meet stringent British Standards to entry-level HSE-compliant kits.

We're specialists in workplace first aid and have developed a range of kits to suit niche applications over the last 30 years. Browse workplace first aid kits in this section and see if you can offer kits to your customers.

Public Access Trauma Kit

As seen on
**BBC's
The One
Show**

The life-saving 'PACT' kit is now in hundreds of hospitality venues in Manchester

Designed to provide life-saving aid in the critical moments following a terrorist attack or serious incident when paramedics are unable to respond immediately. Tailored for easy use by untrained individuals under extreme stress. Ideal for businesses with public spaces or busy venues.

Choose from three tourniquet types. We offer three variations of the PACT kit, supplied with different types of tourniquet for different levels of training.

Scan QR code to find online

✓ Developed by Experts

Developed with input from the Royal College of Surgeons and other medical experts.

✓ Comprehensive Contents

The kit includes military-grade wound dressings, tourniquets, and other vital components necessary to treat serious injuries.

✓ Self-usage Capability

The contents allow for self-treatment of walking wounded, offering immediate assistance until professional medical help arrives.

✓ Durable and Portable

The PACT kit is designed for both durability and convenience. It is encased in a sturdy, durable case with a grab handle for easy transportation.

✓ Refills Available

A full kit refill is available, without the kit case, for when you need a full top up.

SKU	KIT VARIATION
6825	PACT Kit With S.T.A.T Tactical Tourniquet
6825RP	PACT Kit With S.T.A.T Tactical Tourniquet - Refill

Build your own First Aid Kit

Our range of empty bags and boxes offers a flexible solution for building your own first aid kits. Designed for practicality and durability, these containers are ideal for organising your essential supplies in any workplace setting.

Whether you're looking for a compact option or something with more capacity, we have various sizes to meet your specific requirements.

Creating a custom first aid kit based on your workplace's individual risk assessments could be a more cost-effective way to provide staff with exactly what they need when in a first aid emergency. You can ensure your kit is tailored to the specific risks and requirements of your environment.

For assistance in selecting the best option for your needs, or to discuss feel free to get in touch with us.

Biohazards

Biohazards are highly infectious and must be carefully cleaned up.

In workplaces, cleaning up blood, urine, vomit, and other body fluids requires certain procedures. We offer supplies that make this process easier, safer, and much more convenient. If your customers are in hospitality, care, education, or animal welfare, they're probably looking for biohazard supplies like absorbent powder and sharps disposal bins.

Eyewash Stations

An eye injury is a serious emergency. Supply essential eyecare products to save someone's sight.

Businesses facing eye injury risks should install plumbed eyewash stations or at least 1L of sterile saline eyewash in sealed bottles. Scroll down for compliant eyewash stations and eyecare kits, including all the supplies you need to clean, wash, and dress eye injuries.
