DESIGN PATROL FILMS

our films.

We are storytellers and love teaming up with wild-hearted, fun, quirky humans to tell their love stories. We are all about capturing honest moments, we won't get in the way or tell you what to do. We just want to capture you guys doing your thing!

From start to finish, each of our films are hand-crafted just by us and are as unique and crazy as each of our awesome couples!

our story.

Hola! We are Matt + Tash, the Design Patrol Duo! We bumped paths in high-school and have been joined at the hip ever since. Our passion for love, adventure and storytelling sparked our little film making venture and we have never looked back.

We are based in the Hunter Valley on the East Coast of Australia but travel far and wide to capture our couples love stories.

We would love to tell your story!

Package 1

all you 
need is love.

- + 1 videographer
- + Up to 9 hours coverage
- + 5-7 minute Short Film

the music.

Short Film + Highlight Film

(Package 1)

(Package 2 & 3)

Our Short Films and Highlight Films are perfect for sharing a fun snapshot of your day online.

We will choose songs that are specifically licenced for online use. This means that you can share your film on social media platforms without breaching copyright.

We will ask you about your music preferences (ie. genre, mood, tempo) prior to the editing process.

Feature Film

(Package 2 & 3)

We licence the use of music for your Feature Film with APRA under a “Domestic Use” licence. This means you can choose whatever commercial music you like for your Feature Film.

However this does mean that the Feature Film cannot be shared on any social media platforms.

We will upload a password protected version that can be shared directly with friends/family using only this link and password.

It is the clients responsibility to ensure that the Feature Film is not shared on any other online platforms, as it will be in breach of copyright laws.

How do I make a booking and secure my date?

Please contact us to check your date availability. If your date is available a \$1000 non-refundable booking fee is required, along with a signed contract to secure your date. The balance is due two weeks prior to your wedding day.

Do you record audio of the day?

We do NOT record audio for Package 1, unless it is added as an 'Extra'.

CEREMONY: For Package 2 & 3 we use a lapel microphone attached to either a bride or groom during the ceremony to record vows audio.

SPEECHES: For Package 2 & 3, we record directly from the venue PA system where possible for speeches. If the venue does not allow this we will use alternate methods of recording audio. Due to this all persons making a speech must use the microphone for us to be able to record audio.

Can I get the raw footage?

No, we do not supply the RAW footage. Due to our creative style, we do not film a minute by minute record of your day but instead we film many short 5-20 second snippets, moments and details which are then combined together to create your final wedding film.

When will I receive my film?

Post-production and editing generally takes 12 weeks to complete, however this can be longer during peak periods.

How do I receive my films?

All films are uploaded to an online platform where they can be played, shared and downloaded. Before sharing please refer to our music page for more information and music licensing restrictions. It is the responsibility of the client to download a copy of all films. We highly recommend saving multiple copies, stored in multiple locations.

Can I share all my films online?

The Short Film and Highlight film can be downloaded via the link we provide and then shared to social media.

The Feature Film can only be shared with family and friends via the password protected link that we send you. This film cannot be shared on social media.

Do you use a drone?

Yes we can offer drone, however this is dependant on the weather, timing and local restrictions. Please contact us for more info.
