Made to be seen. Built to be used.

These aren't just containers, they're your new everyday essentials. Whether you're batch cooking or heating up last night's dinner, Tupperware Voila™ Glass helps you save time, reduce mess, and serve in style.

DURABLE GLASS FOR DAILY USE

Safe from -13° to 572°F/-25° to 300°C, this borosilicate glass container resists cracking in the oven, microwave, freezer, fridge, and dishwasher.

DID YOU KNOW?

The built-in steam vent makes microwave reheating easier by reducing cleanup and improving heat distribution, giving you better flavor, faster.

BUILT-IN STEAM VENT

While reheating in the microwave, steam escapes safely through the vent, preventing mess and preserving flavor. No splatter and no drama.

EASY-PRESS AIRTIGHT LID

To keep food fresh, just press the lid and vent to create a spill-proof, airtight seal without clips or latches.
