PALLANA LIGHT BY IDEO, in Pebble, **ZIO DINING TABLE** BY MARCEL WANDERS, in White Wash Oak (3 1/0 Shown), **ZIO DINING CHAIR** BY MARCEL WANDERS Spectrum Leather in Red Brown, Oak frame in White Wash.

Inspired by playfulness and created to assist you in your day-to-day flow! The Pallana Light is here to support you in the balancing act that is daily life.

FUNCTION AND FUN

The Pallana Light is an elegant and playful lighting fixture by global design company IDEO. Although its name suggests the inspiration came from the entertainment industry, it was functionality and crisp engineering that spurred the designers from global design company IDEO to create this suspended task light. Ultimately, Pallana is both. The perfect combination between function and fun—practically playful!

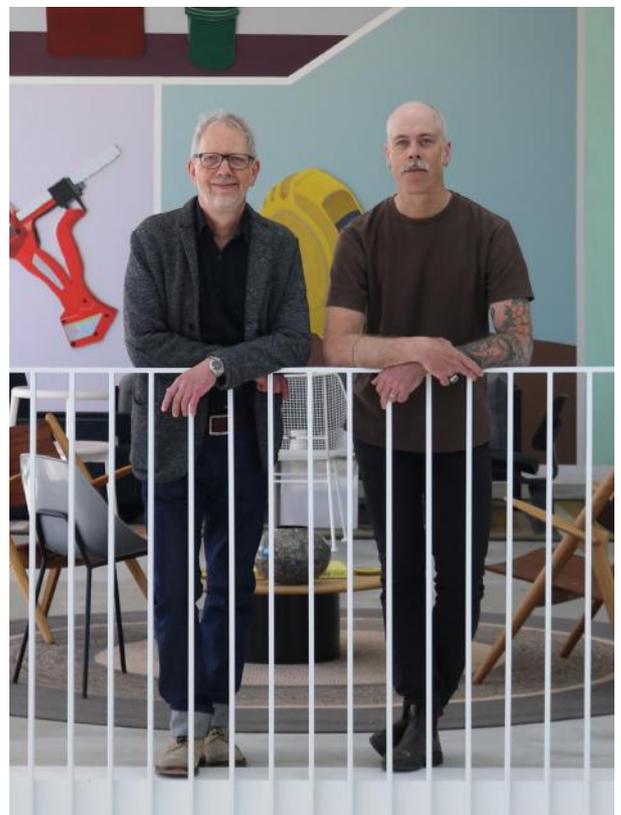

UNEXPECTED FINISHES

When designing Pallana, IDEO imagined simple, even basic shapes, mechanically joined yet barely touching. They used a combination of matte steel and knitted fabric to add softness to the shapes. The unexpected finishes add a unique touch of elegance to the overall design and sets Pallana apart from traditional finish choices.

VERSATILE AND VISUALLY STUNNING

Pallana is not only visually stunning but also practical and versatile. It supports the flow of activities and moods throughout the day, making it perfect for any occasion. Spin the circular lights to assist you while working, enjoying breakfast, or entertaining friends for a dinner party. Whatever the occasion, Pallana is up to the task.

Gensler Carpet Collection: Where five disciplines inspire five designs, merging professionalism and creativity in flooring.

FIVE PRACTICES, ONE COLLECTION

Introducing the Gensler Carpet Collection, a culmination of creative visions from five practice areas within Gensler, a renowned global design and architecture firm. Professional Services, Financial Services, Technology, Media, and Hospitality have each contributed their unique perspectives and inspirations to the realm of flooring. This resulted in five captivating designs: Terrestre, Tranquility, Spotlight, Weft-Warp-Web, and Rugged/Refined. Each design captures the essence of its respective practice.

INFUSING PROFESSIONALISM INTO FLOORING

Terrestre, born from the ingenuity of Professional Services, weaves together sophistication, elegance, artistry, and surprise, creating moments that transcend the ordinary. Tranquility, a creation by Financial Services, invites a profound sense of calm with its tailored and sophisticated aesthetic, offering a sanctuary within any space. Spotlight, a masterpiece from Media, celebrates the dynamic nature of media content with patterns of light and dark, texture, and relief, mirroring the ever-changing landscape of modern communication. Weft-Warp-Web, conceived by Technology, is inspired by the ancient craft of weaving. It symbolises the interconnectedness of our digital world, drawing parallels between the intricate structure of woven textiles and the foundation of our global web. Rugged/Refined, envisioned by Hospitality, draws inspiration from the raw, organic beauty of geodes, capturing the essence of partially polished and sculpted natural formations.

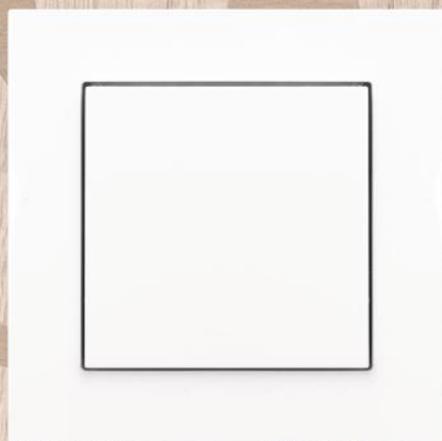

FLEXIBLE COLOUR PALETTE

The collection boasts a versatile colour palette that strikes the perfect balance between warm and cool tones, seamlessly integrating with any architectural scheme. Each design within the collection is available in a range of captivating colourways. Discover patterns of light and dark to vibrant multicolour, offering a spectrum of neutrals to deep jewel tones.
