MIXED METAL TESS DANGLES

Hard to resist the charm of these—I see it at every in-person event. They're total love-at-first-sight earrings. And because they're mixed metal, they go with literally everything.

TRAIL DANGLES

Elegant with an edge. Each pair is made from recycled metals and leftover bits of chain that were too short for necklaces—so no two are ever the same. Available in mixed metals and playful pearl versions. No one will be sad to find these under the tree.

NARA CHAIN

Versatility at its finest. With clasps on both ends, you can wear it at any length, double it up, style it as a lariat with the option to add a charm to the bottom. Every link is a little work of art!

FAN JACKET & STUD BUNDLES

My most unique little duo —wear the stud + jacket together or mix them with your own pieces. These are BEST sellers but kind of hard to explain so please check out more photos on the product page! One of my forever faves!

**Available in mixed metals for a more playful look.*
