LIVE EKSTRAORDINÆR

Dear partners and colleagues,

Your home is an expression of you.

We are here to help the consumer transform his/her space into a more 'extraordinaer' place.

One of the answers lies in the small details - the accessories. Here you turn a space into a personal home and through colours and materials, you can create that 'extraordinaer' look and feel.

We are proud to introduce you to the SS22 Seasonal accessories collection.

This year, we take a different approach to the accessories category in order to strengthen our ability to stay on-trend and capture more new consumers. The consumers are not always in the market for big-ticket items. The accessories can help to draw a broader audience to your store. Trend-seeking consumers who you can up-sell to and who very well could be your next sofa buyer.

Going forward, the collection will be divided into two groups. The Core Assortment and the Seasonal Assortment.

The Core Assortment includes the best of the best from the current collection. The Core Assortment is available for ordering all year. Just like you know it today. A Core Assortment iPaper will always be available on Universe, and you can choose from your bestseller favourites whenever it fits you or when a specific design is requested by a consumer.

The Seasonal Assortment will be introduced twice a year. Autumn/winter and spring/summer. In the Seasonal Assortment we tap into more trendy items and lifestyle items - created to hit the consumers when they are in the market looking for colours and trends. Here we also work with new product categories which are on-trend at the moment.

The Seasonal Assortment is available for ordering once. So here it is important that you really buy into the designs. Remember to buy for both styling and expected sale for the coming season. The items will only be available for ordering once. Please see the styling tips and tricks provided by the Visuals Team.

We hope you agree that this is a great opportunity for you to reach more new consumers and to ensure your showrooms are on-trend and stylish.

Remember to place your Seasonal Assortment order before deadline. There will only be this one chance. Launch for the SS21 seasonal accessories in stores is 1 of April 2022. If you have any questions or comments, please feel free to contact us.

silk FLOWERS

Silk flowers are a great alternative to fresh flowers. Today's allergy-friendly artificial flowers are created with the true realistic look and feel of a damp petal. With no wilting, no watering, and at a fraction of the cost of fresh, realistic fake flowers can be enjoyed hassle-free all year
