Selecting the Write **PEN**

When it comes to promotional materials, writing instruments stand out as one of the most cost-effective and impactful choices. There are few occasions where a promotional pen wouldn't be an ideal addition. Pens are not only practical but also tend to be kept by recipients, continuing to promote your brand long after your campaign concludes.

With a plethora of options for promotional pens available, you may wonder where to begin. Below, we outline some key factors to consider:

1 Recipient

Make sure the pen you select aligns with your intended audience; for instance what appeals to an executive may not necessarily be the same as what appeals to a student.

2 Budget

Take into account your budget and the quantity needed. Additionally, consider whether the promotion might be repeated later in the year. Our prices include a one colour print unless specified otherwise.

Please note that giftbox prices are separate, and there are additional costs for setup and carriage.

3 Pen Style

Numerous pen styles are at your disposal, including ballpoint pens, rollerballs, pencils, click-action, and twist pens. It's essential to consider the context of the pen distribution.

4 Pen Colour

Consider how your corporate or brand colours will harmonise with the pen's colour. A dark blue logo may pose visibility challenges on a black pen, whereas it would stand out beautifully on a white pen.

5 Pen Size

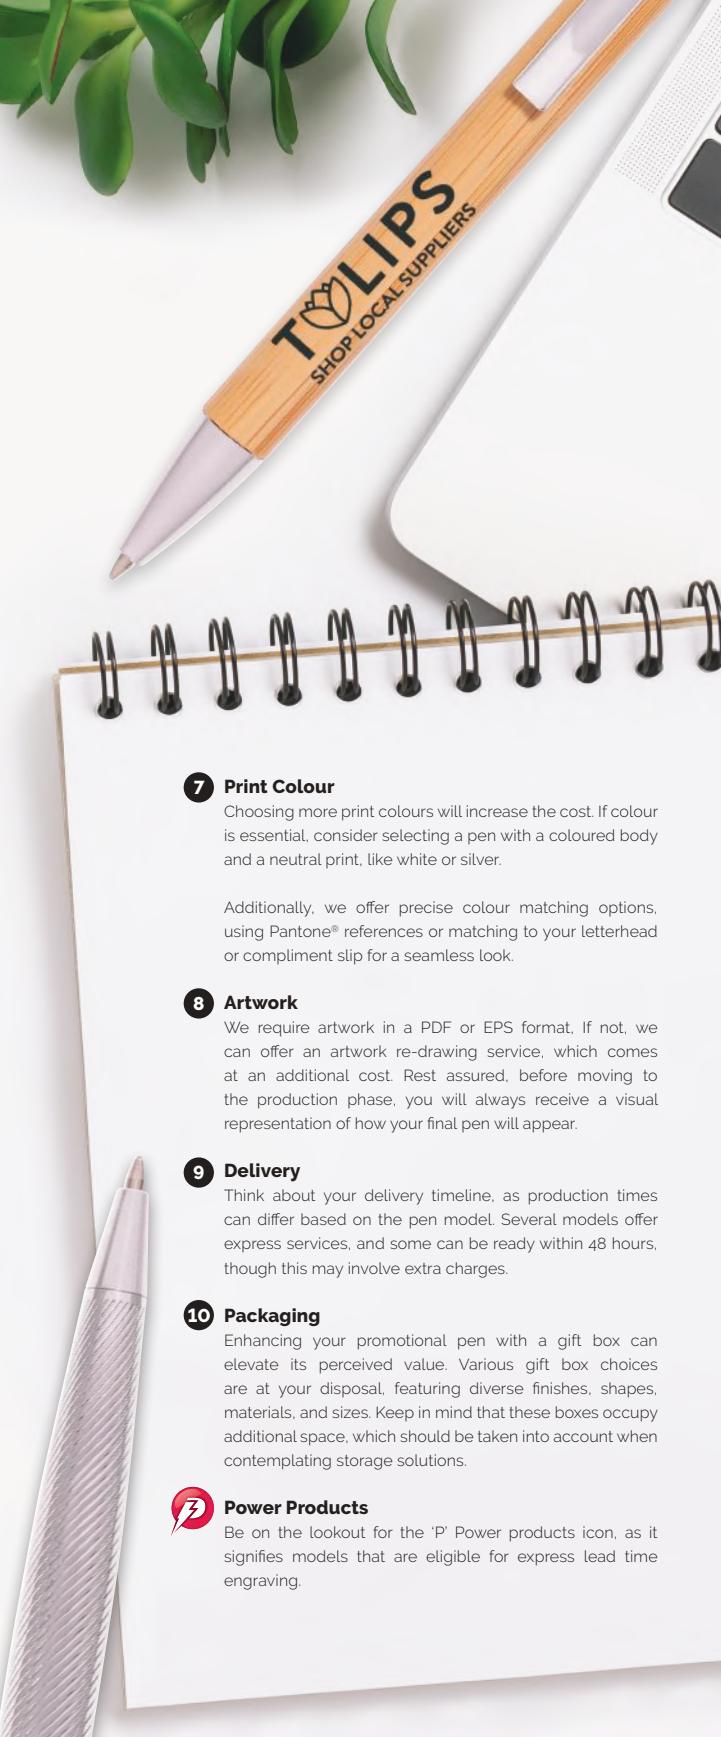

Certain pens have a rounded or bulbous shape, while others come with rubber grips. This consideration is crucial if you intend to fit the pen into a folder or a pen loop.

If you are in doubt whether a pen will fit you can request a sample free of charge.

6 Print Sizing

Contemplate the content you wish to include on your pen, a strapline or contact details require more space compared to a logo. If you plan to incorporate a substantial amount of information, opt for a pen with a larger print area.

Keep in mind that your logo will need to be scaled down to fit the designated print area. Therefore, if your logo contains intricate details, it may impact the overall print clarity.

7 Print Colour

Choosing more print colours will increase the cost. If colour is essential, consider selecting a pen with a coloured body and a neutral print, like white or silver.

Additionally, we offer precise colour matching options, using Pantone® references or matching to your letterhead or compliment slip for a seamless look.

8 Artwork

We require artwork in a PDF or EPS format. If not, we can offer an artwork re-drawing service, which comes at an additional cost. Rest assured, before moving to the production phase, you will always receive a visual representation of how your final pen will appear.

9 Delivery

Think about your delivery timeline, as production times can differ based on the pen model. Several models offer express services, and some can be ready within 48 hours, though this may involve extra charges.

10 Packaging

Enhancing your promotional pen with a gift box can elevate its perceived value. Various gift box choices are at your disposal, featuring diverse finishes, shapes, materials, and sizes. Keep in mind that these boxes occupy additional space, which should be taken into account when contemplating storage solutions.

Power Products

Be on the lookout for the 'P' Power products icon, as it signifies models that are eligible for express lead time engraving.

Material GUIDE

A collection of pens and pencils made from alternative materials such as card, wheat, bamboo and wood. To reduce your carbon footprint even further, look out for European made models.

CARD BARREL	A small sample of a pen barrel made from recycled cardboard, showing a light brown, textured surface.	Pen barrels can be crafted from a variety of materials, but utilising the tensile strength of recycled cardboard offers a durable option that functions effectively as a barrel while naturally composting within a relatively short time. Recycled cardboard can eventually be down cycled and repurposed for use in products like clothing.
WOOD BARREL	A small sample of a pen barrel made from wood, showing a light brown, natural wood grain texture.	The wood we use in our pens is from the 'Birch' family and is a natural product that is biodegradable from a natural source and helps reduce the use of traditional metal or oil based plastics.
WHEAT BARREL	A small sample of a pen barrel made from wheat plastic, showing a light brown, textured surface.	The wheat plastic used in our pens is a combination of traditional plastic and plastic derived from wheat straw waste. Typically regarded as agricultural waste, this straw can be blended with traditional plastics to create pen components, reducing reliance on oil-based plastics.
COFFEE BARREL	A small sample of a pen barrel made from recycled coffee ground waste, showing a light brown, textured surface.	Carefully crafted from recycled coffee ground waste, this approach reduces dependence on oil based plastic materials, offering a practical solution that repurposes natural waste.
BAMBOO BARREL	A small sample of a pen barrel made from bamboo, showing a light brown, textured surface.	Bamboo is a natural product that is biodegradable and is cultivated without the use of pesticides and a less water than other 'crops'. We use Bamboo from natural sources to create barrels that are both attractive and durable.
ALUMINIUM BARREL	A small sample of a pen barrel made from recycled aluminium, showing a light grey, smooth surface.	Environmentally conscious pens skillfully manufactured using recycled aluminum cans for the body, some of the plastic trims are crafted from recycled PET, which is from discarded water bottles.
PET BARREL	A small sample of a pen barrel made from recycled PET plastic, showing a light blue, smooth surface.	PET plastic is extensively employed in producing water bottles and holds the distinction of being the most commonly recycled plastic. Our RPET is sourced from recycled water bottles and can undergo recycling once more – in fact, RPET can be recycled up to 10 times!
CORK BARREL	A small sample of a pen barrel made from cork, showing a light brown, textured surface.	Cork is naturally biodegradable and recyclable. If discarded, cork naturally decomposes without releasing harmful toxins or pollutants. Cork can be recycled and reused extending its lifecycle and reducing waste.

Choosing the perfect Pen Box

Choosing the perfect pen box involves a thoughtful consideration of design, personalisation and customisation. Whether for corporate gifts or personal use, a well-designed, personalised and customised pen box reflects attention to detail and elevates the overall value of the writing instrument it holds.

Design.

Most of our gift boxes are supplied with white protective sleeves and whereas we do not offer to print on these we can replace them with a digitally printed version which offers a full colour process print all around the sleeve.

Personalise.

Add the finishing touch to your gift box with eye-catching personalisation. Some of the branding techniques on offer include printing, foil blocking, de-bossing.

Customise.

For an even more impressive wow factor, consider selecting a gift box featuring a customised foam inlay; this foam can be precisely tailored to ensure a flawless fit for the enclosed item.

3.2.1 All goods supplied by us remain our property.

3.2.2 You must store them so that they are clearly identifiable as our property.

3.5.2 After your right to use and sell them has ended, to remove them, using reasonable force if necessary.

3.6 Despite our retention of title to the goods, we have the right to take legal proceedings to recover the price of goods supplied should you not pay us by the due date.

3.7 You are not our agent. You have no authority to make any contract on our behalf or in our name.

5. QUOTATIONS AND CONTRACTS

5.1 Orders are accepted subject to our right to adjust prices quoted to take account of any changes in the law or government regulations requiring us to increase prices by way of direct taxation, import duties, custom and excise duties or otherwise. The prices are based on today's current costs of production and in the event of increase in wages or costs of materials to us occurring after the confirmation or accepted contract, we shall be entitled to charge such increases to you.

5.2 To ensure accuracy, orders must be confirmed by fax, post or email. Telephone orders cannot be processed until written confirmation has been received. All changes to orders must be confirmed in writing and are subject to all costs incurred until the date of our acknowledgement of change.

7.2 Special rush deliveries can usually be arranged but will usually be subject to additional charges (e.g. rush print charges and rush delivery charges) which will be charged to you at current commercial rates.

7.3 Delivery charges as quoted are for standard delivery service, whereby the responsibility for unloading and storage of the goods lies with the consignee. Specifically pallets, pallet trucks and assistance with unloading are not included. If any of these services are required, please contact us for a quote.

8. QUANTITY VARIATION

We shall be deemed to have fulfilled our contract by delivery of a quantity within 10% plus or minus of the quantity of printed goods ordered and you will be charged at the contract rate for the final quantity delivered.
