INTER CONTINENTAL 100 Chopin Plaza | Miami, FL 33131 305 577 1000

Miami starts here. Built around Henry Moore's famous sculpture, "The Spindle," this luxury Miami hotel lies along the downtown waterfront, with the city's business centers and famous beaches both within easy reach. To complement a premier hotel experience, you'll find a one-of-akind schedule of events and bayside happenings, including culinary popups, salsa dancing, art shows, yoga, and so much more.

TUESDAY NIGHT EVENT

MEGA YACHT CRUISE IN BISCAYNE BAY

PARTY LIKE A ROCKSTAR

AS WE CELEBRATE
NALTA'S 40TH ANNIVERSARY
ON SEAFAIR'S GRAND LUXE YACHT!

The Grand Luxe, designed by internationally renowned yacht designer Luiz de Basto, is the first of its kind event vessel docked just steps away from the InterContinental Miami Hotel. Stretching 228 feet and towering 57 feet, the SeaFair Miami exudes unparalleled

elegance and sophistication in every inch of its over 20,000 square feet. Experience luxury while exploring its four decks of event, dining, and entertainment spaces.

We're rolling out the red carpet and giving a champagne toast to our NALTA President! Climb aboard this exclusive and unique event venue to experience breathtaking views of the Miami skyline while enjoying 5-star eats and drinks.

A professional DJ will spin tunes while you commemorate the event in our photo booth, sponsored by PALTA!

WHAT TO WEAR?
We recommend you dress to impress Miami-style!

LADIES

Dazzle us in a sun dress or a jumpsuit.

GENTLEMEN

Make us swoon in a crisp button down, linen, or dressy polo.

TUESDAY KEYNOTE

HONORING OUR HERITAGE
INSPIRING TOMORROW

Join us during lunch on Tuesday for a very special keynote presentation honoring four decades of NALTA's history and achievements.

In celebration of this milestone, six NALTA Presidents - spanning from the founding charter members to the present - will come together to share their insights, memories, and vision for the future!

WEDNESDAY

FROM ENAMES TO CONTROL

KEYNOTE

The two most common phrases I hear are, "I never have enough time in my day," and "We are moving too fast for me to keep up with everything."

From Chaos to Control reflects my experiences and the changes I am making to improve my work life based on the challenges I face.

Effective communication and better time management are important to keep up with the demands of our clients' project teams, internal departments, and team members. An informative video is included that may change how you approach your tasks. This presentation provides ways to be proactive, embrace change and growth, perform our roles more effectively while exhibiting empathy and a positive attitude, and create the best team communication, ultimately providing our organization with more efficient, timely, and accurate results, and making our lives better by having more time to focus on what is most important.

Managing Director
PERCHERON, LLC

Lori Fisher is a Managing Director for Percheron LLC with 25 years of energy industry experience. She assists in integrating numerous offices nationwide, created and built Percheron's Land Administration Department and developed a set of processes to streamline workflows for the department and company.

Lori's career began as an abstractor, where she spent 14 years building a strong foundation that led to her transition into the upstream oil and gas sector in 2000. Since then, she has had the privilege of supporting companies in the energy industry, including upstream, midstream, renewable energy, electric transmission, and transportation. The ever-evolving nature of the energy industry has kept her engaged and motivated throughout her career.

One of Lori's greatest passions is leading teams through complex projects. She believes that effective leadership, clear communication, and strong organizational skills are key to driving success. In an industry marked by constant change, Lori is committed to continuous education, both for project success and for long-term career growth. She is dedicated to staying informed and adaptable in the dynamic landscape of energy.

Lori is an active member of NALTA, ALTA, WEN, AAPL, and HAPL. She served for three years on the NALTA Board of Directors as Certification Director and earned her CPLTA certification through NALTA in 2012. Currently, she serves as the chair of the Site Selection Committee for NALTA.

Lori lives in Katy, Texas with her husband and two youngest children.

PANEL DISCUSSIONS

MONDAY

CRADLE TO GRAVES

Increasing Collaboration Across Departments

FEATURING PANELISTS:

John Foester, Priscilla J. Robinson, CPLTA, Tonya McNan, CPL, CPLTA, Paula Rauchfuss, Chris Perry, and Kelly Sandoval

Join us for an insightful panel discussion where all the speakers from the seminar will come together to explore the full life cycle of a well from the perspective of land administration. This panel will also delve into key aspects of collaboration across departments, addressing important questions such as how to enhance interdepartmental cooperation and what critical questions land administrators should ask to improve their effectiveness when working with other departments.

TUESDAY SHUT IN ROYALTIES

FEATURING PANELISTS:

Beth McCranie, CPLTA and Joey D. King, CPLTA

The panel discussion on shut-in provisions and payments will feature analysts who will delve into various aspects of managing shut-in payments. The panelists will share their personal experiences and strategies, discuss the departments responsible for monitoring well production and handling payments, and explore the role of technology in this process. They will address challenges such as insufficient information, lack of lease copies, and contested payments, while also providing insights into avoiding errors that could lead to lease loss. Additionally, the panel will cover best practices for research, approval processes, and communication with interest owners, offering valuable advice for those new to handling shut-in provisions. The discussion will also touch on unusual shut-in provisions and staying updated on related litigation.

ARTIFICIAL INTELLIGENCE
In Land Administration

FEATURING PANELISTS:

Tonya McNan, CPL, CPLTA, Taylor Richards, and Kelly Sandoval

Join us for an engaging panel discussion featuring experienced analysts as they delve into the fascinating world of Artificial Intelligence (AI) and its impact on land administration. The panel will explore a range of topics, including personal experiences with AI, innovative applications in daily analyst work, and the most exciting AI advancements in the sector. They will also discuss the potential risks and security concerns associated with AI, the skills professionals need to develop as AI becomes more prevalent, and practical advice for getting started with AI.

WEDNESDAY ACQUISITIONS & DIVESTITURES

FEATURING PANELISTS:

Michelle Bradshaw, CPLTA, Kimberly Campbell, and Scott Davis, MBA, CPLTA, RPL

Join us for an insightful discussion with a panel of experienced analysts as they delve into the intricacies of acquisitions and divestitures. The panel will share their personal experiences and favorite aspects of working in this field, explain the strategic reasons behind acquisitions and divestitures, and outline the key roles and responsibilities of land and lease analysts during these processes. They will also discuss the critical factors companies consider when evaluating potential acquisitions, common mistakes made during divestitures, and the impact of modern technology, including AI, on these transactions. Additionally, the panelists will provide tips for managing the due diligence process, share examples of transactions that didn't go as planned, and highlight commonly overlooked aspects in acquisitions and divestitures.

LIFE CYCLE OF A WELL

Interactive Exploration of Geology, Engineering, Land, and Regulatory Processes

John Foester, Geophysicist, Owner of Foester Geology,
Priscilla J. Robinson, CPLTA, Senior Land Analyst, Independent and
Tonya McNan, CPL, CPLTA, Landman, Senior Vice President, Bank of Oklahoma

Dive into an engaging session that covers the essential steps in Geology, Engineering, Land, and Regulatory processes including an interactive opportunity that will allow participants to consider each step and think through how it all really comes together.

MAXIMIZING EFFICIENCY IN LEASE & DIVISION ORDER ANALYSIS Real-World Examples

Paula Rauchfuss, Director, Land Administration at Steptoe & Johnson

Learn practical examples of how data is shared and managed between lease and division order analysts and discover the significant benefits of teamwork in enhancing the efficiency and success of land administration departments. This presentation will cover the disciplines and importance of lease and division order analysts collaborating on shared areas of responsibility. It will share reasons why they should be "besties", what to collaborate over, what's needed for strong collaboration, and share some personal experiences where success results from both teams working together in harmony.

STRATEGIES FOR LEASE OBLIGATION MANAGEMENT AND COMPLEX LEASE PAYMENT TERMS

Chris Perry, Senior Manager at Quorum Software

Analysts can encounter a broad range of obligation and payment terms that vary by asset type, geographic location, and landowner negotiations. Fulfilling these obligations are critical to the status of the lease and overall asset operations. Due to the variability of terms, understanding the patterns and deviations can be challenging. Attendees will learn about common and not-so-common lease terms, from simple rental payments to advanced production-based payments with minimum royalties, and Index escalating payments. Additionally, attendees will hear about how software and business processes can be used to streamline the entire lifecycle of these Lease terms

THE FUTURE OF LAND ADMINISTRATION

Kelly Sandoval. Vice President of Land Administration at Sitio Royalties

This presentation will explore ways to utilize data reporting and automation to create efficiencies in Land Administration. By reducing the resources required for more basic tasks, analysts can focus their efforts on more complex and critical work. In an environment where we are all being asked to do more with less, data reporting and automation can help make this an achievable reality.

BEYOND THE BASICS

Excel Tips and Tricks for Lease Analysts

Beth McCranie, CPLTA, Owner, McCranie Land Services

Master Excel for real-world lease data solutions. In this session, we'll cover essential, high-impact formulas, time-saving shortcuts, and effective data validation techniques to enhance your efficiency and accuracy. Apply these techniques to streamline acquisitions, refine lease acreage tracking, and ensure precise provisioning. You'll also receive a cheat sheet with all the tips and tricks to keep your momentum going.

INDIAN LAND ADMINISTRATION

Melissa Gardner, JD, Attorney at Ball Morse Lowe, PLLC

We'll discuss how leasing restricted Indian lands is different than other lands. We'll talk through the different processes to lease and drill these lands and how those processes may differ from tribe to tribe. Finally, we'll discuss the delicate balance of state and federal law when developing these important assets.

CRADLE TO GRAVE DIGEST OF PURCHASE & SALE AGREEMENTS

James Parrot, JD, Shareholder, Beatty & Wozniak, P.C.

An asset purchase or sale often begins with two friends chatting over lunch or at a conference and concludes with a celebratory dinner. The process in between is complex, fraught with risk, and can be opaque. This session will break down the life cycle of a purchase and sale agreement, starting with asset preparation, moving through drafting the agreement and closing, and concluding with post-closing matters. The session will also cover several hot topics and offer practical guidance for members of teams working on these transactions.

EMBRACING ARTIFICIAL INTELLIGENCE IN LAND ADMINISTRATION

Jerris Johnson, CPL, Land and Energy Technology SME at Rowland.ai

Discover how artificial intelligence can make your work as a land and title analyst easier and more effective. This session will demystify Al and showcase practical tools for automating routine tasks, enhancing your expertise, and retaining valuable knowledge. Learn how to leverage Al to boost your skills, increase your value, and advance your career in the evolving land profession.

ETHICS

Steering Clear of Legal Landmines

Andrew S. Good, JD, Partner at Oliva Gibbs LLP Joseph Manning, JD, Senior Attorney at Oliva Gibbs LLP

We will provide information, insights, and advice to help land teams proactively understand and mitigate litigation risk. This presentation will also cover legal and ethical issues, provide an overview of the litigation process, common litigation issues and case studies, and practical tips to help protect you and your company.

FEDERAL LANDS

The Oil & Gas Leasing and Permitting Process

Scott St. John, JD, Vice President at Reagan Smith and Partner-St. John, Griffin and Krieg, PLLC

This course will take you through the federal leasing process including BLM and BIA. Next the course will examine the permitting process for drilling wells on federal leases and lands. Specific discussions will include major changes from the Trump administration, bonding, communitization agreements, and the NEPA process as it relates to permitting.

FINDING THE RIGHT TALENT IN AN EVOLVING LANDSCAPE

Vincent Dawkins, President/CEO at Enertia

As the oil and gas industry faces workforce shortages and increasing competition from emerging energy sectors, companies must rethink how they attract and retain talent. This session explores shifting workforce demographics, digital transformation, and the industry's evolving reputation, providing strategies to build sustainable talent pipelines. Attendees will gain actionable insights on recruiting from non-traditional talent pools, enhancing employer branding, and fostering professional growth to future-proof their workforce. Through real-world case studies, this presentation equips industry leaders with the tools to secure top talent in an uncertain era.

LEASE TERMINATION AND SAVINGS PROVISIONS IN TEXAS

Eli Kiefaber, JD, Of Counsel at Steptoe and Johnson PLLC

Discuss common issues which may result in termination of an oil and gas lease beyond its primary term. Discuss evaluating when an oil and gas lease has been maintained by production in paying quantities and payment of shut-in royalties. Also discuss when an oil and gas lease has been maintained by operations or continuous development. Finally, the presentation will provide tools for analyzing retained acreage provisions and the acreage maintained under the terms of the lease.

OIL & GAS CALCULATIONS

Intermediate to Advanced Level, Including Top Formulas!

Taylor Richards, Director, Land Administration at Civitas Resources

In this presentation, we will not only explore the essential calculations involved in the oil and gas industry, but we will also be diving into how to apply these calculations to the bigger picture including how to determine bearer groups from a title opinion. Understanding these calculations is crucial for anyone working in or with Land Administration.

PLAYING IN THE SANDBOX

Sharing the Surface with Renewables

Jenae Allert, JD, Of Counsel at Bricker Graydon

Learn practical skills on negotiating surface provisions in solar and wind leases to co-locate with oil and gas activities. The presentation will include a short summary of the accommodation doctrine plus tips on negotiating surface waivers and accommodation agreements. A summary of the regulatory impact of surface activities will round out the presentation.

RISKS AND LIABILITIES ASSOCIATED WITH LAND ADMINISTRATION

Amy Hopmann, CPLTA, Vice President of PakEnergy Customer Success and Land Outsourcing

Oil & Gas Land Administration teams may face several risks and liabilities, including Non-compliance with regulations: Failure to adhere to the strict regulatory requirements governing oil and gas operations can result in fines, penalties, and legal actions. Contract disputes: Land administration teams often deal with complex contracts with landowners, mineral owners, and other stakeholders. Breach of contract or misunderstanding of contractual obligations can lead to disputes and legal challenges. Inaccurate land records: Errors in land records, such as incorrect lease terms or title defects, can result in costly litigation, loss of revenue, and damaged relationships with landowners. To mitigate these risks and liabilities, Oil & Gas Land Administration teams should implement robust compliance programs, maintain accurate records, seek legal guidance when needed, prioritize health and safety measures, and stay informed about industry trends and regulations.

ROYALTY PAINS

A Crash Course on All Things Mineral/Royalty Interpretation in Texas

Drew Potts. JD. Partner at Kirbv. Mathews and Walrath. PLLC

In Texas, Deeds frequently convey or reserve various attributes of the mineral estate, including royalty. This presentation focuses on practical methods of identifying and classifying mineral and royalty interests in Texas.

SETTING UP MINERAL AND NON-CONSENTING OWNERS UNDER OHIO'S UNITIZATION STATUTE AND TEXAS MIPA APPLICATIONS

Jenae Allert, JD, Of Counsel at Bricker Graydon

This session will focus on determining treatment of royalty owners, working interest owners, and mineral owners under Ohio's Unitization process and TRRC MIPA filings. You will also receive an overview of the statutory process under each of these jurisdictions.

SHUT IN PAYMENTS

A Lease Analyst's Best Friend of Worst Nightmare?

Jerris Johnson, CPL, Land and Energy Technology SME at Rowland.ai

Shut-in royalty payments can be the difference between preserving a valuable lease and facing termination. This session will provide a comprehensive analysis of the shut-in clause, its historical intent, and its modern-day implications for lease analysts. Attendees will gain insight into payment timing, legal interpretations, and potential pitfalls that can impact lease validity. Whether you see shut-in payments as a safety net or a compliance challenge, this discussion will equip you with the knowledge to navigate them with confidence.

SOLAR LEASE FUNDAMENTALS

Phillip Guerra, JD, CPL, Lightsource bp

This topic will focus on the essential components of most solar lease agreements, including surface waivers for mineral owners. Enhance your understanding of frequently encountered lease terms and conditions (both Lessor and Lessee friendly) by reviewing example forms used throughout the renewable industry today. We will also discuss the lease data and terms that should be identified and tracked.

TO PAY OR NOT TO PAY?

The Deductibility of Post-Production Costs from Royalty Payments

Andrew Glenn, JD, Shareholder at Beatty and Wozniak, P.C.

This presentation will provide a multi-state review of current law concerning the deductibility of post-production costs. The discussion will address the effect of oil and gas lease and royalty provisions on the deduction of costs, the distinction between production and post-production costs, and the impact of state law on the deduction of those costs when the royalty provision is silent as to deductibility. This presentation will educate oil and gas attorneys, landmen, and other oil and gas professionals regarding how to interpret oil and gas lease royalty provisions in several oil and gas producing states in the West and will provide related guidance on drafting and title examination.

SUBSURFACE PROPERTY RIGHTS LITIGATION

Joseph Schremmer, JD, Associate Professor at the University of Oklahoma College of Law and Director of the Oil, Gas, Natural Resources, and Energy Center (ONE C)

This presentation will survey recent trends in a growing field of litigation: subsurface property rights. The cases involve rights in oil and gas reservoirs as well as rights to use and occupy pore space. Topics will include ownership of pore space, rights to inject into pore space, and trespasses by migration of fluids.

NAVIGATING ROYALTIES POST-DEVON V. SHEPPARD

What Oil Companies Need to Know About Custom Lease Provisions

Ben Holliday, JD, Founder of Holliday Energy Law Group

The Texas Supreme Court's ruling in Devon v. Sheppard is reshaping how oil companies approach lease agreements and royalty calculations. If your company sells production under contracts that factor in post-production costs, this decision could have a significant financial impact. The case centered on whether landowners' royalties should be calculated based on the gross proceeds of a sale—even when downstream costs are deducted by third-party buyers. The court ruled in favor of the landowners, requiring Devon to add back those deductions when calculating royalties. The takeaway? Standard industry practices for structuring sales and allocating post production costs may not be enforceable under certain lease terms. This session will break down the key legal and financial implications of the ruling and what it means for oil companies moving forward. We'll explore strategies to mitigate risk, ensure lease agreements align with operational realities, and avoid costly litigation. If your company is involved in production, marketing, or contract negotiation, this is a must-attend discussion. Don't let royalty disputes cut into your margins—learn how to adapt to this evolving legal landscape.

UNDERSTANDING TITLE OPINIONS

Title Attorney Said What?

Melissa Gardner, JD, Attorney at Ball Morse Lowe, PLLC

We'll walk through the parts of a title opinion and hopefully gain a better understanding of why those parts are included. We'll also discuss the legal (and or ethical) reasons that a title attorney often includes things that seem unnecessary or nonsensical.

KEEP THE CELEBRATION GOING NALTA'S GUIDE TO MIAMI

EATS

SOL SEARCHING

EXPLORE

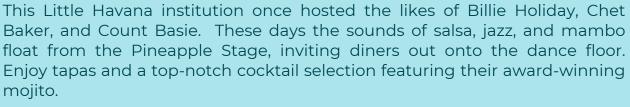

TAKE ADVANTAGE OF NALTA'S SPECIAL ROOM RATE AND EXTEND YOUR STAY BEFORE AND/OR AFTER CONFERENCE.

CHECK OUT OUR RECOMMENDATIONS, FEATURING ENTERTAINMENT COMMITTEE CO-CHAIR BETH MCCRANIE'S "BETH'S RECS" TO MAKE THE MOST OUT OF YOUR TIME IN MIAM!

BETH LOVED IT BECAUSE...

Ball & Chain has amazing Cuban food, live music even at lunch time, and is really affordable compared to the rest of Miami. It's in an old neighborhood with a funky ice cream shop next door and a famous domino park across the street.

Just a short 5-minute walk from the InterContinental Miami Hotel, Mastro's Steakhouses' Miami location, Mastro's Ocean Club is a classic America steakhouse offering fresh seafood options and an elegant atmosphere.

cuisine,

Boasting world-class service, highly acclaimed entertainment, Mastro's Ocean Club is an unparalleled dining experience.

Find a feast for all of your senses with Michelin-starred, Chef Director Björn Weissgerber's Asian-inspired curated menu enjoyed in an underwater-themed atmosphere with original Damien Hirst artwork. Enjoy lunch or dinner, or stay up late for Sexy Fish's late night experience featuring international DJs and thematic entertainment.

BETH LOVED IT BECAUSE...

Sexy Fish is a gorgeous restaurant. They had the best food we tried, not Cuban at all, though. They switch to DJ/night club when it gets late, and every inch of the place is covered in colors and underwater themes. People were taking amateur photoshoots in the crazy bathrooms while we were there. They sometimes have performers who dress up like "mermaids" and entertain the crowds. It was nuts.

Toro Toro blends Pan-Latin flavors with classic steakhouse fare to deliver a unique and delectable culinary experience. Award-winning Chef Richard Sandoval gives a Latin twist to his wonderful dishes in a comfortable, yet sophisticated atmosphere.

There's something for everyone with Toro Toro's extension beverage menu, expertly curated collection of wines, and wonderfully fresh ingredients.

Share a decadent meal on the beach at this exclusive hideaway on Jungle Island. Guests can enjoy drinks, food, and toes in the sand at what Condé Nast Traveler named as "one of the best beaches in

Miami." Away from the crowds of other beaches, toast to the Golden Hour and dance the night away on the beachfront dance floor.

BETH LOVED IT BECAUSE...

Joia Beach is across the bay from the hotel, so when you're there, you can see the city skyline while being on a beach. Has a big bar and restaurant, covered and uncovered outdoors mostly, swimming area, and it has an area for people to be dropped off by boat if they want to be fancy.

SOUTH BEACH

Iconic South Beach is a two-mile stretch of white sandy beaches ideal for soaking in the rays. Lummus Park and South Pointe Park offer fun for the whole family with playgrounds, picnic areas, and beach access. umbrella, and beach chaise rentals are available at various points along the beach.

Enjoy exclusive access to a South Beach hotel beach club through the InterContinental Miami Hotel. Contact the hotel for booking, pricing, and availability.

Take advantage of the InterContinental Miami's pool deck with lounge chairs, towel service, complementary water, and a sparkling pool always heated to the perfect temperature. Enjoy Bluewater, the poolside bar, for light eats and delicious drinks.

For added relaxation, book a poolside cabana for a private oasis with food and beverage service, comfy seating, a ceiling fan, a TV, and a mini-fridge stocked with sodas. Each cabana is designed to welcome 4 or 6 guests. Contact the hotel for booking and pricing information.

BAYFRONT PARK

Just steps away from the InterContinental Miami, Bayfront Park, originally built in 1896, spans 32 acres on Biscayne Bay. There's something for everyone,

Miami from the Skyview (pictured Observation Wheel playgrounds right) to museums, walk and bike paths, an amphitheater operated by Live Nation, free yoga classes every Tuesday and Thursday at 5pm, and even The Flying Trapeze School for those feeling adventurous.

SEARC

WYNWOOD WALLS

2516 NW 2nd Ave Miami, FL 33127

This one-of-a-kind museum brings together thoughtfully curated artwork by fine artists, graffiti writers, and muralists. Open daily from 10:30am to 6:30pm, get access through a general admission ticket, starting at \$8, or book an experience and/or tour through their website. Download their app for a truly interactive experience.

BETH LOVED IT BECAUSE...

Wynwood Walls is a really cool art gallery for street art. Artists come from all over to create art on site, and then people can roam around through it. It has indoor and outdoor galleries and a gift shop, and the whole neighborhood has a ton of really well done graffiti.

The Red Loop route showcases iconic landmarks like the South Beach Art Deco District, Little Havana, and Wynwood. Departing every hour from 9:00 am to 6:00pm at Bayside Marketplace, conveniently located a brief 8-minute walk from the hotel, prices vary by ticket and tour type.

KEY WEST

KEY WEST DAY TRIP

Departing from the InterContinental Miami hotel promptly at 7:00am and returning at 10:00pm daily, take an excursion to beautiful Key West. Once in Key West, you'll have the opportunity to partake in activities such as a glass-bottom boat tour. This experience is \$79 per person.

Explore Miami aboard the Island Queen, a fully narrated bilingual sightseeing cruise along scenic Biscayne Bay! See the beautiful downtown Miami skyline, the Port of Miami, Fisher Island, Miami Beach, and "Millionaire's Row" homes of the rich and famous. The cruise lasts 90 minutes. A coupon for this experience is available through the InterContinental Miami.

EVERGLADES HOLIDAY PARK

Offered through the InterContinental Miami, take a thrilling airboat ride at Everglades Holiday Park, where you can immerse yourself in the region's vibrant wildlife, see a fun and educational show, and hold a baby alligator. The tour departs from the hotel around 9:45am and returns around 2:30pm. This adventure is \$70 per person.

BAHAMAS DAY TRIP

During the summer months Admiral Tours, in partnership with the Baleria Ferry, departs for the Bahamas Mondays, Wednesdays, Fridays, and Sundays. This excursion is \$279 per adult and \$239 per child under 12 years old. A passport is required to board the ship. Contact the InterContinental Miami for more information.
