# VOXIE TACTICS

## DRAGONFEST

Download Now!

WATCH TRAILER

April 3 - May 1

### LORE

The Voxiverse is in peril, for a great threat has arisen! **Roazzul**, a fearsome Dragon of legend, has awoken from its slumber and now plans to lay waste to all that we hold dear. But all is not lost, for a community of brave heroes will need to band together to face this challenge head-on.

### GAMEPLAY

The scenario is simple: Enter the Dragonfest Arena, do as much damage to the Bone Dragon as possible, and then escape with your life! But this is no ordinary challenge. You will play alone but the Bone Dragon Boss cannot be defeated by you alone. How is this all possible? You will need to fight together as a community, each player contributing their own share of damage to bring down the boss. The more players that play, the more Roazzul's HP bar is decreased, leading to a final reward that will make it all worthwhile!

### HOW TO PLAY

1. Download the latest patch of the game
2. Have at least 1 Voxies NFT in your wallet, or rent at least 1 Voxies NFT in the marketplace
3. Open the game, gear up your Voxies in Party Roster, and go to Dragonfest.

4. Place 3 Voxies that will fight Roazzul, then try do to as much damage as you can against the boss. Roazzul will of course retaliate and attack your Voxies with a variety of nasty abilities. You can also buy Drako Potions in [Services](#) that will increase your Voxel's damage for up to 2x and give a temporary buff. For every 500 damage that you inflict, you will earn 1 Bone Fragment . But Bone Fragments will only register in your account if you manage to escape from the boss by moving one of your Voxies to an exit tile.

If your Voxies get wiped-out, the bone fragments will not add to your account, but your damage will count in the Total Damage and Top Damage leaderboards. There is also a Total Fragments leaderboard, and placing within Top 50 in each leaderboard will reward you with NFT items by the end of the event. Check the current boss HP and Dragonfest leaderboards [here](#).

### Convert your Bone Fragments into Chests!

Lil Flame Chest

Smoldering Magma Chest

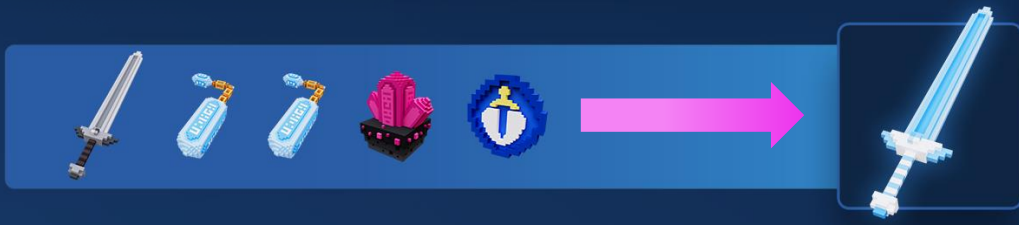

Roaring Inferno Chest

Convert Bone Fragments to Chests in [Services](#), and open a chest in the [Forge](#). Get a chance to get a **Bone Dragon Pet**!

# The Arcanist's Forge: Infusion

# Voxie Tactics New Version—Version 0.28.5

Released on March 17, 2023

A Patch hotfix to compliment the latest version, with some quick balance updates and crash fixes, most notably for the AI matches and AI targeting.

## GAME CLIENT

### Bug Fixes

- Fix the crashes when AI takeover happens when an opponent leaves the battle
- Stop AI from re-using the same ability when a player quits out from a match
- Fix for attack tile being invalid and sometimes causing issues with the AI targeting
- Fix for dual wielding Candy Cane Daggers and DoppelDaggers causing some issues in matchmaking
- Remove the free-movement controls in battle mode after a player has gone into adventure mode

## GAMEPLAY

### General

- **Doom** 🗡️ status effect tick counter is now **14** instead of **12**
- **Root** 🌿 status effect is now broken when doing damage to the target
- Reduce the overall damage done by Monsters/Undead so that Zombies are not too overpowered when combined with other balance changes
- Modify the starting HP for different armor class character

## CHARACTERS

### Classes

#### Squire

- Add **torment** status effect to the Squire Slingshot
- Add **regen** to Squire Banner Wave
- The previous change to the Squire **Eye Poke** ability was an over-nerf and had unintended consequences by removing it as weapon damage, so this change has been reverted now back to **weapon-based damage**. The Squire class was already under powered in relation to other classes, so some of the other recent balance changes really hit the Squire hard, so we feel giving back some utility and power to the Squire class is necessary

### Races

#### Robo

- Blue robot racial takes twice as long to charge, so it is now every **6 turns** instead of **3**
