**MAKING LIVES BETTER  
SINCE 1991**

### *Founder speaks...*

Reflecting on **Ascent Meditech Ltd.**'s journey and its flagship brand, **Flamingo**, I'm reminded of Swami Vivekananda's words: "Arise, awake, and stop not until the goal is reached."

This philosophy has guided us,  
turning challenges into opportunities.

Over 30 years ago, we set out to transform how people manage pain. In 1991, when electrical heating therapy were virtually unknown in India and hot water bags were standard, many were sceptical. But our commitment to alleviating suffering kept us moving forward, pushing us to innovate and redefine pain management.

**Flamingo's** story is one of resilience. From introducing pioneering electrical heating pads to building a diverse portfolio of 500+ products-from home health care to orthopaedic supports, from wound care to mobility aids, and now progressing to consumer healthcare - our aim has been to create impact. Our presence in over 60 countries, supported by a team of 1,600+ employees, reflects the trust we've earned worldwide.

Our advanced manufacturing facility in Valsad (Gujarat) stands as a testament to 'Made in India' excellence. But beyond our products, it's the lives we improve that inspire us. Each person who finds relief motivates us to continue our mission toward a Pain-Free World.

As we look to the future, we remain committed to innovation. This journey would not be possible without our dedicated employees, partners, and customers. Your trust is the foundation of our success, and I'm deeply grateful for your continued belief in our vision.

**Together, we're not just advancing healthcare - we're changing lives.**

Thank you for being part of this journey!

**Rajiv Mistry**

Founder & CMD

**Ascent Meditech Ltd.**

# COMPANY INTRODUCTION

**Ascent Group of Companies** is engaged in providing pain management solutions. Our group company, Ascent Meditech Ltd., is an Indian consumer healthcare multinational that has been operating for over three decades. Spread across 12 acres, Ascent Meditech Ltd.'s manufacturing facility complies with WHO-GMP standards and is located in the Indian state of Gujarat.

Flamingo, the flagship and award-winning brand of Ascent Meditech Ltd., caters to both OTC and prescription (Rx) requirements with its range of **400+** products across orthopaedic soft goods, wound care, healthcare, mobility aids, and consumer goods. Flamingo products are also exported to **50+** countries across the globe.

At **Ascent Meditech Ltd.**, our continuous focus on quality is driven by our commitment to providing **"An Aid for a New Life"** to both our current and future customers.

# OUR VISION

At Flamingo, we aspire to transform the global lifestyle landscape by offering a diverse range of meticulously designed, technologically advanced, and affordable orthopedic solutions. Our vision is to empower individuals across the world to embrace a healthier, more active, and fulfilling life—one that is free from limitations and full of possibilities.

# OUR MISSION

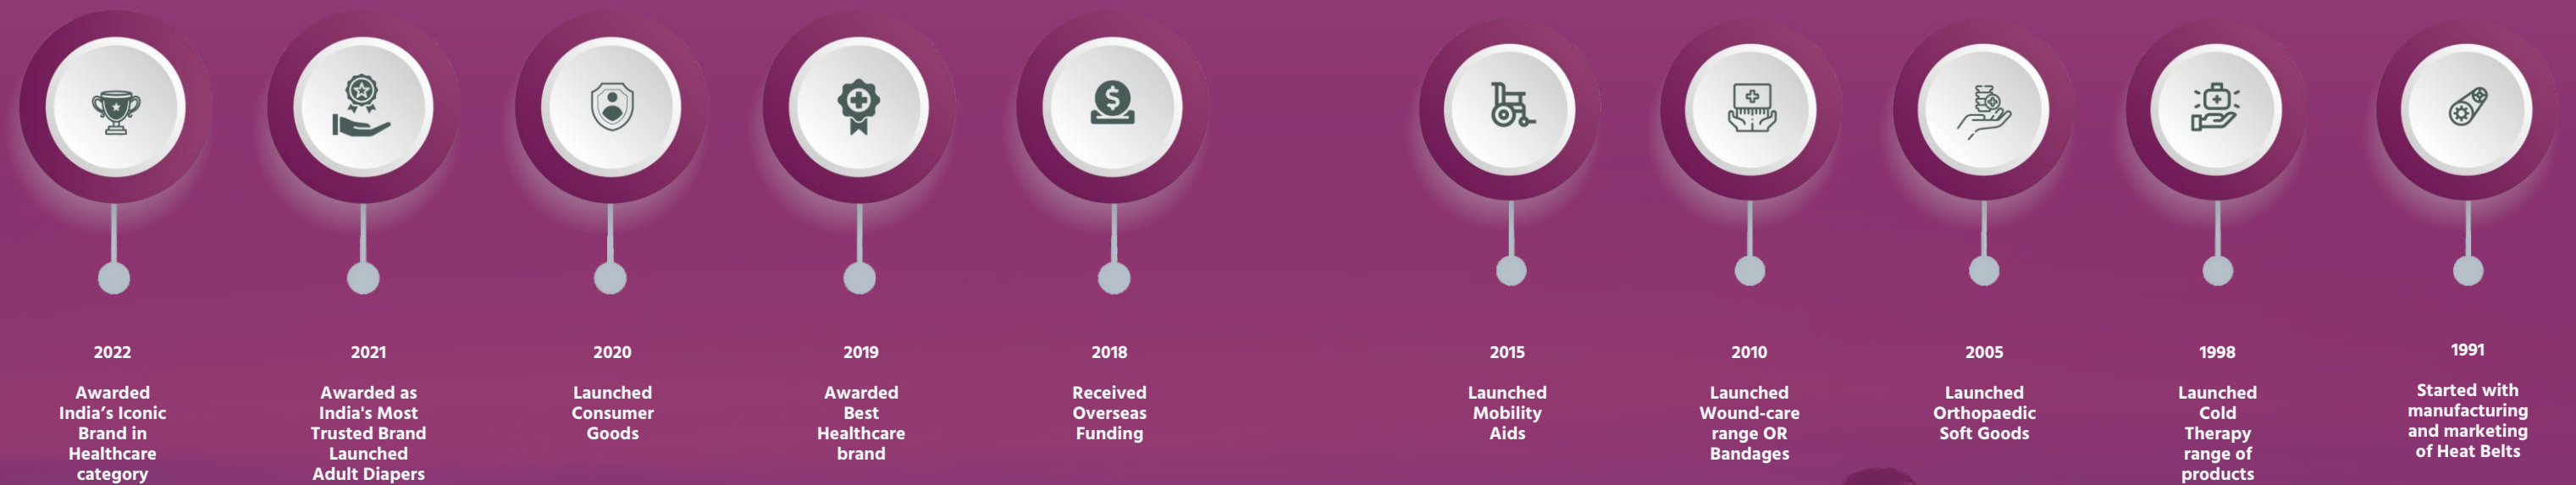

Our mission is to create moments of joy and relief for our customers, regardless of their age or stage of life. By providing innovative products that prioritize comfort, mobility, and well-being, we aim to enrich everyday experiences, allowing individuals to live more freely, move more confidently, and enjoy life to its fullest.

# OUR JOURNEY

Ascent Meditech Ltd. has been in the business of empowering aspirations of customers since three decades. Highlighted below are the major developments since the inception of Ascent Meditech Ltd. in 1991

# Knee Supports

- **Promote natural movement and improve confidence**  
Encourages flexibility while reducing the fear of discomfort or missteps.
- **Support posture and joint alignment**  
Even pressure distribution helps protect the knee during daily movement.

## INTERESTING FACTS

The knee relies on **4** major ligaments.

and **2** shock-absorbing cartilage pads to function smoothly.

## DID YOU KNOW?

Your knees absorb up to **5X** your body weight when climbing stairs.

The knee is involved in over **1,000** movements per day during walking alone.

## Knee Supports

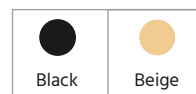

Code - OC 2013

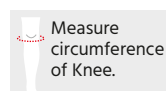

### Knee Cap

- Suitable for knee discomfort from injury, sports, ageing or daily strain.
- Provides uniform compression around the knee joint.
- Helps support and stabilise the knee during movement.
- Made with breathable 2-way stretch knit fabric.
- Anatomical design offers a snug and comfortable fit.

Available in 2 colours

Unit: Pair

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

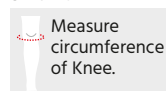

Code - OC 2127

### Premium Knee Cap

- Suitable for knee discomfort from injury, strain, sports or ageing.
- Offers advanced support through uniform compression.
- 4-way stretch knit fabric gives a snug, custom-like fit.
- Special knit around patella adds comfort and reduces pressure.
- Stays in place without slipping during movement.

Unit: Pair

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

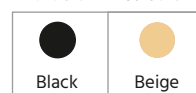

Code - OC 2047

### Open Patella Knee Cap

- Suitable for knee issues linked to injury, arthritis, or sports activity.
- Open patella design offers targeted support and comfort.
- Gel ring helps stabilise the kneecap and ease joint pressure.
- Provides even compression for added support.
- 2-way stretch fabric allows flexibility and breathability.

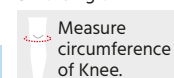

Available in 2 colours

Soft Gel Ring Inside

Unit: Single

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms

	3XL	52.5 - 57.5 cms

## Knee Supports

Code - OC 2069

### Knee Stabilizer

- Suitable for knee strain, instability or mild patella discomfort.
- Open patella design helps reduce pressure on the kneecap.
- Wrap-around style allows easy wear and firm compression.
- Soft straps offer adjustable, secure and snug fit.
- Helps support the knee during basic movement.

**Unit:** Single

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

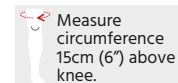

Code - OC 2370

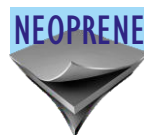

### Knee Wrap (Neoprene)

- Suitable for sports injuries, arthritis or long-standing knee pain.
- Wrap design supports easy wear and patellar stability.
- Neoprene helps retain warmth for added comfort.
- Adjustable straps offer a firm and personalised fit.
- Offers gentle compression for regular activity.

**Unit:** Single

Common for left & right knee.

Size :	Universal	33 - 50.8 cm
--------	-----------	--------------

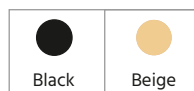

Code - OC 2083

### Light Knee Brace

- Suitable for sprains, arthritis or sport-related knee discomfort.
- Spiral stays help support and guide natural movement.
- 2-way stretch fabric ensures light, even compression.
- Pull-on design allows ease of use and comfort.

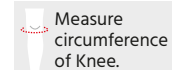

Available in 2 colours

Spiral Metal Hinge

**Unit:** Single

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

Code - OC 2498

## Premium Flexi Hinged Knee Sleeve (With Silicone Patella Ring)

- Suitable for mild sprains, sports injury or chronic knee pain.
- Hinged design supports natural knee movement.
- Spiral stays enhance stability during motion.
- 4-way stretch fabric offers flexibility and compression.
- Silicone ring around patella adds comfort and support.

Silicone Ring Metal Spiral Hinge

Unit: Single

\*Measure circumference around mid thigh approximately 6 inches above knee

Common for left & right knee.

Size :	S	37 - 43 cms

# KNEE

## IMMOBILIZER - Tri Panel

Code - OC 2571

Designed to stabilize the knee, restrict movement, and aid recovery. The 3-panel adjustable design fits various leg shapes, while four metal splints (two back, two sides) provide reinforced support. Adjustable straps ensure a secure and customizable fit.

### SUITABLE FOR

post-surgery recovery (ACL/meniscus repair), knee sprains, fractures, and conditions requiring full knee immobilization.

Measure circumference of the Knee.

Size : Universal 27.5 - 47.5 cm

Common for left & right knee.

**Available Height:**  
17", 20" and 24"

**Available Color:**  
■ ■

**Unit:** Single

- 3-panel design adapts to different leg sizes.
- Total knee immobilization for recovery and stability.
- 4 metal splints for reinforced support.
- Adjustable straps for a customized fit.
- Breathable, padded fabric for comfort.

# R.O.M. KNEE BRACE

Code - OC 2141

Provides controlled knee movement and stability during recovery. The adjustable range of motion dial allows precise flexion (0° to 120°) and extension (0° to 90°), ensuring gradual rehabilitation. Sturdy metal stays and anti-skid grips enhance support and alignment.

## SUITABLE FOR

patella and joint dislocation,  
post-surgery rehabilitation,  
ligament injury, and sports injury

Measure circumference  
of the Knee.

Size : Universal

Common for left & right knee.

**Unit:** Single

- Adjustable range of motion for controlled knee movement.
- Two vertical metal stays for stability and alignment.
- Quick-release buckles and adjustable straps for a customized fit.
- Telescopic height adjustment for personalized comfort.
- Anti-skid grips ensure a secure, slip-free fit.

## Knee Supports

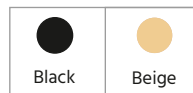

Code - OC 2035

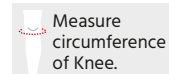

### Knee Immobilizer

- Suitable for post-surgery recovery, fractures or emergency knee support.
- Helps fully immobilise the knee joint when required.
- Available in 17", 19", 21" and 24" brace lengths.
- Malleable splints offer custom support and comfort.
- Multiple straps hold the brace securely in place

Available in 2 colours

**Unit:** Single

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

Code - OC 2023

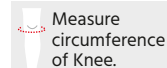

### Hinged Knee Cap

- Suitable for knee discomfort from age, sports or minor injury.
- 2-way stretch fabric gives even compression.
- Bi-axle hinges support natural movement and stability.
- Hook-and-loop straps allow secure fitting.
- Pull-on design ensures quick and easy wear.

Plastic Hinge

**Unit:** Single

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

Code - OC 2020

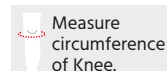

### Elastic Knee Support

- Suitable for weak knees, injury prevention, or elderly care.
- Soft compression offers light support and comfort.
- Open patella design supports kneecap positioning.
- Bi-axle hinges help maintain normal knee motion.
- Wrap style allows easy and adjustable application.

Plastic Hinge

**Unit:** Single

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

# OSTEO-ARTHRITIS

## KNEE SUPPORT (NEOPRENE)

Code - OC 2365

Provides moderate support, stabilizing the knee joint and improving mobility for individuals with osteo-arthritis or varus/valgus deformities. The bi-axle hinge and monofilament elastic straps aid in knee alignment while reducing discomfort during daily activities.

### SUITABLE FOR

mild to moderate osteo-arthritis, varus/valgus deformity

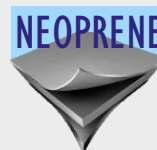

\*Measure circumference 6" above Knee.

Size :	S	37 - 43 cms
	M	43 - 49 cms
	L	49 - 55 cms
	XL	55 - 61 cms
	2XL	61 - 67 cms

Common for right varus or left valgus and left varus or right valgus.

Unit: Single

- Bi-axle hinge supports knee and helps correct misalignment along with monofilament elastics.
- Soft neoprene material retains body heat, reducing stiffness and enhancing comfort.
- Neoprene patellar cushion protects and stabilizes the knee cap.
- Adjustable hook-and-loop straps ensure a secure and customized fit.

## Knee Supports

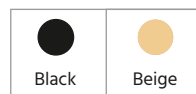

Code - OC 2132

### Gel Bi-Axle Hinged Knee Brace

- Suitable for strain, instability or post-surgery knee care.
- Hinges offer side-to-side stability during movement.
- Bi-axle joints mimic natural knee bending.
- Dual straps help get a close and secure fit.
- Gel ring supports patella and adds comfort.

Available in 2 colours

Metal Hinge

Gel Ring inside

Unit: Single

Measure circumference of Knee.

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms

	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

Code - OC 2062

## Patella Strap (Neoprene)

- Suitable for patellar tendonitis or knee degeneration.
- Cushioned pad supports the patella in place.
- Offers light, targeted compression to the knee.
- Hook-and-loop strap with D-ring ensures secure fit.
- Neoprene with EVA padding adds comfort and durability.

Common for left  
& right knee.

**Unit:** Single

Size : Universal

Fits Knee : 11" - 18"

# Ankle Supports

- **Allow natural motion while offering protection**  
Secure fit prevents excessive movement without limiting flexibility.
- **Improve balance and help prevent repeated stress**  
Aid recovery and boost confidence in daily steps.

## INTERESTING FACTS

Ankle injuries are among the **top 3 most common musculoskeletal injuries** worldwide.

## DID YOU KNOW?

Each ankle absorbs pressure equal to **1.5 times your body weight** when walking.

The ankle joint is made up of **3 bones** and **over 100 soft tissue structures**.

## Ankle Supports

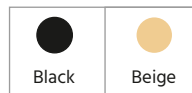

Code - OC 2014

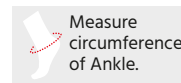

### Anklet

- Suitable for ankle strain, arthritis or ageing-related discomfort.
- Offers uniform compression for mild ankle support.
- Open-toe and heel design improves airflow and comfort.
- 2-way stretch fabric allows flexibility and durability.
- Anatomical fit ensures secure and comfortable wear.

Available in 2 colours

Unit: Pair

Size :	S	15 - 20 cms
	M	20 - 25 cms

	2XL	35 - 40 cms
	3XL	40 - 45 cms

Code - OC 2456

### Ankle Grip (Neoprene)

- Suitable for sprains, arthritis or ankle instability.
- Neoprene material retains warmth and compression.
- Figure-8 elastic wrap offers secure ankle support.
- Open toe and heel design improves breathability.
- Supports movement while adding mild stability

Unit: Single

Common for left & right ankle.

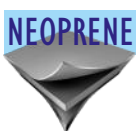

Size : Universal 15 - 30 cms

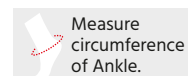

Code - OC 2371

### Ankle Wrap (Neoprene)

- Suitable for ankle pain from ageing, strain or arthritis.
- Neoprene retains heat and offers gentle compression.
- Air vents in the wrap improve breathability.
- Wrap-around design ensures flexible use.

Unit: Single

Common for left & right ankle.

Size : Universal 15 - 30 cms

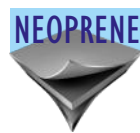

## Ankle Supports

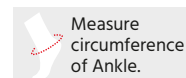

Code - OC 2374

### Adjustable Ankle Support (Neoprene)

- Suitable for sprains, arthritis or general ankle weakness.
- Plastic splints control side movement of the ankle.
- Neoprene retains warmth for steady support.
- Anti-skid grip helps maintain stability.
- Wrap-around elastic offers custom compression.

Unit: Single

Common for left & right ankle.

Size : Universal 15 - 30 cms

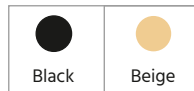

Code - OC 2040

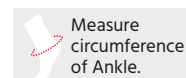

### Ankle Brace

- Suitable for ankle strain, arthritis or instability issues.
- Plastic splints offer side-to-side ankle support.
- Soft foam lining ensures added comfort during use.
- Lace system allows adjustable, snug compression.
- Open heel helps ensure a proper, breathable fit.

Available in 2 colours

Unit: Single

Common for left & right ankle.

Size :	S	15 - 20 cms
	M	20 - 25 cms
	L	25 - 30 cms
	XL	30 - 35 cms
	2XL	35 - 40 cms

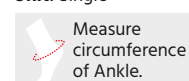

Code - OC 2125

### Stirrup Ankle Brace

- Suitable for ankle instability, tendonitis or post-surgery care.
- Semi-rigid stays limit side-to-side ankle movement.
- Foam EVA padding offers extra comfort during wear.
- Supports the ankle while allowing up-and-down motion.

Unit: Single

Common for left & right ankle.

Size : Universal

## Ankle Supports

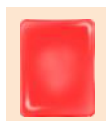

Code - OC 2194

### Gel Stirrup Ankle Brace

- Suitable for tendonitis, ankle weakness or recovery use.
- Gel padding provides cushioning and soft contact.
- Semi-rigid sides help restrict ankle rotation.
- Supports up-and-down flexion of the ankle.

Soft Gel Padding

**Unit:** Single

Measure circumference of Ankle .

Common for left & right ankle.

Size : Universal

Code - OC 2205

### Foot Drop Splint

- Suitable for foot drop or peroneal nerve damage.
- Helps support foot position while walking.
- Made with semi-rigid plastic and adjustable straps.
- Designed to fit inside standard footwear.

**Unit:** Single

Different for left & right foot.

**Size :** Universal

# AIR WALKER BOOT (LONG)

Code - OC 2556

Designed with a rocker bottom sole, it promotes a natural walking motion while contoured side panels with front and back panels offer enhanced protection, support, and a secure fit. The inflatable air bladder provides additional stability, reduces swelling, and ensures even pressure distribution.

## SUITABLE FOR

grade II/III ankle sprains, stable fractures of the fibula, talus, calcaneus, and medial malleolus.

\*Measure Shoe Size

Sizes	Men (UK)	Women (UK)
Small	3 - 5.5	2.5 - 5
Medium	5.5 - 8	5 - 7.5
Large	8 - 11	7.5 - 10.5
X Large	11 - 13	10.5 - 12.5

Common for left & right leg

**Unit:** Single

- Rocker bottom design enables smooth and natural walking.
- Contoured side panels with front and back panels enhance support and fit.
- Inflatable air bladder offers customizable compression and reduces swelling.

# AIR WALKER BOOT (SHORT)

Code - OC 2555

Designed with a rocker bottom sole, it promotes a natural walking motion while contoured side panels with front and back panels offer enhanced protection, support, and a secure fit. The inflatable air bladder provides additional stability, reduces swelling, and ensures even pressure distribution.

## SUITABLE FOR

grade II/III ankle sprains, stable fractures of the fibula, talus, calcaneus, and medial malleolus.

\*Measure Shoe Size

Sizes	Men (UK)	Women (UK)
Small	3 - 5.5	2.5 - 5
Medium	5.5 - 8	5 - 7.5
Large	8 - 11	7.5 - 10.5
X Large	11 - 13	10.5 - 12.5

Common for left & right leg

**Unit:** Single

- Rocker bottom design enables smooth and natural walking.
- Contoured side panels with front and back panels enhance support and fit.
- Inflatable air bladder offers customizable compression and reduces swelling.

# Back Supports

- **Encourage proper posture during sitting or standing**  
Help reduce slouching and support spinal alignment.
- **Improve comfort and confidence in daily activities**  
Ease stiffness and fatigue from long sitting hours or repetitive motion.

## INTERESTING FACTS

The human spine has **33** vertebrae and supports the entire upper body.

## DID YOU KNOW?

Your back is active around **1,500** times a day during movement and posture control.

Nearly **80%** of people experience lower back pain at least once in their lifetime.

## Back Supports

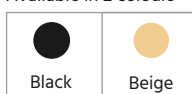

Code - OC2001

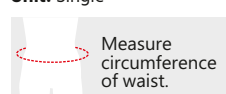

### Lumbar Sacro Belt

- Suitable for low back pain, disc issues or osteoporosis-related support.
- Five plastic stays help support the lumbar region.
- Elastic straps allow adjustable compression levels.
- EVA padding offers added comfort during wear.
- Semi-rigid design supports posture and movement.

Available in 2 colours

Unit: Single

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 130 cms
	Uni	70 - 110 cms
	Spl	110 - 130 cms

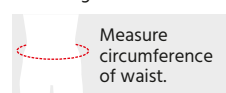

Code - OC 2517

### L.S. Belt Compression Comfort

- Suitable for poor posture, back pain or disc discomfort.
- Five plastic splints support lumbar and sacral areas.
- Elastic straps provide a close and firm fit.
- EVA back pad adds softness and breathability.
- Soft fabric ensures long-lasting comfort.

Unit: Single

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms

	Uni	70 - 110 cms
	Spl	110 - 130 cms

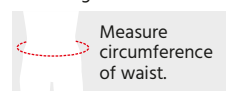

Code - OC 2033

### Lumbar Corset Belt

- Suitable for posture correction or lower back fatigue.
- Two plastic and two metal splints support the back.
- Helps limit extra movement in the lumbar region.
- Wide straps allow custom compression and control.
- Front flaps make it easy to put on and remove.

Unit: Single

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 130 cms

# ADVANCED L.S. BELT

Code : OC 2572

Designed with 4 narrow semi-rigid plastic splints and 1 wide central splint, it ensures optimal support to the lumbar and sacral region. A wide elastic strap provides a snug fit, while additional elastic straps enhance reinforcement. The 12-inch foam back panel offers extra cushioning and comfort.

## SUITABLE FOR

Degenerative disc disease,  
lumbar spondylosis,  
low back pain,  
post-surgical support.

Measure circumference  
of waist.

Size: S	70 - 80 cm
M	80 - 90 cm
L	90 - 100 cm
XL	100 - 110 cm
2XL	110 - 120 cm
3XL	120 - 130 cm

**Available Color :**

**Unit:** Single

- Semi-rigid and central plastic splints provide structured lumbar support.
- Wide elastic strap ensures a secure and comfortable fit.
- Additional elastic straps offer enhanced reinforcement.
- Foam back panel cushions the LS region for added comfort.

## Back Supports

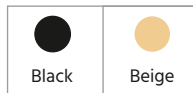

Code - OC 2006

### Contoured L.S. Belt

- Suitable for post-surgery recovery or chronic back discomfort.
- Four contoured metal splints give strong back support.
- Designed to promote proper lower back posture.
- Adjustable elastic straps control compression.
- Easy to wear and comfortable for daily use.

Available in 2 colours

Unit: Single

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 130 cms

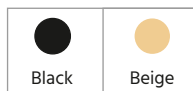

Code - OC 2007

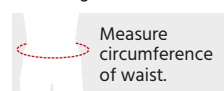

### Contoured L.S. Support

- Suitable for post-surgery recovery or chronic back discomfort.
- Four contoured metal splints give strong back support.
- Designed to promote proper lower back posture.
- Adjustable elastic straps control compression.
- Easy to wear and comfortable for daily use.

Available in 2 colours

Unit: Single

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 130 cms

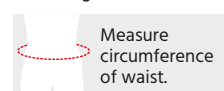

Code - OC 2054

### Premium Lumbar Sacro Support

- Suitable for back care post-surgery or long-standing pain.
- Four metal splints support the lumbar spine.
- Wide straps provide even and adjustable compression.
- Front panels make it easy to wear and adjust.
- Made from strong, soft and breathable fabric.

Unit: Single

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 130 cms

## Back Supports

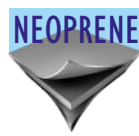

Code - OC 2367

### Adjustable Back Support – Neoprene

- Suitable for disc issues, lower back pain or posture care.
- Four metal splints provide firm lower back support.
- Neoprene helps retain warmth for added comfort.
- Stretchable fabric fits various waist sizes.

Unit: Single

Measure  
circumference  
of waist.

Universal :	S / M / L	71 - 102 cms
Special :	XL / 2XL / 3XL	102 - 132 cms

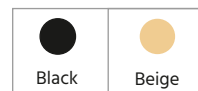

Code - OC 2455

### Back Comfort Belt

- Suitable for lower back pain, strain or posture fatigue.
- Four semi-rigid splints offer gentle lumbar support.
- Lycra fabric ensures a soft and stretchable fit.
- Mesh panels improve airflow and breathability.
- Flexible design supports natural body movement.

Available in 2 colours

Unit: Single

Measure  
circumference  
of waist.

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 130 cms

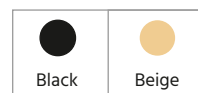

Code - OC 2454

### Lacepull Back Belt

- Suitable for lower back issues or posture support.
- Six splints stabilise the spine from both sides.
- Pulley system ensures even compression and fit.
- Long back panel adapts to the body's shape.
- Thumb loops help with easy self-adjustment.

Available in 2 colours

Unit: Single

Measure  
circumference  
of waist.

Universal :	70 - 100 cms
Special :	100 - 130 cms

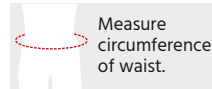

Code - OC 2050

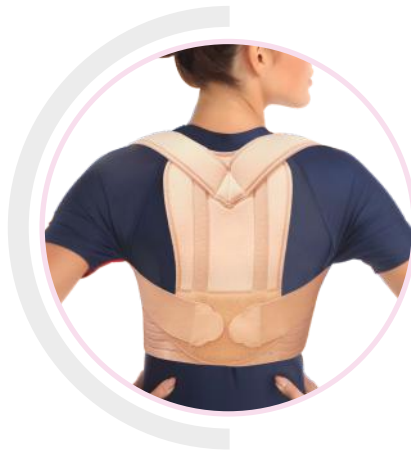

### ECO Frame Belt

- Suitable for post-surgery recovery or chronic back pain.
- Rigid frame helps provide spinal stability.
- Offers firm support to the lower back.
- Compression level is adjustable for comfort

Unit: Single

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 130 cms

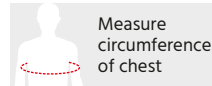

Code - OC 2361

### Posture Brace

- Suitable for poor posture, shoulder fatigue or mild thoracic issues.
- Helps pull shoulders back to align posture.
- Plastic stays offer light thoracic support.
- Shoulder and EVA padding provide extra comfort.
- Breathable fabric prevents heat build-up during use..

Unit: Single

Size :	S	75 - 85 cms
	M	85 - 95 cms
	L	95 - 105 cms
	XL	105 - 115 cms
	2XL	115 - 125 cms
	3XL	125 - 135 cms

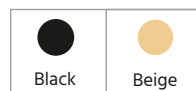

Code - OC 2018

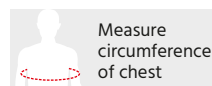

### Clavicle Brace

- Suitable for stable clavicle fractures or shoulder alignment.
- Helps restrict shoulder movement for better positioning.
- Wide padded straps improve comfort during wear.
- Semi-rigid plastic stays offer added support.
- D-ring straps allow easy and adjustable fitting.

Available in 2 colours

Unit: Single

Size :	S	75 - 85 cms
	M	85 - 95 cms
	L	95 - 105 cms
	XL	105 - 115 cms
	2XL	115 - 125 cms
	3XL	125 - 135 cms

## Back Supports

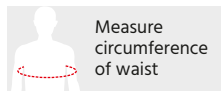

Code - OC 2363

### Compact Spinal Brace

- Suitable for spine issues like fractures or spondylosis.
- Supports from thoracic to sacral spine regions.
- Two vertical stays help maintain spine posture.
- Shoulder straps guide proper alignment.
- Elastic abdominal strap offers firm compression

Unit: Single

Size :	S	75 - 85 cms
	M	85 - 95 cms
	L	95 - 105 cms
	XL	105 - 115 cms
	2XL	115 - 125 cms
	3XL	125 - 135 cms

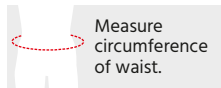

Code - OC 2034

### Dorsolumbar Spinal Brace (Taylors Brace)

- Suitable for spine injuries, fractures or post-surgery recovery.
- Covers and supports the full dorsolumbar region.
- Vertical and horizontal splints enhance stability.
- Shoulder straps assist with posture correction.
- Abdominal belt offers adjustable compression.

Unit: Single

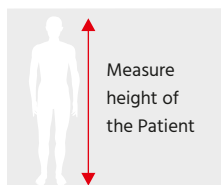

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 130 cms

Code - OC 2129

### Hyper Extension Brace

- Suitable for thoracolumbar compression fractures, post-op spine immobilization.
- Rigid frame helps limit upper body bending
- Three cushioned pads prevent spine flexion
- Height can be adjusted for a better fit
- Lightweight build with padded back for comfort

Unit: Single

Short :	Upto 165 cms
Long :	Above 165 cms

# Abdominal Supports

- **Improve core stability and ease movement**  
Reinforce abdominal muscles without restricting breathing or posture.
- **Support better posture and reduce fatigue**  
Help maintain alignment and reduce pressure on the lower back.

## INTERESTING FACTS

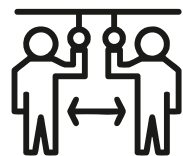

Core muscles not only support posture but also protect internal organs.

## DID YOU KNOW?

The abdominal wall is made up of **5** paired muscles working together for core control.

We use our core in over **2,000** movements each day, from lifting to standing and even breathing.

## Abdominal Supports

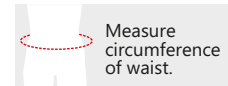

Code - OC 2019

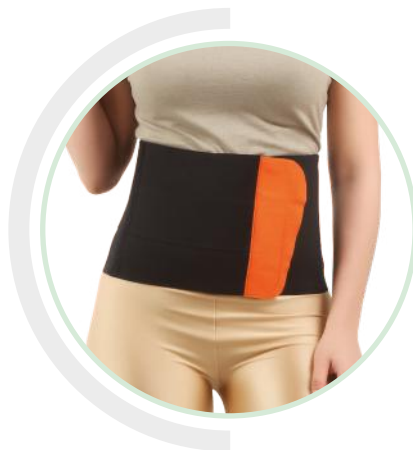

### Abdominal Belt (14 cm)

- Suitable for abdominal support after surgery or childbirth.
- Offers gentle compression for improved comfort.
- Low-profile design fits discreetly under clothing.
- Semi-rigid stays help prevent edge rolling.

Unit: Single

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 130 cms

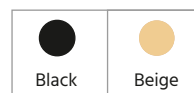

Code - OC 2002

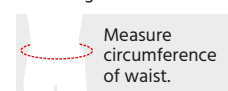

### Abdominal Belt (20 cm)

- Suitable for abdominal support after surgery or childbirth.
- Offers gentle compression for improved comfort.
- Low-profile design fits discreetly under clothing.
- Semi-rigid stays help prevent edge rolling.
- Wide elastic band ensures firm and secure fit.

Available in 2 colours

Unit: Single

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 130 cms

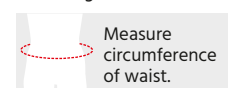

Code - OC 2187

### Abdominal Binder (25 cm)

- Suitable for post-surgical or post-pregnancy abdominal support.
- Provides mild compression across the abdominal area.
- Slim design allows wear under daily clothing.
- Semi-rigid stays prevent the edges from curling.
- Wide elastic band offers reliable and snug fit.

Unit: Single

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 130 cms

## Abdominal Supports

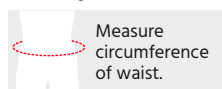

Code - OC 2520

### Abdominal Belt Post Pregnancy

- Suitable for post-delivery support to manage abdominal laxity and comfort.
- Soft compression helps improve fit and provides gentle daily support.
- Semi-rigid stays prevent belt edges from rolling during movement.
- Broad elastic band holds securely without compromising flexibility.
- Easy to wear with soft inner padding for extended comfort

Unit: Single

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 130 cms

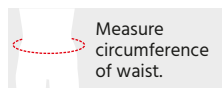

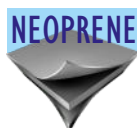

Code - OC 2366

### Abs Wrap (Neoprene)

- Suitable for abdominal support post-pregnancy or surgery.
- Neoprene retains warmth for gentle compression.
- Soft stretchable material.
- Flapper design allows easy and quick application.

Unit: Single

Size :	S	64 - 81 cms
	M	81 - 99 cms
	L	99 - 117 cms

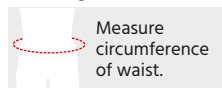

Code - OC 2031

### Maternity Belt

- Suitable for supporting the abdomen during pregnancy.
- Helps distribute abdominal weight evenly.
- Soft fabric helps ease lower back strain.
- Breathable material ensures all-day comfort.
- Adjustable straps provide a secure, custom fit.

Unit: Single

Size :	S	85 - 95 cms
	M	95 - 105 cms
	L	105 - 115 cms
	XL	115 - 125 cms
	2XL	125 - 135 cms
	3XL	135 - 145 cms

## Abdominal Supports

Code - OC 2116

### Pelvic Binder

- Suitable for pelvic injuries or post-trauma care.
- Designed to stabilise the pelvic region.
- Easy-to-use straps allow quick adjustments.
- Plastic stays enhance support and hold shape

Unit: Single

Size :	S	80 - 90 cms
	M	90 - 100 cms
	L	100 - 110 cms
	XL	110 - 120 cms
	2XL	120 - 130 cms
	3XL	130 - 140 cms

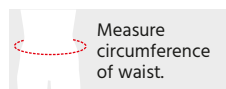

Code - OC 2086

### Hernia Belt

- Suitable for reducible inguinal hernia support.
- Provides light and steady pressure to the area.
- Moulded pad offers focused compression.
- Adjustable straps ensure a snug, personal fit.
- Soft fabric helps prevent skin irritation.

Unit: Single

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 135 cms

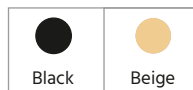

Code - OC 2143

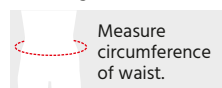

### Scrotal Support

- Suitable for scrotal support during recovery or discomfort.
- Supports scrotal area for comfort during movement.
- Adjustable waistband ensures proper and secure fit.
- Soft stretchable pouch offers breathable comfort.
- Skin-friendly fabric minimises risk of irritation.

Available in 2 colours

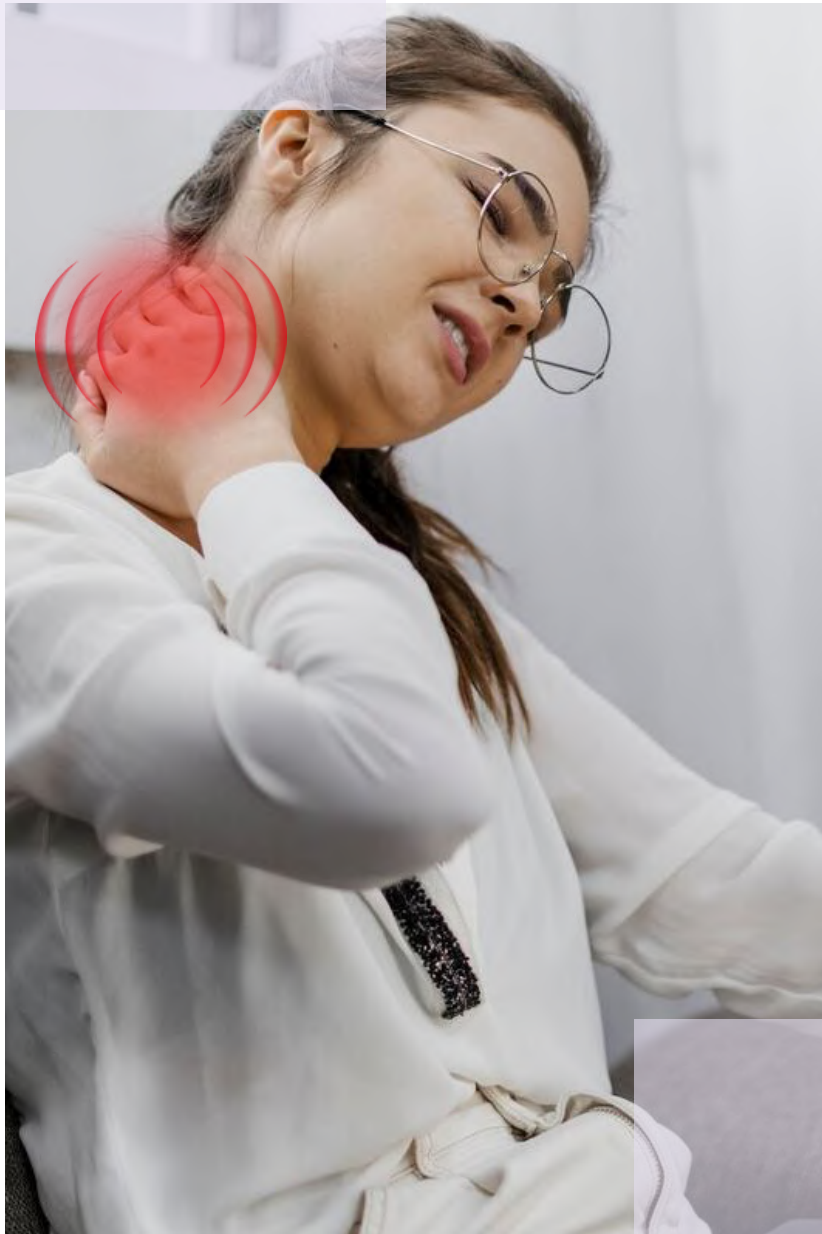

Unit: Single

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 135 cms

# Neck Support

- **Limit excessive movement and promote alignment** Maintain a neutral neck position while allowing necessary mobility.
- **Improve comfort and ease during rest or recovery** Designed to reduce stiffness and support relaxed posture.

## INTERESTING FACTS

Prolonged bending at the neck (like looking at a screen) can place **25-30 kg of pressure** on the spine.

## DID YOU KNOW?

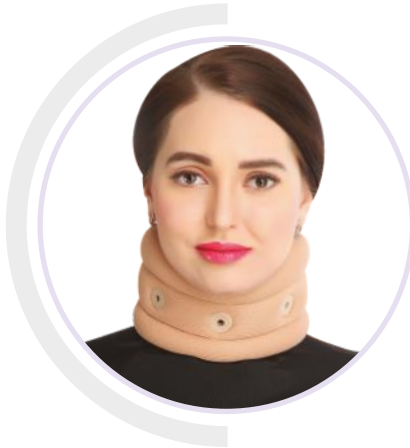

The human head weighs around **5 kg** and the neck supports it all day long.

There are **7 cervical vertebrae**, allowing over **180°** of rotation and movement.

## Neck Supports

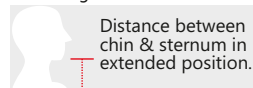

Code - OC 2003

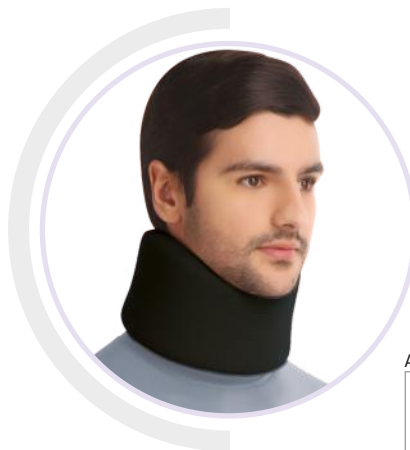

### Cervical Collar

- Suitable for neck strain, whiplash or cervical discomfort.
- Provides mild support and limits partial movement.
- Acts as a reminder to maintain correct posture.
- Air vents improve breathability during wear.
- Soft foam and cotton fabric offer daily comfort.

Unit: Single

Size :	S	7.5 - 8.75 cms
	M	8.75 - 10 cms
	L	10 - 11.25 cms
	XL	11.25 - 12.5 cms
	2XL	12.5 - 13.75 cms

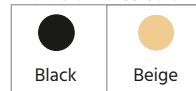

Code - OC 2037

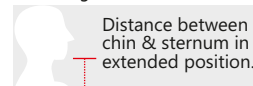

### Soft Collar

- Suitable for neck strain, whiplash or cervical discomfort.
- Gently supports the neck and limits partial motion.
- Aids in maintaining proper head alignment.
- Made of soft foam and cotton for comfort.

Available in 2 colours

Unit: Single

Size :	S	7.5 - 8.75 cms
	M	8.75 - 10 cms
	L	10 - 11.25 cms
	XL	11.25 - 12.5 cms
	2XL	12.5 - 13.75 cms

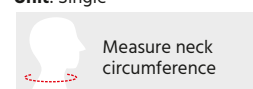

Code - OC 2110

### Hard Collar (Height Adjustable)

- Suitable for mild strain/sprain, cervical spondylitis, arthritis, stiff neck.
- Rigid plastic structure offers strong neck support.
- Height can be adjusted for proper fit.
- Perforated design improves air ventilation

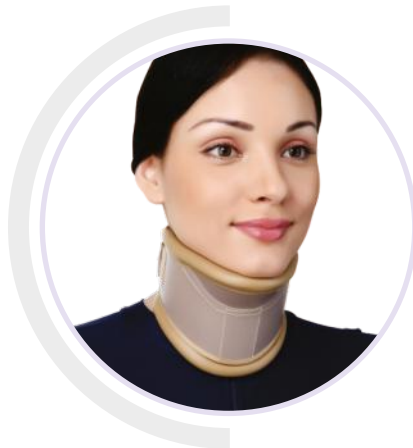

Unit: Single

Size :	S	30 - 35 cms
	M	35 - 40 cms
	L	40 - 45 cms
	XL	45 - 50 cms
	2XL	50 - 55 cms

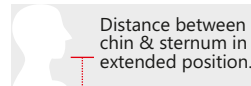

Code - OC 2190

### Cervical collar with neck support (Height Adjustable)

- Suitable for cervical injury, whiplash or disc-related care.
- Offers firm neck support and reduced motion.
- Chin piece adds extra stability and comfort.
- Adjustable height allows a customised fit.

**Unit:** Single

Size :	S	Below 7 cms
	M	7 cm - 10 cms
	L	10 cm - 12 cms
	XL	12 cm - 14 cms

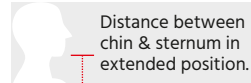

Code - OC 2008

### Cervical Immobilizer

- Suitable for neck injuries or cervical emergency support.
- Provides immobilisation of the cervical spine.
- One-piece design includes chin for stable support.
- Trachea opening allows easy access and monitoring.

**Unit:** Single

Size :	S	Below 7 cms
	M	7 cm to 8 cms
	L	8 cm to 9 cms
	XL	9 cm to 10 cms

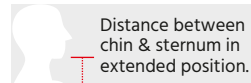

Code - OC 2009

### Cervical Orthosis (Philadelphia Collar)

- Suitable for fractures, disc injury or trauma-related care.
- Two-piece design ensures firm neck support.
- Moulded chin and back panels give added stability.
- Trachea opening allows access for emergency care.

**Unit:** Single

Size :	S	Below 7 cms
	M	7 cm - 8 cms
	L	8 cm - 9 cms
	XL	9 cm - 10 cms

# Shoulder Supports

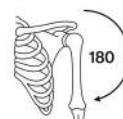

- **Assists in maintaining proper posture and alignment** Limit excessive or painful motion while encouraging natural positioning.
- **Offer confidence during recovery or activity** Support tired or overused muscles during daily routines or rehabilitation.

## INTERESTING FACTS

Because of its flexibility, the shoulder is highly prone to overuse injuries.

## DID YOU KNOW?

The shoulder joint allows over **180° of rotation**, making it the body's **most mobile joint**.

It relies on **4 small muscles**, known as the rotator cuff, for stability and strength.

## Shoulder supports

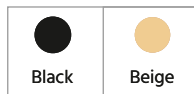

Code - OC 2004

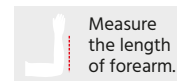

### Arm Sling

- Suitable for arm fracture, dislocation or post-cast support.
- Holds arm in a flexed position for added comfort.
- Shoulder pad spreads weight to reduce strain.
- Foam fabric reduces irritation on the skin.
- Thumb loop offers support and reduces fatigue.

Available in 2 colours

**Unit:** Single

Common for left & right hand.

Size :	XS	22.5-25 cms
	S	25 - 27.5 cms
	M	27.5 - 30 cms
	L	30 - 32.5 cms
	XL	32.5 - 35 cms
	2XL	35 - 37.5 cms

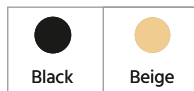

Code - OC 2036

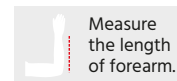

### Arm Pouch

- Suitable for elbow injury, fracture or cast support.
- Supports arm in a relaxed, flexed position.
- Soft durable fabric ensures everyday comfort.
- Broad shoulder pad distributes pressure evenly.
- Thumb loop provides added support and ease.

Available in 2 colours

**Unit:** Single

Common for left & right hand.

Size :	XS	22.5-25 cms
	S	25 - 27.5 cms
	M	27.5 - 30 cms
	L	30 - 32.5 cms
	XL	32.5 - 35 cms
	2XL	35 - 37.5 cms

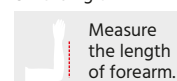

Code - OC 2362

### Premium Breathable Arm Sling

- Suitable for arm injury or post-casting support.
- Holds arm in flexion to maintain comfort and stability.
- Breathable fabric improves air circulation.
- Thumb loop helps reduce hand and thumb fatigue.
- Shoulder pad spreads weight for better comfort.

**Unit:** Single

Common for left & right hand.

Size :	XS	22.5-25 cms
	S	25 - 27.5 cms
	M	27.5 - 30 cms
	L	30 - 32.5 cms
	XL	32.5 - 35 cms
	2XL	35 - 37.5 cms

## Shoulder supports

Code - OC 2041

### Arm Sling Strap

- Suitable for sprains, dislocations or stable fractures.
- Supports forearm at a right angle for stability.
- Foam cushioning ensures comfort during wear.
- Adjustable strap allows a close and secure fit.
- Wide strap near neck helps reduce shoulder pressure.

Unit: Single

Size : Universal

Common for left & right hand.

Code - OC 2128

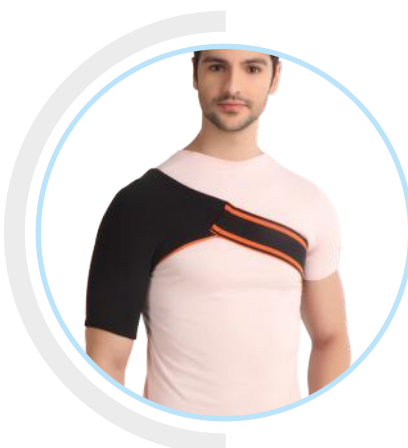

### Cuff & Collar Sling

- Suitable for fractures, dislocations or post-surgery care.
- Supports the arm in a flexed healing position.
- Foam padding with cotton lining ensures comfort.
- Adjustable fit provides personalised support.
- Wide neck area helps spread pressure evenly.

Unit: Single

Size : Universal

Common for left & right hand.

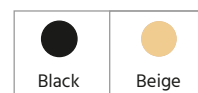

Code - OC 2042

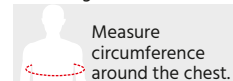

### Shoulder Support

- Suitable for shoulder strain, instability or post-surgery use.
- Offers warmth and gentle support to the shoulder.
- Soft knit fabric and elastic band ensures comfort.
- Can be worn on either shoulder as needed.
- Slim design allows discreet use under clothing.

Available in 2 colours

Unit: Single

Common for left & right shoulder.

Size : S	75 - 85 cms
M	85 - 95 cms
L	95 - 105 cms
XL	105 - 110 cms
2XL	115 - 125 cms
3XL	125 - 135 cms

# HUMERUS BRACE (NEOPRENE)

Code : OC 2449

Designed for controlled stabilization, this brace supports the humerus during the healing process while allowing limited movement to prevent stiffness. Plastic supports maintain proper alignment, while the adjustable shoulder strap along with anti-migration strap minimizes migration and ensures the elbow remains at a 90-degree flexion angle. The neoprene material retains body heat, enhancing circulation and reducing discomfort.

## SUITABLE FOR

non-displaced and closed mid-shaft to distal third humeral fractures.

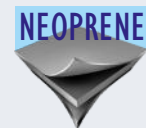

Measure Circumference around chest below under arms.

Size : Universal	66 - 91.4 cm
Special	91.4 - 121.9 cm

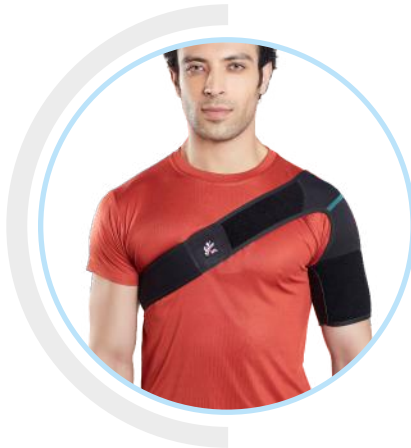

Common for left & right arm.

**Unit:** Single

- Allows controlled movement to prevent stiffness.
- Adjustable shoulder strap ensures a secure fit and prevents migration.
- Neoprene construction retains body heat to improve circulation.
- Plastic supports provide stability for proper healing.

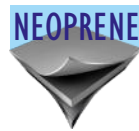

## Shoulder supports

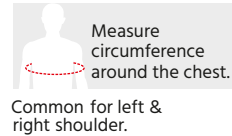

Code - OC 2372

### Shoulder Support (Neoprene)

- Suitable for rotator cuff issues or post-surgery recovery.
- Neoprene retains warmth to support healing.
- Soft inner lining enhances comfort for long wear.
- Hook-and-loop strap offers an adjustable fit.

Unit: Single

Size : Universal	75 - 105 cm
Special	105 - 135 cm

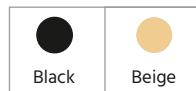

Code - OC 2038

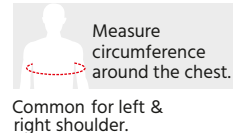

### Elastic shoulder immobilizer

- Suitable for dislocation or post-operative shoulder care.
- Keeps the shoulder firmly supported and steady.
- Holds elbow at 90° to maintain a stable position.
- Extra shoulder cap adds to joint stability.
- Adjustable design for ease of use.

Available in 2 colours

Unit: Single

Size : S	75 - 85 cms
M	85 - 95 cms
L	95 - 105 cms
XL	105 - 110 cms
2XL	115 - 125 cms
3XL	125 - 135 cms

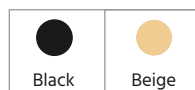

Code - OC 2026

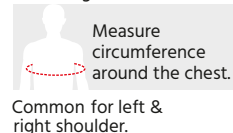

### Universal Shoulder Immobilizer

- Suitable for shoulder dislocation or recovery support.
- Offers firm and stable immobilisation of the arm.
- Maintains elbow flexed at a 90-degree angle.
- Easy to wear and adjustable for regular use.

Available in 2 colours

Unit: Single

Size : S	75 - 85 cms
M	85 - 95 cms
L	95 - 105 cms
XL	105 - 110 cms
2XL	115 - 125 cms
3XL	125 - 135 cms
Uni	75 - 105 cms
Spl	105 - 135 cms

# SHOULDER ABDUCTION BRACE

Code : OC 2565

This brace features a foam pillow that supports the arm at an optimal position to promote healing. The de-rotational straps prevent unwanted movement, ensuring stability. Quick-release buckles allow for effortless application and removal, while the exercise ball enhances circulation and hand function, aiding in recovery.

## SUITABLE FOR

shoulder girdle fracture,  
post-rotator cuff repair,  
shoulder dislocation/subluxation,  
multi-directional instability  
of the shoulder.

Measure the length  
from elbow to base  
of the little finger.

Size : Universal	31 - 40 cm
Special	40 - 46 cm

Common for left &  
right shoulder.

**Unit:** Single

- Soft fabric with foam pillow for comfort and support.
- Quick-release buckles for easy application and removal.
- De-rotational straps keep the arm securely in place.
- Includes an exercise ball to promote circulation and hand mobility.

# Elbow Supports

- **Allow natural joint motion while preventing overstrain**  
Support elbow function without limiting flexibility or comfort.
- **Improve confidence in repetitive tasks** Ideal for typing, lifting, sports, or post-injury recovery.

## INTERESTING FACTS

Overuse injuries like tennis elbow affect up to **3% of the adult population.**

## DID YOU KNOW?

The elbow bends and straightens up to **1,000 times a day** during regular activities.

It is a **hinge-pivot joint**, enabling both straight motion and rotation of the forearm.

## Elbow Supports

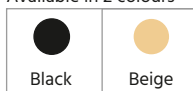

Code - OC 2021

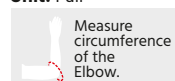

### Elbow Support

- Suitable for elbow strain from age, injury or activity.
- Offers mild compression and retains body warmth.
- Allows joint movement while offering support.
- 2-way stretch fabric ensures flexible use.
- Pull-on style makes it easy to wear daily.

Available in 2 colours

Unit: Pair

Size :	S	20 - 22.5 cms
	M	22.5 - 25 cms
	L	25 - 27.5 cms
	XL	27.5 - 30 cms
	2XL	30 - 32.5 cms

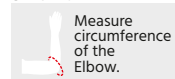

Code - OC 2074

### Premium Elbow Support

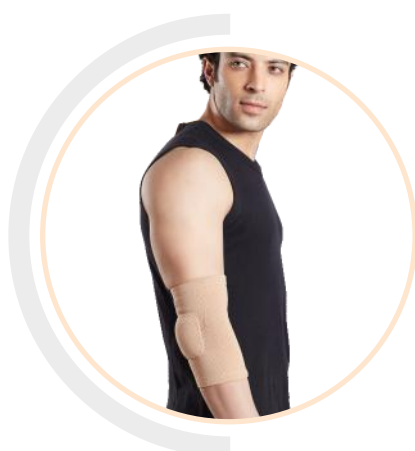

- Suitable for sports injury, arthritis or daily strain.
- 4-way stretch fabric gives a snug, flexible fit.
- Retains warmth and compression for added comfort.
- Special knit around joint allows free movement.
- Pull-on design ensures quick and easy use.

Unit: Pair

Size :	S	20 - 22.5 cms
	M	22.5 - 25 cms
	L	25 - 27.5 cms
	XL	27.5 - 30 cms
	2XL	30 - 32.5 cms

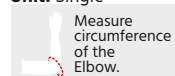

Code - OC 2192

### Gel Elbow Support

- Suitable for ageing, arthritis or elbow fatigue.
- Gel padding provides soft cushioning to the joint.
- 2-way stretch fabric allows natural movement.
- Compression and warmth help maintain comfort.
- Pull-on design is simple and convenient.

Unit: Single

Common for left & right hand.

Size :	S	20 - 22.5 cms
	M	22.5 - 25 cms
	L	25 - 27.5 cms
	XL	27.5 - 30 cms
	2XL	30 - 32.5 cms

## Elbow Supports

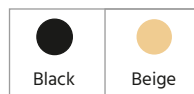

Code - OC 2024

### Tennis Elbow Support (With Pressure Pad)

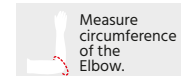

- Suitable for tennis elbow syndrome or golfer's elbow syndrome.
- EVA pad applies pressure to target the elbow area.
- Offers firm grip and adjustable compression.
- Strap ensures a secure and customisable fit.

Available in 2 colours

Unit: Single

Common for left & right hand.

Size :	S	20 - 22.5 cms
	M	22.5 - 25 cms
	L	25 - 27.5 cms
	XL	27.5 - 30 cms
	2XL	30 - 32.5 cms
	Uni	20 - 27.5 cms
	Spl	27.5 - 35.5 cms

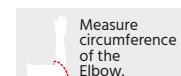

Code - OC 2195

### Gel Tennis Elbow Support

- Suitable for tennis elbow, golfer's elbow or similar strain.
- Gel pad applies focussed pressure to affected area.
- Provides a secure grip and controlled compression.
- Adjustable strap ensures proper and comfortable fit.

Unit: Single

Common for left & right hand.

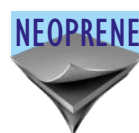

Size :	S	20 - 22.5 cms
	M	22.5 - 25 cms
	L	25 - 27.5 cms
	XL	27.5 - 30 cms
	2XL	30 - 32.5 cms
	Uni	20 - 27.5 cms
	Spl	27.5 - 35.5 cms

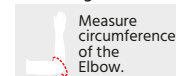

Code - OC 2383

### Tennis Elbow Support (Neoprene)

- Suitable for tennis elbow, golfer's elbow or similar strain.
- Neoprene retains body warmth.
- Pressure pad targets focused pressure to affected area.
- Adjustable strap offers a snug and tailored fit.
- Designed for strong grip and compression.

Unit: Single

Common for left & right hand.

Size : Universal - 17.8 - 38.1 cm

## Elbow Supports

Code - OC 2082

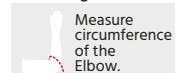

### Arm Immobilizer

- Suitable for elbow injury, nerve compression or fractures.
- Keeps arm extended and steady during recovery.
- Soft foam ensures comfort during long wear.
- Two metal splints provide firm joint stabilisation.
- Hook-and-loop strap ensures a secure fit.

Available in 2 colours

**Unit:** Single

Common for left & right hand.

Size :	S	20 - 22.5 cms
	M	22.5 - 25 cms
	L	25 - 27.5 cms
	XL	27.5 - 30 cms
	2XL	30 - 32.5 cms

Code - OC 2199

### Tourniquet

- Suitable for temporarily controlling arm or leg circulation.
- Applies firm pressure to restrict blood flow.
- Made from strong hook-and-loop polyamide tape.
- Includes a rust-free metal buckle for durability.

**Unit:** Single

Size :	S	till 21 cms
	M	21 - 31 cms
	L	31 - 41 cms

# R.O.M. ELBOW BRACE

Code : OC 2554

The adjustable Range of Motion (ROM) dial allows precise control of flexion (-10°–120°) and extension (-10°–90°) to aid in rehabilitation. Adjustable length ensures a customized fit, while the lock mechanism at the dial and arms provides secure positioning. Comfortable padding with grip enhances support, and an optional sling strap offers additional stability.

## SUITABLE FOR

post-surgery recovery  
(e.g., tendon or ligament repair),  
post-cast removal,  
chronic elbow conditions.

Measure  
circumference  
of Elbow.

Size	Side	Cm
Universal	Right	18 - 28 cm
Universal	Left	18 - 28 cm

Different for left &  
right hand.

**Unit:** Single

- Adjustable ROM dial for controlled flexion and extension.
- Customizable length for a perfect fit.
- Comfortable padding with grip for enhanced support.
- Secure lock mechanism at dial and arms.
- Optional sling strap for additional stabilization.

# Wrist Supports & Splints

- **Provide firm support and gentle compression** Help stabilise the wrist during work, rest, or recovery.
- **Limit extreme or repetitive motion** Support tendons and joints during tasks like typing, lifting, or writing.

## INTERESTING FACTS

Overuse, poor posture or strain can lead to long-term wrist discomfort.

## DID YOU KNOW?

The wrist is made up of **8 small bones** and performs over **2,500 movements** per day.

Wrist injuries account for nearly **10% of all sports-related upper limb injuries.**

# Wrist Supports & Splint

Code - OC 2030

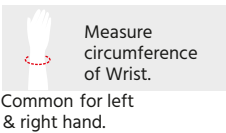

## Wrist Wrap

- Suitable for wrist sprains or mild weakness.
- Offers firm compression and light support.
- Elastic fabric ensures a snug and comfortable fit.
- Easy wrap design allows quick application.

Available in 2 colours

Unit: Single

Size : Universal

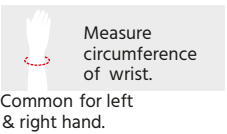

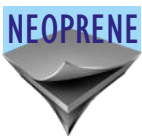

Code - OC 2377

## Wrist Wrap (Neoprene)

- Suitable for weak or strained wrists.
- Neoprene retains warmth for added comfort.
- Hook strap allows custom compression fit.
- Easy to wrap around for regular use.

Unit: Single

Size : Universal

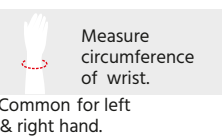

Code - OC 2084

## Tubular Wrist Support

- Suitable for wrist strain or weakness.
- Provides soft compression and light support.
- Knit fabric offers comfort and durability.
- Pull-on design for simple daily wear.

Unit: Single

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

## Wrist Supports & Splint

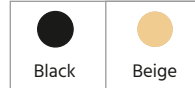

Code - OC 2027

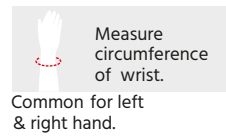

### Wrist Brace

- Suitable for mild wrist injury or strain.
- Offers steady support and firm compression.
- Wrap design includes thumb opening for fit.
- Hook strap allows secure and adjustable wear.

Available in 2 colours

Unit: Single

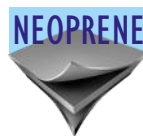

Size : Universal

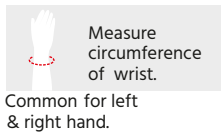

Code - OC 2369

### Wrist / Thumb Brace (Neoprene)

- Suitable for wrist strain or sprain.
- Neoprene offers warmth and steady support.
- Thumb opening ensures ease and stability.
- Hook strap gives adjustable compression.

Unit: Single

Size : Universal

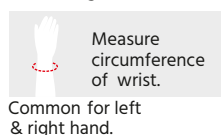

Code - OC 2104

### Palm Brace

- Suitable for weak palms or sports-related strain.
- Provides mild compression and palm stability.
- 2-way stretch fabric allows flexible use.
- Pull-on style offers quick and easy wear.

Unit: Single

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

## Wrist Supports & Splint

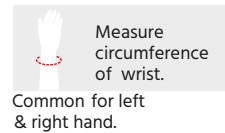

Code - OC 2058

### Tubular Support (Gauntlet to Wrist)

- Suitable for wrist support.
- Offers gentle compression and flexibility.
- 2-way stretch knit fabric for breathability.
- Pull-on design ensures hassle-free use.

**Unit:** Single

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

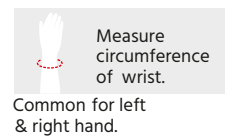

Code - OC 2015

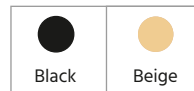

### Elastic Wrist Splint

- Suitable for wrist sprain, strain or fatigue.
- Provides firm support and partial immobilisation.
- Metal splints can be used on either hand.
- Hook straps ensure a snug and safe fit.

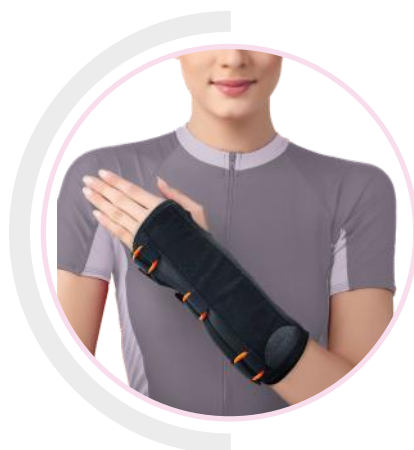

**Unit:** Single

Available in 2 colours

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

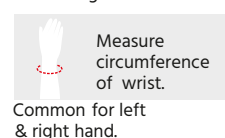

Code - OC 2087

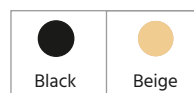

### Wrist Cock-Up Splint

- Suitable for wrist strain relief or post-cast support.
- Firmly supports the wrist to limit movement.
- Hook straps allow customised compression.
- Simple to apply and remove as needed.

**Unit:** Single

Available in 2 colours

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

## Wrist Supports & Splint

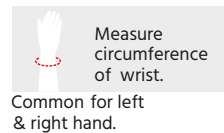

Code - OC 2016

### Wrist & Forearm Splint

- Suitable for forearm injury or post-cast support.
- Supports both wrist and forearm steadily.
- Foam padding ensures comfort for long wear.
- Hook straps allow an adjustable, close fit.

Unit: Single

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

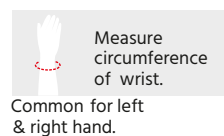

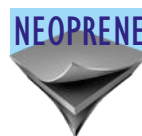

Code - OC 2474

### Functional Wrist Splint (Neoprene)

- Suitable for sprain, strain, post-early cast removal, subluxation, post tendon repair, and other similar conditions.
- Holds wrist in functional, supported position.
- Lace and flapper system gives snug fit.
- Neoprene material retains warmth and support.
- Can be worn on either hand with splint change.

Unit: Single

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms

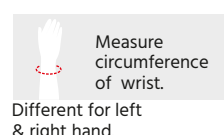

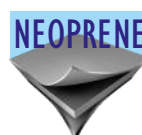

Code - OC 2475

### Wrist Splint (Neoprene)

- Suitable for wrist pain, sprains or mild fracture.
- Firm compression helps restrict movement.
- Neoprene fabric adds warmth and comfort.
- Adjustable straps give a close, custom fit.

Unit: Single

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms

## Wrist Supports & Splint

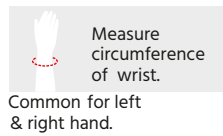

Code - OC 2085

### Extended Forearm Brace

- Suitable for wrist or distal forearm fracture.
- Firmly supports forearm and wrist area.
- Three straps with wide elastic ensures a firm support.

Unit: Single

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

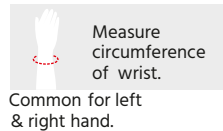

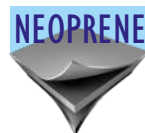

Code - OC 2373

### Wrist / Thumb Abduction Brace (Neoprene)

- Suitable for carpal tunnel & de quervain together or in De Quervain tenosynovitis, sport injury, CMC/MCP joint irritation, and post-operative conditions.
- Holds wrist and thumb in stable position.
- Hook straps and elastic band ensure fit.
- Neoprene adds warmth and lasting comfort.

Unit: Single

Size :	S	14 - 16 cms
	M	16 - 18 cms
	L	18 - 20 cms
	XL	20 - 22 cms
	2XL	22 - 24 cms

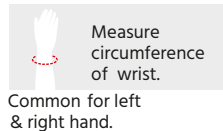

Code - OC 2088

### Carpal Tunnel Splint

- Suitable for mild to moderate carpal tunnel syndrome.
- Keeps wrist in a neutral resting position.
- Padded splint adds support and comfort.
- Thumb loop helps with easy application.
- Wrap design gives snug and adjustable fit.

Unit: Single

Size : Universal

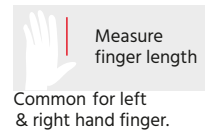

Code - OC 2097

### Frog Splint

- Suitable for finger fracture or recovery post-injury.
- Immobilises finger joints in proper alignment.
- Padded aluminium adds structure and comfort.
- Allows other fingers to move freely.
- Easy to wear on any finger as needed.

Unit: Single

Size :	S	5.6 cms
	M	6.2 cms
	L	7.5 cms
	XL	8 cms

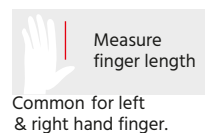

Code - OC 2100

### Cot Splint

- Suitable for finger injury or post-operative care.
- Supports the phalanges during recovery.
- Soft-padded aluminium ensures user comfort.
- Hook strap allows firm and secure fit.
- Does not restrict other finger movement.

Unit: Single

Size :	S	5.6 cms
	M	6.2 cms
	L	7.5 cms
	XL	8 cms

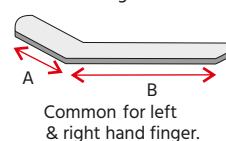

Code - OC 2101

### Spoon Splint

- Suitable for dislocation or finger sprain.
- Helps protect and stabilise the injured finger.
- Curved aluminium splint shields fingertip.
- Hook strap allows easy and snug wear.
- Designed to fit fingers of all sizes.

Unit: Single

	A	B
Size :	S	1.2 cms 5.8 cms
	M	1.6 cms 7.9 cms
	L	2 cms 9.6 cms
	XL	2.4 cms 10.2 cms

## Wrist Supports & Splint

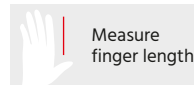

Code - OC 2098

### Baseball Splint

- Suitable for finger strain, fracture or arthritis.
- Keeps finger extended for steady positioning.
- Aluminium splint can be shaped as needed.
- Hook strap gives quick and secure fit.
- Usable on any finger for support.

**Unit:** Single

Common for left & right hand finger.

Size :	S	5.6 cms
	M	6.2 cms
	L	7.5 cms
	XL	8 cms

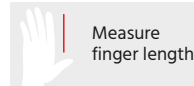

Code - OC 2099

### Extended Baseball Splint

- Suitable for finger fracture or deformity.
- Supports both finger and MCP joint.
- Aluminium splint adjusts for exact fit.
- EVA padding adds comfort and softness.
- Hook strap allows easy application.

**Unit:** Single

Common for left & right hand finger.

Size :	S	5.6 cms
	M	6.2 cms
	L	7.5 cms
	XL	8 cms

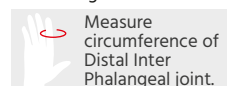

Code - OC 2118

### Stax Mallet

- Suitable for mallet finger deformity.
- Holds fingertip in extended position.
- Durable plastic with air vents for comfort.
- Easy to wear and remove without help.

**Unit:** Single

Common for left & right hand finger.

Size :	S	4 - 5 cms
	M	5 - 6 cms
	L	6 - 7 cms
	XL	7 - 8 cms

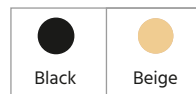

Code - OC 2025

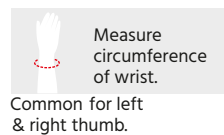

### Thumb Spica Splint

- Suitable for thumb strain or ligament issues.
- Holds thumb away from palm in support.
- Allows free use of the other fingers.
- Mouldable splint provides firm structure.
- Soft foam lining ensures lasting comfort.

Available in 2 colours

**Unit:** Single

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

Code - OC 2207

### Short Arm Splint

- Suitable for fractures of the hand or wrist.
- Aluminium splint offers support and stability.
- Soft padding provides durable comfort.

Common for left & right hand.

**Unit:** Single

**Size :** Universal

Code - OC 2360

### Long Arm Splint

- Suitable for arm or wrist fracture support.
- Stabilises the full arm during recovery.
- Aluminium splint is padded for comfort.

Common for left & right hand.

**Unit:** Single

**Size :** Universal

# LIMB RESTRAINER

Code - OC 2573

Made of soft foam material, the belt ensures gentle yet secure restraint. Adjustable straps allow a customizable fit, and the easy-to-attach and remove design provides convenience for caregivers.

## SUITABLE FOR

patients with severe cognitive or behavioral disorders, to prevent self-harm or injury, and for immobilization during medical procedures or treatment.

Measure circumference of the wrist or ankle.

Size : Universal 12 - 28 cm

Common for left & right limb.

**Unit:** Single

- Soft foam construction for patient comfort.
- Adjustable straps for a secure and customizable fit.
- Easy application and removal for caregiver convenience.

# Chest Supports

- **Provide support after injury or surgery**

Assist breathing comfort and posture by limiting strain on the chest.

- **Ensure secure yet breathable wear**

Made with soft foam and adjustable closures for a custom fit.

## INTERESTING FACTS

Even simple actions like coughing can increase chest pressure by over **100 mmHg**.

## DID YOU KNOW?

The rib cage expands up to **24** times a minute during normal breathing.

The chest protects vital organs including the heart, lungs, and major blood vessels.

# Support for Chest

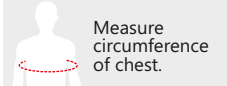

Code - OC 2029

## Sternal Splint

- Suitable for sternum support after surgery or injury.
- Helps stabilise the chest during recovery.
- Reduces pressure while sneezing or coughing.
- Foam padding with elastic band ensures comfort.
- Adjustable fit suits various body shapes.

Unit: Single

Size :	S	75 - 85 cms
	M	85 - 95 cms
	L	95 - 105 cms
	XL	105 - 115 cms
	2XL	115 - 125 cms
	3XL	125 - 135 cms

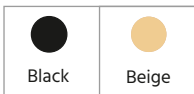

Code - OC 2028

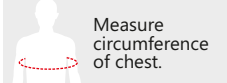

## Rib (Chest) Belt

- Suitable for chest or sternum fractures and dislocations.
- Offers firm support to stabilise the rib cage.
- Soft foam and broad elastic improves comfort.
- Easy to wear and adjust during the day.
- Available in sizes to suit different body types.

Available in 2 colours

Unit: Single

Size :	S	75 - 85 cms
	M	85 - 95 cms
	L	95 - 105 cms
	XL	105 - 115 cms
	2XL	115 - 125 cms
	3XL	125 - 135 cms

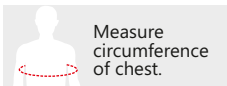

Code - OC 2204

## Rib Belt (Female)

- Suitable for rib injuries and post-surgical support.
- Offers focused stabilisation at the injury site.
- Soft foam fabric ensures breathability and comfort.
- Easy to apply and remove for regular use.
- Adjustable straps ensure a personalised fit.

Unit: Single

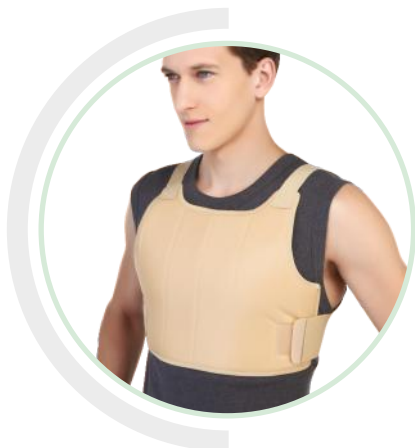

Size :	S	75 - 85 cms
	M	85 - 95 cms
	L	95 - 105 cms
	XL	105 - 115 cms
	2XL	115 - 125 cms
	3XL	125 - 135 cms

## Support for Chest

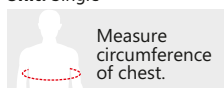

Code - OC 2048

### Chest Guard

- Suitable for protecting the chest while bike riding.
- Shields chest and ribs from wind and cold exposure.
- Helps minimise chest discomfort and congestion.
- Foam and elastic fabric ensure soft comfort.
- Designed to fit snugly under regular clothing.

**Unit:** Single

Size :	S	75 - 85 cms
	M	85 - 95 cms
	L	95 - 105 cms
	XL	105 - 115 cms
	2XL	115 - 125 cms
	3XL	125 - 135 cms

## Compression Supports

- **Promote healthy circulation and reduce swelling**  
Provide graduated compression for tired or stressed limbs.
- **Designed for all-day comfort and discreet wear**  
Breathable, stretchable materials with a secure, stay-in-place fit.

## INTERESTING FACTS

Compression supports were first used by soldiers in **ancient Rome** to prevent leg strain.

## DID YOU KNOW?

Compression wear can improve blood flow by up to **40%** during movement.

Over **30%** of adults experience leg fatigue or swelling during long working hours.

## Compression Supports

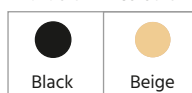

### Medical Compression Stockings Below Knee

- Suitable for venous insufficiency, pregnancy.
- Offers graduated compression to support circulation.
- Open toe and shaped heel ensure a comfy fit.
- Made with nylon and spandex for durability.
- Precision knit using German knitting machines.

Unit: Single

Common for left and right hand.

- Graduated compression for effective swelling reduction.
- Supports lymphatic flow and enhances recovery.
- Breathable, stretchable material for comfort.
- Non-restrictive design allows full hand movement.
- Durable and maintains compression over time.

# STOCKINGS APPLICATOR

Code - OC 2574

The Stockings Applicator simplifies the process of putting on stockings, reducing strain for both the wearer and caregiver. Its durable, single-piece construction ensures strength, while the wide frame design makes foot insertion easy. Lightweight and portable, it's ideal for use anywhere. The applicator helps maintain stocking shape and compression, promoting independence and long-term use.

## SUITABLE FOR

individuals with limited mobility  
or those needing assistance  
to apply compression stockings.

Size : Universal

Common for left & right leg

**Unit:** Single

- Easily pulls on stockings with minimal effort.
- Durable, single-piece construction for strength.
- Lightweight and portable for easy use.
- Reduces strain for both wearer and caregiver.
- Wide frame design for easy foot insertion.
- Preserves stocking longevity and compression.
- Made from durable mild steel for reliability.

## Compression Supports

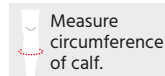

Code - OC 2043

### Below Knee Stockings

- Suitable for swelling, fatigue, or mild varicose veins.
- Provides uniform compression to ease strain.
- 2-way stretch knit ensures flexibility and grip.
- Open heel and toe allow airflow and comfort.
- Slim fit ideal for discreet daily wear.

Unit: Pair

Size :	S	25 - 30 cms
	M	30 - 35 cms
	L	35 - 40 cms
	XL	40 - 45 cms
	2XL	45 - 50 cms
	3XL	50 - 55 cms

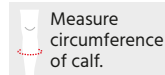

Code - OC 2057

### Tubular Support Below Knee

- Suitable for swelling from injury or varicose veins.
- Gentle compression reduces discomfort and pain.
- Breathable 2-way stretch knit offers a snug fit.
- Open toe design allows airflow and comfort.
- Fits easily under daily clothing.

Unit: Single

Common for left & right leg.

Size :	S	25 - 30 cms
	M	30 - 35 cms
	L	35 - 40 cms
	XL	40 - 45 cms
	2XL	45 - 50 cms
	3XL	50 - 55 cms

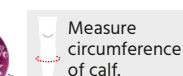

Code - OC 2073

### Premium Below Knee Stockings

- Suitable for varicose veins or post-burn care.
- Controlled compression eases swelling and fatigue.
- 4-way stretch knit fabric provides soft fit.
- Open toe and closed heel offer better support.
- Discreet and easy to wear daily.

Unit: Pair

Size :	S	25 - 30 cms
	M	30 - 35 cms
	L	35 - 40 cms
	XL	40 - 45 cms
	2XL	45 - 50 cms
	3XL	50 - 55 cms

## Compression Supports

Code - OC 2012

### Varicose Vein Stockings

- Suitable for tired legs or varicose vein support.
- Helps improve blood flow with steady compression.
- 2-way stretch knit fabric ensures flexibility.
- Open toe and heel enhance airflow and comfort.
- Lightweight for daily use under clothing.

Unit: Pair

Measure circumference of thigh.

Size :	S	42.5 - 47.5 cms
	M	47.5 - 52.5 cms
	L	52.5 - 57.5 cms
	XL	57.5 - 65 cms
	2XL	65 - 70 cms
	3XL	70 - 75 cms

Code - OC 2070

### Premium Varicose Vein Stockings

- Suitable for veins, injury recovery or post-burn care.
- Uniform compression relieves heaviness in legs.
- 4-way stretch knit offers flexibility and durability.
- Open toe and closed heel for stable support.
- Easy to wear and discreet under clothing.

Unit: Pair

Measure circumference of thigh.

Size :	S	42.5 - 47.5 cms
	M	47.5 - 52.5 cms
	L	52.5 - 57.5 cms
	XL	57.5 - 65 cms
	2XL	65 - 70 cms
	3XL	70 - 75 cms

Code - OC 2049

### Thigh Support

- Suitable for muscle strain or thigh discomfort.
- Helps reduce fatigue and support weak muscles.
- Gentle compression improves stability and comfort.
- 2-way stretch knit allows flexibility and breathability.
- Pull-on style ensures quick daily use.

Unit: Pair

Measure circumference of thigh.

Size :	S	42.5 - 47.5 cms
	M	47.5 - 52.5 cms
	L	52.5 - 57.5 cms
	XL	57.5 - 65 cms
	2XL	65 - 67.5 cms
	3XL	67.5 - 70 cms

## Compression Supports

Code - OC 2072

### Premium Thigh Support

- Suitable for overstressed or strained thigh muscles.
- Offers compression to ease discomfort and fatigue.
- 4-way stretch knit fabric gives snug yet flexible fit.
- Pull-on design allows quick and easy wear.
- Ideal for daily use during recovery.

Unit: Pair

Measure circumference of thigh.

Size :	S	42.5 - 47.5 cms

# PAEDIATRIC FREJKA PILLOW

Code - OC 2569

Designed with soft cushioning to maintain comfort while ensuring proper hip positioning. Adjustable straps securely hold the brace without restricting knee and ankle movement, allowing natural growth and mobility.

## SUITABLE FOR

Developmental Dysplasia of the Hip (DDH) in infants and post-surgical management.

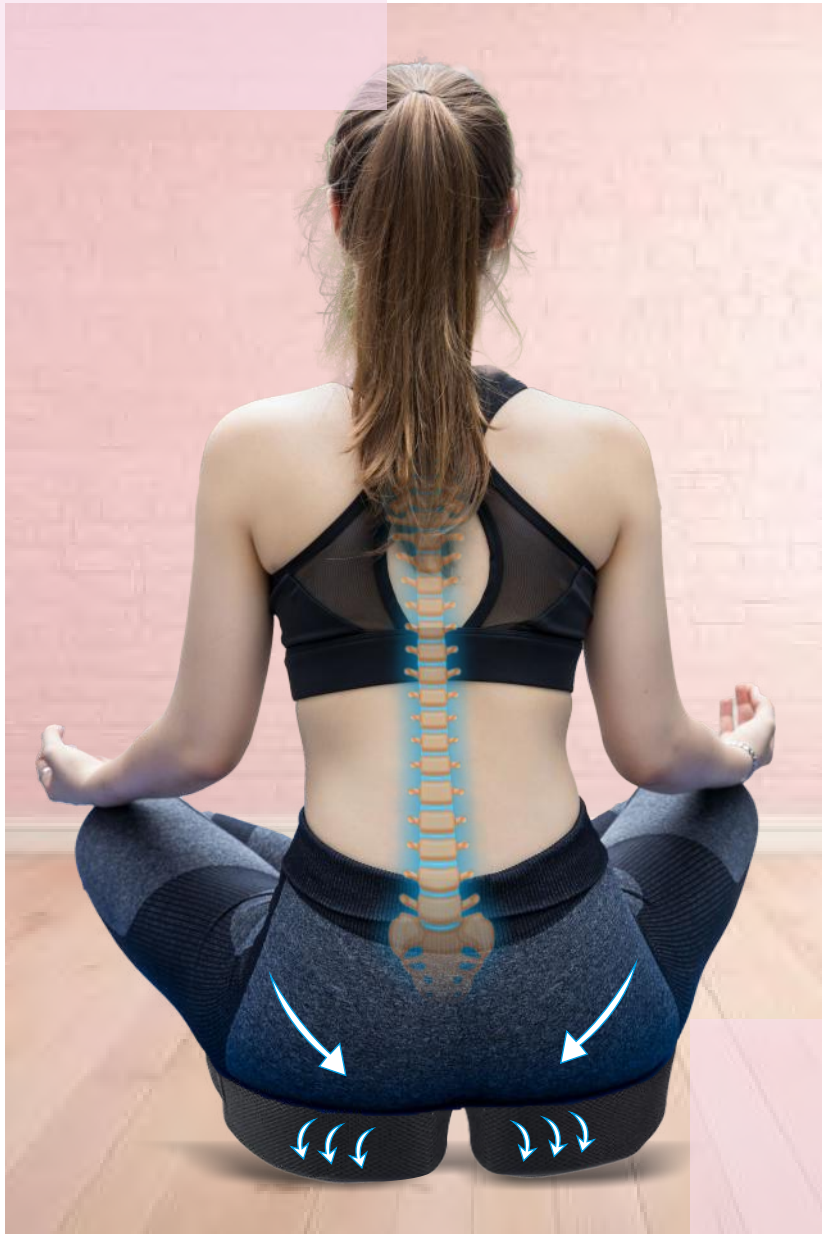

Measure distance between the knees in flexed position

Size : S	18 - 21 cm
M	21 - 24 cm
L	24 - 27 cm

Unit: Single

- Soft cushioned design for comfort and hip alignment.
- Adjustable straps for a secure fit without restricting movement.
- Supports infant hip stabilization during treatment.

# CUSHIONS & PILLOWS

- **Improve sitting and sleeping posture**  
Support the spine, neck, or tailbone to reduce daily strain and discomfort.
- **Reduce pressure on sensitive areas**  
Help prevent fatigue, soreness, or discomfort during prolonged sitting or rest.

## INTERESTING FACTS

Good support during rest promotes better circulation and muscle relaxation.

## DID YOU KNOW?

Poor posture while sitting can reduce lung capacity by up to **30%**.

The average adult spends over **10** hours a day sitting or lying down.

## Cushions & Pillows

Code - OC 2178

### Coccyx Cushion Soft

- Suitable for tailbone pain, pregnancy or long sitting hours.
- Soft foam reduces pressure on the coccyx.

- **Enhance strength, flexibility, and mobility**  
Designed for home workouts, rehabilitation, and physical therapy routines.
- **Lightweight, portable, and easy to use** Ideal for daily exercises with simple storage and travel-friendly designs.

## INTERESTING FACTS

Regular movement helps maintain joint health, bone strength and circulation.

## DID YOU KNOW?

Just **15 minutes of exercise** a day can reduce the risk of health issues by up to **30%**

Muscle strength declines by **3-5% per decade** after age 30 without regular activity.

## Fitness Range

Code - OC 2457

### Exercise Cycle with Odometer

- Suitable for home workouts and physiotherapy sessions.
- Adjustable resistance with LCD odometer display.
- Tracks speed, distance and time during use.
- Anti-skid base ensures grip on different floors.
- Lightweight design made from strong steel.

Available in 2 colours

Unit: Single

Size : Universal

Code - OC 2177

### Exercise Cycle

- Suitable for lower body strength and coordination.
- Adjustable tension knob for resistance control.
- Lightweight and easy to store after use.
- Mild steel frame offers durable support.
- Anti-skid base provides added stability.

Available in 2 colours

Unit: Single

Size : Universal

Code - OC 2191

### Weight Cuff

- Suitable for strength training and rehabilitation.
- Worn on wrists or ankles to increase resistance.
- Soft foam ensures comfort during movement.
- Hook strap adjusts for a snug and safe fit.
- Colour-coded weights for easy identification.

Available in 3  
Weight options

	Blue 0.5 kg / 1.10 lbs
	Dark Blue 1 kg / 2.20 lbs
	Orange 2 kg / 4.40 lbs

Unit: Single

Common for left & right hand/ankle.

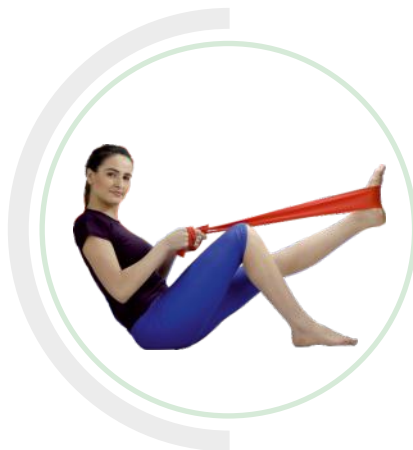

### Flamistretch

- Suitable for post-injury rehab and strength training.
- Made from natural rubber for resistance exercises.
- Lightweight and easy to carry anywhere.
- Colour-coded bands for different resistance levels.

Width 5"(12.5 cms) - Length - 1.5 mtr.

# Healthcare Range

- **Relieve everyday aches and muscle stiffness**  
Heat improves blood flow; cold reduces swelling and numbs discomfort.
- **Safe, easy-to-use designs for daily comfort**  
Made with skin-friendly materials and adjustable straps for secure wear.

## INTERESTING FACTS

Alternating hot and cold treatments is a trusted method in physiotherapy.

## DID YOU KNOW?

Cold therapy can reduce swelling (post-injury) by up to **70%** if used within the first **48** hours.

Heat therapy increases circulation by over **200%**, aiding faster recovery and relaxation.

## Healthcare Range

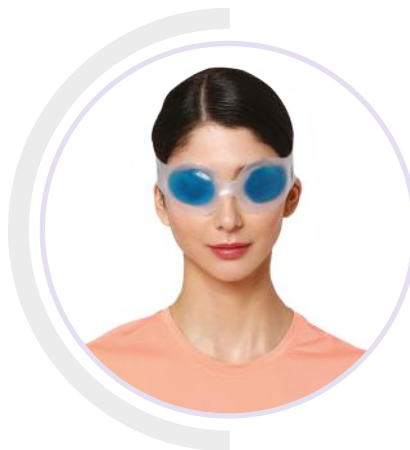

Code - HC-1004, HC-1010

### Cool Pack

- Suitable for swelling, injuries or general cold therapy.
- Non-toxic gel moulds to body contours easily.
- Leak-proof design ensures long cooling relief.
- Washable cover adds comfort and hygiene.
- Flexible for use on various body parts.

Unit: Single Size : Large & Regular

Code - HC 1005

### Cool Eyes

- Suitable for eye strain, puffiness or fatigue.
- Offers cooling relief with soft gel design.
- Can be worn during rest or sleep.
- Non-toxic gel keeps it safe for daily use.
- Universal size fits all face shapes.

Unit: Single Size : Universal

Code - HC 1011 – LARGE, HC 1012 - JUMBO

### Premium Orthopaedic Heat Belt

- Suitable for muscle pain, cramps or joint stiffness.
- Offers dry or moist heat with three heat levels.
- Twin thermostat ensures safe heat regulation.
- Soft, washable cover enhances user comfort.
- Fits body contours and runs on 220-240V.

Unit: Single Size : Large & Jumbo

# ORTHOPAEDIC HEAT BELT

Code : HC 1003, HC 1001, HC 1002

The Orthopaedic Heat Belt is designed to offer targeted heat therapy, providing relief from muscle aches, stiffness, and discomfort. It features an adjustable temperature control with three heat levels, allowing for personalised comfort. The belt's durable heating element ensures even heat distribution for effective therapy sessions.

## SUITABLE FOR

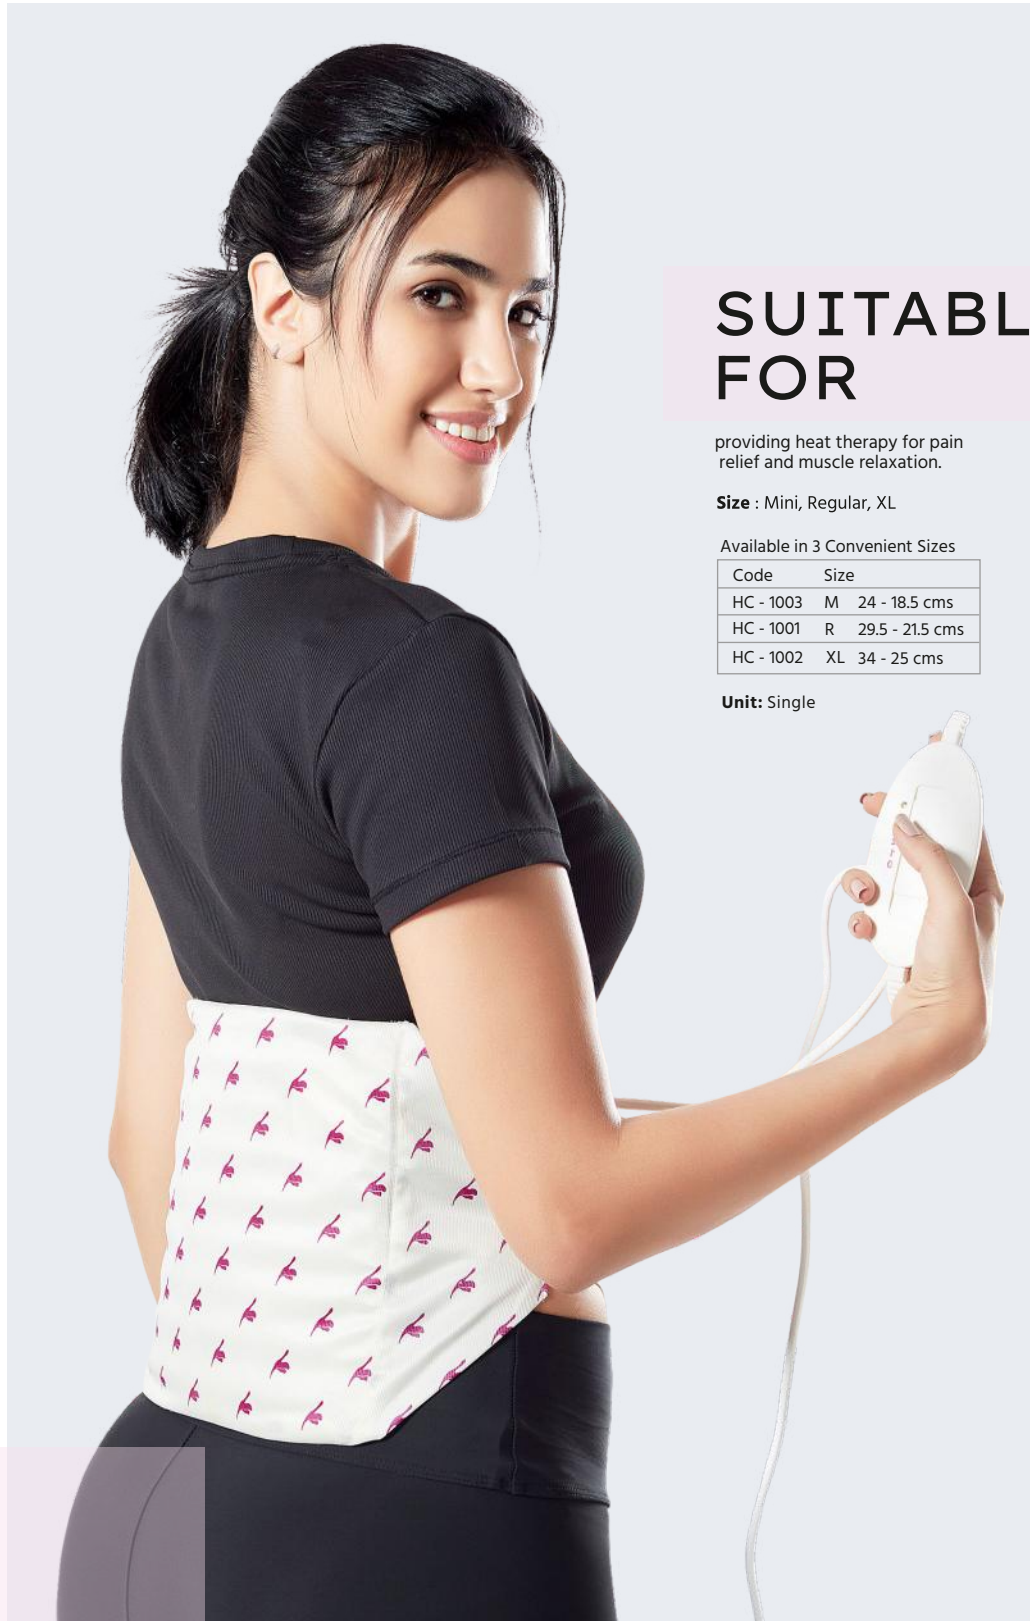

providing heat therapy for pain relief and muscle relaxation.

**Size :** Mini, Regular, XL

Available in 3 Convenient Sizes

Code	Size
HC - 1003	M 24 - 18.5 cms
HC - 1001	R 29.5 - 21.5 cms

**Unit:** Single

- Adjustable temperature with 3 pre-set heat levels.
- Snap-action thermostat for safety and overheating protection.
- Flexible design fits various body parts, including back and abdomen.
- Operates on 220-240 V AC/DC power for reliable use.
- Washable outer cover for easy maintenance.

## Healthcare Range

Code - HC 1013

### Car Comfort Heat Belt

- Suitable for heating during travel or long drives.
- Two heat levels with max temp of 75°C.
- Runs on 12V DC with long cable for flexibility.
- Snap-action thermostat prevents overheating.
- Washable cover adds to comfort and hygiene.

Unit: Single

Size : Universal

Code - HC 1015

### Hot Pack

- Suitable for cramps, muscle pain or joint aches.
- Non-toxic gel retains heat for longer use.
- Leak-proof design is safe and durable.
- Adjustable strap helps keep pack in place.
- Washable cover makes it easy to maintain.

Unit: Single

Size : Regular

Code - HC 1006

### Hot & Cold Eyes Mask

- Suitable for sinus pressure, puffiness or stress.
- Can be used hot or cold for various needs.
- Retains temperature for lasting relief.
- Non-toxic gel is safe for everyday use.
- Adjustable strap ensures a secure fit.

Unit: Single

Size : Regular

## Healthcare Range

Code - HC 1014

### Hot & Cold Pack

- Suitable for muscle pain or swelling.
- Can be used for both heat and cold therapy.
- Non-toxic gel maintains temperature effectively.
- Washable cover allows for hygienic use.
- Reusable design for long-term relief.

Unit: Single

Size : Regular

Code - HC 1009

### Fahrenheat Sauna Belt

- Suitable for weight loss and sweat detox therapy.
- Promotes sweating to relieve stiffness and pain.
- Three heat levels with a max temp of 80°C.
- Velcro closure ensures a snug and secure fit.
- Operates on 220-240V, suitable for daily use

Unit: Single

Size : Universal

# KIDS COOL PACK

Code - HC 1018

The Kids Cool Pack provides gentle relief for your little ones, helping to soothe minor injuries and discomforts like bumps, bruises, and fevers. Its non-toxic gel ensures complete safety, while the soft, flexible design allows it to remain pliable even when frozen. Perfect for use at home, on trips, or during outdoor activities, this cool pack offers comfort and convenience for both kids and parents.

## SUITABLE FOR

soothing minor bumps, bruises, fevers, and everyday aches in children.

**Size :** Universal

**Unit:** Pack of 3

### Assorted Designs

- Child-safe, non-toxic gel for complete safety.
- Soft and flexible, remains pliable when frozen.
- Easy to use with a child-friendly design.
- Reusable and washable for long-term use.
- Lightweight and compact for easy storage and travel.
- Provides long-lasting cooling effect for effective relief.

# COOL EYE MASK

Code - HC 1020

The Cool Eye Mask is designed to provide effective cold therapy for tired, strained eyes. Its re-freezable gel offers multiple uses, making it cost-effective and ideal for regular use. The soft, plush material ensures comfort, while the broad shape provides better coverage for a snug fit around the eyes. With an adjustable strap, it guarantees a secure and personalised fit, making it convenient for both home use and while travelling.

## SUITABLE FOR

soothing tired eyes, reducing puffiness, and alleviating eye strain.

**Size :** Universal

**Unit:** Pack of 2

**Pack Includes:**

2 Cool Eye Mask Gel Inserts  
2 Soft Fabric Eye Mask Covers

- Re-freezable gel for multiple uses and cost-effectiveness .
- Soft, plush material for gentle comfort on the skin.
- Broad shape for wider eye coverage and snug fit.
- Adjustable strap for a secure, personalised fit.
- Lightweight and compact for easy travel and storage.
- Retains cool temperature for extended relaxation.

# COOL WRAP

Code - HC 1019

The Cool Wrap offers versatile and effective cold therapy, ideal for managing injuries or soothing muscle discomfort. Its flexible design moulds easily to various body parts, including the knee, shoulder, hip, neck, or ankle, providing targeted relief. The dual adjustable straps ensure a secure, hands-free fit, making it convenient for everyday use.

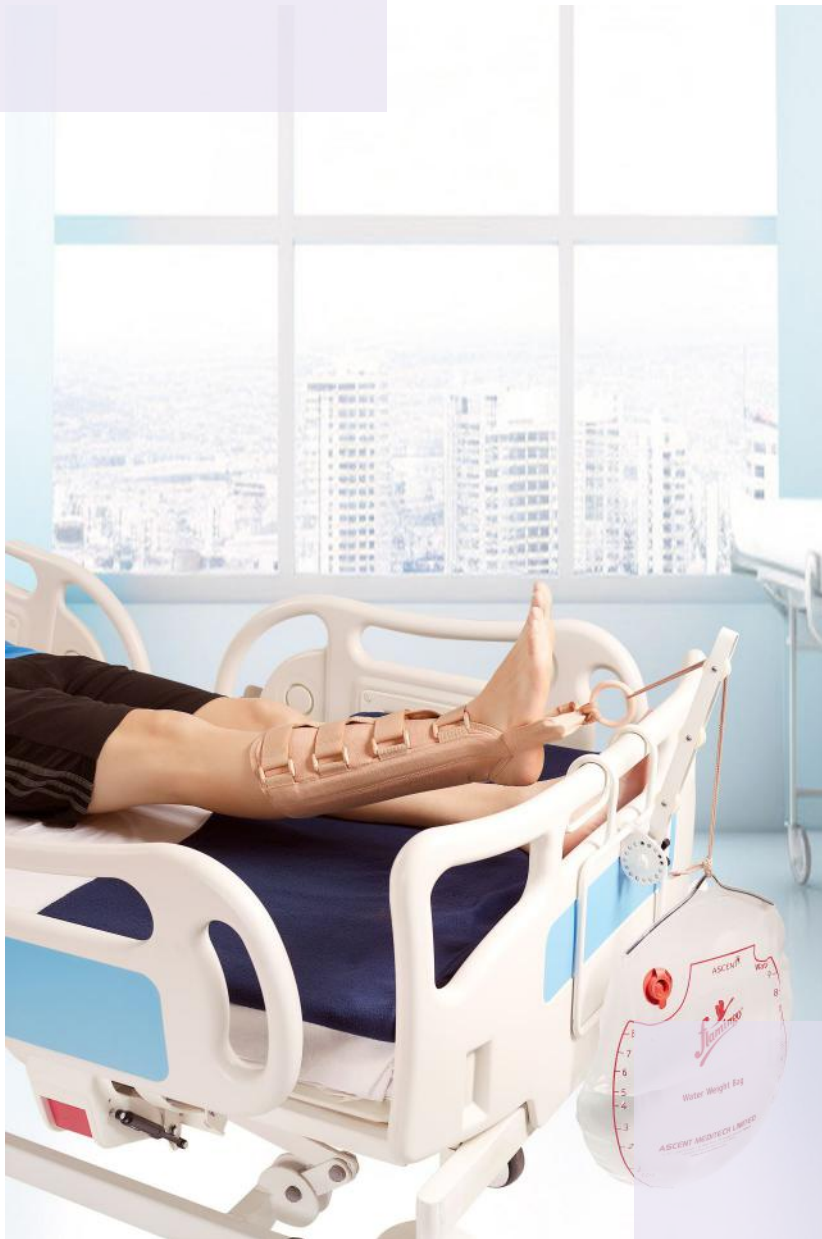

## SUITABLE FOR

providing targeted cold therapy for pain relief and muscle recovery.

**Size :** Universal

**Unit:** Single

- Flexible design moulds easily to different body parts.
- Dual adjustable straps for a secure and hands-free fit.
- Premium fabric with sealed seams for durability and easy cleaning.
- Retains cold for extended periods for lasting relief.
- Non-toxic gel formulation for safe, repeated use.

# Traction Supports

- **Helps relieve spinal pressure and align joints**  
Applies controlled force to reduce tension in the back, neck, or pelvis.
- **Designed for ease of use at home or in clinics**  
Includes complete kits with padded straps, pulleys, and water weights.

## INTERESTING FACTS

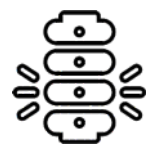

Traction is a trusted therapy used in hospitals and homes for decades.

## DID YOU KNOW?

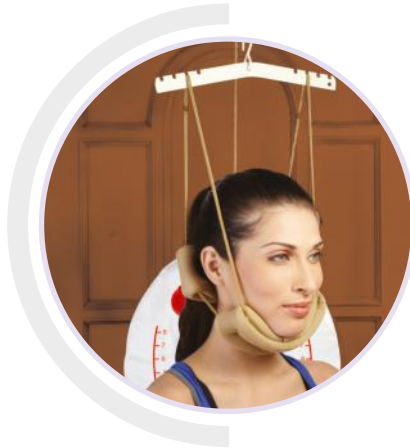

Spinal traction can create up to **3 mm of space** between vertebrae.

The spine supports over **60% of body weight** and is under constant stress.

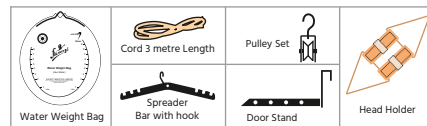

## Traction Supports

Code - OC 2130

### Cervical Traction Kit (Sitting)

- Suitable for neck and upper back relief using traction therapy.
- Includes padded head holder for added comfort.
- Pulley set and cord allow smooth force adjustment.
- Water bag provides custom traction control.
- Door stand and spreader bar ensure stable positioning.

Unit: Kit

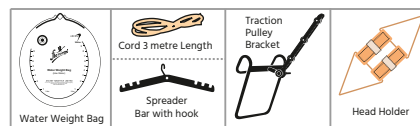

Size : Universal

Code - OC 2198

### Cervical Traction Kit (Sleeping)

- Suitable for neck and upper back relief using traction therapy.
- Includes padded head holder and spreader bar.
- 3-metre cord allows flexible setup during rest.
- Traction pulley bracket and water bag enable gentle adjustment.

Unit: Kit

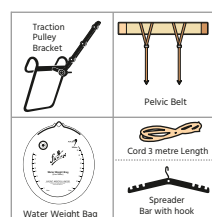

Size : Universal

Code - OC 2096

### Pelvic Traction Kit

- Suitable for lumbar and lower back traction therapy.
- Includes pelvic belt and spreader bar for control.
- 3-metre cord ensures easy and safe positioning.
- Water bag adjusts traction force as needed.
- Traction pulley bracket allows smooth traction control.

Unit: Kit

Measure circumference of waist.

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 115 cms
	2XL	115 - 130 cms
	3XL	130 - 145 cms

## Support for Traction

Code - OC 2094

### Skin/Foot Traction Kit (Non-Adhesive)

- Suitable for leg traction without skin adhesive.
- Includes soft foot belt for secure placement.
- 3-metre cord allows flexible traction setup.
- Traction pulley bracket and water bag help adjust force easily.

Unit: Kit

Size : Universal

Code - OC 2142

### Adhesive Skin Traction Kit

- Suitable for leg traction using adhesive method.
- Includes adhesive foot belt for secure hold.
- 3-metre cord and traction pulley bracket enable smooth setup.
- Water bag offers adjustable traction control.
- Designed for effective and stable traction.

Unit: Kit

Size : Universal

Code - OC 2416

### Ankle Traction Kit

- Suitable for ankle pain relief and rehab through traction.
- Ankle traction brace provides focused support and comfort.
- 3-metre cord allows flexible use and setup.
- Traction pulley bracket and water bag adjust traction pressure.

Unit: Kit

Size : Universal

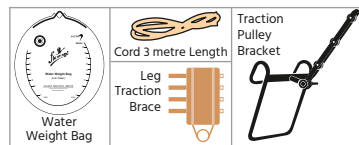

## Support for Traction

Code - OC 2223

### Leg Traction Kit

- Suitable for leg support and therapy through traction.
- Includes leg brace for stable positioning.
- 3-metre cord enables flexible traction setup.
- Water bag and traction pulley bracket provide easy adjustment.

Unit: Kit

Measure circumference of calf.

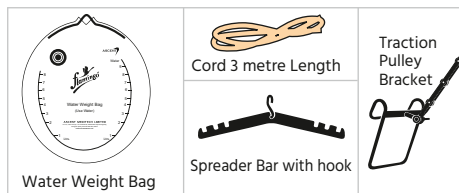

Size :	S	25 - 30 cms
	M	30 - 35 cms
	L	35 - 40 cms
	XL	40 - 45 cms
	2XL	45 - 50 cms

Code - OC 2448

### Universal Traction Kit

- Suitable for traction therapy for various body parts.
- Includes spreader bar for even force distribution.
- Water bag and traction pulley bracket enable smooth adjustment.
- 3-metre cord offers versatile setup flexibility.
- Ideal for multi-purpose clinical or home use.

Unit: Kit

Size : Universal

## TRACTION ACCESSORIES

- **Ensure smooth and effective traction therapy**  
Designed to work with kits for neck, back, pelvic, or leg support.
- **Allow custom adjustment and comfortable positioning**  
Includes water bags, pulleys, cords, spreader bars, and brackets.

## INTERESTING FACTS

The right accessories enhance the comfort, safety, and precision of traction therapy.

## DID YOU KNOW?

A standard traction setup can apply force equal to **15–20%** of body weight.

Traction accessories improve therapy outcomes by up to **40%** when used correctly.

## Traction Accessories

Code - OC 2095

### Cervical Traction (Non Adhesive)

- Designed for cervical and upper thoracic traction needs.
- Includes bar, pulley, head holder and 3m cord.
- Built with strong materials for reliability.
- Supports traction setup both at home and clinic.
- Comfortable use throughout therapy.

Unit: Kit

Size : Universal

Code - OC 2218

### Pelvic Traction (Non Adhesive)

- Designed for cervical and upper thoracic traction needs.
- Comes with pelvic belt, bar and 3m cord.
- Sturdy design ensures effective use.
- Suitable for clinical or home application.
- Simple to set up and use.

Unit: Kit

Measure circumference of waist.

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 115 cms
	2XL	115 - 130 cms
	3XL	130 - 145 cms

Code - OC 2222

### Skin/ Foot Traction (Non Adhesive)

- Designed for leg traction during therapy sessions.
- Includes soft foot belt for secure hold.
- Strong, durable material construction.
- Can be used in various care settings.
- Provides consistent traction support.

Unit: Kit

Size : Universal

Code - OC 2201

### Adhesive Skin Traction

- Used for traction with adhesive foot attachment.
- Easy application and secure hold.
- Made from quality materials for long use.
- Offers effective traction control.
- Suitable for clinic or home use.

Unit: Kit

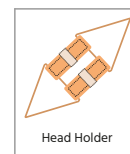

Size : Universal

Code - OC 2121

### Cervical Traction Head Holder (Non Adhesive)

- Designed for cervical traction therapy.
- Provides firm hold during cervical traction therapy.
- Universal size for easy compatibility.
- Comfortable fit and reliable design.
- Built from premium-grade materials.

Unit: Kit

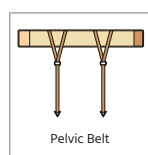

Size : Universal

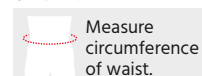

Code - OC 2119

### Pelvic Belt (Non Adhesive)

- Suitable for pelvic traction use.
- Offers stability and comfortable fit.
- Crafted from strong, long-lasting materials.
- Supports correct alignment.
- Easy to use and adjust.

Unit: Kit

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 115 cms
	2XL	115 - 130 cms
	3XL	130 - 145 cms

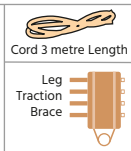

## Traction Accessories

Code - OC 2186

### Leg Traction (Non Adhesive)

- Complete setup for leg traction therapy.
- Includes brace, cord and water bag.
- High-quality material for repeated use.
- Designed to offer steady support.
- Simple and effective for home or clinic.

**Unit:** Kit

Measure circumference of calf.

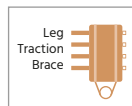

Size :	S	25 - 30 cms
	M	30 - 35 cms
	L	35 - 40 cms
	XL	40 - 45 cms
	2XL	45 - 50 cms

Code - OC 2217

### Leg Traction Brace (Non Adhesive)

- Used with traction system for the leg.
- Secures the leg for proper alignment.
- Comfortable and adjustable design.
- Strong material for reliable performance.
- Assists in maintaining therapy posture.

**Unit:** Kit

Measure circumference of calf.

Size :	S	25 - 30 cms
	M	30 - 35 cms
	L	35 - 40 cms
	XL	40 - 45 cms
	2XL	45 - 50 cms

Code - OC 2413

### Ankle Traction Brace (Non Adhesive)

- Suitable for leg traction setups requiring steady support and positioning.
- Brace holds the ankle securely to maintain alignment during therapy sessions.
- Universal fit suits most users and integrates with traction accessories.
- Constructed using durable materials to ensure reliable daily use.
- Helps improve setup comfort and stability throughout traction application.

**Unit:** Kit

Size: Universal

## Traction Accessories

Code - OC 2151

### Traction Pulley

- Ensures controlled traction in various setups.
- Smooth operation during use.
- Fits universal traction systems.
- Reliable and easy to maintain.
- Durable construction for long life.

Unit: Single Size : Universal

Code - OC 2120

### Water Weight Bag

- For applying traction with adjustable weight.
- Used to provide pull during therapy.
- Universal design fits most systems.
- Durable build resists wear and tear.
- Ensures balanced and adjustable traction.

Unit: Single Size : Universal

Code - OC 2158

### Spreader Bar

- Suitable for cervical and pelvic traction therapy, ensuring stable and effective treatment.
- Includes spreader bar with hook for secure traction setup.
- Universal size ensures compatibility with various traction equipment.
- Made from durable materials for reliable support and long-lasting use

Unit: Single Size : Universal

Code - OC 2131

### Traction Pulley Bracket

- Suitable for traction therapy, providing stable support for traction pulleys.
- Includes traction pulley bracket for secure and reliable setup.
- Made from durable materials for long-lasting performance and reliability

Unit: Single Size : Universal

## INTERESTING FACTS

The correct walking stick can greatly reduce fall risk and support daily independence.

## Walking sticks & Bottom pods

- **Provide support and balance during walking**  
Help reduce pressure on lower limbs and increase confidence while moving.
- **Adjustable, durable, and easy to carry**  
Made from strong yet lightweight materials with secure grips and anti-slip bases.

## DID YOU KNOW?

Using a cane can reduce leg load by up to **25%** during walking.

Over **1 in 4 adults** over age **60** experience balance issues needing walking aids.

## Walking sticks & Bottom pods

Code - OC 2017

### Walking Stick

- Suitable for walking support and daily mobility needs.
- Anti-slip bottom pod ensures stable ground contact.
- Height is adjustable for personalised comfort.
- Ergonomic handle offers a soft and firm grip.
- Anodised aluminium tube prevents peeling and rust.

Available in 3 colours.

Black Silver Bronze

Unit: Single

Size : Universal

Code - OC 2109

### Walking Stick with Trileg Bottom

- Suitable for added support with improved stability.
- Three-leg base ensures balance on all surfaces.
- Height can be adjusted as per user comfort.
- Sturdy aluminium tube offers long-term durability.
- Comfortable handle with rubber grip.

Available in 3 colours.

Black Silver Bronze

Unit: Single

Size : Universal

Code - OC 2418

### Walking Stick 'U' Shaped

- Suitable for added support with improved stability.
- U-handle allows easy hanging and better control.
- Adjustable height for a personalised walking fit.
- Rubber sleeve on handle improves hand grip.
- Anti-slip base offers stable support on surfaces.

Unit: Single

Size : Universal

## Walking sticks & Bottom pods

Code - OC 2089

### Tripod Walking Stick

- Suitable for users needing extra base stability.
- Tripod base offers balance on uneven surfaces.
- Comfortable grip from cushioned plastic handle.
- Anodised aluminium provides strength and lightness.
- Non-slip rubber pod improves safety.

Available in 3 colours.

Unit: Single

Size : Universal

Code - OC 2220

### Tripod Metal Base

- Suitable for walking support with broad metal base.
- Wide base improves balance and surface grip.
- Soft handle offers comfort during extended use.
- Adjustable height matches user requirement.
- Anti-slip rubber pod for added security.

Available in 3 colours.

Unit: Single

Size : Universal

Code - OC 2219

### Quadripod Metal Low Base

- Suitable for greater balance with four-point support.
- Low quadripod base ensures firm stability.
- Adjustable height for ease of use.
- Cushioned handle reduces hand strain.
- Rubber base improves floor grip.

Available in 3 colours.

Unit: Single

Size : Universal

## Walking sticks & Bottom pods

Code - OC 2173

### Quadripod Metal High Base

- Suitable for elderly or those with limited mobility.
- High quadripod base offers wide surface contact.
- Handle designed for a soft and secure grip.
- Durable aluminium prevents wear and rust.
- Rubber bottom pod adds stability on the go.

Available in 3 colours.

Black Silver Bronze

Unit: Single

Size : Universal

Code - OC 2090

### Quadripod Walking Stick

- Suitable for added support.
- Quadra base enhances grip on all surfaces.
- Soft cushioned handle minimises hand fatigue.
- Adjustable aluminium frame suits various users.
- Non-slip base offers secure walking experience.

Available in 3 colours.

Black Silver Bronze

Unit: Single

Size : Universal

Code - OC 2473

### FM Radio/Torch/Siren Walking Stick

- Suitable for mobility with added safety features.
- Built-in torch aids night-time visibility.
- Emergency buzzer, FM radio, safety lanyard, and name tag included.
- Height adjustable for custom support.
- Anti-slip rubber base adds surface grip.

Unit: Single

Size : Universal

Code - OC 2299

### Classic Quadripod (Horizontal Handle)

- Suitable for strong four-point walking support.
- Horizontal handle ensures easy and stable hold.
- Electro-polished aluminium enhances durability.
- Rubber pod ensures a stable base.
- Height adjustable for user comfort.

Unit: Single

Size : Universal

Code - OC 2381

### Classic Walking Stick with Torch

- Suitable for walking support with added visibility.
- Built-in torch helps in low-light conditions.
- Cushioned handle provides soft comfort.
- Adjustable height and durable aluminium body.
- Includes safety lanyard and name tag.

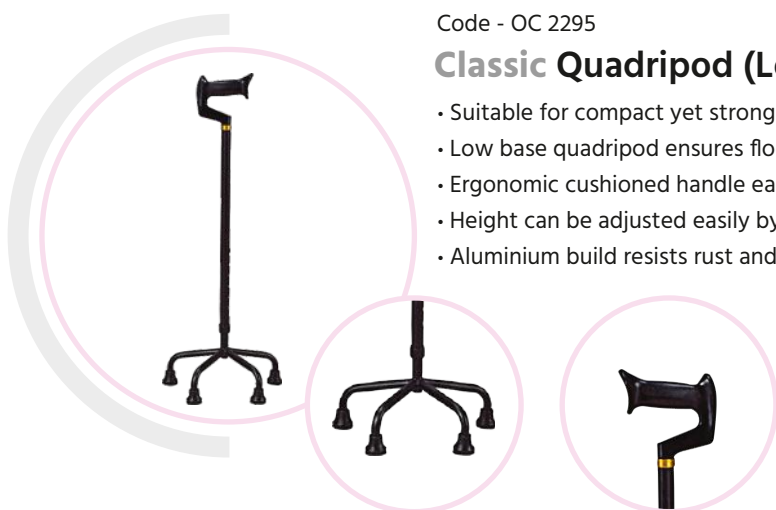

Unit: Single

Size : Universal

Code - OC 2295

### Classic Quadripod (Low Base)

- Suitable for compact yet strong walking support.
- Low base quadripod ensures floor stability.
- Ergonomic cushioned handle eases pressure.
- Height can be adjusted easily by the user.
- Aluminium build resists rust and wear.

Unit: Single

Size : Universal

## Walking sticks & Bottom pods

Code - OC 2296

### Classic Tripod High Base

- Suitable for balance with a three-legged base.
- High tripod frame provides wider ground support.
- Cushioned handle offers soft, comfortable grip.
- Adjustable height helps fit various users.
- Anti-slip rubber pod improves safety on all floors.

Unit: Single

Size : Universal

Code - OC 2288

### Classic Folding Walking Stick

- Suitable for travel and occasional walking support.
- Folds into four sections for easy storage.
- Suction tip offers firm grip on all surfaces.
- Ergonomic handle ensures comfort.
- Lightweight aluminium ensures durability.

Unit: Single

Size : Universal

Code - OC 2297

### Classic Walking Stick with Seat

- Suitable for walking and seating during outings.
- Converts into a seat for short resting breaks.
- Strong aluminium frame supports up to 100 kg.
- Fusion handle provides comfort and control.
- Foldable seat and anti-slip base for safe use.

Unit: Single

Size : Universal

## Walking sticks & Bottom pods

Code - OC 2122

### Bottom Pod for Tripod Quadripod stick

- Suitable for quadripod and tripod walking sticks to maintain footing.
- Non-slip rubber helps avoid skids on varied terrain.
- Measures 28mm tall, 22.5mm top diameter, 12mm inner diameter.
- Resilient material supports even weight distribution on contact.
- Reliable option for indoor and light outdoor mobility.

**Unit:** Single

Size : Universal

Code - OC 2123

### Bottom Pod for Walking stick, Underarm Crutches & Elbow crutches

- Suitable for walking aids to maintain slip-free contact with ground.
- Anti-slip rubber ensures grip on varied surfaces while moving.
- Measures 49mm tall, 26mm top diameter, and 19mm inner diameter.
- Compact build fits common walking aid models snugly and securely.
- Durable grip design ensures long-lasting ground contact support.

**Unit:** Single

Size : Universal

Code - OC 2388

### Bottom Pod for Quadripod Metal Low Base

- Suitable for low base quadripod walking aids.
- Rubber bottom supports safe daily walking use.
- Measures 34mm tall, 20mm top diameter, 20mm inner diameter.
- Compact design helps improve base grip on smooth floors.
- Delivers lasting support across varied walking conditions.

**Unit:** Single

Size : Universal

## Walking sticks & Bottom pods

Code - OC 2124

### Bottom Pod for Walker

- Suitable for foldable or wheeled walkers for safer contact.
- Prevents slips with robust rubber grip for floor traction.
- Measures 46mm tall, 36mm top diameter, 28mm inner diameter.
- Works with castor, reciprocal, and double bar walker styles.
- Adds safety and comfort with dependable traction design.

**Unit:** Single

Size : Universal

Code - OC 2397

### Bottom Pod for Quadripod High & Tripod Metal Base

- Suitable for metal tripod or high-base walking aids for safety.
- Textured rubber base gives reliable grip while walking.
- Measures 50mm tall, 44mm top diameter, 18mm inner diameter.
- Reinforced build supports balanced walking patterns.
- Enhances walking aid contact with firm and even surface grip.

**Unit:** Single

Size : Universal

Code - OC 2152

### Bottom Pod for Tri-Leg Stick

- Suitable for tri-leg walking stick for firm contact and extra support.
- Rubber grip resists slips with superior abrasion protection.
- Measures 50mm tall, 27mm top diameter, and 19mm inner diameter.
- Engineered for long-term use on hard and smooth surfaces.
- Reliable traction ensures stability with each movement.

**Unit:** Single

Size : Universal

# Walkers / Walking Frames

- **Provide full-body support during walking**  
Help improve balance, reduce fall risk, and support safe mobility.
- **Lightweight, foldable, and height adjustable**  
Made from durable aluminium with ergonomic grips and non-slip pods.

## INTERESTING FACTS

A well-fitted walking frame can help restore mobility and independence.

## DID YOU KNOW?

Walkers can reduce up to **50%** of weight load on the legs while walking.

India has over **100** million elderly citizens, many benefiting from walking aids.

## Walkers/ Walking Frames

### Reciprocal Folding Walker

- Suitable for walking support with easy forward-backward movement.
- Allows movement without lifting the walker.
- Folds to 4-inch width for compact storage.
- Comfortable rubber grips ensure a secure hold.
- Sturdy aluminium frame with non-slip pods.

Unit: Single Size : Universal

Code - OC 2385

### Reciprocal Folding Walker Double Bar

- Suitable for added support during walking sessions.
- Enables smooth walking without lifting the frame.
- Compact foldable design for easy portability.
- Double bar frame supports up to 120 kg.
- Rubber grips and pods offer stability and comfort.

Available in 2 colours

Unit: Single Size : Universal

Code - OC 2335

### Walker with Castor (360° Rotating Wheels)

- Suitable for mobility with full directional control.
- 360° front wheels allow smooth turning.
- Lightweight frame folds for easy transport.
- Rubber grips reduce hand fatigue during use.
- Anti-slip base ensures safe movement.

Unit: Single Size : Universal

Code - OC 2176

### Walker with Castor (2-Way Wheels)

- Suitable for smooth forward and backward walking.
- Front wheels and rear tips improve balance.
- Foldable design allows compact storage.
- Adjustable height fits a range of users.
- Rubber grips and aluminium frame ensure comfort.

Unit: Single Size : Universal

Code - OC 2402

### Reciprocal Steel Walker

- Suitable for easy movement without lifting the walker.
- Folds flat for travel and compact storage.
- Steel frame with powder coat finish in blue.
- Ergonomic rubber grip for better handling.
- Adjustable height and non-slip base pods.

Unit: Single Size : Universal

Code - OC 2450

### Pull Up Walker

- Suitable for stable support while walking independently.
- Pull-up folding design allows quick storage.
- Lightweight yet strong aluminium construction.
- Rubber grip with thumb rest for comfort.
- Anti-slip pods and adjustable height.

Unit: Single Size : Universal

## Walkers/ Walking Frames

Code - OC 2292

### Classic Walker Basic

- Suitable for regular use and basic mobility support.
- Folds to a compact 4-inch width for storage.
- Smooth motion enables natural walking flow.
- Rubber grip handle and anti-slip bottom pods.
- Height adjustable aluminium frame.

Unit: Single Size : Universal

Code - OC 2294

### Classic Walker with Castors

- Suitable for improved mobility with front wheels.
- Rear rubber tips offer better surface grip.
- Folds easily for travel and storage.
- Rubber handgrip ensures user comfort.
- Height adjustable for a better fit.

Unit: Single Size : Universal

Code - OC 2293

### Classic Walker Premium

- Suitable for strong mobility support with comfort.
- Aluminium frame supports up to 120 kg.
- Folds to 4-inch width for easy storage.
- Smooth reciprocal motion aids walking.
- Cushioned rubber handle minimises strain.

Unit: Single Size : Universal

## INTERESTING FACTS

Proper crutch use supports healing while promoting independence and safety.

## Crutches

- **Support weight transfer from legs to upper body**  
Help maintain balance and mobility during recovery from injury or surgery.
- **Lightweight, strong, and adjustable** Available in underarm or elbow styles with comfortable grips and anti-slip pods.

## DID YOU KNOW?

Crutches can reduce leg load by up to **80%**, aiding faster mobility support.

The average walking speed on crutches is around **1.2 km/hour** during recovery.

## Crutches

Code - OC 2113

### Elbow Crutch

- Suitable for walking support and weight transfer.
- Lightweight aluminium frame for easy handling.
- Plastic cuff and handgrip offer better control.
- Adjustable height ensures a personalised fit.
- Anti-slip rubber pod provides safe traction.

**Unit:** Single

Size : Universal

Code - OC 2290

### Classic Elbow Stick Open Loop

- Suitable for balance and support while walking.
- Open loop cuff helps secure the forearm.
- Lightweight aluminium offers easy mobility.
- Height adjustable with cushioned handgrip.
- Non-slip pod ensures grip on all surfaces.

**Unit:** Single

Size : Universal

Code - OC 2111

### Underarm Crutches

- Suitable for transferring upper body weight during walking.
- Height adjustable for a secure, comfortable fit.
- Underarm pads and grips offer long-term comfort.
- Aluminium frame ensures lightweight durability.
- Rubber pods provide non-slip stability.

**Unit:** Pair

Height of the patient.	
S	135 - 155 cms
M	155 - 175 cms
L	175 - 195 cms

## INTERESTING FACTS

A good wheelchair restores movement, dignity, and daily independence.

# Wheelchairs

- **Enable independent or assisted mobility**

Offer comfortable movement support for elderly users and those with limited mobility.

- **Strong, foldable, and easy to manoeuvre**

Available in steel or aluminium frames with ergonomic seating and hand brakes.

## DID YOU KNOW?

There are over **2.7 million wheelchair users** in India alone.

A wheelchair user can travel up to **3–5 km/hour** with ease and support.

# Wheelchairs

Code - OC 2279

## Classic Wheel chair Basic

- Suitable for individuals with mobility challenges.
- Manual steel frame with foldable design.
- Leg strap and hand brakes improve safety.
- Push handles assist caregiver movement.
- 18" seat with castor wheels for easy use.

Unit: Single

Size : Universal

Code - OC 2280

## Classic Wheel chair Premium

- Suitable for regular use with enhanced mobility.
- Crossbar frame allows folding along with strength.
- Leg strap and brakes offer secure positioning.
- 18" seat with push handles for comfort.
- Sleek nickel chrome finish with front castor wheels.

Unit: Single

Size : Universal

Code - OC 2302

## Classic Wheel chair Basic (Heavy Duty)

- Suitable for users needing extra seat space.
- Crossbar steel frame allows folding offers along with strength.
- 22" wide seat provides ergonomic comfort.
- Powder-coated frame resists rust and wear.
- Hand brakes and castor wheels enhance control.

Unit: Single

Size : Universal

# Assistive Devices

- **Make daily routines easier and more comfortable**  
Support mobility, hygiene, and rest for users with limited strength or flexibility.
- **Lightweight, hygienic, and user-friendly designs**  
Foldable, height-adjustable, and made from rust-resistant materials for lasting use.

## INTERESTING FACTS

The right aid promotes dignity, safety and self-reliance.

Over **40%** of elderly adults need at least one assistive device for daily independence.

Using such devices can reduce injury risk by up to **60%** at home.

## Assistive Devices

Code - OC 2304

### Classic Shower Chair

- Suitable for safe and stable shower seating.
- Contoured seat with drain holes for hygiene.
- Height adjustable for user comfort.

Unit: Single

Size : Universal

Code - OC 2502

### Shower Stool Padded

- Suitable for seated showers with added comfort.
- Padded seat reduces friction on the skin.
- Drain holes allow water to pass easily.
- Height adjustable and corrosion resistant.
- Anti-slip pods provide safe floor grip.
- Includes shower head and catheter bag holder.

Unit: Single

Size : Universal

Code - OC 2499

### Shower Stool Chair with Back

- Suitable for shower use with back support.
- Wide seat with holes for water drainage.
- EVA padding ensures comfort and ease.
- Lightweight aluminium frame resists rust.
- Includes shower head and catheter bag holder.

Unit: Single
