Retirement Our Plans

Are you an employer, employee, or individual? Are you over 18 years old? If the answer is yes, then an Oasis Retirement plan is for you! Your contribution starts as low as \$25/ per month!

The most important reason why most people don't start saving for retirement is because of the high costs associated with it. Oasis is looking to change that by offering low-cost retirement plans. It also comes with the perk that there is no membership fee for either employees or employers. At Oasis, we also accept rollover contributions, which is the transfer of retirement funds from one account to another.

In adherence to retirement regulations in select states, employers are mandated to provide retirement benefits to their employees. Similar obligations may extend to states such as California, New York, Oregon, Illinois, and more. It is advisable to consult the relevant authorities in your local state to confirm any pertinent retirement mandates and ensure full compliance.
