Quality Customer Service

Design Specialties, Inc. is a woman-owned and operated small business that provides high quality plastic reusable tableware for the institutional market. This includes correctional facilities, hospitals, and schools around the world.

The company was founded in 1983 providing only polycarbonate flatware. We listened to you, our customer, and one by one developed the right products to meet your needs. Today, we offer a wide range of flatware, tumblers, bowls, mugs, plates, compartment trays, and insulated trays in multiple materials. All products, materials, and colors started with ideas from customers like you.

Our priority is to provide the highest level of product quality and customer service, which sets us apart from our competitors. All of our products are manufactured in the United States. Our sales and manufacturing team work diligently to design, develop, manufacture, and test products to ensure our customers are happy 100% of the time.

We want to work with you to find the most suitable option to meet your food service operational needs.

Give us a call and see the difference!

COLORS

Our experienced sales experts will assist you with colors and material choices to fit your needs.

					
Almond	Amber	Bamboo Tan	Beige	Black	Blue
					
Brown	Cactus Green	Cinnabar	Clear	Frost	Gray
					
Green	Light Blue	Orange	Purple	Teal	Yellow

MATERIALS

At Design Specialties, we constantly assess various materials. Many of our items are offered in a range of materials and colors, all of which are reusable, sturdy, and dishwasher safe. Our sales experts will assist you in choosing the most appropriate material to satisfy your needs. All of our products follow FDA requirements for public food service.

FLEXIBLE MATERIALS

XTREMFLEX

- Temperatures up to 210°F
- Perfect for high-security areas
- Can be twisted & crushed - maintains original shape
- Material bends but does not shatter or break
- Cannot be sharpened into a weapon

TUF-FLEX

- Temperatures up to 210°F
- Blend of XtremFlex and Econoblend materials

TX-506
XtremFlex Tray

COMMON MATERIALS

POLYCARBONATE

Temperatures up to 230°F

Polycarbonate is a strong and durable material with a shiny, long-lasting finish. Will not scuff or stain.

ECONO BLEND

Temperatures up to 210°F

Special blend of Copolymers and other olefins for extremely break-resistant, long-lasting, economical products. Will not break down with chemical use.

NYLON

Temperatures up to 230°F

A pliable material that is proven to be virtually unbreakable and very long-lasting.

HIGH TEMPERATURE MATERIALS

ULTRAGUARD

High-temp material up to 400°F

Cook-chill or re-therm

Virtually unbreakable

REThERM 400

High-temp material up to 400°F

Cook-chill or re-therm

Good impact

Transparent Amber

HI-IMPACT

High-temp material up to 400°F

Cook-chill or re-therm

High Impact

Transparent Amber

Portion Control Utensils
