The Cooperative Purchasing Leader for Public Sector Procurement

OMNIA Partners is a cooperative purchasing organization that serves agencies across state and local government, higher education, K-12 education, and non-profit industries.

Use of cooperative contracts reduces the cost of goods and services by aggregating the purchasing power of public agencies nationwide. Our participants have access to the largest portfolio of competitively solicited and publicly-awarded contracts with best-in-class national suppliers.

All contracts are awarded by a government entity utilizing industry best practices, processes and procedures. Our lead agencies ensure maximum value with complete transparency of process. We adhere to the highest standards of procurement so you can feel secure knowing that you are in full compliance with industry regulations.
