WELCOME 2026!

This year, our catalog celebrates a universe full of colors, textures, and sizes, a reflection of the variety, quality, and innovation that inspire us every day at Betallic and Sempertex. Inside, you'll find endless possibilities to create, driven by the passion and commitment we put into everything we do.

We proudly introduced the new Reflex Galaxy Blue, a shade that expands our palette and continues to inspire decorators around the world. We've also recently released THREE new colors bringing three new vibes: Deluxe Creamy Blush, Deluxe Urban Grey, and Deluxe Almond White.

Following the success of the International Balloon Convention (IBC), we'll be joining Sempertex once again to host our international convention in the United States, a space where inspiration and learning come together to keep creating unforgettable moments.

At Betallic we continue to expand our universe of color and quality, accompanying you in every creation and celebrating the dreams that come to life.

BALLOON SPECIFICATIONS / ESPECIFICACIONES

All R-12 balloons with Satin, Metal, Silk, and Reflex textures are manufactured on super-sized forms, making them appear bigger when deflated compared to balloons of the same size in Fashion, Pastel Matte, Pastel Dusk, and Neon textures. This design difference ensures that, once inflated, all balloons reach the same size regardless of texture.

The following table shows the average inflated size, lift ability, flying time, and the number of balloons per helium tank.

Todos los globos R-12 texturas Satin, Metal, Silk y Réflex se fabrican con moldes de mayor dimensión, que hace que cuando están desinflados luzcan más grandes en comparación con los globos del mismo tamaño de las texturas Fashion, Pastel Matte, Pastel Dusk y Neon. Esta diferencia en el diseño garantiza que, al inflarse, todos alcancen el mismo tamaño independientemente de la textura.

Esta tabla contiene la lista de tamaño inflado promedio, capacidad de elevación, tiempo de flotación y cantidad de globos por tanque de helio.

All Sempertex® latex balloons are helium quality with just the perfect weight to generate a quality barrier. Manufactured in Colombia from natural rubber latex.

Todos Los globos de látex Sempertex® son de calidad para helio con el peso adecuado para generar una barrera de calidad. Son fabricados en Colombia y hechos con látex de caucho natural.
