**Design is
Not just
Looks.
Design
Is how it
Works.**

Our story

Cinas was founded under the name Carl J. Nielsen in 1903.

Since the 1980s, the company has developed into the design, import and distribution company that we see today.

All of our products are made with carefully selected manufacturers in the Far East, where the cooperation has functioned for generations. High-quality requirements are incorporated into this network, ensuring that our products always live up to our quality and finishing standards.

We focus on furniture and accessories that emphasize their simplicity and functional expression, but still with a stylish edge with our design philosophy in mind: "A design is incomplete until someone uses it."

**Contributing
Scandinavian
design for
more than**

**100
years**

Outdoor

Cinas creates outdoor furniture characterized by its unique design, incredible durability, and a deep sense of culture that derives from the northern climes that Scandinavians call home.

Manufactured using quality materials, our exceptional furniture is designed for long life and everyday use.

We invite you to share in this heritage by stepping outside to enjoy the great outdoors with us.

Ellen

Nearby the sea in Denmark, Ellen and her husband enjoyed dinners with family and friends in their garden during the summer, many years ago. The center of their company was an old set of furniture with beauty, comfort and heart. Design, materials and comfort were gently reworked into our version of the classic set and brought to life again; named after the Lady of the house.

Our materials

Teakwood

We use Java teakwood to manufacture our furniture. Among the other hardwoods commonly used for outdoor furniture, many are referred to as 'teak substitutes'. But there is no substitute for teak, and in outdoor conditions, no other hardwood in the world performs to the same high quality standards as teak. Simply put, teak is the best hardwood in the world for untreated wooden outdoor furniture.

Mahogany w/matt black pu paint

With its balanced natural oil content, mahogany has proved itself over time as the best material for painted outdoor furniture. Prior to assembly, we apply several layers of paint to each component to ensure optimal protection and outdoor resistance. This strong smooth painted surface highlights the flowing modern lines of each piece of Cinas furniture.

Mahogany w/glossy white pu paint

For consumers and producers alike, it can be difficult to know whether a piece of timber comes from a sustainable forest. To help ensure that we are sourcing timber responsibly, Cinas supports certification systems that document its path from the forest, all the way to the consumer. As a minimum Cinas requirement, all teak and mahogany used in our products comes with a V-legal document from the Indonesian government agency Perum Perhutani.

Aluminium

Our powder-coated aluminium furniture is rustproof, easy to clean, and requires only minimum maintenance. All Cinas aluminium frames are offered in our classical 'glossy powder coating', with several items now also available in a contemporary new 'matt anthracite powder coating'. Combine various types of tables, seating types and cushions to create a selection for your every mood and preference.

T-grip

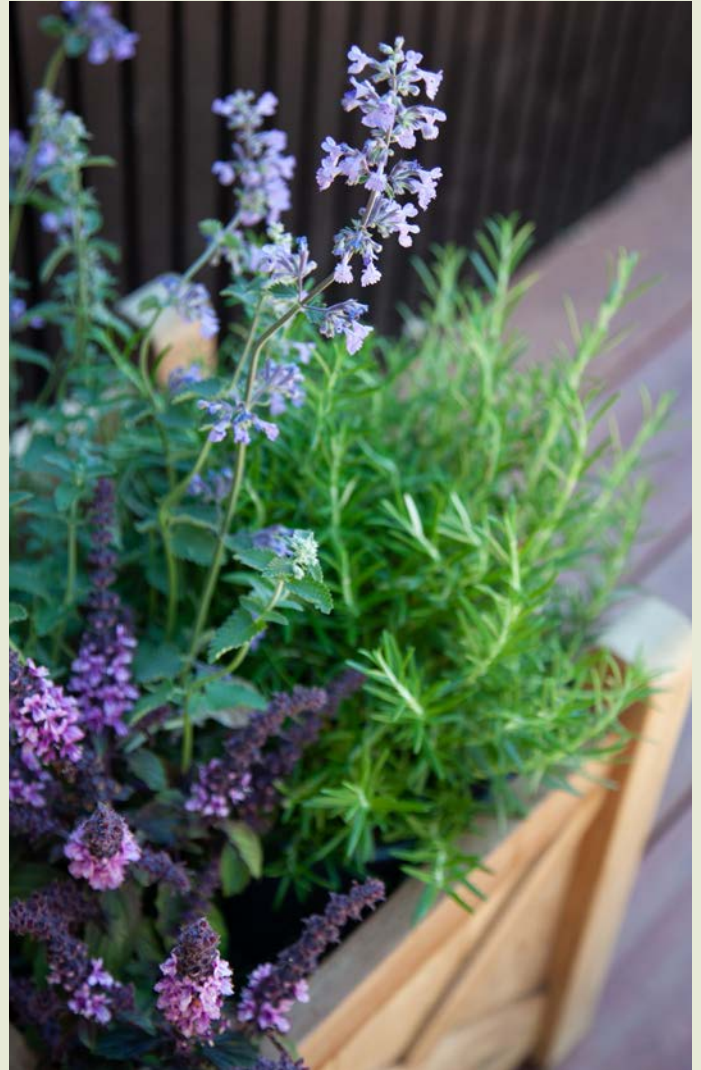

Innovative system that enables us to produce chairs without tools, screws, or glue.

Our flexible U-shaped polypropylene lamellas feature our own unique T-shaped grip system for easy insertion in a rail inside an aluminium frame.

Umbrella

Our garden umbrellas are water-repellent and treated for UV+50 resistance. Poles are available in teak color hardwood and aluminium, with several size options to suit a variety of applications. The hub and runner are made of strong polyresin, and fittings have a satin finish. The umbrella fabric is reinforced with double stitching, and leather patches enhance the strength of the corner pockets. Choose covers to suit your market: Standard Polyester (235gr/m²) or Olefin (210gr/m²). Umbrella bases in concrete (including wheels) are available with the patented tube.
