

# HYOSUNG

# MX5400 Hero

## MX5400 Hero

Being the ideal solution for off-premise environments, for both Financial and Retail locations, the Hero offers an advanced design and user-friendly interface displayed on a 15" screen. This full Windows model can support WinCE and Windows 10 to handle whatever transaction set you can dream up. Its sophisticated look combined with its high cash capacity make the Hero series an ideal fit for both Retail and Financial installs.

## Features

### Flexibility

The Hero accommodates both Retail and Financial stand-alone cash dispenser markets. The Hero accommodates both low and high traffic locations by having a optional 1,000 note cassette configuration or a 2,000 note cassette with up to three cassettes capacity.

### Innovative Design

The Hero features a user-friendly interface displayed on a vivid 15" infinity screen with a sleek dark grey color scheme. A new cash dispenser provides spray dispense bill presentation and auto recovery capability.

### Security Options

Hyosung ATMs defend against physical and logical attacks with a combination of multi-level anti-skimming, locked-down operating systems, white-listing, and encryption. The Hero has an optional UL291 L1 rated safe to protect the machine when extra protection is needed. The Hero is also easily integrated with any monitoring solution to provide seamless data transfer for effective management.

### Highest Availability

The Hero is designed to provide reliability that is unequaled in the market, with minimum maintenance and maximum uptime.
