

The background of the entire page is a photograph of a bedroom. A bed is the central focus, covered with a dark blue duvet and pillows featuring a large, intricate floral pattern in white and gold. The pattern includes large peonies and smaller flowers with green leaves and red berries. A pink headboard is visible behind the bed. To the left, a wall-mounted lamp with a white shade and a gold base is illuminated. The overall atmosphere is cozy and elegant.

COLLECTION

This catalogue is printed on **100% FSC recycled paper**.

2021 was a year with many obstacles. A year which showed us the importance of working together and functioning as one big team. A year which motivated us to become even better and make some big **changes**.

2021 was the year we brought our **sustainability** committee to life. This way, we have added an extra focus on a more sustainable future, on top of all the existing “Mistral Home Cares” corporate responsibility projects within our company.

With the knowledge on our planet growing, terms like ecological footprint, global warming and sustainability are no longer unfamiliar to us all. It is high time to **actively** and **consciously** get to work to **reduce our footprint** as much as possible and to take **responsibility**.

One of our initiatives is to increase the number of sustainable products in our collection. Compared to our previous catalogue Spring-Summer 2022, we have done so by more than 40%. And for each less sustainable product in this catalogue, we can offer a more sustainable alternative upon request.

Finally, we want to point out that we obviously have many ecological packaging options for all these products.

*Our Mistral Home cares logo highlights the sustainable products throughout the catalogue.*

We hope that you will join us on our path to a more sustainable future.

Kind regards,

The Mistral Home Family

With Dark Flowers, we return to the time of romanticism, an eclectic romanticism that is.

Submerge yourself in a world of flowers, paisley, diamond patterns and cashmere designs. This theme uses an innovative colour palette of petrol and terracotta tones, from light to dark, topped off with deep roasted spice shades.

## DECO TIP

Dare to make unexpected colour combinations.

This fresh and modern theme was inspired by the revival of the 70s, specifically Pucci. With blue in all its shades and emerald green, one of this year's trend colours, a geometric collection was created.

**NEW: The Highland plaid**

With its soft, luxurious wool look, it combines perfectly with the intense colours of the bed linen.

This plaid is 100% GRS **recycled** polyester.

## DECO TIP

Combine different fabrics for a vibrant table.  
Blue lends itself beautifully as an eye-catcher.

Its timeless designs harmonise with both modern and classic interiors. The hushed colours provide a natural sense of tranquility and elegance.

Create a sense of winter peacefulness with natural drawings, textured designs and the occasional accent of warm rust. In connection with this style, we strongly emphasise sustainability by consciously opting for recycled renforcé and flannel.

This design is available on RCS **recycled** cotton.
