THAILAND

# ART

## SCHOLARSHIP

*Information for Applicants*

**Creativity** is one of the most sought after skills by employers and the creative industries are one of the fastest growing economies world-wide, so art is a popular subject choice for students and opportunities to develop artistic skill and engage creatively play a vital role in the school curriculum. Our goal within the art department is to support and guide students towards discovering their creativity and help them to develop skills across a wide range of media, materials and processes. In addition to developing artistic talent, Art teaches students skills such as problem solving, concept development, organisation, time management and teamwork.

Our select group of art scholars play an important role in the department and within the school as a whole. They act as role models to other students and showcase what can be achieved when talent is combined with motivation and commitment.

**We expect our scholars to:**

- maintain good grades in all subjects;
- receive consistently good attainment grades in art;
- uphold the values of RST and be an excellent role model to other students in all aspects of school life, but particularly in their approach to commitment in art;
- involve themselves fully in the co-curricular provision for art;
- in most cases, to study art at GCSE/A Level.

*Scholarships are reviewed annually.*

## Scholars' Programme

All scholars follow a tailored programme and work closely with a specialist mentor.

Scholars will benefit from opportunities such as:

- taking part in the Scholars' Showcase;
- events which bring together scholars from each area. These events may include a formal dinner, symposium or trip;
- collaborating with fellow scholars from their subject areas to create an assembly presentation;
- the opportunity to undertake an independent research project.

Art scholars will benefit from:

- public exhibitions of their work and tuition in curation;
- opportunities to attend arts based workshops and talks;
- support with developing their portfolio;
- leading House Art (supporting the House Sixth).

## Assessment Process

Applications are accepted throughout the year from students aged 11+ who demonstrate exceptional ability in their field.

Applicants must first complete and pass the standard admissions process. Following initial screening, comprising a review of achievements, cognitive tests, and an interview with the Head of School, qualified applicants may be invited to undertake further department or subject-specific assessments; plus add additional information to their application to support the application for scholarship.

To apply, please begin **HERE** or contact [admissions@rugbyschool.ac.th](mailto:admissions@rugbyschool.ac.th) for further information.

*Please note that internal candidates (students already attending the School) must be recommended by their teachers in order to apply. Eligible current students will be notified accordingly and are encouraged to discuss this with their tutors if needed.*
