! TIPS : RUGS BY ROOM

Not sure how to place a rug in your space?

Our easy guide below will help you find the perfect rug placement to suit your furniture grouping, room type and size of space.

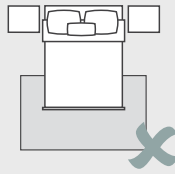

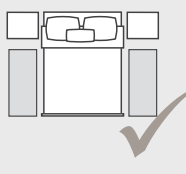

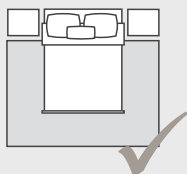

LIVING ROOM

Large living rooms and space should opt for all furniture on the rug with a 1 inch space from the wall and rug. Alternatively if some furniture is against the wall aim to have your furniture's front 2 legs on the rug. Your third option, which works great in smaller spaces, is to just centre the rug under your coffee table.

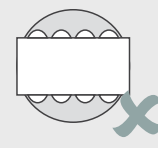

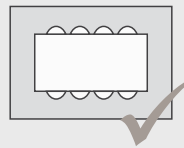

BEDROOM

When it comes to placing your rug under your bed ensure it extends 90 cm all around your bed. Alternatively place 2 smaller runners on either side or 1 at the foot of the bed.

DINING ROOM

Your table and chairs should all rest on the rug. Remember you need 60cm extending beyond each side of the table to prevent chairs from going off the rug when pushed back. Match the shape of your rug to the shape of your dining table.
