

BTC MARMOLEUM LINOLEUM FLOORING

ALL NATURAL SOLUTIONS

BTC Marmoleum is a unique linoleum resilient floor covering made of natural raw materials such as linseed oil, wood flour, limestone, resin, and jute. With no use of synthetic materials like PVC. These raw materials are obtained from their natural habitat, where they grow and renew themselves, often in just 12 months. It is the ideal flooring choice for those looking for quality and sustainability in both residential and commercial settings.

- Made from natural raw materials
- Low in emission, free from plasticizers and synthetic additives
- Versatile in its application and durable in use
- Easy to install with net fit seams technology
- Easy to clean and has great appearance retention

BTC MARMOLEUM

BTC MARMOLEUM MARBLED
DEFINING NATURAL SPACES

Marbled

Our BTC Marmoleum Marbled Flooring collection provides the largest colour bank in resilient flooring, a beautiful array of structures and designs that connects the colours of the indoor space in a subtle and sophisticated manner. BTC Marmoleum Marbled flooring presents the classic marbled pattern in **three** intriguing organic structures; **Real, Fresco and Vivace.**

FRESCO

A strong palette of tone in tone colours creating a fresh, delicate and balanced aesthetic with a soft contrast and a refined marbled structure.

REAL

The 'royal' classic blend of carefully selected colours, developed to create choice and mixes of colour ranging from warm neutrals to calm greys as well as exciting brights and fashion shades.

VIVACE

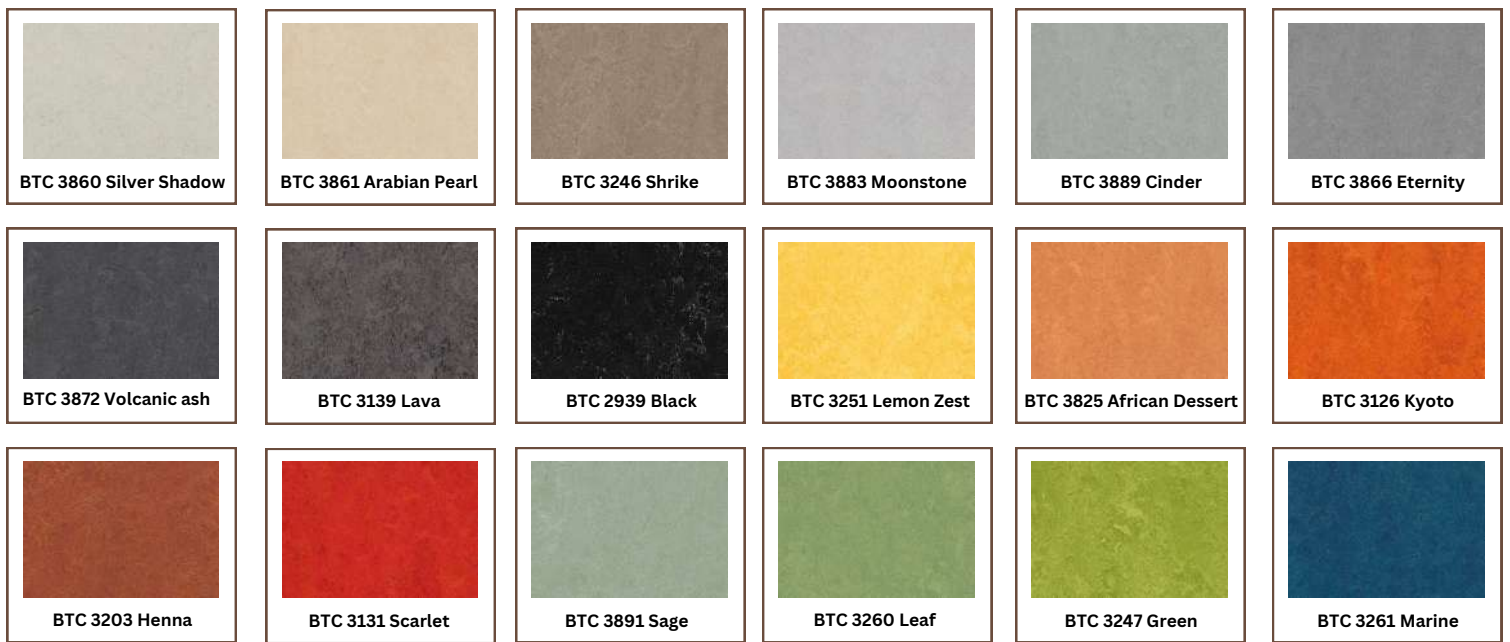

BTC Marmoleum's liveliest and most outspoken blend made with six to eight colours to create a chameleon floor that adapts well to a multitude of interiors.

MARMOLEUM SOLID
DEFINING PURE SPACES

Solid

BTC Marmoleum Solid is a collection of four distinctive individual textures that provide the foundation for creating pure distinctive, contemporary spaces. BTC Marmoleum Solid collection is often seen as the most modern display of what linoleum is capable of. This innovative linoleum flooring range combines several levels of plainness with exciting twists of colour and structure. The Cocoa range in the Solid collection has been awarded the iF Design award. The **four** designs in the Solid collection are ; **COCOA, WALTON, CONCRETE and PIANO.**

COCOA

A completely new concept in BTC Marmoleum. Upcycled cocoa husks have been added to create a visual random effect in a plain unicoloured surface.

WALTON

Named after Frederic Walton, the inventor of linoleum, the Walton range is a series of classic and contemporary solid uni colours that present linoleum in its purest form.

PIANO

A tone in tone scattered design, which when installed resembles a uni colour, but with incremental overtime visual retention. The collection is made with both neutral as well as accent colours that all combine very well within the range.

CONCRETE

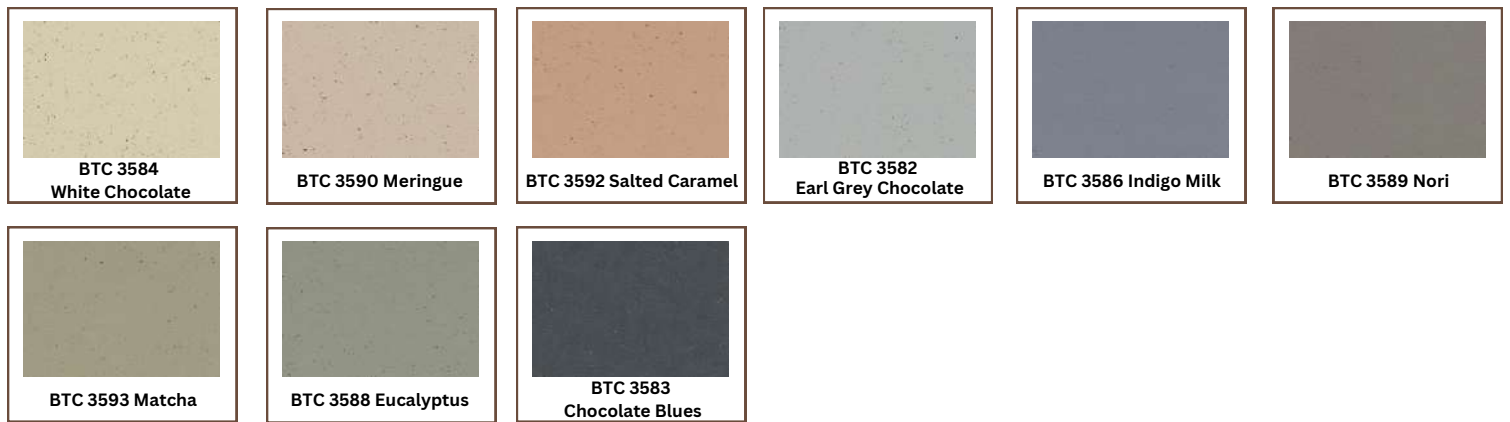

A true to life series of concrete colours in modern warm and cool grey neutrals. The range is complemented by a series of 'shimmer and glow' colours that are subtly mixed with the grey base.
