The Altra Difference

Natural Fit is the secret sauce in all Altra shoes.

With a Roomy Toe Box and Zero to Low Drop, our shoes are built to keep you comfortable and keep you running. We're here to help you move the way you were designed to.

Roomy Toe Box

All of our shoes are made with room for your toes, so they're free to move naturally.

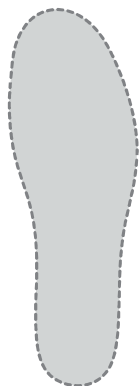

- With room for your toes, you get a comfortable running experience.
- Allowing your toes to spread gives you confidence in every strike.
- Why confine your toes?

Low Drop

Our zero to low drop shoes are built to place your foot in a natural position.

- Start with a stable and confident foundation to run on.
- Why run in heels?

A Range of FootShape™ Fits For a Range of Feet

TYPICAL SHOE SHAPE

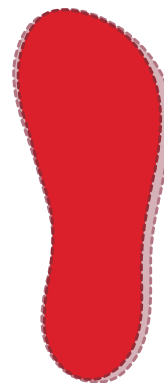

Not shaped
like a foot.

ORIGINAL FOOTSHAPE™ FIT

The FootShape™ Fit that
started it all, Original is the
roomiest of our three options.

Find it in:
Lone Peak Family
Olympus Family
VIA Olympus 2

STANDARD FOOTSHAPE™ FIT

Our most common
FootShape™ Fit, right in the
middle of Original and Slim.

Find it in:
Escalante 4
Escalante Racer 2
Torin 7
Paradigm 7
Superior 6
Timp Family
Mont Blanc BOA®
Mont Blanc Carbon
Experience Flow
Experience Form
Experience Wild

SLIM FOOTSHAPE™ FIT

Our slimmest-fitting option still
allows room for your toes to
spread out naturally.

Find it in:
Rivera 4
Vanish Tempo
Vanish Carbon 2
Outroad 3

The Altra EGO™ Foam Family

Altra EGO™ foam is a lovable staple across the Altra lineup. The dual-natured, responsive yet soft foam has expanded to include three similar yet uniquely distinct midsole options. These innovative compounds offer different levels of responsiveness and return, but they all have a few things in common: Comfort, comfort, and more comfort.

ALTRA EGO

ALTRA EGO MAX

ALTRA EGO PRO

Go Comfortable

Our original Altra EGO™ foam is designed to provide added energy return and a responsive, yet soft, comfortable feel.

Find it in:

Escalante 4, Escalante Racer 2,
Lone Peak Family, Rivera 4

Go Premium

Our Altra EGO™ MAX midsole provides all the light and luxurious performance with a little extra bounce.

Find it in:

VIA Olympus 2, Torin 7,
Paradigm 7, Timp Family,
Mont Blanc, Mont Blanc BOA®

Go Fast

The best of both worlds: You no longer have to choose between cushion and response — this lightweight foam gives you both.

Find it in:

Vanish Carbon 2, Vanish Tempo,
Mont Blanc Carbon

Road Tech

ROCKER SHAPE

Our rocker shape is designed to give the feeling of being propelled forward with each step and provides an efficient toe-off without taking away from your natural stride.

NATURAL FIT

Our shoes have a roomy toe box and zero to low drop, built to keep you comfortable and keep you running. Move the way you were designed to.

STACK HEIGHTS

As the stack height varies, so does the response. Road, trail, technical terrain, and more can all have an effect on response levels. Here's how it works:

Less Foam

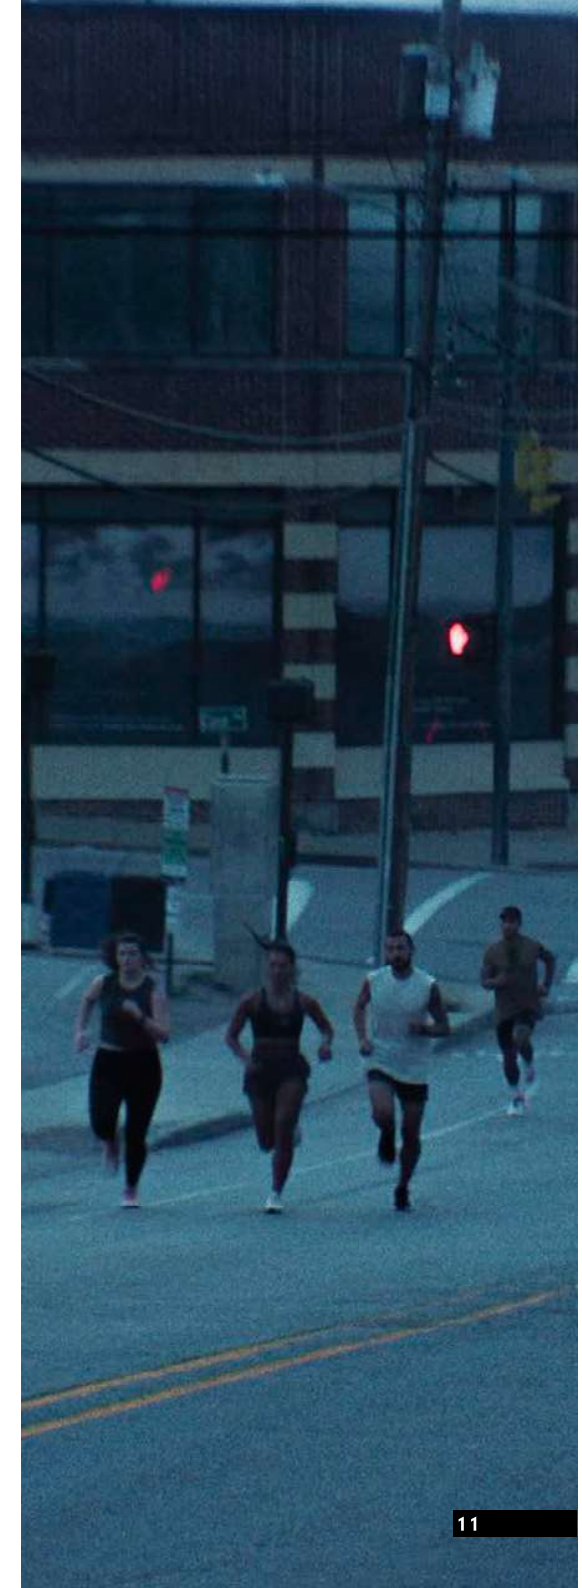

(lower stack height)

- Closer to the ground
- Slightly more responsive
- More intimate interaction with the ground

More Foam

(higher stack height)

- More foam between your foot and the ground
- Traditionally less responsive (we make it a point to maintain responsiveness even with higher stack heights)
- Foot interacts more with the foam while the foam interacts with the ground

Experience Flow

Trail Tech

GORE-TEX™ TECHNOLOGY

According to GORE-TEX™, tested and proven for durably waterproof, windproof, & breathable performance, backed by the GORE-TEX GUARANTEED TO KEEP YOU DRY™ promise.

VIBRAM® LITEBASE

According to Vibram®, Vibram® Litebase midsole reduces 30% of the overall sole weight through a reduction of the sole thickness by 50%, while maintaining Vibram quality in grip, traction, and durability.

VIBRAM® MEGAGRIP

According to Vibram®, this high-performance sticky rubber offers grip on both wet and dry surfaces, rugged longevity, and optimal ground adaptability.

TRAILCLAW™

These canted lugs on the outsole are strategically placed beneath the metatarsals to provide added traction underfoot.

MAXTRAC™

Our grippy MaxTrac™ outsole provides what we believe to be the perfect combination of grip, traction, and durability on all types of terrain.

GAITERTRAP™

This hook-and-loop tab allows our strapless gaiter to easily attach to the shoe.

STONEGUARD™

Inspired by the human feet to provide lightweight rock protection.

Shoe Matrix

SPEED

From the road to the trail, these Speed shoes are lightweight and race-ready. The best part? You no longer have to compromise comfort for speed.

NEUTRAL ROAD

Neutral shoes are the sweet spot for most runners. They're available with our newly expanded family of Altra EGO™ foams at varying cushioning levels.

SUPPORT ROAD

Support shoes provide you with support when you need it and can help guide tired feet.

TRAIL

Trail shoes feature unique tread patterns designed for a variety of off-road conditions, with a range of cushioning levels and trail-ready technology.

HIKE

Whether you're setting out on a short hike or an all-day trek in the dirt, enjoy your adventure with protection from the elements, responsiveness, and comfort to keep your feet ready for anything.
