We Drive Fair and Transparent Production

As a responsible business, we acknowledge our crucial role in shaping a more sustainable future. With over two decades of operation, we proudly hold multiple certifications, demonstrating our commitment to responsible production. Adiantes actively advocates fair production, promoting positive social values, and fostering a sustainable environment for both workers and customers. Emphasizing our position as the leading manufacturer and exporter of leather products in Thailand, we prioritize responsible production practices aligned with the highest industry standards.

ABOUT our company

Adiantes is a leather goods manufacturer based in Thailand, dedicated to crafting high-quality products with attention to detail and craftsmanship.

With a commitment to excellence, we take pride in creating timeless and elegant leather goods that meet the needs and desires of our customers.

Our mission at Adiantes is to celebrate the rich heritage of Thai craftsmanship by creating exceptional small leather goods that blend traditional techniques with modern aesthetics, fostering sustainability, and enriching our customers' lives with unparalleled quality and elegance.

OEM Value Added Services

We help brands bring goods to market with precision & quality:

Product Design and Development: Collaborating with brands to create unique leather goods that meet their specifications.

Manufacturing: Utilizing our advanced facilities to produce high-quality products at scale.

Quality Control: Ensuring that each product meets international standards and brand requirements.

Logistics and Supply Chain Management: Providing efficient and reliable delivery solutions for global distribution.

Case Study: Fashion & High End Products

Our client, a renowned fashion brand, aimed to enter the high-end phone case accessory market and subsequently expand into wallets, bags, and other accessories. They sought a partner who could help them develop a premium product line that would appeal to a global audience.

Customer Needs:

Our customer needed a manufacturing partner who could provide high-quality, stylish, and functional leather accessories. They required innovative designs and superior craftsmanship to differentiate their products in the competitive high-end market.

Why Adiantes was a Good Fit:

Adiantes' reputation for excellence in leather goods and their ability to blend traditional craftsmanship with modern aesthetics made them the perfect partner for the company. Their experience in developing high-end products and their commitment to quality and innovation were key factors.

How Adiantes Managed the Customer's Needs:

Adiantes collaborated closely with the client's design team to develop a range of stylish and functional leather phone cases. Leveraging their expertise, Adiantes expanded the product line to include wallets, bags, and other accessories. This strategic partnership enabled the client to successfully launch a high-end product range, increasing their market reach globally.

Case Study: Leather Component Manufacturing

Our client, a prominent player in the leather goods accessory industry, required a reliable partner to produce a critical leather component essential for their product range. This component was vital for their “Carry” range, which includes wallets, bags, and phone cases, making Adiantes' role in the supply chain indispensable.

Customer Needs:

Our client needed a high-quality leather component that would seamlessly integrate into their finished products. This component was crucial for maintaining the overall functionality and aesthetics of their product range. Without it, their products could not be completed or sold to end consumers, making their production critical.

Why Adiantes was a Good Fit:

Adiantes' extensive experience in leather goods manufacturing and their reputation for superior craftsmanship made them an ideal partner. Their ISO 9001 and 14001 certifications ensured adherence to stringent quality and environmental standards, aligning perfectly with the customer's requirements.

How Adiantes Managed the Customer's Needs:

Adiantes employed meticulous production processes to ensure the leather component met the highest quality standards. By leveraging advanced technology and skilled craftsmanship, they produced a component that was both durable and aesthetically pleasing. Adiantes also implemented rigorous quality control measures, ensuring consistency and reliability. Their efficient supply chain management enabled timely delivery, ensuring that the customer could maintain their production schedule and meet market demand.

Case Study: Public Procurement

The customer, a European firm specializing in public procurement projects, required a partner to develop leather products that met specific market, customer, and regulatory requirements. They turned to Adiantes for their expertise and reliability.

Customer Needs:

The customer needed leather products that adhered to strict quality and regulatory standards. These products had to be functional, durable, and suitable for public procurement projects across various sectors.

Why Adiantes was a Good Fit:

Adiantes' ISO 9001 and 14001 certifications ensured compliance with international quality and environmental standards. Their ability to customize products to meet specific requirements and their experience in B2B partnerships made them an ideal choice for the client.

How Adiantes Managed the Customer's Needs:

Adiantes worked closely with the customer to understand the unique requirements of each public procurement project. They customized the design and production processes to ensure the products met all regulatory standards. Adiantes' efficient supply chain and logistics ensured timely delivery, enabling the customer to fulfill their contracts successfully.

Case Study: Special Projects

A Japanese client, sought to develop high-quality leather camera cases for the APAC market. They required a partner who could manage the entire development process from concept to production.

Customer Needs:

The customer needed a partner who could provide end-to-end development and production of leather camera cases. The products had to be durable, stylish, and tailored to the specific needs of photographers in the APAC region.

Why Adiantes was a Good Fit:

Adiantes' expertise in leather goods manufacturing, combined with their innovative design capabilities and commitment to quality, made them an ideal partner. Their ability to manage the entire production process ensured consistency and excellence.

How Adiantes Managed the Customer's Needs:

Adiantes took full ownership of the project, from initial concept development to final production. They collaborated with the client to understand the specific needs and preferences of the target market. Through meticulous production methods and innovative design, Adiantes developed a range of high-quality leather camera cases that were well-received throughout the APAC region, enhancing the clients market presence.

Our Sustainability Targets

Inclusive, diverse workplace

By 2030 Achieve full gender parity.

By 2025 Equal representation of women and men in management roles.

2% of workers with disabilities.

30% aging workforce (41+).

Progress And Status

Women in Leadership (%)

2023: 50%

2025: 50%

2030: 50%

Disability Workers (%)

2023: 2%

2025: 2%

2030: 2%

Aging Workforce (%)

2023: 44%

2025: 30%

2030: 35%

Our Next Steps

We have achieved all our inclusive, diverse workplace targets during 2023. Our focus will be on maintaining and improving our score.

Low-Carbon business

By 2030 Reduce GHG Emissions by 50% based on 2024-2025 Baseline.

Maximum 0.4% production reject in the manufacturing line.

By 2025 Establish GHG baseline for Scope 1, 2, 3. Maximum 0.5% production reject in the manufacturing line.

Scope 1

Direct Emissions (%)

Scope 1 & 2

Direct/Indirect Emissions (%)

Scope 3

Indirect Emissions (%)

Reject

(%) from Production

Scope 1 & 2

2024 - 2025 will be used to map out and establish the current GHG baseline for scope 1 and 2.

Scope 3

2024 will be used to map out and establish the current GHG baseline for scope 3.

Production Rejects

We have achieved our 2024 target in 2023 with 0.8% rejects. Our focus will be on maintaining and improving our score.

Circular Innovation

By 2030 Achieve 50% recycled plastic in phone case production. Achieve 50% recycled metal in production.

Achieve 50% recycled metal in production.

By 2025 Achieve 10% recycled plastic in phone case production. Achieve 10% recycled metal in production.

Achieve 10% recycled metal in production.

Evaluate the use of 3 sustainable alternative leather materials.

Recycled Plastic (%)

Recycled Metal (%)

Alt. Sustainable Material (No. of materials tested)

Recycled Material

The combined recycled material used in 2023 was 3.25%. Further proposals and developments with recycled materials are taking place in 2024 with existing customers.

Sustainable leather alternatives

Multiple projects are being evaluated in 2024 in terms of alternative sustainable materials and products.
