Studying in Indonesia offers more than just academic pursuits. It grants you a chance to immerse in the country's vibrant culture and captivating natural beauty. Beyond the classroom, you'll have endless opportunities to explore our diverse society and create lifelong memories. Engage in festivals, visit landmarks, and experience warm hospitality. Dive into stunning landscapes, pristine beaches, and lush rainforests for unforgettable adventures that will last a lifetime.

Indonesia embraces you with open arms, offering a journey of warmth and hospitality as you engage in vibrant cultural exchanges and contribute to local communities through volunteer work. Immerse yourself in the richness of Indonesian education, where academic excellence, cultural immersion, and meaningful community engagement come together to shape your future.

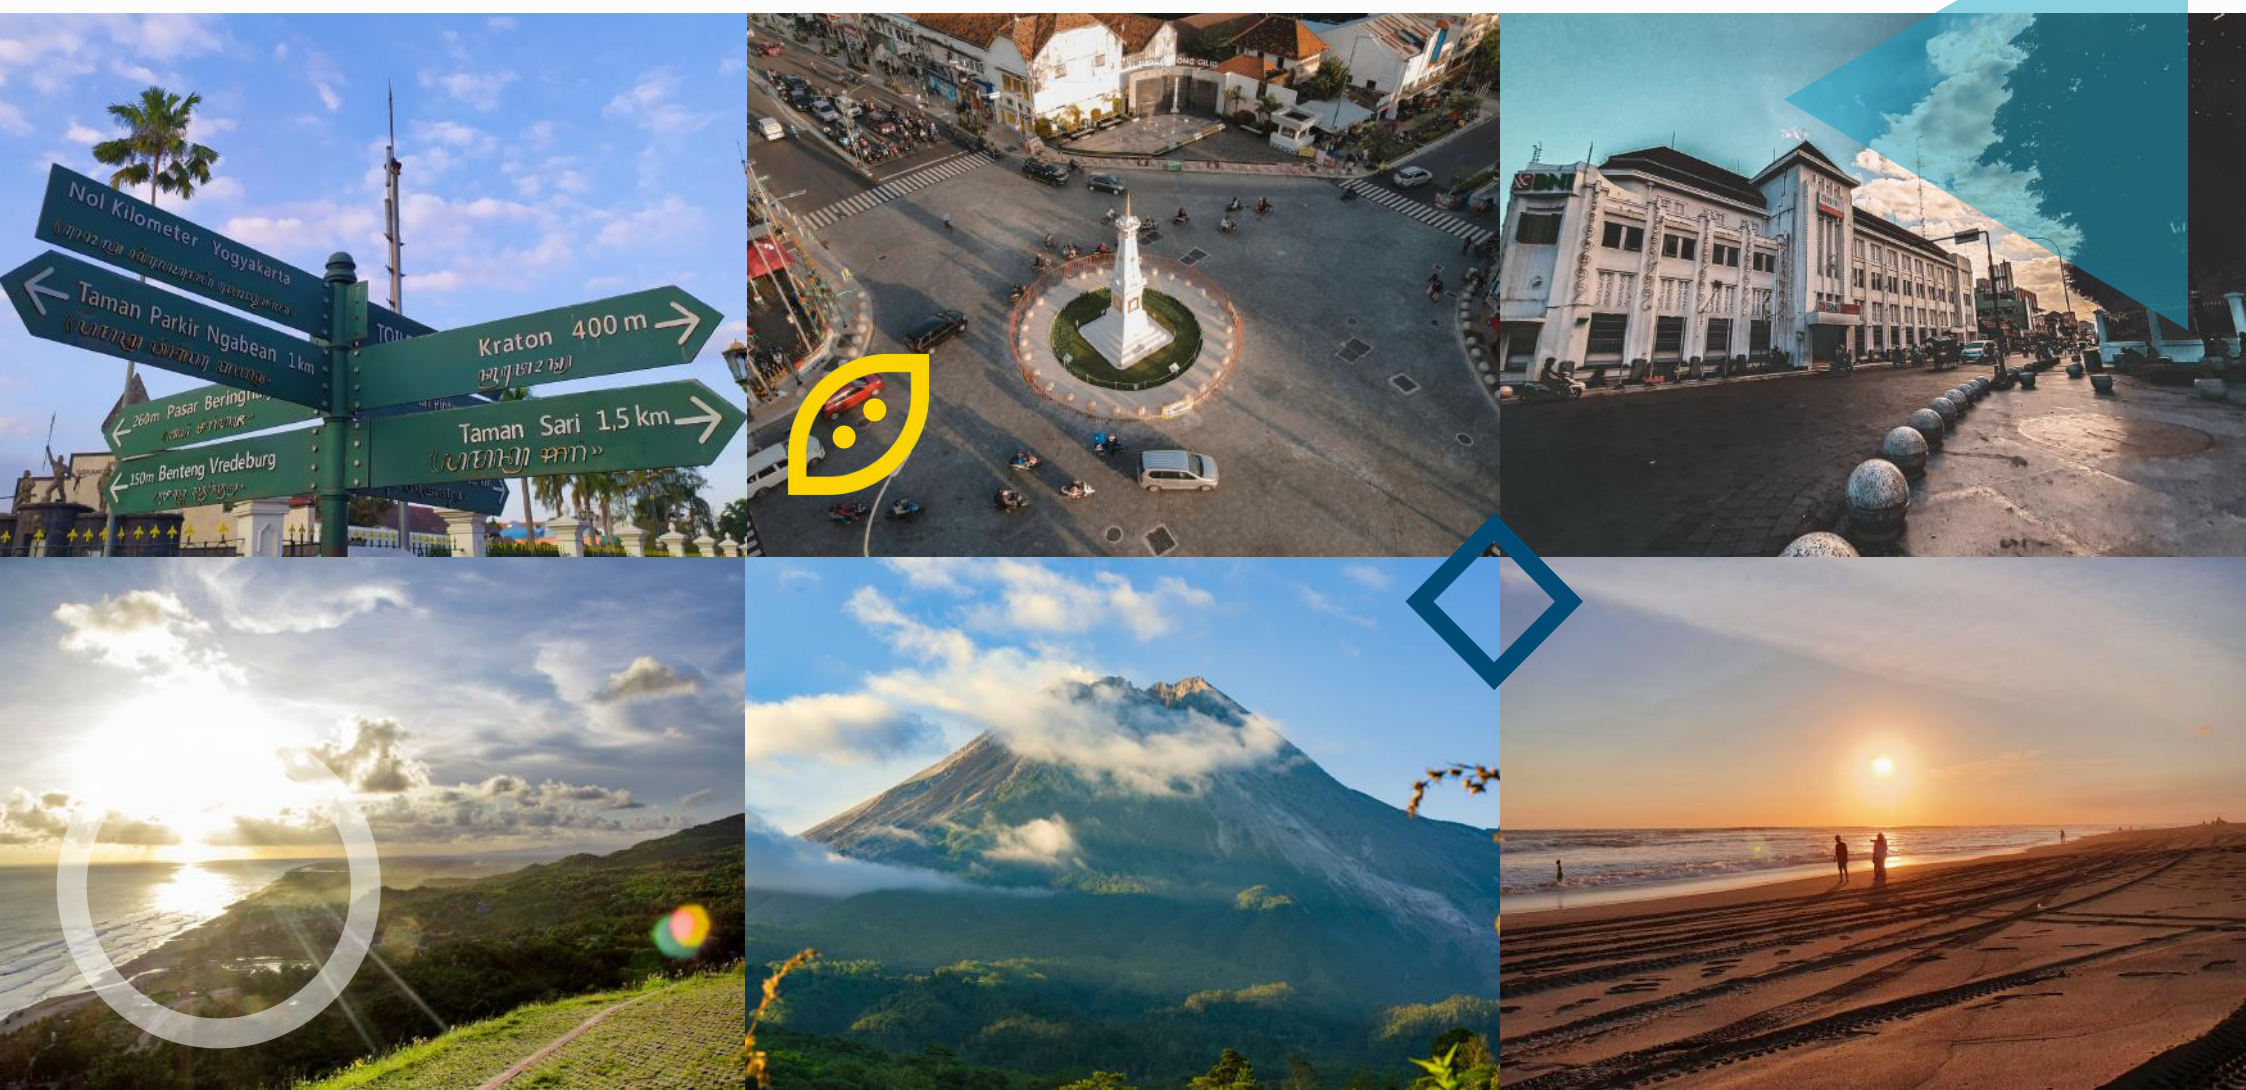

**Founded in 1949,** Universitas Gadjah Mada (UGM) is a prestigious institution renowned for academic excellence in Indonesia. With a diverse range of faculties and study programs, UGM offers students the opportunity to explore various disciplines and foster their growth. At UGM, students learn from esteemed faculty members who serve as mentors, creating a stimulating environment for research and innovation. State-of-the-art facilities, modern libraries, and research centers equipped with advanced resources further enrich the learning experience, providing hands-on opportunities for students to expand their knowledge.

Situated in culturally rich Yogyakarta, UGM offers an immersive educational experience that combines heritage and breathtaking natural beauty. Students can engage with the local community, explore historical landmarks, and embrace Yogyakarta's vibrant arts scene. Moreover, the region's stunning landscapes, including the majestic Mount Merapi, serene beaches, and picturesque countryside, enhance the educational journey at UGM.

UGM's strong connections with industry and government entities open doors for internships and collaborations, providing valuable real-world experiences and practical skills aligned with students' academic pursuits.

Study in UGM for a transformative educational journey, where you'll receive a world-class education, develop critical thinking skills, and embrace the vibrant spirit of Yogyakarta, Indonesia's cultural gem.

# Faculty of Psychology

Universitas Gadjah Mada:

Leading the Way in Psychology  
Education and Home to  
Prominent Psychological Centers

**The Faculty of Psychology** at Universitas Gadjah Mada (UGM) is a leading institution in psychology education, recognized for its academic excellence and commitment to producing skilled professionals in the field. Established in 1965, the faculty has a long-standing history of shaping the psychology landscape in Indonesia.

At the Faculty of Psychology, students engage in a comprehensive curriculum that integrates theoretical knowledge with practical applications. The program emphasizes a deep understanding of human behavior and mental processes, equipping students with a solid foundation for their future careers.

## Accredited by both national and international bodies,

the faculty upholds the highest standards of quality. It holds accreditation from BAN-PT (Badan Akreditasi Nasional Perguruan Tinggi), the national accreditation agency, ensuring that students receive a comprehensive education that meets national standards. Additionally, the faculty has achieved international accreditation from FIBAA (Foundation for International Business Administration Accreditation), demonstrating its commitment to global quality and excellence in psychology education.

UGM's Psychology program is distinguished by its affiliation with prominent psychological centers. These

centers specialize in various domains, including clinical psychology, cognitive psychology, and social psychology. Through research projects, practical training, and community outreach initiatives, students gain invaluable hands-on experience and contribute to real-world applications of psychology.

Studying psychology at UGM means becoming part of a vibrant academic community. Students actively engage in discussions, collaborate with peers, and participate in extracurricular activities related to psychology. The program's extensive network of partnerships with industry, healthcare institutions, and psychological organizations creates opportunities for internships and connections with professionals in the field.

# Programs in Faculty of Psychology

## UNDERGRADUATE PROGRAM: Bachelor Degree in Psychology

Embark on a journey of understanding human behavior and the intricacies of the mind with the Undergraduate Program at the Faculty of Psychology, UGM. This program offers two tracks: the Regular Program conducted in Bahasa Indonesia and the International Program delivered in English. Accredited A by BAN-PT (Badan Akreditasi Nasional Perguruan Tinggi), this program ensures a high-quality education.

Throughout the four-year program, students dive deep into various aspects of psychology, studying human behavior, mental processes, and other fundamental areas. The curriculum adopts the Kurikulum 2020, embracing the principles of Merdeka Belajar-Kampus Merdeka, which encourages independent learning and a dynamic campus environment. Upon completion, students are awarded the degree title S.Psi (Bachelor in Psychology).

## MASTER OF PSYCHOLOGY: Empowering Graduates, Advancing Research

The Master of Psychology program at UGM is designed to produce graduates with high moral integrity, equipped with the skills to conduct interdisciplinary research for the advancement of psychological science and society. Implementing Output-Based Education (OBE), this program fosters collaborative learning and project-based approaches to education.

Throughout the two-year program, students delve into advanced topics in psychology, developing their research skills and expanding their knowledge in specialized areas. The degree awarded upon completion is M.A (Master of Arts).

## Doctorate Program in Psychology: Empowering Scholars, Advancing Knowledge

The Doctorate Program in Psychology at UGM provides a platform for doctoral students to explore and deepen their understanding of their respective areas of expertise. This program is dedicated to fostering advanced mastery of research methodologies, research work, and academic writing and publishing.

Over a span of four years, students engage in rigorous academic pursuits, conducting groundbreaking research and contributing to the advancement of psychological knowledge. Graduates of this program are awarded the esteemed degree title Dr. (Doktor).
