**TOOLS YOU CAN TRUST**

**TOOL  
CATALOGUE  
2025**

# WHO ARE WE?

At Vaunt, we know what tradespeople have come to expect when it comes to the tools they use, and with over 100 years of combined tool experience ourselves, we know we can deliver just that. Working closely with our customers, we continue to develop a range of products that showcases our passion in providing the best user experience and exceptional quality standards to satisfy every trades person's needs.

Our Research & Development teams around the world are continuously pushing the boundaries of product innovation to enhance our range and ensure we are providing you professional tools at affordable prices!

## OVER 150 NEW PRODUCTS ADDED!

Look out for the NEW icon on all our new products scattered throughout the catalogue!

### PROFESSIONAL TOOLS AT AFFORDABLE PRICES!

Our wide range of professional quality tools, designed for professional work site environments. We provide an extensive range of products, so whether you need large site equipment, or a durable drill bit, we've got you covered. Utilising our years of hands-on experience using tools and accessories, we have sourced and developed a range of tools ideal for the professional tradesperson no matter the job.

### PREMIUM TOOLS FOR EXTREME PERFORMANCE AND ENDURANCE!

Our premium range of professional quality tools for ultimate durability and longevity. Designed and manufactured using industry leading techniques with the highest quality materials, this selection of elite products will provide you with exceptional results in any situation.

CHECK OUT OUR PREMIUM  
VAUNT X PRODUCTS  
THROUGHOUT THE CATALOGUE!

### EVERYDAY ESSENTIAL TOOLS YOU ALWAYS NEED!

A range of essential tools you will always need throughout the day. This helpful selection of tools are our 'toolbag vitals', that are ideal backup solutions for if your first choice tool breaks or goes missing and need a substitute that doesn't break the bank! Also ideal for those starting out in the trade or for kitting out the apprentice!

CHECK OUT OUR RANGE  
OF ESSENTIALS ON  
PAGES 77-79!

## LOOK OUT FOR SOME OF OUR SPECIAL FEATURES:

Manufactured to be durable, providing longer lasting life than standard equivalents

Our 1/4" hex shank allows you to quickly switch from chuck to impact driver to holder with ease and speed

Designed to be strong and tough. Built using high quality materials to offer exceptional performance in the harshest environments

# WHY VAUNT?

## WE DEVELOP

With our product team offering over 100 years of combined construction industry experience, we know what tradespeople come to expect with their tools and we strive to deliver just that. Using our breadth of knowledge, we ensure our product ranges provide the quality and reliability expected in the professional environment.

## WE UNDERSTAND

Alongside our product development team, our marketing & sales team offer their own 100 years and more worth of combined experience within the professional tool market! Our team can build a product selection and service to suit all retailer needs, from an extensive range with in-depth stock and order management to a simple highlight range with ad hoc service.

## WE PROVIDE

Vaunts core values are to always provide affordable, professional quality tools you can trust, and we extend that ethos through to our services as well. We provide exceptional service from beginning to end, supporting our retailers, whether in the form of product enquiries, sales & delivery advice, aftersales care, or in the form of marketing support, such as retail POS, online content or even help with your Amazon listings! Our staff are fully trained in all areas of our products and industry, and we are ready to support you today!

# OUR ETHOS:

## NO SINGLE USE PLASTIC

We are designing & developing our packaging to remove all single use plastic and replacing with environmentally sustainable options!

## PAPERLESS OFFICES

In this digital age we use processes and software to remove the need to print, even in our design and packaging departments!

## SUSTAINABLE SOURCES

We check our products are made from sustainable and ethically sourced materials, and using environmentally friendly processes.

## LEGAL LABOUR

We investigate and check all aspects of our supply chain conform to our ethical standards, ensuring a legal workforce, ethical practises & safe working environments.

## COMMUNITY SUPPORT

We regularly participate in local and national community events, also supporting trade charities and individuals alike.

## Angled Framing Nails

\*50mm, 63mm & 75mm - Ringed Shank  
90mm - Smooth Shank

- Electro-galvanised for rust prevention
- Clipped D-head for optimal loading
- 'Diamond' shaped point for maximum penetration
- Ring shank for a secure hold (50mm - 75mm)
- Smooth shank for easy drive with minimal force (90mm)
- Strong Q235 carbon steel
- 'Dipped' ends to protect the coating when being fired into the material
- Suitable for most angled framing guns
- 34° angle allows access to hard to reach places

## HSS M2 Drill Bits

135° split point tip for quick, accurate drilling and clean finish

Self-centering tip ensures an accurate start

Black and gold oxide coating for maximum corrosion resistance and to prevent burs

Coating reduces friction, resulting in less battery drain when used in cordless drills

Fully ground metal construction for extra strength and durability

High quality M2 grade HSS (high speed steel)

Specially ground tri shanks (over 3mm) ensure the bit will not slip in the chuck

- Suitable for woods and plastics, ideal for alloy steel, carbon steel, cast iron and most non-ferrous metals
- Available in various lengths and sizes
- Conforms to DIN338

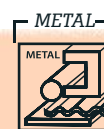

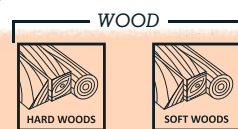

**25%**  
SHARPER FOR LONGER

Durable M2 steel body and tip ensures the bit will stay sharper for approximately 25% longer than standard HSS bits

**MAXI**life

Greater performance drilling metal compared to standard HSS bits

## Flat Drill Bits

- Fully hardened, precision ground carbon steel point and shoulders give a superior clean cut
- Ground power chip breaker and tip help to reduce splintering and remove debris to give a faster, cleaner hole, while reducing heat build up and friction which increases the overall lifetime of the bit
- 1/4" hex shank for use in impact drivers and for a more secure hold in a chuck
- Ideal for drilling softwood, hardwood, chipboard, plasterboard and plastics
- For use with drills, drivers and hand braces

## 4 Flute Auger Drill Bits

- Four flute design for faster, cleaner drilling through rapid chip ejection
- Premium quality carbon steel construction prevents bit cracking and extends life
- Four cutting tips and screw point allows bit to self feed for greater accuracy
- 1/4" hex shank for quick change into drills and impact drivers
- Ideal for most wood types

## Quick Change Holesaw Arbor Sets **NEW**

- Increases productivity
- Durable steel construction
- Strong thread connection

- Step 1** - Attach the applicable adaptors onto the required holesaws (check sizes)
- Step 2** - Insert the arbor into your drill
- Step 3** - Simply connect & disconnect each holesaw to the arbor via the quick change system!

### 1/2" Adaptor Set

5 x 1/2" Adaptors  
fits 14mm - 30mm Hoesaws

CODE	BARCODE

1x 10mm Nut Setter  
1x 12mm Nut Setter  
1x 1/4" Square Drive  
1x 3/8" Square Drive  
1x 1/2" Square Drive  
1x storage case

- Interchangeable 1/4" hex shaft
- Robust and durable construction
- Magnetic head nut setters
- Square drive with secure locking head
- Supplied in a canvas case for protection and organisation

CODE BARCODE

V1328000 5055284450473

## 5 Piece Countersink Drill Set

### CONTENTS

1x 2.0mm  
1x 2.5mm  
1x 2.75mm  
1x 3.25mm  
1x 3.5mm  
1x Hex Key  
1x Storage Case

- Heat-treated steel
- Replaceable HSS pilot drill bits
- Depth adjustable for different length screws
- Can produce counter bore holes for wood plugs
- 1/4" hex shank
- Canvas wallet for protection and storage

CODE BARCODE

V1318001 5055284467952

## NEW 5 Piece TCT Countersink Drill Set

### CONTENTS

1x 2.0mm (No. 5)  
1x 2.5mm (No. 6)  
1x 2.75mm (No. 8)  
1x 3.25mm (No. 10)  
1x 3.5mm (No. 12)  
1x Hex Key  
1x Storage Case

- Tungsten carbide drills bits for increased durability and longevity
- Can produce a counter bore hole for wood plugs
- Hex shank design prevents slipping
- Replaceable drill bit can be adjusted
- Ideal for hard woods & laminates

CODE BARCODE

X1318001 5055284489596

## Keyring 1/4" Hex Holder

- Quick, convenient access to your bits
- Holds any standard 1/4" hex shank bit

CODE BARCODE

V1307015 5055284468423

## Locking Carabiner

- Quick clip allows for easy attachment and removal
- Attach to any loop, including belts, backpacks and tool bags
- Screw lock provides a secure hold and prevents clip from opening

# TCT CIRCULAR SAW BLADES

## FINDING THE RIGHT CUT:

### COARSE CUT

Fewer teeth in relation to the diameter.

Designed to cut fast, particularly rip cutting. Leaves a rougher finish, ideal for first fix work.

### MEDIUM CUT

General use blade.

Designed to cut relatively fast with an finer finish.

Requires a little more tidying if on show.

### FINE CUT

More teeth in relation to the diameter.

Provides a slightly slower cutting speed. Produces a great finish for materials on show.

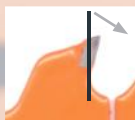

### EXTRA FINE CUT

Even more teeth in relation to the diameter. For precise and clean cuts. Produces a smooth finish ideal for delicate materials like laminates.

## TOOTH PITCH:

### POSITIVE PITCH

The higher the angle the more aggressive the cut, which pulls the blade into the material faster, positive rake blades are used for wood cutting and the greater the angle the rougher the finish

### NEGATIVE PITCH

The least aggressive blade with a gradual tooth feed, generally used on aluminium cutting blades and mitre saw blades as they reduce material pick up and snatching

ALWAYS ENSURE YOU ARE USING THE CORRECT PITCH FOR YOUR SAW TO PREVENT KICKBACKS AND KEEP YOU SAFE

PITCH SHOWN AS (P) = POSITIVE & (N) = NEGATIVE NEXT TO TEETH

- High quality long lasting tungsten carbide teeth —
- Superb performance and durability —
- Laser-cut slits reduce noise and vibration, ensuring professional cuts —
- Manufactured under the highest standards and latest safety compliance —

## SPECIALISED FOR ALUMINIUM CUTTING

Each sequential tooth cuts a different part of the metal:  
Left Corner > Centre > Right Corner > Centre (etc.)  
This ensures the metal is cut accurately, cleanly  
and without heat build up or snagging.

### TRADE TIP

**DID YOU KNOW ALUMINIUM CUTTING BLADES ARE ALSO AN IDEAL SUBSTITUTE FOR CUTTING LAMINATE AND VENEER WOOD?!**

Due to the triple tooth configuration, the cutting technique is ideal for sensitive wood materials if you find yourself without a specialised blade to hand!

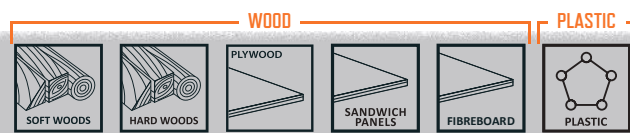

# CIRCULAR SAW BLADES

## Premium - Circular Saw Blades

- Oversized teeth stay sharper for longer, also allowing blades to be resharpened for longer
- Robust, precisely engineered teeth for clean cuts
- Vibration dampening slots reduce blade wobble, which increases accuracy
- Strong plate for increased durability
- Low friction coating eliminates drag and burn

CODE	BARCODE	SIZE	BORE	KERF	TEETH	CUT

X1310006	5055284449774	305mm	30mm	2.4mm	96	fine

## Multi-Purpose - Circular Saw Blades

- Reinforced tooth bed for tough materials
- Durable carbide teeth
- Uniquely designed tooth and blade geometry help to resist impact damage and breakage and allows the blade to cut a variety of materials that a standard saw blade could not, from wood to aluminium to sheet steel!
- Strong plate for increased durability
- Low friction coating eliminates drag and burn

CODE	BARCODE	SIZE	BORE	KERF	TEETH

X1310015	5055284449712	305mm	30mm	2.2mm	80

## First Fix - Circular Saw Blades

- Unique carbide teeth provide clean cuts and exceptionally long life in heavy duty applications, like cutting wood with hidden nails
- Alternative Top Bevel with Innovative Point-Tip tooth design for extreme cutting efficiency and tracking control
- Non-stick coating reduces friction, reducing heat build up

Lasts 6x longer when cutting wood with nails than conventional saw blades

## Plunge Saw - Circular Saw Blades

Ideal for use with Festool TS55/TSC55, Mafell MT55C, Scheppach PL55 & more!

- High quality tungsten carbide teeth for increased durability
- Neutral rake and thinner kerf specialised for plunge saws
- Blade geometry designed to reduce noise and vibration which allows the blade to produce minimal chippage and breakout

WOOD							PLASTIC

## Thin Kerf - Circular Saw Blades

- High quality tungsten carbide teeth for increased durability
- Thinner plate and teeth allow for a more accurate and clean cut
- The overall thin nature of the blade reduces the drag and friction of the blade which in turn will increase the battery life of cordless saws

## PCD - Circular Saw Blades

- Will cut a range of ultra hard materials such as fibrecement board, composite decking, reinforced polymer, glass reinforced plastic and more!
- Extra hard polycrystalline diamond tipped blade
- PCD by design produce less dust than a standard TCT blade
- Lasts up to 30 times longer than standard TCT

WOOD							COMPOSITES		PLASTIC	
CODE	BARCODE	SIZE	BORE	KERF	TEETH					
X1310040	5055284456086	160mm	20mm	1.8mm	4					
X1310041	5055284456093	165mm	20mm	1.8mm	4					
X1310042	5055284456109	184mm	20mm	1.8mm	4					
X1310043	5055284456116	190mm	30mm	2.4mm	6					
X1310044	5055284456123	216mm	30mm	2.4mm	6					
X1310046	5055284458080	250mm	30mm	2.4mm	6					
X1310048	5055284458103	305mm	30mm	2.4mm	8					

NOTE – PCD blades should not be set more than 1mm below the bottom of the material, this will end up weakening the tooth and eventually detaching it from the blade

## Aluminium Clamp Guide

- Integrated quick-release lever for rapid locking/unlocking
- One-handed sliding lock for easy use
- For guiding straight cuts when sawing and routing

CODE	BARCODE	LENGTH
V1340000	5055284409198	600mm
V1340001	5055284409204	1270mm

V1340001  
will clamp  
4ft boards

## Premium Heavy Duty Aluminium Clamp Guide

- Extra wide 70mm body, that is 15mm thick to ensure stability, prevents twisting and bowing and to eliminate slipping while cutting
- Ideal for use with circular saws, jigsaws, routers and plunge saws
- Ensures a straight edge without the need for additional clamps
- Easy to adjust clamp pressures using simple handles before firmly locking into place
- Low profile, smooth clamp surface for uninterrupted use
- Single handed clamp action (once positioned)
- Strong 1200N clamping force

CODE	BARCODE	LENGTH

4ft boards

## Jigsaw Blades

Durable & reliable jigsaw blades with universal T-shank fitting, making these suitable for most jigsaws.

**T144D** Coarse Cutting For Wood  
Ideal for a fast straight cut through wood

**T101B** Fine Cutting For Wood & Plastic  
Ideal for a clean straight cut through wood

**T101AO** Curve Cutting For Wood  
Ideal for a clean curved cut in wood with a narrow blade

**T101BR** Fine Down Cutting For Worktops & Laminates  
Ideal for clean straight cuts in wood and laminate due to downward facing teeth

**T118A** Fine Cutting For Metal  
Ideal for cutting sheet metals

**T144DP** Precision Cutting For Wood  
Ideal for fast precision straight cuts in wood

**T234X** Progressive Fast Cutting For Wood  
Ideal for varying wood thickness and density, including plunge tip feature

**T344D** Deep Cutting For Wood  
Ideal for fast straight cuts in wood with an extra long blade

## Demolition Blades

Our demolition blades are made with 8% cobalt, making them incredibly tough and durable compared to standard recip blades!

Demolition recip blades are designed and strengthened to cut through the most extreme materials, often used by fire & rescue services in extreme scenarios.

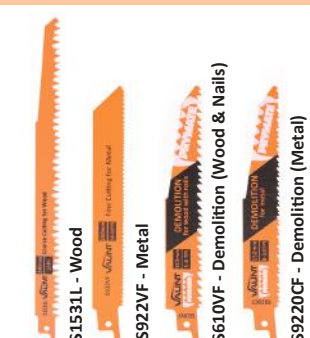

Tooth design optimised for soft & hard wood along with nail embedded wood

Tooth design optimised for general metals, sheet & profile metals

## HAVE YOU TRIED MESH SANDING?

### Ceramic Sanding Discs

**MAXIlife** Anti-clog open net structure for almost dust free sanding when used with an extractor for increased productivity and longevity

- Ideal for the most demanding of sanding jobs
- Extra tough and durable ceramic sanding mesh
- Smooth finish, even on tough surfaces like metal
- Secure attachment to hook & loop surfaces
- Fits 125mm Random Orbit Sanders
- No need to line up extraction holes
- Rinse, dry and re-use

**NEW**

### Maximise Performance with Ceramic Sanding

All the benefits of Mesh Sanding but with faster material removal and a smoother finish! Designed for durability, the extra tough ceramic grain reduces wear, ensuring longer-lasting performance. Perfect for heavy-duty jobs, these discs enhance productivity and deliver exceptional results with every use.

### Ceramic Sanding Rolls

**MAXIlife** Anti-clog open net structure for almost dust free sanding when used with an extractor for increased productivity and longevity

- Ideal for the most demanding of sanding jobs
- Ideal for hand sanding or cut to size for most orbital sanders
- Smooth finish, even on tough surfaces like metal
- Secure attachment to hook & loop surfaces
- No need to line up extraction holes
- Rinse, dry and re-use

**NEW**

## Unrivalled efficiency compared to traditional paperback sanding sheets!

With perforation throughout the area, it makes them compatible with all sanders and results in more dust collection when used with an extractor. The mesh construction reduces clogging and can be washed clean to use again and again!

### Sanding Disc

## Sanding Discs

Available in 125mm (5") & 150mm (6") sizes across various grits & pack size options (see table).

**MAXI**life

Anti-clog open net structure for almost dust free sanding when used with an extractor for increased productivity and longevity

- Rinse, dry and re-use
- Extra tough and durable sanding mesh
- Exceptionally high performance
- Secure attachment to hook & loop surfaces
- Suitable for circular saw and random orbit sanders with hook and loop fitting
- No need to line up extraction holes

## Sanding Rolls

**MAXI**life

Anti-clog open net structure for almost dust free sanding when used with an extractor for increased productivity and longevity

- Rinse, dry and re-use
- Extra tough and durable sanding mesh

## SANDING DISCS

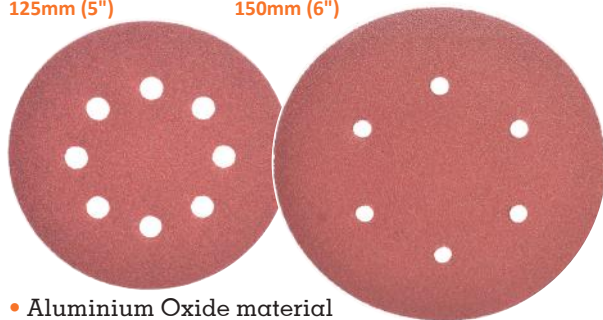

IDEAL  
FOR

## Red Oxide Sanding Discs

Available in 125mm (5") & 150mm (6") sizes across various grits & pack size options (see table).

125mm (5")

150mm (6")

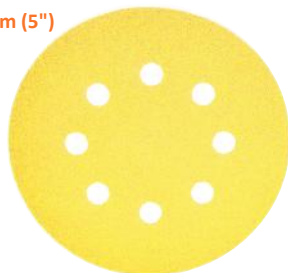

- Aluminium Oxide material
- Strong tear resistance
- Hard wearing longevity
- Easy attach hook and loop backing
- Punched holes for dust extraction

## Yellow Oxide Sanding Discs

Available in 125mm (5") size across various grits & pack size options (see table).

125mm (5")

- Aluminium Oxide material
- Heavy duty backing for increased tear resistance
- Strong bonding agent
- Hard wearing longevity
- Easy attach hook and loop backing
- Punched holes for dust extraction

# SANDING

## 115mm Wide Sanding Roll

- Aluminium Oxide material
- Strong tear resistance
- Ideal for power and hand sanding
- Fits 1/2", 1/3" and 1/4" sheet sanders and are easily cut down to fit as required

## 100mm Wide Sanding Belt

- Aluminium Oxide material
- Strong tear resistance
- Designed for powered belt sanders

## Delta Sanding Sheets

- Aluminium Oxide material
- Strong tear resistance
- Designed to fit 93mm delta sanders
- Easy attach hook and loop backing
- Punched holes for dust extraction

## WHAT GRIT DO I NEED?

# DIAMOND BLADES

## General Purpose Turbo Diamond Blade

- General purpose trade diamond blade
- Perfect for wet and dry cutting
- 7mm continuous rim edge enables fast cutting
- Provides a quality finish
- Best with low-density material
- Cooling holes reduce heat build up

X1312017	5055284456208	230mm	22.2mm

## Mortar Raking Blade

- 7mm segment height for increased lifespan
- Removes mortar without damaging masonry
- Key hole gullets to aid stock removal and clear debris from the surface
- Tougher standard for longer life
- Perfect for wet or dry cutting

CODE	BARCODE	SIZE	BORE
X1312027	5055284450572	115mm	22.2mm

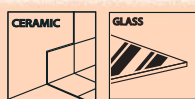

## VAUNT Tile & Glass Cross Tip Drill Bits

Tapered point distributes pressure for cleaner holes without chipping or breaking

4 point 'cross-tipped' head provides quicker, smoother cutting action

- Suitable for both wet and dry drilling
- Designed for use at low speed with no impact setting
- Ideal for delicate materials

### 6 Piece Tile & Glass Drill Bit Set

# SDS+ DRILL BITS

## SDS+ Drill Bits

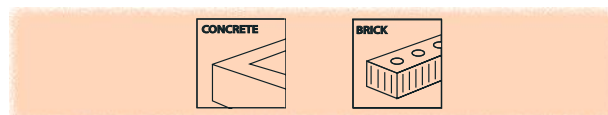

### WHY CHOOSE TO USE SDS+ DRILL BITS?

Ideal for heavy duty, high impact SDS+ machines with secure shank connection, specialised bits for drilling hard materials such as brick, stone and concrete!

- Designed for endurance and durability
- Ideal for drilling into hard materials

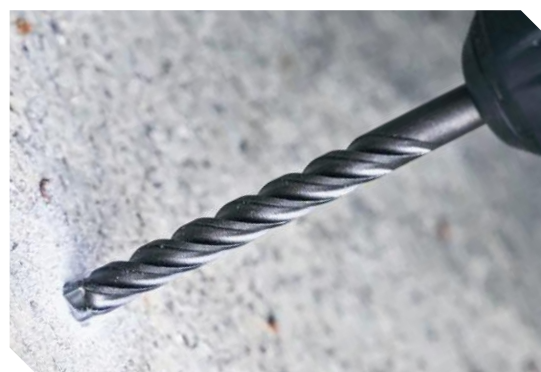

CODE	BARCODE	QTY	Ø	LENGTH
V1329020	5055284454280	1	5.0mm	160mm
V1329021	5055284454297	1	5.5mm	160mm

**50% LONGER LIFE\***  
up to 50% longer use life than traditional drill bits

- Engineered to minimize jamming and breakage for smooth drilling and optimal results
- Full carbide head tip offers superior cutting performance and longevity
- Ideal for hammer drilling in super hard materials such as reinforced concrete

## SDS+ Endurance Cross Tip Drill Bits

- Designed for endurance and durability
- Ideal for drilling into extra hard materials

Self-centring tip for easy, clean drill starts

4 way TCT 'cross-tip' tips are more efficient and hard-wearing

U-shaped flute design for quick and efficient debris removal

Hardened steel body reduces breakages

Premium steel core increases the lifespan compared to standard SDS+ bits

- Extremely robust and wear resistant
- Sharp cutting tip for efficient drilling through various materials by rotation
- Avoids loosening brick or mortar, ensuring clean and precise drilling
- Reduced risk of damaging the substrate
- 1/4" hex shank for quick and secure fastening

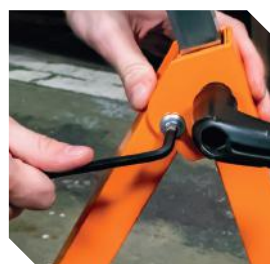

**no hammer required  
ROTARY ONLY**

## 9 Piece Metric Ball End Diamond Tipped Hex Key Set

- Diamond coated tips for superior grip, reducing cam-outs and effort
- Ball shaped ends provides good connection in any position or angle with diamond coating that bites slightly into the bolt
- Hex shaped ends provides perfect fit and productivity
- Strong S2 carbon steel material with rust resistant coating
- Sturdy, easy access storage case with storage clip provides quick access, while keeping them all together

Hex

## Prybars

Premium quality, drop forged hardened and tempered construction pry bars, in a range of styles and sizes. Each including integrated nail pullers and angled necks for increased leverage power, all protected with a weather resistant coating.

### Utility Bar

- Lightweight design whilst still offering high leverage
- Multi-functional and suitable for a range of light prying
- Ideal to use in tight areas
- Perfect to lift floorboards and open crates and boxes

CODE	BARCODE	SIZE
X1433000	5055284451043	7"
X1433001	5055284451050	15"

## 3/8" Anti-Slip Impact Socket Sets

- Strong CrMo material for durability and stability while working
- Matt black phosphate finish for corrosion and wear resistance
- Hex design offers better grip on fasteners and prevents rounding even in high torque
- Internal grooves prevent slipping
- Easy size identification with laser markings on each socket
- Convenient socket rail keeps sockets organised and secure
- The longer length means the socket can reach lug nuts and bolts that standard sockets are unable to reach

**NEW**

## 1000mm Parallel Jaw Bar Clamps

See sets below

- Powerful precise clamping with an anti-slip system ensuring the jaws will not slip on the bar and slide backward
- Large contact surface allows for a multitude of different clamping variations
- Equally distributed clamping forces with soft, non-marking pads protect from damage and marking
- Working supports on the bar allow for the clamp to stand upright unaided as well as allowing for the workpiece to be kept out of contact with the bars
- The 29mm wide C45 hardened steel rail prevents the clamp from bending or flexing under load
- Ergonomic, comfort grip handles
- Easily converts to a spreader

Clamping Capacity	1000mm
Spreading Capacity	1212mm
Clamping Force	5880Nm
Throat Depth	90mm
Rail Thickness	9mm
Rail Width	29mm
Maximum Spread	1212mm

## 200mm Screw F Clamps

See sets below

- Perfect for smaller applications
- Strong construction and powerful clamping pressure allows for use with heavy duty wood working
- The serrated bar, constructed from C45 hardened steel, allows for higher clamping force and gives extra grip, ensuring that the jaws will not slip or slide backwards
- Featuring a tilting jaw to allow for gripping to tapered or slightly angled workpieces
- Soft, non-marking pads to prevent marking or damage to the clamped material of work
- Ergonomic, comfort grip handles

Clamping Capacity	200mm
Clamping Force	2646Nm
Throat Depth	80mm
Rail Thickness	6mm
Rail Width	22mm

## 11-in-1 Multi Tool Plier

- Perfect for odd jobs around the home and work

### TOOLS

- 1x Long Nose Plier (doubles as curved jaw plier and wire cutter)
- 3x Flat Screwdriver Sizes
- 1x PH Screwdriver Sizes
- 2x File Directions
- 1x Knife
- 1x Saw
- 1x Ruler
- 1x Can Opener
- 1x Bottle Opener
- 1x Fish scaler
- 1x Hook Remover

CODE	BARCODE
V1427000	5055284455829

## 3 Piece Plier Set

**NEW**

- Constructed from strong CR-V steel using drop-forging technique
- Heat treated surface that enhances toughness, hardness and durability
- Extra wide TPR handles provide comfortable, non-slip grip
- Optimised pivot positioning enables better leverage and cutting power, requiring 30% less effort compared to regular pliers for experience efficient and effortless cutting with every use
- Ideal for a range of applications including cutting, pulling and general repairs

7" Diagonal Cutting Pliers

- Ideal for cutting in awkward positions

8" Long Nose Pliers

- Precision gripping and bending

8" Combination Pliers

- Ideal for gripping, bending or cutting

## Copper Pipe Cutters

**NEW**

- HSS (High Speed Steel) blade maintains sharpness for long-lasting performance
- Zinc pressure die cast body for heavy duty construction
- Slim-line body design allows for use in tight spaces, providing versatility
- Textured edge for increased grip makes twisting easy & comfortable
- Direction identifier for straightforward use
- Effortless, accurate pipe cutting
- Cuts through copper pipes with ease

## Plastic Pipe Cutters

**NEW**

- Cuts most PVC plastic pipes up to 42mm outside diameter cutting capacity
- Strong and sharp SK5 steel blade for clean and accurate cuts
- Blade surface coated with PTFE (Teflon) to prevent rust and wear
- Spring loaded, one-handed operation makes pipe cutting simple
- Locking hatch keeps blade protected whilst in storage or not in use
- Ratchet design increases work efficiency by enhancing the bite force whilst ensuring safety
- Non-slip TPR grip for comfortable use

## 600mm Manual Tile cutter with Laser Guide

**NEW**

- For parallel and angled cuts
- 200mm aluminum alloy gauge
- Replaceable bearing cutting blades (22 x 6 x 6mm)
- Can support up to 1200mm length tiles
- Side extension bars to support large tiles
- Cuts up to a 24 inch (600mm) tile and up to 12mm thick
- Robust 1.8mm steel base provides excellent support and durability
- Built in laser guide for cutting assistance
- Perfect for both professionals and DIY enthusiasts

CODE	BARCODE
V1457000	5055284492404

## Pump Action Suction Lifter

**NEW**

- Diameter of suction cup 8" / 210mm
- Integrated pressure gauge
- Ideal for large porcelain or stone tiles and glass and slightly textured surfaces

**150KG**  
MAX WEIGHT  
CAPACITY

CODE	BARCODE
V1458000	5055284492411

## Heavy Duty Sealant Gun

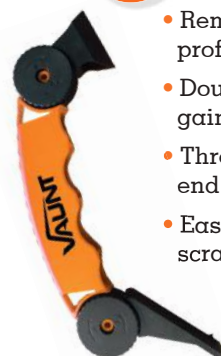

- Hook end and swivel action barrel
- Concealed pin inside handle to unblock nozzles
- Takes 310ml and 410ml carts
- Smooth squeeze action
- Extra pull trigger

CODE	BARCODE
V1205000	5055284409297

**NEW**

## Sealant Stripper

- Removes sealant in a range of profiles, thicknesses and angles
- Double ended with two different shapes to gain better access under stubborn sealant
- Three adjustable angles on each end provides a range of positions
- Easy turn thumb screws hold the scraper ends securely in place

CODE	BARCODE
V1205006	5055284490547

## 8 Piece Caulk &amp; Silicone Tool Set

- Durable ABS plastic
- Produces multiple profile and size finishes
- Ideal for use in small or large areas
- Convenient washable net storage bag
- Everything you need for scraping, smoothing and removing silicone, caulking and grout
- Easy to clean using a damp cloth

CODE	BARCODE
V1205005	5055284475599

**CONTENTS**

1x Caulking Scraper designed for both forward and backward use when removing old sealant  
 1x Caulk Tip Applicator applies and smooths caulk in one easy step  
 1x Dual Applicator smooths caulk in narrow or wide joints for the ideal finish  
 1x Caulk & Silicon Remover to remove caulk and silicon from inside and outside corners  
 4x Grout Scrapers/Finishers 4 different shaped tools that are useful for the smoothing and sealing of caulking and sealant lines for any edge, corners and joints. Saves on wasted sealant without the need for masking tape

# LASER LEVELS

## Green Cross Line Laser

UK  
CA CE

### CONTENTS

1x Green Cross Line Laser  
1x L-Shape Magnetic Bracket  
1x Padded Carry Bag

CODE	BARCODE
V1503005	5055284467891

- Control vertical and horizontal lines independently at the push of a button
- Strong and durable casing protects from knocks
- Pendulum lock protects the internal electronics, ensuring safe transport and reliable projection
- L-Shape strong magnetic bracket for stability also features hanging holes for non metallic surfaces
- Hard-wearing, secure bag with dense foam insert for safe and protected storage during transit
- Compact size and lightweight for easy portability
- Requires 3x AA batteries (not included)

Laser Type	Green 520nm
Laser Class	Class 2
Visibility	20m
Accuracy per 10m	+/- 3mm
Protection	IP54
Self levelling	3 degrees

## Green Multi Line Laser

UK  
CA CE

### CONTENTS

1x Multi Line Laser  
1x L-Shape Magnetic Bracket  
2x Rechargeable Batteries  
1x Battery Charger  
1x USB Charging Cable  
1x Durable Carry Case

CODE	BARCODE
V1503006	5055284467907

- Multiple lines can be switched on or off for various layout requirements
- Strong and durable casing protects from knock
- Pendulum lock protects the internal electronics, ensuring safe transport and reliable projection
- Heavy-duty L-Shape adjustable bracket with interchangeable 1/4" and 5/8" connectors
- Bracket offers flexible angle adjustment with top or bottom laser mounting and can also be mounted to a tripod
- Bracket features extended length for extra support with screw holes for hanging and strong rare earth magnets holding up to 10lbs
- Hard-wearing, secure bag with dense foam insert for safe and protected storage during transit
- Compact size and lightweight for easy portability
- Rechargeable (2x batteries, charger and USB cable included)

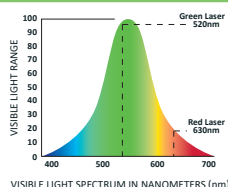

Laser Type	Green 520nm
Laser Class	Class 2
Visibility	20m
Accuracy per 10m	+/- 2mm
Protection	IP54
Self levelling	3 degrees

## WHY GREEN LIGHT?

Green lasers are visible in a much wider range of lightings than red lasers, allowing for more accurate and precise work

## Red Laser Distance Measure with Scroll Wheel

Laser Type	Red 630-670nm
Laser Class	Class 2
Distance Range	0.2m-40m
Accuracy per 10m	+/- 3mm
Measuring Units	m/ft/in
Auto Laser Off	30 secs
Auto Switch Off	180 secs
Memory	20
Protection	IP65
Charging	USB C

✓ DISTANCE MEASURING

✓ CURVE MEASURING

- Scroll wheel allows for curved measuring
- Easy to use simple 3 button design
- White on black display for better visibility
- Compact design for easy transportation
- Internal rechargeable battery (cable included)
- Durable pouch with belt loop for protection and portability

CODE	BARCODE
V1501005	5055284467914

## Vacuum Mounting Dust Collector & Laser Level Bracket

- Perfect for use on surfaces without the worry of marking (No need to mount with fixings or magnets)
- Powerful base unit suctions effortlessly against a variety of indoor, non-textured surfaces, including glass or metal
- Rechargeable battery with up to a 5 hour battery life (may vary due to surface texture & holding weight)
- Hefty 5kg maximum holding weight (battery decreases with increased weight)
- Audible low battery indicator and LED battery display to ensure it never falls without warning, protecting your product
- Unit projects a laser for use as a straight guide
- Use the integrated horizontal and vertical bubble levels to get a straight and level line to easily hang pictures, mirrors and level cupboards, worktops etc.
- Woven bag to keep items together

### Laser Level Bracket Attachment

- Bracket with 1/4" screw thread included, ideal for mounting lasers, cameras and more
- 5/8" adaptor included to fit more attachments

### Dust Collector Attachment

- Dust falls into dust collecting bin, allowing mess free drilling and easy clean up
- Dust collector attachment allows up to a 16mm drill bit to pass through, ideal for most projects and jobs

## Digital Wall Scanner

- Ideal for finding elements behind walls without making inspection holes
- Highlights the centre of detected target and depth of target
- Portable and fits nicely within your hand
- Anti-shock casing protects the internal instruments when knocked
- Sturdy carry case
- Light & sound indicators
- Battery level indicator

## Wet &amp; Dry 20L Dust Extractor

- Wet and dry 20 litre capacity tank
- H13 HEPA filter with cotton and sponge filter (for water) offer a high particle capture to limit exposure to harmful dust
- Powerful full copper 1200W motor delivers ample suction power
- Stainless steel barrel body with quick release locking latches
- Quiet 76db motor for minimal disruption whilst vacuuming
- Large stable wheel base with 4x 360° castors for effortless transportation and manoeuvrability without it tipping over
- Easy drainage with bottom emptying port for liquids
- Easy on board tool and cable storage for simple organisation
- 4.5m extra long reach power cable
- 1.5m hose with hose lock to stop it being pulled out the unit
- Durable, extending metal floor attachment with multi-head setting
- Includes brush and crevice nozzle attachments
- Ideal for home and work

CODE	BARCODE
V0648000	5055284483419

## FEATURE HIGHLIGHTS

- Filter tap function taps the filter to unclog it of debris using a simple lever outside the unit, keeping the filter clear and maintaining suction and efficiency without having to open the drum which would re-release dust particles into the air and compromise your safety.
- Blower function with on/off switch
- 240V power take off simultaneously provides power to your tool up to 2000W

## CONTENTS

- 1x Vaunt Dust Extractor
- 1x 1.5m Hose Assembly
- 1x Metal Telescopic Tube
- 1x Advanced Floor Brush
- 1x Crevice Nozzle
- 1x Round Brush
- 1x H13 HEPA Filter
- 1x Cotton Filter
- 1x Sponge Filter (wet)

Why not add?  
Stepped Dust  
Extractor Adaptor

## 1600W Paddle Mixer

NEW

- 2 mode professional mixer (low/high)
- Ideal for plaster, cement & paint
- Durable, double insulated 1600W motor
- Anti-lock switch function
- Dual ergonomic soft grip handles
- Handy trigger control on handle
- 6 speed settings within each mode
- Strong 140mm steel paddle

Max No load speed (low)	500rpm/min
Max No load speed (high)	800rpm/min
Diameter	140mm
Shank Connection	M14
Rated Voltage	220V- 240V/50Hz
Power Input	1600W

CODE	BARCODE
V0631002	5055284492510

## 2000W Electric Fan Heater

NEW

- Two heat power settings - 1000W (half) or 2000W (full)
- Fan setting (heater off)
- Adjustable speed control
- Steel base - robust and stable stand
- Carry handle
- Easy to manoeuvre compact size
- Overheat protection with auto reset

CODE	BARCODE
V1713000	5055284492503

## High-Velocity Drum Fan

- Ideal site solution for regulating area temperature & increasing air displacement
- Heavy-duty all-metal construction
- Tough wheels for easy transportation

Size	24"	36"	42"	48"
Fan Blades	3	3	4	4
Motor	250W	380W	660W	660W
Air moved m <sup>3</sup> /hr	12,000	27,600	28,800	30,600

## Dehumidifier

- Dehumidifier removes moisture from the air, helping to dry rooms quickly and reduce the chance of mould growth
- Ideal for speeding up plaster and paint drying
- Programmable timer up to 24 hours
- Fan with 2 speed settings
- Minimal working noise to ensure minimal disruption when in use
- Ideal for use on site and at home
- R290 with GWP value 3 which is F-gas quote free
- Premium dehumidifier removes 0.8L of moisture per hour
- Removes moisture from rooms as big as 430 square foot
- 6 litre removable water tank for easy water disposal
- 'Hidden' display shows current room humidity
- Practical wheels and recessed handle for easy transportation and manoeuvrability

CODE	BARCODE
V1714000	5055284483624

### FEATURE HIGHLIGHTS

Water tank full alarm with automatic shut off function

Power off memory function remembers previous settings as soon as power is back on

Laundry function heats air and uses highest fan setting to blow air upwards whilst simultaneously dehumidifying, ideal for drying work clothes

Automatic defrosting function stops the compressor automatically if it becomes too cold, continuing the fan until the temperature of the evaporator rises again

Child lock function locks settings with the press of a button to prevent children changing them

Continuous drain function when connected to a drain hose removes the need for frequent emptying

Ideal for drying out rooms and reducing the presence of dampness and prevent the growth of mould

## Air Conditioning Units

- Air Conditioner, Dehumidifier & Fan All In One
- Ideal for staying cool in the warm
- Designed for rooms 12-18m<sup>2</sup> - perfect for offices, homes and more
- Remote Controlled and able to be 'programmed' for a 24 hour cycle

- Air Con, Fan & dehumidify modes
- 12000 BTU Cooling Capacity with double mesh filter layers
- Designed for rooms 15-25m<sup>2</sup> with 3 speed settings
- Remote Controlled & able to be 'programmed' for a 24 cycle
- Features auto-swing, anti-frost, sleep mode & castor wheels

### CONTENTS

- 1x Main Unit
- 1x 1.5m Exhaust hose
- 1x Remote control
- 1x Sliding window kit
- 1x Housing adaptor
- 1x Window connector
- 1x Water hose pipe

# BOARD LIFTERS & SUPPORTS

## Drywall Carrier

- Heavy duty drywall cart with strong and sturdy welded steel structure
- All-steel frame is corrosion resistant and treated to prevent rust, offering long term use
- Ideal for transporting multiple sheets of material or material bags in one go, increasing work efficiency
- Holds up to a hefty 1000kg
- Large 6" caster wheels for complete 360 degree manoeuvrability, with brakes to secure the trolley when loading or off-loading
- Raised edge on footbed to prevent material sliding off, providing a secure journey
- Extra large, sloped footbed to prevent material tipping off over trolley for better balance when loaded
- Various gripping points on frame to ensure comfortable use
- Extended base bars to strap to other trolleys or assistant vehicles
- Frame easily disassembled for convenient storage and transport

CODE	BARCODE
V1704012	5055284486038

## Drywall Lifter

- Heavy duty board lifter with strong and sturdy welded steel structure
- Ideal for holding sheet material while fastening, allowing easy board application without the assistance of a second person
- Large 4" caster wheels for complete 360 degree manoeuvrability, with brakes for added security
- Triple foot base for enhanced stability and balance
- Effortless tilt between horizontal and vertical with extending arm support
- Support arms featuring non-marking rubber caps for slip resistant grip
- Easy to use pulley system with quick release brake
- Top part of frame rotates 360 degrees for perfect positioning
- Collapsing structure for convenient storage and transport

CODE	BARCODE	LIFT	HEIGHT
V1704004	5055284486014	1.42m - 3.35m	11ft
V1704005	5055284486021	1.9m - 4.86m	16ft

## Ratchet Straps

- Pack of 2 heavy duty ratchet straps
- Reinforced 4.5m by 25mm wide weather resistant strap
- 750kg breaking strain
- 400kg safe working load
- Easy to use, full metal, automatic locking latch
- Deep tooth ridges to ensure a secure hold
- Quick release spring loaded catch for fast unfastening
- Non-slip plastic coated handle for comfortable use
- Durable plastic coated S hooks for a secure, non-marking grip
- Conforms to EN12195-2

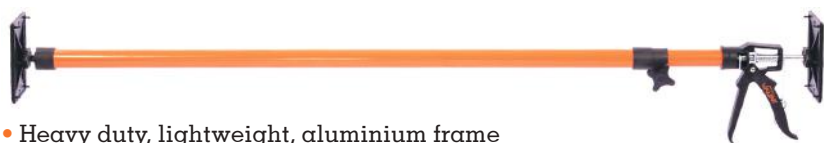

CODE	BARCODE
V1425020	5055284483570

## Telescopic Drywall Support

- Heavy duty, lightweight, aluminium frame
- One handed clamp operation for easy placement
- Non-slip rubberised foot plates
- Adjustment from 1140mm to 2895mm
- 30kg max load

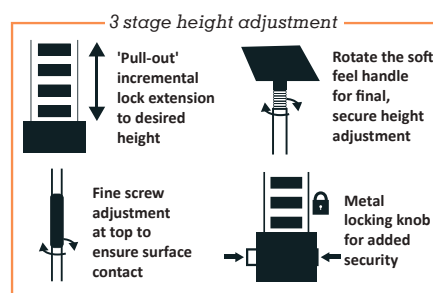

CODE	BARCODE	PCS
V1453000	5055284432059	Single
V1453001	5055284464739	Twin pack

## Heavy Duty Telescopic Drywall Support

- Specifically for drywall ceiling construction, as well as planks, battens, panel and more
- Supports weights above your head whilst working
- Adjustment from 1600mm - 2900mm
- Steel body for ultimate strength
- Strong and stable non-slip rubberised foot plates
- Foot plates can be angles +/- 45° to aid angles roof construction
- Quick release for speedy retracting and storage
- 60kg max load

CODE	BARCODE
V1453005	5055284475803

## Support Carry Bag

- Carry bag keeps props safe and protected
- Tear resistant canvas material with double stitching
- Handy shoulder strap
- Carries up to 2 supports measuring 2900mm long

## Folding Sack Truck

- One button telescopic handle with soft grip for easy opening and closing
- Foldaway base for easy storage
- Durable 7" PP+TPR wheels for smooth and stable movement on most terrain
- Strong and tough construction
- Maximum load capacity of 70kg
- Efficiently transports heavy items

CODE	BARCODE
V1704020	5055284477050

## Heavy Duty Folding Sack Truck

- Quick release telescopic frame allows opening and closing using the handle
- Foldaway solid base for sturdy support and easy storage
- Durable 10" rubber wheels with wheel guards for protection
- Strong and tough steel construction, resistant to corrosion and wear
- Maximum load capacity of 200kg
- Convenient tool for transporting heavy materials, large items or equipment

CODE	BARCODE
V1704021	5055284477074

## Heavy Duty 3-in-1 Sack Truck

- 3 different modes: sack truck, trolley and flatbed
- Extra long base for a stable, spacious platform
- A versatile and powerful tool for transporting heavy materials, large items or equipment
- Foldaway base for easy storage
- Durable 10" rubber wheels with guards for protection
- Strong and tough steel construction, resistant to corrosion
- Foldaway castor wheels' first action allows easy transformation between sack truck and trolley modes
- Foldaway castor wheels' second action allows easy transformation to a flatbed, for longer, heavier loads
- Maximum load capacity of 250kg

CODE	BARCODE
V1704026	5055284486120

## Heavy Duty 3 Wheeled Sack Truck

- A unique and innovative tool for transporting heavy materials, large or equipment up and down stairs
- Strong & tough steel construction, resistant to corrosion
- Extra long solid base for a stable platform for your loads
- Durable 6" rubber wheels with wheel guards for protection
- Foldaway base for easy storage
- Maximum load capacity of 250kg
- Triple rotating wheels allow you to go upstairs or on extreme terrain quickly

CODE	BARCODE
V1704029	5055284486137

## Metal Garden Carts

- A handy and practical tool for transporting heavy materials, rubble or equipment
- Strong, durable metal construction, built to withstand harsh weather and heavy loads
- Foldaway sides allow transformation into a flatbed for more extended items
- Durable rubber wheels withstand rough terrain
- Long ergonomic steering handle makes it easy to manoeuvre

**200KG**  
MAX LOAD

245 Litre model has adaptable handle, which can be changed to a tow, enabling it to be pulled by a vehicle
