

AdvanTec Global Innovations exists to enable our individual companies in the global marketplace. AdvanTec's measurable process, utilized within each of our companies, is a proven differentiator. It's our promise. We Deliver. That's who we are.

We're more than a family of companies. We are a collaboration of employees, ever evolving and infused with global resources. Our engineers have over 400 years collective experience and our expert craftsmen have an average loyalty of more than nine years at our manufacturing facilities.

## EXTENSIVE CAPABILITIES

- 90,000 (+) Sf under craneways
- 9 acres of yard space
- 35 ton and 115 ton mobile lift
- 5,000 ft<sup>2</sup> blast and paint booth
- Coating and lining of pipe and valves for above and below ground applications
- Barging transport available

All phases of production and manufacturing are carried out within our industrial group ensuring the quality and delivery milestones for each project are met. Working in this controlled environment eliminates outsourcing delays as well as offering real time production inspections to our clients. If required, changes can be made quickly, without the usual delays.

## PREMIUM PRODUCTS OFFERED

- Denso
- SPC
- Lifelast
- Carboline
- International Paint
- Versaflex
- Aerogel - Pyrogel
- Endurotec
- Electrical Heat Tracing

# INDUSTRIAL CORROSION PREVENTION PRODUCTS

- 100% High Solids Epoxy NSF
- 100% High Solids Epoxy Urethane
- Polyurethane Foam
- Polyurea
- Thermal Insulation
- Industrial Enamels

# INDUSTRIAL APPLICATIONS

- Pipeline (Bends, Elbows, Fittings and Pipe)
- Pressure Vessels
- Storage Tanks
- Enclosures & Skid Packages
- Pipe Racks
- Water & Wastewater Plants
- Marine & Terminal
- Pulp & Paper
- Mining (Process & Refining)

# WHO ARE WE?

## CERTIFICATIONS/CODES

- ISO 9001
- CSA 245.30-18
- CSA 245.20 SERIES 14
- NACE LEVEL 1 & 2 COATINGS
- NACE LEVEL 1 & 2 BLASTING
