## COFFEE LOVERS

Carry Cups are made from ceramic meaning it feels like a normal mug. However, this mug is anything but normal. Supercharged with a silicone wrap, it doesn't need a handle and also helps maintain your drink's temperature.

The Carry Cups feature a removable open/close lid, which comes into its own when out and about. The drinking hole is the perfect size and can also accommodate a straw (we recommend our Travel Straws to obtain the perfect height).

The Carry Cups also make drink coasters obsolete with the silicone sleeve coming round the base of the mug. This also helps provide extra grip on the table.

Holding a generous 350ml (12oz) without the lid and 300ml (10oz) with the lid attached.
