Indoor & Outdoor Furniture Fabrics

We combine timeless style with modern technologies that prioritizes performance and durability, while keeping sustainability at the forefront of our new developments. Our passion for fabrics developed from a desire to provide our customers with the very best technology and performance on the market today. This endeavor hasn't come easy – we spent years perfecting our products based on the changing world of fabric technology, and mixed different blends and colorways until we came up with the perfect designs.

Perfect Choices

AYDIN:
Where Innovation and Design Meet

We are the largest upholstery fabric, mattress ticking, decorative carpets, and home textile manufacturer in Europe with sixty-six years of experience. We are operating in a total area of more than a quarter million square meters in Istanbul, Kayseri, and Sakarya.

GLOBAL BRANDS

GLOBAL BRANDS

2 of every 100 furniture sets manufactured
in 2022, had Aydin upholstery fabric.

3 of every 100 beds manufactured
in 2022, have Aydin mattress ticking.

6 CONTINENT / 120 COUNTRIES

Woven to last through years of
harsh weather and joy

The
Intersection of

Performance, Design and Sustainability

We have designed each of our fabrics for extreme weather conditions of any indoor or outdoor environment, from muddy footprints to torrential rain. The fabrics are woven with the latest design trends while creating social and environmental values. You don't need to sacrifice performance, design, or sustainability with Aydin Indoor & Outdoor Fabrics.

PERFORMANCE

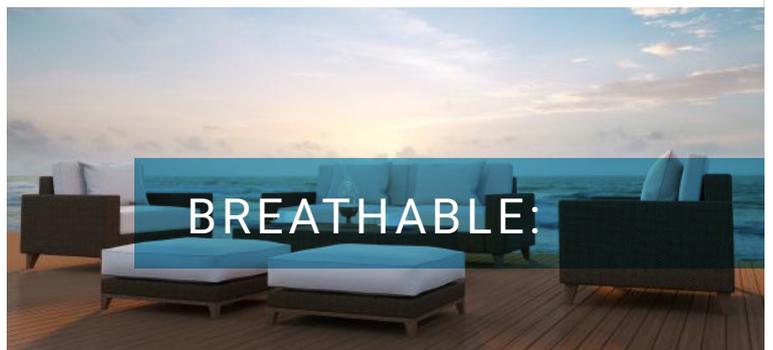

EASY CARE:

Maximum Joy, Minimum Effort

AYDIN changes the game. Taking care of the fabric is a piece of cake. Maintenance is as easy as spot cleaning with soap and water. Enjoy hassle-free maintenance.

BREATHABLE:

Breath is the Finest Gift of Nature

Enjoy breathable and fresh fabrics. Don't let any kind of dirt or bad smell annoy you. Have clean and fresh fabrics every single day.

WEATHER RESISTANT:

Resistance to All Seasons

Rain, wind, snow, sun, hail, sleet, drizzle?

No problem with AYDIN's Indoor & Outdoor Fabrics! The fabric consists of durable fibers which can resist all conditions.

STAIN RESISTANT:

Cleaning made even more simpler

The hydrophobic fabric is designed to repel water and other liquids. The top layer of the fabric does not absorb the liquid. Just wipe away the stain and enjoy your day.

MOLD RESISTANT:

Molds are not allowed!

AYDIN developed a special technology for the fibers to resist mold and mildew. Don't worry about exposure to dirt and debris. You and your fabric are in safe hands.

UV AND FADE RESISTANT:

Sun: Friend or Enemy?

The sun is our best friend, but at times it is also our worst enemy. Get the benefits from it and avoid the damage with AYDIN. The Indoor&Outdoor Furniture Fabrics have highly UV-stable pigments making them resistant to fading and the degrading effects of sunlight.

DESIGN

It's not just their performance that makes our fabrics stand out – it's their character, too. We specialize in fabrics with personality because we know that what makes your space feel like home is more than a waterproof cover. If you're looking to fill your indoor and outdoor space with fabrics that make a statement, then you've made the right choice.

All of our fabrics are offered in a wide variety of color options, and their patterns can be selected based on your own unique sense of style.

The sky is truly the limit when it comes to the appearance of your fabrics. For a sophisticated, designer look, choose a muted tone that will elevate the rest of the space. Alternatively, go for bolder, statement patterns if you want to bring in a more modern twist. Whatever you choose, you can rely on our reputation for fabrics with consistent quality.

*Designed
For Your Journey*

SUSTAINABILITY

Despite our trendy range, we're not just about style – all of our fabrics are built for sustainability, too. Our lifelong commitment to the environment has left us searching high and low for the best way to implement environmentally conscious choices into our manufacturing process, and we've succeeded time and time again.

We use recycled materials, and we prioritize sustainability throughout all manufacturing processes. Because we always choose premium quality, sustainable options, you can be certain that our materials are made to last.

Leave Only
Footprints

Ultimately, our fabrics are the best of the best for performance, style, and sustainability.

Choosing our fabrics isn't just a purchase, it's a lifestyle choice. Once you've discovered the premium quality and timeless style that they support, you'll wonder why you didn't pick some up sooner. But don't worry – we'll be bringing you the same high level of service and fantastic products for years to come!

Take Care of **Your Fabric and It Will** Take Care of **You**

We blend functionality with beauty.

Here is the guide to

**“How to take care
of your fabric on a daily basis?”**

- 1) Brush loose dirt from the fabric surface.
- 2) Spray on a cleaning solution of water and mild soap.
- 3) To clean, use a brush with soft bristles.
- 4) Allow the cleaning solution to soak into the fabric.
- 5) Rinse all of the soap residues.
- 6) Allow fabric to air dry.
