Earnings by Education population 25 years and over with earnings

As an individual attain a higher education, wages increase. From 2016 to 2021, we see the earnings for both genders increase at each education level. However, **regardless of the educational level, women in El Paso keep earning between 23 to 41 percent less than men.**

WSB addresses the gender gap by providing new initiatives tailored to assist women in succeeding in the workforce. We offer resources such as childcare, training assistance and job search assistance, among others. If you are interested in these or any other of our services, feel free to fill out [this form](#) and a WSB member will contact you soon.
