

WHEELERFIT

**Diesel Particulate Filter &
Diesel Oxidation Catalysts Catalog**

**THE RIGHT FIT
FOR THE ROAD AHEAD**

SEE WHAT SETS US APART

Wheeler FIT Diesel Particulate Filter (DPF) and Diesel Oxidation Catalysts (DOC) are designed as a direct replacement to the most common OEM filter systems.

- Precision-engineered for effortless installation (except cut-out/weld-in models).
- Premium substrates from industry-leading suppliers.
- OEM-quality clamps and gaskets included with every DPF and DOC unit.
- Constructed from durable stainless steel for extended service life.
- North American-designed and manufactured

FREE 2-DAY SHIPPING

On all orders within the lower 48 states.

2 YEAR

UNLIMITED MILEAGE WARRANTY

Need it faster? Contact customer service at (866) 439-2329 for overnight shipping options.

DPF'S AND DOC'S FOR ARE AVAILABLE IN A WIDE VARIETY OF ENGINE MODELS

DETROIT

PACCAR

ISUZU

MACK

VOLVO

RAM

CAT

ENHANCED SUBSTRATE

Wheeler Fit DPFs feature a high-efficiency catalyst with an increased cell count (300 CPSI). This results in higher back pressure, which enhances soot capture, combustion, and operational efficiency, ultimately leading to fewer regenerations.

DURABLE CONSTRUCTION

Industry leading hydroformed one piece canister design reduces welding, increases material strength and heat retention

PROTECTIVE COATING

A proprietary wash coat is used throughout each DPF to achieve a stronger molecular bond which prolongs degradation. This coating also allows for passive regeneration to occur at 380° compared to OEM or other aftermarket brands at 700° providing improved fuel efficiency and longer filter lifespan.

ACCESSORIES

All Wheeler Fit DPF's and DOC's includes graphite gaskets and OEM quality clamps to ensure a perfect seal

DIESEL PARTICULATE FILTERS
