

SCHOOL Leader's Foreword

As I reflect on this transformative year at Yuhua Primary School as Vice-Principal (Admin), I am filled with gratitude for the opportunity to embark on this new chapter in my educational journey. After 22 years in the classroom, stepping into this leadership role has been both humbling and uplifting. The transition from teacher to school leader has opened my eyes to new perspectives on education, allowing me to see the close connections of relationships and systems that create a thriving school community. This appointment has not only challenged me to grow professionally but has also rekindled my passion for education in ways I never anticipated.

The warmth and support I have received from every corner of our school community has been amazing. Many mornings at Gate 5, the smiles from parents have become a source of strength, reassuring me that we are building something meaningful together. The conversations I have had with Yuhualites continue to humble me, reminding me that at my core, I remain a teacher who learns as much from them as I hope to impart. The staff's open arms and unwavering support have made my transition seamless, creating an environment where we can collaborate and innovate as one Yuhua Family.

Robert Frost once wrote that "education is the ability to listen to almost anything without losing your temper or your self-confidence." This sentiment resonates deeply with my vision for our Yuhualites and reflects the learning environment we strive to create together. My aspiration is that every child who walks through our doors will develop into a confident individual who takes ownership of their learning journey and contributes meaningfully to their community. This year has taught me that when we create spaces where students, staff, parents, and community members can learn from one another, we foster an ecosystem where everyone grows, including myself.

As I continue this journey alongside our remarkable school community, I am reminded that leadership in education is not about having all the answers but about creating conditions where everyone can discover their potential. The dreams I hold for our Yuhualites mirror my own growth as an educator and leader. Together, we are not just building academic excellence but cultivating a generation of Yuhualites who develop to become one who is an Active Contributor, a Critical Thinker, a Healthy Person, an Independent Learner, an Encouraging Friend, a Values-driven Leader and an Engaging Collaborator who can ACHIEVE. This shared learning journey enriches us all, and I am honoured to be part of this transformative experience.

Your Partner-in-Education,
Ms Lee Ai Ling
Vice Principal (Admin)

Active contributor

My purple parade Experience

My name is Kannan, and I am from 6 Courage. As an Active Contributor, I had the wonderful opportunity to volunteer at this year's Purple Parade, an event celebrating and supporting people with disabilities, especially those with hearing impairments. I was thrilled to help run booths and activities, teaching my peers basic sign language and guiding them through games. The smiles and excitement made the experience unforgettable. This event was especially meaningful because I know someone who is hearing impaired. Volunteering allowed me to support a cause close to my heart and help others discover their own abilities. To my younger Yuhualites, I encourage you to grab every opportunity to contribute. You will learn, grow, and make a difference. As I move on to secondary school, I'll carry forward Yuhua Primary's values. Being an Active Contributor means keeping an open mind and making a positive impact - one small act at a time.

Use our Hands campaign

Yuhualites demonstrated their commitment to environmental stewardship during the Use Our Hands Campaign days. Yuhualites across all levels actively participated in cleaning up the classrooms and various other areas of the school, fostering a sense of responsibility and care for their shared spaces. Though this is done regularly each year, the initiative still serves as a reminder of the school's dedication to nurturing Active Contributors who take responsibility for their environment and fulfill their responsibilities with pride.

**Albert Amora,
6 Cou**

I like that UOHC days because they serve as a reminder for Yuhualites to take up the responsibility in keeping our shared spaces in school clean.

95th School Anniversary

This year, Yuhua Primary marks a remarkable milestone - 95 years of nurturing generations of learners with heart and purpose! From its humble beginnings as Joo Hwa Public School in 1930 to the dynamic, future-ready Yuhua we know today, the school's story is one of resilience, growth, and community spirit.

Over the decades, Yuhua has evolved with the times, introducing English-medium classes in 1979, moving to Jurong East in 1983, and merging with Yuqun Primary in 2002. Through every change, one thing has remained constant: Yuhua's unwavering commitment to grow both the hearts and minds of our Yuhualites.

Our anniversary theme, "Growing Our Hearts and Minds," beautifully captures this journey. The specially designed YH95 logo – featuring a heart-shaped light bulb, open book, wings, and gear – symbolises creativity, learning, courage, and innovation. This year, Yuhualites have come together in joyful celebrations, from a vibrant 95th-Anniversary mural unveiling to exciting performances and community events that honour our shared heritage.

As we celebrate this special milestone, we look back with gratitude and forward with pride – ready to continue inspiring Yuhualites to be Active Contributors, Critical Thinkers, and Values-driven Learners. Here's to 95 years of laughter, learning, and love – and to many more years of flourishing together as one Yuhua family!

Active contributor

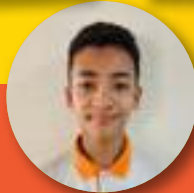

“

**Muhammad
Ishomi Irfaan
Bin Muhammad
Alif (Student Photographer),
5 Cou**

I enjoyed capturing the moments behind the scenes and during the celebrations. With guidance from Mr Nazra, I learnt how to frame meaningful shots and felt proud to play a part in such an important event.

”

Active contributor

APPLIED Learning Programme & Innovation at Yuhua “

Thu Nadi Thwin Ella, 2 Uni
During Inspire Fest, I enjoyed solving a real problem by investigating and discussing a solution together. I am proud to be an Engaging Collaborator and Critical Thinker.

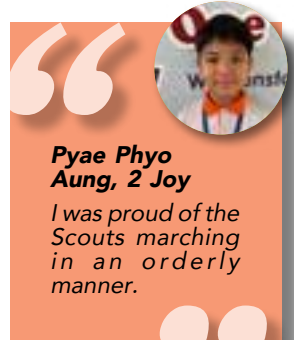

”

Many opportunities were presented to Yuhualites to build the dispositions for innovation. These range from assembly programmes highlighting mindsets of innovators and innovative school programmes, to engaging in interdisciplinary experiences and showcase, and recess activities that promote joy of learning and growing the ACHIEVE attributes. This year, we embarked on making through the iMAKEgine programme – playing on the words ‘make’ and ‘imagine’. Yuhualites got to think, tinker and make; using tools like the Strawbees system and Marble Run. We hope Yuhualites continue to strive with innovation.

National Day celebrations

Yuhua Primary marked Singapore's 60th birthday with a vibrant mix of fun, pride, and purpose. During recess, Yuhualites bonded over nostalgic games like the Giant Eraser Challenge and Prata Toss, showing teamwork and care in action. The NDP Observance Ceremony - led confidently by our Scout Cubs and Yuhua Band - filled the hall with national pride. Lieutenant Colonel (LTC) Desmond's inspiring RSAF sharing and a rousing singalong by our music teachers lifted everyone's spirits. Most meaningfully, Yuhualites stepped up as Active Contributors - from rallying support for a food donation drive, to showcasing talents in class performances, and working together on the creative SG60 Photo Challenge. Every effort showed that when we give our best, we build a better Singapore - together.

Pyae Phyto Aung, 2 Joy

I was proud of the Scouts marching in an orderly manner.

Total Defence Day

Living out the theme "Together We Keep Singapore Strong", our Yuhualites explored how everyday roles support Singapore's six defence pillars through creative video roleplays in the lead-up to Total Defence Day. On 10 February, Civil Defence officers brought learning to life with exciting Cardiopulmonary resuscitation (CPR) and fire safety demonstrations. These engaging experiences empowered Yuhualites with life-saving skills and a deeper understanding of resilience, teamwork, and national responsibility.

Nur Qayla Felisha Binte Muhammad Fadley, 6 Gra

Through our Total Defence Day programme and the activities planned, I learnt that it is a reminder of our past and how we need to learn not to take things for granted. We all have a part to play to protect Singapore and ensure Singapore continues to strive for future generations.

critical Thinker

My name is Neon, and I am from 6 Courage. As a Critical Thinker, I participated in the Wits and Words Competition from April to June, with my team reaching the quarterfinals.

Working with my teammates, Nola, Kannan, Myat, Yanting, Esther, and Lechen, we had to think strategically to create strong arguments, going through many versions of our speeches. We always tried to see things from different perspectives, especially our competitors', to give well-rounded arguments.

Wits and Words was really enriching. It trained us to think sharper, see different viewpoints, and understand others better. I loved collaborating with my team and even teamed up with an opposing team during preliminaries to help each other improve!

This competition made me a better Critical Thinker and helped me practise parts of the 7 Habits like "Synergise" and "Begin with End in Mind." I want to keep using these skills in future debates, and I am excited for junior debaters from our school to learn from our experience and do even better!

Math Buddy Programme

In line with our Mathematics Department's mission to grow resilient and collaborative problem solvers, the Math Buddy Programme empowers Yuhualites to lead and learn through peer-to-peer support.

Throughout the year, selected Yuhualites from Primary 1 to 6 stepped up as Math Buddies — guiding their peers, asking thoughtful questions, and breaking down tricky problems into simpler steps. In doing so, they deepened their own understanding while nurturing a culture of teamwork and curiosity.

In these safe and supportive spaces, both buddies and their peers embraced mistakes, explored different strategies, and grew more confident — one challenge at a time.

“

**Nur Arissa
Binte Mohd
Zamri, 5 Uni**

I enjoy helping my friends with Math questions because it feels good to know I've made a difference. I try to explain the steps in a simpler way so it's easier for them to understand. When I teach others, I realise I understand the concepts more clearly too.

”

“

**Kieran Voo
Jun Hao, 4 Uni**

I have learnt a lot from the assembly talk and was looking forward to the booths set up during recess. The mosquitoes did not bite me but felt ticklish when they landed on my hand. We must all help to stop the breeding of mosquitoes.

”

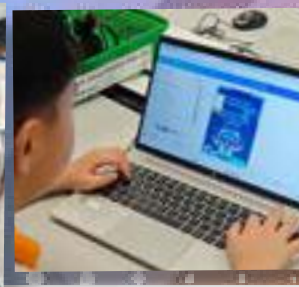

Project Wolbachia

Yuhualites had a buzzing good time diving into the world of mosquitoes during a special learning experience on 24 February! After an eye-opening Assembly talk by the National Environment Agency (NEA), Yuhualites visited an interactive recess booth filled with engaging exhibits, flyers, and fun Project Wolbachia collaterals.

The highlight? Meeting live (non-biting!) male Wolbachia-Aedes mosquitoes up close! Through this hands-on experience, Yuhualites learnt how Project Wolbachia plays a crucial role in reducing dengue cases and keeping our communities safe. Learning was truly infectious - in the best way possible!

SCHOOL-Wide cyber Wellness Education

Our CWLs did us proud winning 2nd prize at the National Cyber Wellness Poster Design Competition!

This year, Yuhualites participated in a variety of engaging cyber wellness activities to help them become safe and responsible digital learners. We commemorated Safer Internet Day with meaningful activities in February. Our Cyber Wellness Leaders (CWLs) received specialised training to guide their year-long advocacy efforts which included assembly sharings that they presented with a great deal of enthusiasm. Primary 1 to 4 Yuhualites took part in the I Am a Responsible Digital Learner programme over a fortnight and our Primary 4 Yuhualites had the chance to learn directly from the CWLs during their FTGP lesson. Through these initiatives, we aim to nurture good digital habits and remind everyone to continue practising safe and respectful behaviour online.

“

Sarkunaraman Rakshika, 5 Cou

I'm proud of the cyber wellness advocacy work that we do as CWLs in the school, reaching out to our peers and positively influencing them. Coming in second at the NCW Poster Design Competition is certainly icing on the cake!

”

ICT InnoMake Jr Programme

In Term 2, our Primary 4 Yuhualites participated in the InnoMake Junior programme in the computer lab. Using block-based programming with the BBC micro:bit, they applied computational and design thinking to prototype solutions for sustainable living. A standout project was the smart trash can by 4 Courage, designed to promote waste reduction and proper recycling towards a zero waste nation. The programme nurtured critical and inventive thinking, empowering Yuhualites to generate creative solutions and champion environmental sustainability.

“

Shashikarnan Aloysius S/O Nirmal Prabu, 4 Joy

I liked making my prototype using cardboard and other recyclables. It showed me that we can reuse materials to create something useful and help the environment.

”

HEALTHY PERSON

I am Amelda and I am from 6 Unity. I have found it really rewarding to use what I have learnt to help others. Over time, I have become more confident in solving Math problems and explaining them clearly. I remember when my classmate was stuck on a tricky trapezium question and felt frustrated. When she asked for help, I realised that highlighting just one trapezium made the whole question much clearer. Her face lit up with understanding!

Since then, I always try to simplify concepts when explaining things to classmates or my younger siblings. Each time I help someone, I also strengthen my own understanding – it is win-win.

To me, being a Healthy Person means more than just physical care. It's about growing in confidence, sharing knowledge, and learning through helping others. Habit 4: Think Win-Win reminds me that when we lift each other up, everyone benefits. I am grateful for these chances to support my peers and grow at the same time.

Annual Athletic Meet

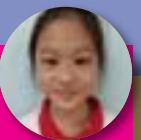

The Annual Athletic Meet on 14 March was filled with excitement as Primary 3 to 6 Yuhualites showcased their sporting talents, teamwork, and sportsmanship. Amid cheers and great weather, Yuhualites competed with passion and encouraged their peers from the sidelines. The event strengthened not just athletic skills, but also unity and resilience. Truly, every Yuhualite is an Encouraging Friend who can ACHIEVE!

“

**Ong Zi Xuan
Nacherbell, 5 Uni**

This year's Annual Athletic Meet was exciting, and it was great to see everyone in my class giving their best. I loved how we supported one another, which brought us closer, and our class finished in first place!

”

HEALTHY PERSON

P5 Cohort Camp

Our Primary 5 Yuhualites embraced the great outdoors at the MOE Dairy Farm Outdoor Adventure Centre, where nature became their classroom for learning, discovery, and growth. Over three exciting days, they stepped out of their comfort zones with team-building activities, rope courses, low elements, and hikes - building courage and confidence along the way.

Beyond the physical challenges, the camp nurtured important values such as resilience, ruggedness and teamwork. Yuhualites encouraged one another, forged new friendships, and grew stronger as a team. Most meaningfully, they gained a deeper appreciation for nature and learned what it means to be responsible stewards of the environment.

“

Arivazhagan Thanvika, 5 Cou

I especially loved the high elements at the camp, even though I was scared at the start. I persevered, made it through the zipline, and afterwards began to appreciate many things I have in my life now.

”

Health Education Assembly Sharing

On 3 March, Yuhualites learnt how to make smarter food choices during an engaging Health Education Assembly. The session highlighted the importance of eating balanced meals and limiting sweet drinks and snacks to stay strong and healthy.

Yuhualites took part in a lively quiz to find out how many servings of fruits and vegetables we need each day — and many were surprised by the answers! The talk reminded everyone that good health starts with small, daily choices that fuel our minds and bodies for learning and play.

“

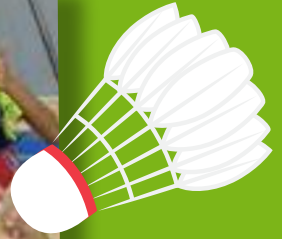

Eijaz Khan Bin Mirza Khan, 6 Joy

I found the session beneficial because it reminded me to eat proper meals, not just snacks, so that I can grow strong and healthy.

”

HEALTHY PERSON

National Sports Games

This year, our Yuhualites proudly represented the school in the National School Games, competing in basketball, football, badminton, netball, volleyball, sepak takraw and track & field. Across every event, our Yuhualites played with determination, discipline and teamwork – cheering one another on through wins and setbacks. They demonstrated resilience, respect and integrity, living out Yuhua's values both on and off the court.

Through these experiences, our Yuhua athletes learnt that success is not just about medals, but about perseverance, teamwork and character. The lessons of sportsmanship, responsibility and care will continue to guide them in their learning and relationships, reminding every Yuhualite to always strive for Character in Sporting Excellence – in school and beyond.

“

Fatin Adawiyah Bin Azizan, 4 Gra

The Badminton NSG was challenging as some of our opponents were really strong. But together with my doubles partner, Jing Xuan, we gave our best and persevered, even managing to win some tough matches.

”

“

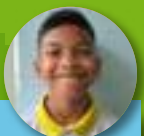

Sivagurunathan Tharun, 5 Dil

The competition provides an opportunity to showcase my hard work after months of practice sessions.

”

“

Ziqri Nabil Bin Salim, 5 Uni

We had a good season. We played well for most of the matches and won. Our last match was the toughest. But even when we were behind, the whole team encouraged one another to go all out and give their best.

”

HEALTHY PERSON

“

Lim Natcha, 4 Kin

I'm glad that I got the opportunity to apply my learning on the court! Not everyone was able to play in each match, but I'm glad I got to be on the court.

”

“

Aniq Nurfitri, 5 Uni

I enjoy my CCA and I have learnt a lot from participating. For example, winning or losing is part and parcel of the game. The most important thing is that we learn from the better teams, and keep improving.

”

“

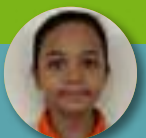

Chew Shi Hong Regan, 3 Cou

I feel happy to take part in the Track and Field NSG because I get to soak in the sporting environment. I also enjoy learning from athletes from other schools, and this experience has inspired me to grow and enjoy the sport even more.

”

“

Aura Nursyazia Binte Mohamed Rizzal, 4 Cou

The thought of getting stronger keeps me going even when I feel tired, and I always look forward to volleyball training. My coach's unwavering belief in us was a major turning point during the NSG competition, giving me new confidence that has helped our team improve with every game.

”

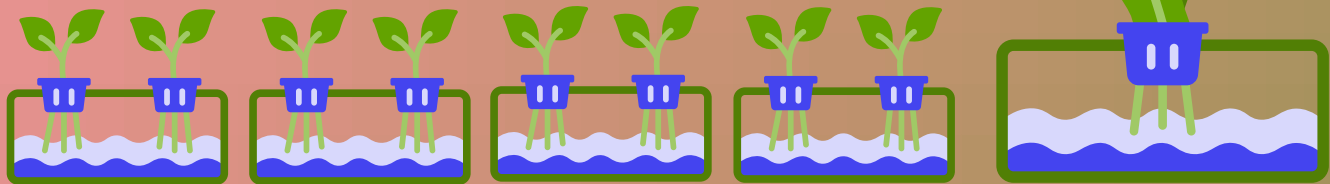

INDEPENDENT LEARNER

Hi! I'm Zhang Heng from 4 Courage, and this year I discovered how fun learning can be when you take charge of it!

Through the Hydroponics Programme, I learnt that plants can grow without soil - just water and care! Making my own terrarium was amazing too. It felt like creating a tiny green world in a jar. During the Green Guardians Quest and Living with Nature programme, I explored the plants and animals in our school garden and found out how every living thing plays an important role in nature.

These experiences taught me to be curious, responsible, and to keep learning on my own. Being an Independent Learner means exploring new things, asking questions, and using what I learn to care for the world around me!

ASSEMBLY - EL BUZZ

At this year's English Buzz Assembly, Yuhualites donned their detective hats and sprang into action as sharp-eyed grammar sleuths! Their mission? To hunt down common language slip-ups spotted in everyday conversations and public signs. With curiosity and enthusiasm, they explored how using good English isn't just about grammar rules — it's a superpower that boosts confidence and brings our thoughts to life. Through hands-on activities and real-world examples, students discovered how choosing the right words and noticing small language details can sharpen their communication and deepen their understanding of the world. We're proud of our budding communicators and hope these valuable tips continue to guide them every day — in school, at home, and beyond!

INDEPENDENT LEARNER

Reading Fiesta and World Book Day

In April, World Book Day took off with the theme "Book Your Adventure", featuring creative classroom challenges and an inspiring author session with Melanie Lee. In July, the Reading Fiesta, held in collaboration with Mother Tongue Fortnight, explored the theme "Print to Screen." Yuhualites dressed as beloved book characters, chatted excitedly at buzzing book fairs, and were captivated by author Daryl Kho, proving that, indeed, "Reading is a passport to countless adventures." as quoted by Mary Pope Osborne.

Ferrie Catherine Lauren, 6 Gra
Before the interview, I felt curious about the process of writing a book. Through my interview with Ms Melanie Lee, it was very interesting to know what had inspired her to write a book and how she felt throughout the process.

Arts Festival

This year's Arts Fest was a vibrant and exciting celebration of creativity. Revolving around the theme 'Our World in Song & Colour', pupils explored hands-on art booths, making squishy 3D art and adding their touch to a collaborative art piece. During recess, some classes performed lively music using the keyboard, cajon, ukulele, and more. There was even an art exhibition where works of our talented Yuhualites were showcased for all to see. The event encouraged self-expression, teamwork, and confidence, allowing pupils to shine in both visual and performing arts.

Edna Phua Shi Yun, 2 Gra

I was very happy because I got to perform with my friends. It was my second time performing at the Arts Festival. It was a fun and special moment that I will always remember!

Assembly - Aesthetics

For this year's Aesthetics Assembly, we introduced Arts Fest 2025! Our emcees, Laasya from 4 Kindness and Ethan from 5 Diligence, explained the various highlights, including an art competition, music performances, and hands-on art booths. A special feature was the Yuhua Songwriting Team – Esther from 6 Courage and Owen, Jalaine, Janine and Chueen Yok from 6 Joy – who composed original songs and placed in the Top 18 out of 205 entries in a national competition! The song titled 'Always There For Me' is about two best friends who are always there to support each other through ups and downs. The team even performed at the National Library Board, inspiring all with their talent.

Ethan Joseph, 5 Dil
It was an honour for me to present during Arts Fest 2025, something I had been looking forward to for a long time. As a member of the Art Club, I also helped prepare materials for the art booths. It was amazing to see the large crowd and how popular our activities were!

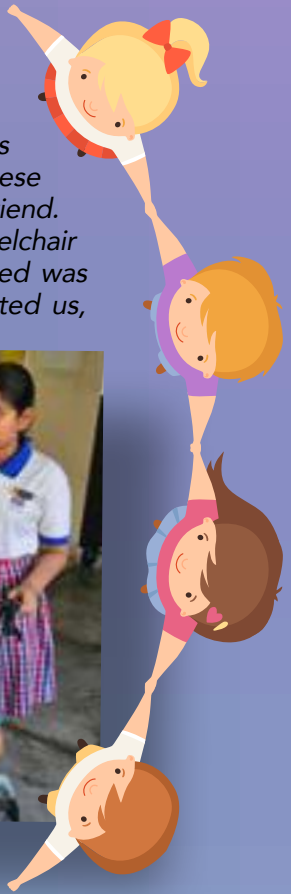

ENCOURAGING FRIEND

I am Roshini from 5 Courage, and I am an Encouraging Friend. When my classmate Mohsina was injured and needed a wheelchair, my teacher asked me to help her, so I also asked Hasini to join me. At first, I felt anxious because moving her up and down ramps was challenging. We faced many difficulties - sometimes the ramp was being used by others. Despite these challenges, we persevered to provide the best care for our friend. Now we're much better at helping her and can push her wheelchair without needing the ramp! An interesting thing that happened was that Mohsina came to trust us completely. Because she trusted us, we built our self-confidence. Being an Encouraging Friend means being there for others when they need you most.

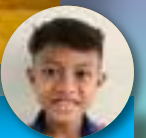

I am Hasini, also from 5 Courage, and I am happy to be an Encouraging Friend, too. When Roshini asked me to help Mohsina with her wheelchair, I accepted because I like helping people and she's my friend. Helping Mohsina made our friendship stronger. Through this experience, I feel proud of myself for being a good peer. I helped Mohsina with many things like carrying her bag during exams and buying food for both of us during recess. At first, the challenges were daunting, but I got used to them and became more confident. This experience helped me grow in self-esteem. I wish everyone would show more empathy, which I've learnt is important in being an Encouraging Friend.

RACIAL Harmony Day

On Racial Harmony Day, Yuhualites celebrated what makes Singapore unique — our rich multicultural society. Through our Assembly programme, Yuhualites reflected on the beauty of diversity, the strengths of different cultures, and the importance of respect and empathy. These values help us build a peaceful and united community.

At Yuhua, we believe that racial harmony shouldn't be a one-day event — it's something we practise every day, through our actions, friendships, and shared experiences.

Muhammad Emirul Fahim Bin Muhammad Zulkhairi, 3 Gra

I learnt how important it is to respect people of different races and work together as one united community. When we support one another, we can achieve our goals in harmony — just like Singapore!

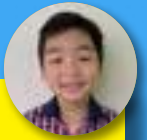

ENCOURAGING FRIEND

P1 orientation

Excitement filled the air on 15 November 2024 as we warmly welcomed our incoming Primary One Yuhualites to Yuhua Primary School. Smiles lit up their faces as they were guided to their new classrooms by caring teachers.

Through a fun school tour and a hands-on Classroom Experience, our young Yuhualites got a cheerful first taste of life at YHPS. The morning ended on a happy note as parents explored the next steps—purchasing books and uniforms in preparation for the exciting journey ahead.

“

Wong Zi Yi, 1 Cou

I was very excited to go on the School Tour. It looked like a big and fun school.

”

EXPLORING HERITAGE: WALKING THROUGH STORIES, DISCOVERING OUR ROOTS

Our P3 to P6 Yuhualites embarked on enriching Social Studies Learning Journeys to heritage sites and museums. This year marked a special milestone as the Museum-based Learning Journey began from Primary 3 for the first time. From precinct walks in Chinatown to hands-on activities in Little India and exploring Southeast Asia's cultural ties at the Asian Civilisations Museum (ACM), these experiences deepened their appreciation of Singapore's rich cultural tapestry - uncovering traditions, stories, and contributions that shape our nation.

“

Aeryn Low, 3 Dil
I learnt more about the Malay culture and am more appreciative about their customs and traditions now.

”

ENCOURAGING FRIEND

Teachers' Day celebrations

This year's Teachers' Day celebration was filled with warmth, laughter, and heartfelt appreciation. Lovingly organised by our Parent Support Group with strong support from the Teachers' Day Concert Team, the event honoured our educators with the theme "Teacher, You Rock Our World!"

The concert showcased the vibrant talents of Yuhualites — from energetic dance performances and a captivating band piece, to soulful piano tunes and touching poem recitals. The highlight was a heartwarming skit featuring Putri, her friends, and Teacher Thurein, who helped her uncover her hidden talent despite her self-doubt — a powerful reminder that with encouragement and perseverance, everyone can shine. It was truly a memorable celebration that reflected the joy, gratitude, and spirit of our Yuhua family.

Minhon Phua Xiang Yun, 5 Joy

I really enjoyed performing at the Teachers' Day celebration. It was my way of saying thank you to the teachers who've helped and guided me throughout my journey. I'm grateful I had the chance to show my appreciation through something I love.

Playtastic Day 2025

On 2 October, Yuhualites celebrated Children's Day with joy, games, and plenty of treats! Our Primary 1 and 2 Yuhualites teamed up in exciting games that showed off their teamwork and sportsmanship. During the extended recess, everyone had a blast at game booths, belting out tunes, and enjoying yummy ice cream and popcorn — all lovingly prepared by parents and staff. Back in class, laughter filled the air as Yuhualites and teachers took on fun challenges together.

It was a day of play, pride, and unforgettable memories — truly Playtastic!

Wong Wen Xuan, 2 Hon

I enjoyed the different options we had for the games booths. I got to try all the different games. It was an amazing day!

ENCOURAGING FRIEND

chinese New year celebrations

On 28 January, Yuhualites ushered in the Lunar New Year with joy and energy at a festive school hall celebration! With the theme "Hungry Snake – Hungry for Knowledge," Yuhualites were treated to a lively angklung performance of familiar Chinese tunes, engaging games, and a graceful Chinese dance item. Beyond the fun, Yuhualites soaked up traditions and were reminded to stay curious, be confident, and keep learning with passion in the Year of the Snake!

“

Yang Xinmiao, 5 Dil

I was honoured to be one of the emcees for this year's Chinese New Year celebration, where I learnt to speak confidently, work closely with my friends, and remain calm despite feeling nervous. This meaningful experience made me braver and more responsible, and I am grateful to my teachers for their guidance as we welcome the Year of the Snake with wishes of good health, joyful learning, and exciting achievements for everyone.

”

“

**Iman Airis Shariqee
Binte Arshad, 6 Cou**

The celebrations were interesting as I got to make delicious murukku. The performance item which included the Indian dancers was my favourite part. Since this is my last year in Yuhua, I am really grateful for this Deepavali celebration as it was a wonderful and spectacular experience!

”

Deepavali celebrations

The whole school came together as one Yuhua family to celebrate a very special festival - Deepavali, also known as the Festival of Lights - on 17 October. Deepavali reminds us to be thankful and caring. As we enjoy the festive treats and beautiful lights, we remember those who may not have as much. Here at Yuhua Primary, our school values of care, respect, and responsibility are very much in the spirit of Deepavali. Through the engaging activities, like Murukku making, Kolam drawing and word search puzzles, Yuhualites showed joy in learning about the various Deepavali traditions.

Hari Raya celebrations

The school held a combined Hari Raya and International Friendship Day Assembly Programme on 7 April. Yuhualites were encouraged to wear their ethnic costumes or the national costumes of their home countries on that day. During the recesses, Yuhualites played games and learned about the cultures of some of our neighbouring countries and how they celebrate Hari Raya. It was truly encouraging to see our Yuhualites appreciating the diversity of different cultures.

“

**Said Reyyez
Bin Said Riduan, 4 Joy**

I felt happy to see my friend presenting and performing on stage. This year, the Hari Raya Assembly Programme was combined with International Friendship Day. At the same time, I learned how people from other countries celebrate Hari Raya.

VALUES-DRIVEN LEADER

My name is Esther, and I am from 6 Courage. I led the prefects from 2024 to 2025, working with them to make our school a better place. As Head Prefect, I organised duty schedules and set up systems to help future prefects. My biggest achievement was working with my Vice Head Prefect to create a guide for new student leaders. It is difficult to make everyone happy, and people will

always have different opinions. But I learnt to focus on what is best for most people while keeping everyone working together. Being a Values-Driven Leader means making tough choices while doing the right thing. I hope Jayme and future prefects will keep building on what we started, always trying to do better and contribute to our school.

My name is Jayme from 5 Diligence, and I am the current Head Prefect. I am excited to help make our school an even better place for learning. I want to improve our school environment by working on cool projects like fixing up the school garden and posting motivational messages around the school. I already suggested putting some along the staircases, and the teachers liked the idea! Learning from Esther and the other graduating Primary 6 prefects, I know how important it is to be a good role model. I want to be a good example for younger Yuhualites to look up to. Being a Values-Driven Leader means showing others the right way to act and inspiring them to be their best.

Student Leaders' Investiture

Yuhua Primary School celebrated its Student Leadership Investiture 2025, appointing prefects, Peer Support Leaders, Cyber Wellness Leaders, and Environment Education Leaders. Previously known as Prefects' Investiture, this evolved ceremony reflects our commitment to developing diverse leaders. Student leaders were nominated by peers and teachers for demonstrating responsibility, kindness, and courage, embodying our ACHIEVE outcomes as values-driven leaders who inspire positive change.

VALUES-DRIVEN LEADER

Zero Waste Week

From 14 July, Yuhualites took part in a 3-day Zero Waste Week packed with meaningful activities that inspired greener habits. Our Environmental Student Leaders kicked things off with an engaging Assembly talk, encouraging everyone to reduce waste and live more sustainably. During recess, Yuhualites created thoughtful pledges to cut down on food waste and explored fun, educational games that deepened their understanding of how Singapore is working towards the Green Plan 2030. Together, we took small steps toward a big goal - building a cleaner, greener future for all!

Seah An Ting, 2 Cou
I felt proud to write my pledge on the board. It reminded me that even small actions, like reducing food waste, can help our planet.

Balaji Bavya, 6 Uni

My parents could better understand my learning and the strategies shared by my teachers helped me plan my revision better.

Parent-Child-Teacher Conference

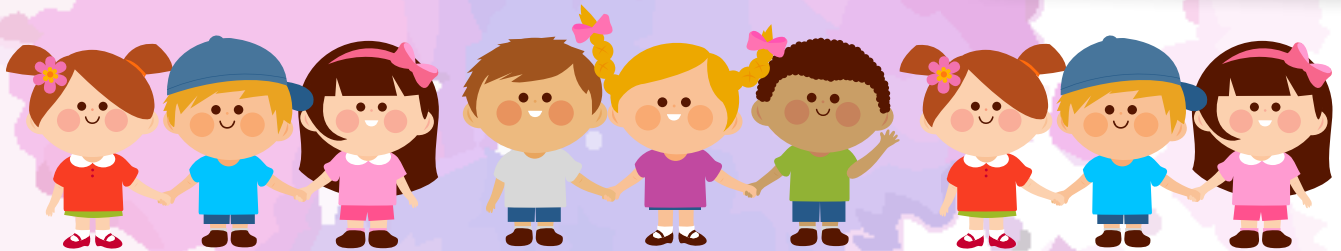

On 30 May, Yuhualites took the lead in sharing their learning journeys during our annual Parent-Teacher-Child Conference. With confidence and pride, Yuhualites reflected on their growth, while parents enjoyed hearing honest glimpses into their children's school experiences — often stories not shared at home! Teachers offered meaningful feedback on both academic progress and personal development. The day celebrated the strong partnership between home and school, united in our shared goal of nurturing every child's love for learning.

ENGAGING COLLABORATOR

My name is Mikhayla, and I am from 4 Joy. As an Engaging Collaborator, I participated in C.H.A.M.P.@P4 over Terms 2 and 3, showcasing my team's work at Inspire Fest and the Yuhua CC National Day Carnival. Working with my teammates, Qisya, Abigail, and Aleya, we combined what we learnt from different subjects to help a fictional character called Suzie become healthier. My group created the "Aim and Throw" game that teaches others about NutriGrade ratings and promotes wise drink choices. We were excited when it was selected for both showcases! This programme helped me become a better Engaging Collaborator as I shared ideas confidently and helped others. I learnt the

importance of teamwork. Although designing our game was difficult at first, we took turns sharing ideas, respected each other's views, and gave helpful feedback. We worked together harmoniously to create something fun and educational. I want to keep helping others and look forward to more creative team projects!

International Friendship Day

On 7 April, Yuhua Primary School celebrated International Friendship Day with the theme "Forging Friendship in a Complex World", together with Hari Raya Celebrations for the very first time. Yuhualites added to the festive spirit by wearing colourful international costumes, showcasing the richness of global cultures. The event began with a lively presentation by our student emcees, followed by a graceful performance from the Malay Dance CCA. During recess, Yuhualites explored activities on different countries, while the Parents' Support Group organised engaging games and booths, making the celebration vibrant and memorable. Everyone was in a celebrative mood!

Dayrien Liang
Dingrui, 4 Gra

It was fun to learn about all the different cultures. The Vietnamese hat is very nice and stylish!

Mohamed Faizal,
P4 Cou**

We chose all the stamps because we love Thailand! I like the Elephant and Tuk-tuk while Thack likes Tuk-tuk because it only has 15 percent pollution compared to normal cars.

P4 virtual overseas immersion programme

To launch our Overseas Exchange Programme, all Primary 4 Yuhualites embarked on a virtual cultural immersion in September, in preparation for next year's overseas trip. With support from Thai Association volunteers and parent helpers, Yuhualites explored Thai greetings, traditional dance, cultural icons like elephants and tuk tuks, and even sampled sweet mango sticky rice. They enjoyed experiential activities such as umbrella painting and elephant pouch stamping. The highlight was connecting live with students from Prathomsuksa Thammasat School, sparking cross-cultural friendships through respectful dialogue and collaborative tasks. The experience deepened the appreciation of Thai culture and nurtured global awareness among our young Yuhualites.

Internationalisation programme to Bangkok, Thailand

From 25 to 29 May, 20 Yuhualites embarked on a meaningful learning journey to Bangkok, Thailand. One highlight was attending classes with their Thai buddies at Prathomsuksa Thammasat School. This face-to-face exchange deepened friendships first formed online in March and further strengthened during the Thai students' visit to Singapore in April. Beyond school, Yuhualites immersed themselves in Thai culture, watching a stunning Khon performance, planting rice in muddy paddy fields, and visiting landmarks like the Grand Palace. It was a rich, cross-cultural adventure that built global awareness, lasting friendships, and treasured memories.

**Lee Hansel,

I enjoyed learning about the culture of Thailand.

Staff Development

The Staff Development and Growth (SDG) team at Yuhua Primary School remains committed to advancing our Yuhua teachers professional capabilities. In 2025, our focus centres on three key areas aligned with Singapore's educational vision and our mission to nurture future-ready Yuhualites.

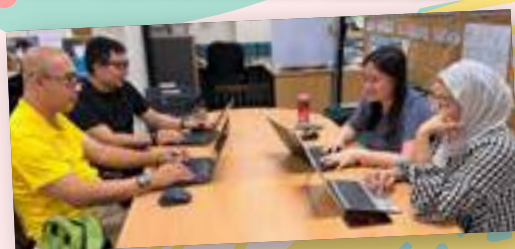

Our main emphasis on EdTech and Differentiated Instruction (DI) empowers teachers to personalise learning through e-Pedagogy, AI, and learning analytics, catering to students' diverse needs and talents.

The second focus, the Enhanced 21st Century Competencies (E21CC) framework, strengthens students' development through meaningful applications. Teachers meaningfully integrate these skills into lessons to prepare students for their future.

Our Professional Learning Community (PLC) forms the foundation for collaboration, with EdTech and E21CC as central themes. Using Design Thinking, teachers engage in inquiry to identify challenges, design solutions, and reflect on outcomes.

By aligning with Singapore's EdTech Masterplan 2030, we continue to grow as innovative educators. This sustained investment ensures Yuhua Primary remains a dynamic, future-ready school where both teachers and students thrive.

New Staff Profiles

I'm **Madam Alamu**, and I teach Tamil Language and Character and Citizenship Education (CCE). I've been teaching since 2014, and I'm excited to be part of the Yuhua family this year! Tamil has been my passion since young - I've explored it through debating, writing, and even won several awards at the national level. I truly enjoy both learning and teaching this beautiful language.

Beyond the classroom, I love dancing, listening to music, and watching movies. I also enjoy spending peaceful moments by the beach, cooking for my family, and exploring fashion jewellery. Family time is something I treasure deeply.

I believe every student has great potential, and I love helping my students grow and achieve their best. Let's embark on this wonderful learning journey together — nurturing hearts and minds along the way!

Hello Yuhualites! I'm **Madam Wong**, and I teach Music here at Yuhua! I used to enjoy watching dramas during my free time, but these days, life revolves around work, family, and of course - household chores! I actually find joy in grocery shopping, especially when picking out fresh vegetables and planning family meals. My weekends are often spent sending my kids for enrichment lessons while sneaking in some quick household tasks. I'm also a vegetarian - my journey began after reading an inspiring book that changed how I view food and living mindfully. I live with my big, loving family, and after returning from a few years of caring for my children, I've happily settled back into school life. With warm and caring colleagues, I truly feel at home. I look forward to growing and learning from one another as we make every day meaningful together!

Hello Yuhualites! I'm **Miss Hannie**, your new Art Teacher! I'm thrilled to be part of the Yuhua family. Outside the classroom, I love finding little ways to escape and relax - whether that's taking a flight out, discovering new cafés, or enjoying a quiet weekend in. I'm also a big matcha lover and can't go a week without craving an iced matcha latte! When I'm not exploring, I'm happiest spending time with my family and friends, catching up over good food and laughter. I'm so excited to begin this new chapter at Yuhua and look forward to filling our school with colour, creativity, and joy!

Hello, Yuhualites! I am **Mrs Huang**. I teach Science and Mathematics. I am one who looks forward to start the day a hot cup of tea. Time to myself is important as it provides me with space to recharge, think and simply be myself. Once in a while, I seek to do something new. It can be a pottery class out of nowhere or picking up a new hobby. As a science teacher, curiosity is my spark.

To share my favourite quote, "Every day brings new choices." by Martha Beck.

Hello Yuhualites! I'm **Madam Joanne Khaw**, a Senior Teacher, and I'm currently teaching English, although I also love teaching Social Studies. I delight in reading children's literature. There's something magical about stories that spark young imaginations!

When I'm not reading, you'll probably find me gardening (my prized 2-metre-long staghorn fern is my pride and joy!), baking, or learning something new. My latest adventures include sewing and hiking. I live with my husband and two sporty girls, who keep me on my toes with their active lifestyles. A fun fact: I once overcame my fear of cockroaches while living in a hostel - proof that with courage (and perhaps a broom in this case!), we can conquer anything! I'm excited to work with new colleagues and meet parents and students. Thank you for the warm welcome into the Yuhua family!
