Create environments with the Expand GrandFabric System

Choose between straight or curved backwalls in several different widths and heights. The individual backwalls are easy to connect and combine as you like. The backwalls can be connected to one another with different feet and connector options.

Use the walls as stand-alone pieces or combine multiple backwall units to create a variety of different unique configurations. This flexible system can easily be altered for each event, so you can create the shape and size that best fits your need.
